Mr Arthur Henderson

Dear Mrs. Fawcett,

Many thanks for your favour of the 23rd.

It is very good of you to take the trouble to write me as you have done, and I appreciate your kind references. I sincerely trust the Cause in which you have been so much interested will reach fruition. I have every hope that the Representation of the People Bill will be placed on the Statute Book during the present year. As you say, I have interested myself in the Women's Question. In my position of greater freedom I shall watch very carefully the progress of the Bill, and do what I can to influence Labour to stand by its old policy on the Suffrage.

With kind regards,

Yours sincerely,

Arthur Henderson
