Dearest Lilla

I hope Dad better not want
any more letters because I have
not been put back into Hospital
& I think it is because I made out
I was happy & comfortable - They
don't like you to feel that here
So tell the others I shall not
write much - ~~Have only had~~
We have been to Chapel today
for the first time - as the
parcels have only been five
back today. It is possible
I was not sent back to Hospital
because Mrs Parkhurst &
Mrs Inke were there & they were
afraid we should be back

news to them - The Doctor
says he will let me have a
job my cell instead of a
door - I shall not be so shut
in. I am not in the least

cold. & my cell is so much
better than the last one. It is
possible to talk across to
those in the other wing.

Lady Constance says the
disapprobation is not
quite so awful as it was
She says Custobel appears
so in the sporting districts
of the men. She heard a
Cabinet Minister wife say
that if Custobel were to

up at her house she should
harbour her. That it is better
not to have had really as it
is not so very long the
lessons - There would be
the dreadful tearing away
again. They seem to think
more of government property
this time - I rather wish
now that I had more of a

run for my money. Those who
have done a lot seem to have
got no more than those who
have done a little -

Mr. Disraeli looked as though
he were treading on a worm
& enjoying being it wriggle
about - I have seen Mrs
Perrin's she really
looked quite well & bright
