Dear Philippa

I am so glad to have been able to supply a copy of the Report. When I was unable to get one at Kings (?) in Newham's on the day of our deputation to the Min: of Pensions I wrote off to the Stationery office & was fortunate in time to get 6 more. Thinking we should need them. So I now send another for the Library. Do keep the one I sent

you & the letters too.

I am glad to say that  
'Drew' Ward & Miss Brown  
(Y.W.C.A.) both report that  
Mrs. Morse is likely to do  
well, ~~which~~ <sup>is</sup> a big  
difference. I am also <sup>glad</sup> to hear  
what you say of Dame Helen  
(Bwynne Vaughan)

But alas having been  
success in a fine piece  
of reform work does not  
ensure being able to do  
as big (or even bigger) <sup>same</sup> <sup>may</sup>  
30 years later! And age  
is a big handicap nowadays  
when the young generation  
are so convinced that the  
older ones don't understand  
their point of view. She was  
young herself in the last war  
when she tackled her degree  
State! Yours Ann Lawrence
