## PART I.—General Information Relating to the School.

THE LONDON SCHOOL OF ECONOMICS AND POLITICAL SCIENCE, founded in October, 1895, is a recognised School of the University of London in the Faculties of Economics (including Commerce), of Laws, and of Arts (for History, Geography, Sociology and Anthropology). Students are registered as Internal Students of the University, with a view to proceeding to the degrees of Bachelor of Science in Economics (B.Sc.(Econ.)), Bachelor of Commerce (B.Com.), Bachelor of Laws (LL.B.), and Bachelor of Arts (B.A.), or to Higher Degrees, such as M.A., Ph.D., M.Sc. (Econ.), M.Com., LL.M., LL.D., D.Sc. (Econ.), or D.Lit.

The lectures and classes at the School are open also to approved students who have not matriculated or who do not wish to pursue a full University course—in particular to those engaged in banking, accounting, railway and other transport, commerce and industry, to civil servants and municipal officials, to teachers and to those engaged in or qualifying for social work. To all these the School affords, by day and evening, the opportunity of specialised or advanced study on particular subjects.

The School offers special facilities for post-graduate research, under the supervision of professors or otherwise, and in certain branches of its teaching provides special lectures and seminars for graduate students. The Library, including the British Library of Political and Economic Science, the Fry Library of International Law, the Schuster Library of Comparative Legislation and the Acworth collection on Transport, is one of the largest in London, and contains many unique items. It is open to all approved readers without fee.

In the Faculty of Economics the School provides complete Courses for the degree of B.Sc. (Econ.). It provides also approved courses of study and research facilities for students proceeding to the higher degrees of M.Sc., D.Sc., and Ph.D.

In the same Faculty, the School provides (apart from modern languages) a complete course for the degree of Bachelor of Commerce

(B.Com.). The necessary teaching in modern languages is provided by University College, King's College and the School of Oriental Studies, and is covered by the inclusive fee. In this Faculty students may also proceed to the degree of M.Com.

All the courses necessary for the degrees of B.Sc. (Econ.) and B.Com. are given at hours enabling them to be taken both by day and by evening students. It is possible, therefore, for those who are occupied by day, and can only devote their evenings to study, to work for these degrees, equally with the day-time students.

In the Faculty of Laws the School co-operates with King's College and University College in providing complete day and evening courses for the degree of LL.B., and students registered at any of the three colleges have access to all the necessary lectures wherever given. Students of the School may also proceed to the degrees of LL.M. and LL.D.

In the Faculty of Arts, the School registers internal students proceeding to the degree of B.A., only if they contemplate taking Honours in Geography, Sociology, Anthropology, or History, or the Pass Degree with Geography. For students registered for Geography, History, or Sociology, it provides, in co-operation with other colleges in the University, complete Intermediate and Final courses; for those registered for Anthropology it provides a complete day course in co-operation with University College. For students in this Faculty registered elsewhere, it provides approved courses in the above-mentioned subjects, and in Economics, Law, History and Logic, for the degree of B.A. Students of the School may also proceed in this Faculty to the degrees of M.A., Ph.D., and D.Lit.

In the Faculty of Science the School provides approved courses in Geography and Cultural Anthropology for the degree of B.Sc.

The School provides courses also for a number of University diplomas and School certificates. Among these are:—(i) The University Diploma for Journalism; (ii) the Academic Diploma in Sociology and Social Administration, the Certificate in Social Science, and the Certificate in Mental Health; (iii) the Academic Diploma in Geography; (iv) the Academic Diploma in Psychology; (v) the Academic Diploma in Anthropology and (vi) The Academic Diploma in Public Administration. Detailed information as to the courses for the various degrees, diplomas and certificates is given on pp. 209-302 of this *Calendar*.

The Ratan Tata Foundation for research into social conditions is administered by the School, which maintains, in connection with the Foundation, a department of Social Science and Administration. The Department awards a Certificate in Social Science and Administration, and prepares students for the Academic Diploma in Sociology and Social Administration. In addition, in co-operation with the

Child Guidance Council, the Department provides a one year course for social workers in Mental Health (p. 299-300).

There is a special Railway Department to which nearly all the principal Railway Companies contribute and send students.

The School provides a course of training for students who wish to enter the Diplomatic and Consular Services. The course covers two years, and a Certificate in International and Diplomatic Studies can be awarded to successful students (p. 301).

By arrangement with the War Office an Army Class is held for selected Senior Officers.

Under the Revised Regulations for Civil Service Appointments, the courses at the School are well adapted to students preparing for the general competitive examination for the administrative grade of the Civil Service, at home and abroad, and arrangements are made for advising such students in their studies (p. 325).

A detailed list of the lectures, classes and seminars at the School is given on pp. 81-204. They include courses in the following among other subjects:—Principles of Economics and their application to Social, Industrial and Business Problems; Statistics and Mathematics; Philosophy, Psychology, Logic and Scientific Method; Commerce and Industry, including Foreign Trade, Banking and Currency, Transport, Tariffs, Accountancy and Business Methods; Economic History and Modern Political and Constitutional History; Geography; various aspects of English Law; Commercial and Industrial Law; International Law; International Affairs; Politics and Public Administration; Sociology; Anthropology; Social Science and Administration; English Literature and Composition.

Entrance Scholarships and Bursaries are awarded annually by examination (about April) under the London Intercollegiate Scholarships Board. The School also awards valuable Studentships and Prizes from time to time (pp. 303-322).

The School publications include a termly journal, "Economica," which, while mainly devoted to the publication of original work by staff and students of the School, also contains papers by other contributors (p. 367); a "Survey of English Law," an annual bulletin of the development of English legislation, case law and legal literature (p. 370); and an "Annual Digest of Public International Law Cases," which contains detailed digests of such decisions of international tribunals and of national courts in all countries as illustrate the development of public international law in the course of each year (p. 370). A list of the School "Studies in Economics and Political Science," being a series of monographs by lecturers and students connected with the School, and edited by the Director of the School, is printed at the end of this *Calendar*.

The London and Cambridge Economic Service of statistics and memoranda bearing on the current economic position is maintained by the School, in co-operation with the University of Cambridge and Harvard University (U.S.A.) (p. 368).

There is a Book-room established in the School for the convenience of students, where all text-books can be obtained, new or secondhand, as well as all stationery requisites.

The fees payable to the School include a subscription to the Students' Union, which manages common rooms and a lending library, organises athletic sports, publishes a periodical journal and arranges debates and discussions from time to time. An athletic ground of 20 acres near Malden was purchased by the School in 1921 and a new and commodious Pavilion was opened at the ground in May, 1929.

A list of approved furnished rooms, boarding houses and flats is kept in the General Office, and help is given to students desiring accommodation in London.

The general growth of the School and the institution of the Commerce degree have necessitated very large additions to the accommodation provided by the original Passmore Edwards Hall. The foundation-stone of a new building adjoining the old one was laid by H.M. the King on 28th May, 1920, and the first part became available for occupation in the summer of 1921. A further wing of this new building was opened by the Vice-Chancellor of the University in June, 1925, whilst a final wing and two additional storeys upon the roof of the main block were opened in the presence of H.R.H. the Prince of Wales in June, 1928.

The School is incorporated as a company limited by guarantee and without power of taking profits. It is controlled by a Court of Governors, of which the Rt. Hon. Sir Arthur Steel-Maitland, Bart., LL.D., is Chairman, and the Hon. Sir John Cockburn, K.C.M.G., is Vice-Chairman; the Director of the School is Sir William Beveridge, K.C.B. The names of the Governors and of the teaching and administrative staff of the School are given on pp. 15-28. In addition, "Honorary Governors" are elected from time to time.

The number of Professors, Readers, Lecturers and Assistants on the staff of the School is 67, while there are 41 other Lecturers taking part in its work.

The total number of students registered during the session 1928-29 was 2,808 (2,207 men and 601 women). Of these 985 were Regular students taking full day or evening courses. There were 653 students from countries other than the British Isles, representing some fifty constituent countries of the British Empire and foreign countries. Tables showing the detailed classification of students are given on pp. 387-389 of this *Calendar*.

The School is open on equal terms to men and to women.

## PART II.—Director's Report on the Work of the School.

July 1928—June 1929.

(Read on Oration Day, 28th June, 1929.)

The process of material growth to which the School has become accustomed in the past ten years has this year been marked by two new features. It has swept us from west to east across the narrow strait of Houghton Street, and it has carried us for the first time heavily into debt.

Expansion on the east of Houghton Street has followed naturally upon the removal thence, to a region and to premises more suited to its needs, of the Holborn Estate Grammar School for Boys, which has been our neighbour ever since we moved from the Adelphi. The opportunity thus given to secure space for our future expansion was one that had to be taken at almost any cost. As soon as the removal of the boys' school was an accomplished fact, we made an offer to purchase the premises vacated, and though the last formalities have not been completed, we are to all intents and purposes assured of their possession before next session opens. Pending reconstruction, the buildings will be used so far as they are suitable, and will at least furnish us with additional lecture rooms. In connection with the purchase of this site we have acquired also the freehold of two houses embedded in it, No. 17 and No. 18, Houghton Street, thus securing at once the amenities of our present building on the west of Houghton Street, and greater freedom for building on the east when the time shall come. One of these two houses is already in our possession; the other is subject to a lease producing income, so that its purchase can be treated as an investment on account of the Rockefeller Endowment. The total area thus added to our territories exceeds a quarter of an acre in the most central part of London. The cost is formidable. We celebrated last June, under the auspices of the Prince of Wales, the completion of a new wing and new floors, whose erection had cost us £55,000. Since then we have incurred liability for at least another

£50,000 of expenditure on further material expansion ; this includes £14,000 for the Clements Press Corner Building on this side of Houghton Street, whose projected acquisition was named in my last report, £33,000 for the School and two houses on the other side, and other sums for necessary adaptations and decorations.

In the circumstances it is hardly surprising that we should find ourselves faced with the prospect of debt, and we may be glad that the debt does not seem likely to exceed £15,000. A debt of that scale need not perhaps alarm an institution of our size. More serious is the fact that even with that debt paid, we should be without any means of rebuilding and so utilizing properly the site that we have purchased. By the purchase of the Holborn Estate Grammar School we have acquired the potentialities of an expansion of accommodation probably up to the maximum limits that we need ever contemplate, and have acquired at the same time the inability to make those potentialities real.

As they stand the new premises will add seriously to our costs of maintenance, and the balancing of our budget will need most careful thought by our Governors, the equally careful avoiding of unnecessary expenditure and waste by all who use the building, and finally the most generous aid from those who own or control the means of helping University education.

In mentioning finance it is satisfactory to note that two important grants made originally for periods of five years, which this year came to an end, have both been renewed. One of these is the sum of \$20,000 a year given by the Laura Spelman Rockefeller Memorial for the assistance of research in the School ; the other, amounting to £800 a year, was made by the Sir Ernest Cassel Trustees for the establishment of a Chair of International Relations. Each of these grants has been renewed for a fresh five-year period.

A new grant of £2,000 a year for five years has been made by the Empire Marketing Board to promote the study of Imperial Economic problems and is being used, in part, to establish a Chair of Imperial Economic Relations. A grant of £400 a year for three years has been made by the Commonwealth Fund in order to establish a course for welfare workers to deal with backward children. To Mr. Whittall, one of our Governors, we owe the foundation of a new undergraduate Scholarship in Economics in memory of Professor Allyn Young. The Clothworkers', Drapers' and Fishmongers' Companies have made a grant of £250 in each case, and the Noel Buxton Trustees a grant of £200 towards the cost of the New Survey of London Life and Labour.

These are welcome gifts ; they enable us to carry on instead of dropping work already established, and to meet the expenses of new special ventures. For the balancing of our normal budget and for the development of our new territories we must hope to gain endow-

ments for such major Chairs as Political Economy or Sociology or Law, or capital gifts for building, or a substantial increase of our grant from the Treasury. For five years this has remained fixed while our work has grown unceasingly. In anticipation of their new quinquennial allocation, the University Grants Committee have this year visited all the institutions which they help. Their visit to us took place on the 28th February last. They were, as usual, welcome and stimulating visitors. It is to be hoped that in what they saw here they will find one ground at least for increasing materially, if they can, the total grant for University purposes in London, and that some of this increase may in due course flow down to us through the channel of the University Court.

In the academic staff we have this session to record many changes. Death, swift and unexpected, has robbed us of Professor Allyn Young and Professor Hobhouse. Each was one of the main pillars of our School, a master in the art of teaching, and a leader in his science. We have to mourn another loss by death in Mr. Alan Leslie, who had lectured here on Railway Law, and whom we would gladly have made more closely one of our body. Of losses in other ways, most serious is that of Professor Jenks, retiring at the end of the allotted period from the Chair of English Law to which he was appointed as its first holder five years ago. Mr. J. S. Fulton has left us to become Fellow of Balliol, Mr. F. Brown to take an educational post in Paris. Against these losses we have to set three appointments to new posts : of Mr. J. Coatman to the Chair of Imperial Economic Relations, of Mr. L. C. Robbins to the Chair of Economics, of Mr. W. I. Jennings to a Lectureship in Law. Additional full-time assistants have been appointed in Economics and Transport, and two for Modern Languages. A Readership in English Law and three Lectureships in Political Science, Commerce and Industrial and Administrative Law have been filled by promotion of teachers already on our staff. The filling of the Chair of Political Economy held by Professor Young is at this moment undecided ; the Chair of English Law seems likely to remain for the present unfilled.

Two steps have been taken in the past year tending to improvement of the conditions of employment in the School. One relates to the age of retirement ; here the Governors, after lengthy discussions and in agreement with the Professorial Council, have adopted a declaration of policy, which while preserving the right of the Governors to require earlier retirement and providing compensation in such cases, is intended to make 65 the normal age of retirement in all cases. Another relates to sabbatical leave ; subject to the teaching requirements of the School we hope to make it possible for each teacher and administrator once in seven years to have one term of leave on full pay or a year on half pay.

To some activities falling outside the main work of the School brief reference must be made. The New Survey of London Life and

Labour announced in my last Report has been vigorously carried on throughout the session and is well advanced. The Subject Catalogue of the Library has practically reached completion; a contract for printing and publishing has been signed and the first volumes should appear before my next Report. The Railway Research Service established some five years ago at the School by co-operation of the main railway companies is, as from the end of the present session, to be removed to more commodious premises belonging to one of the railway companies. This is a direct consequence of the striking success of the Service and the value that it has rendered to the companies; this local severance will not affect the close and friendly relations of the Companies and the School. Last March the School joined with the Royal Institute of International Affairs in entertaining in London a Conference summoned by the Committee on International Co-operation of Institutions for the Scientific Study of International Relations. This Conference has sown the seeds for the fruitful co-operation between the School and other institutions of similar aim in this country and other countries.

Visitors to our School usually ask as their first question how many students it has; as their second what becomes of the students when they leave.

To the first question the tables printed below (pp. 387-389) supply the answer—we have roughly 1,000 regular students (taking courses for degrees, diplomas or their equivalent), 400 to 500 inter-collegiate students (nearly all regular students of other colleges) and 1,400 taking one or more courses of lectures only for some special purpose. During the five years to 1927-28, the first two classes grew rapidly; the last on the whole declined a little. This session has witnessed a reversal of these movements. The regular students are slightly less, 985 as against 1,014 in 1927-28; the inter-collegiate students also slightly less, 408 against 431; the "occasional" students are slightly more, 1,415 against 1,358. We have learnt enough of statistics in this School to avoid drawing any conclusions from this movement of a single year.

To the second question also the information given on pp. 383-386 supplies an answer, at least by sample. Students here are trained not for one profession but for life in general; the list of appointments obtained by some of them shows the variety and interest of the posts into which they go—in public administration, business, teaching, writing. Of special interest, since the setting up of the Commerce Degree, is our relation with the world of business. Each year it becomes more easy to find places in business as elsewhere for all who pass through the School with credit; each year it becomes harder to find as many first-rate men as are demanded. The awakening of the business world to the advantages of University training if not yet general is spreading.

To a third question often asked—what the students learn here—no short answer can be given. It is generally known, however, that they do not spend all their time in study. The Students' Union and its societies, literary, dramatic, and the rest, has had as usual a year of great activity.

In athletic achievement the high level reached in the previous session has been fully maintained. Though we failed to retain the Allom Cup for Rowing won in the year before, we won three inter-collegiate cups—for Association Football, for Men's Badminton and for Women's Badminton respectively. The first of these three represents our first victory in a major competition on land. The cup for Women's Badminton is a new trophy presented to the University Athletic Union by members of the School staff, and is known as the Beaver Cup. We won also the Inter-Collegiate Relay Race, and in Rugby Football were beaten in the semi-final by the ultimate winners. The prize for progress should this year go probably to the men's hockey team which from early disasters trained into a formidable side.

The year has been made notable also by the completion and opening of the central block of our permanent Pavilion. This new accommodation is admirable, in appearance and in convenience, and suffers from two disadvantages alone; it is burdened by a debt of about £3,000, and it is not nearly large enough. Until this debt can be paid off, completion of the Pavilion is impossible; all the women's teams and some of the men will have to use the old pavilion, which we had hoped to pull down at once and which cannot stand for long in any case.

Among our Governors, as among our academic staff, the losses this year by death have been heavy. The Earl of Rosebery was President of the School until he was elected Chancellor of the University, and then a Governor and Honorary Governor. Lord Haldane's position of Honorary Governor was but a faint recognition of his services in helping the School to be born and in helping it in many stages of its later life. In Mr. Martin White we have lost a generous and untiring benefactor, whose name will happily always be kept alive for us in the Chair of Sociology.

Among distinctions won in the past year by members and friends of the School, special mention may be made of the honorary doctorates conferred on Professor Jenks and Professor Bowley; in each case high distinctions have been highly deserved. The reformed Senate of the University includes the Director *ex officio* as head of one of the principal colleges, while Professor Gregory, Professor Gutteridge and Mr. W. H. Coates have been elected to the Senate to represent the Faculty of Economics, the Faculty of Laws and the graduates in Economics respectively. Elections of a more general character have made important changes in our body. Lord Passfield, whose 70th birthday was celebrated by the painting and

hanging of his portrait, and that of his wife, in our Founders' Room, has returned as Secretary of State to the Office in which he began his public life many years ago under another name. Dr. Lees-Smith as Postmaster-General, and Dr. Hugh Dalton as an Under-Secretary of State will, we are sure, show how good Readers become good do-ers. Professor Noel Baker has been appointed Parliamentary Private Secretary to the Foreign Secretary. We all regret that these changes cannot happen without the country losing the services as Minister of Labour of the Chairman of our Governors.

Our School has had no occasion to celebrate centenaries or jubilees. Its coming of age and its quarter-century it has judiciously ignored. In closing, however, this record of another year, it may not seem out of place to note that with this year ends the first decade since the return of peace and the re-awakening of our School after the night of war. To our young School—of surprising vigour and achievement for its years, but not yet deeply rooted in the nation's life, more international than any of its fellows—the war brought peculiar dangers; many threads on which we seemed to hang were broken. When peace came back at last, we found ourselves—with earlier plans for expansion shattered, miserably cramped for means, with a handful of teachers of high distinction, but overworked and under-paid, upon a site which many of our best friends despaired of; our most solid guarantee of success seemed still to lie in the inspiration of our founders' genius. As the decade ends, the School appears to have reached maturity as one of the great colleges of London, with space to grow as large as it need be, with generations of past students pushing steadily up into the responsible work of the world and spreading outwards over all its lands and cities. As the decade ends, we have lost nearly the last—happily not yet quite the last—of the great teachers who led us across the war and so far on our way. We who are left too soon in the front rank shall miss their guidance, as many of you, I dare to say it, leaving the School will miss consciously at first the guidance that older minds have given you in this place. May you as you go out and we as we remain prove equal to our new burdens.

## PART IV.—Admission of Students.

1. Students are classified as Regular, Occasional and Research Students. Regular Students are those paying a fee for a degree, diploma, or certificate course, or for any other full course extending over a whole session ; Occasional Students are those paying a fee for one or more separate courses of lectures or a general composition fee for one or two terms only ; Research Students are those paying the research fee. No distinction in these categories is made between day and evening students.

2. No person will be admitted as a student under eighteen years of age. Exception is made only for persons who have already matriculated at the University of London after passing the Matriculation Examination, or obtaining exemption from it.

3. No student will be admitted to any course until he has paid the requisite fees. All cheques should be made payable to the "London School of Economics and Political Science," and crossed "The Westminster Bank Ltd." No fees are returnable.

4. Admission to the School implies an undertaking by the student to observe the rules made from time to time by the Director. Attention is called to the following rules in particular :

(a) The name and address of the School may not, without express authority from the Director or the Secretary, be used on printed matter for circulation or otherwise for business or propaganda purposes.

(b) All lectures given in the School are copyright ; notes of lectures may be used only for purposes of private study and may not be reproduced for teaching or similar purposes.

(c) The Director of the School may, at his discretion, refuse to any student admission to or continuance at any course of lectures, classes or seminars. Admission to any particular course is only granted on this understanding.

[*Contd.*]

## REGULAR STUDENTS.

5. Unless specially exempted by the Director, persons are admitted as Regular Students only after they have been seen, and their applications approved, by an Adviser of Studies.

6. A person desiring to enter the School as a Regular Student at the opening of any session may be enrolled in advance at any time between May 1st and July 31st preceding the opening of the Session, and will have a place reserved for him on payment of £5 as a non-returnable deposit on account of the requisite fees. The balance of the fees must be paid in the fortnight before the opening of the Session.

7. Unless so enrolled in advance, a person desiring to enter the School as a Regular Student must obtain, at least a fortnight before the opening of the Session, a form of application. In the case of persons living at a distance from London, this form can be obtained by post from the Secretary of the School, but wherever possible the applicant should apply for it in person at the office of the School.

8. The applicant, when he has filled in the first part of the application form, must send it to the Secretary, or bring it in person to the School, accompanied by two personal testimonials from persons to whom he is known, one of whom should, if possible, be the Head of the educational institution last attended. The form should be returned a full fortnight before the opening of the Session. If the form is in order, it will be endorsed with the name of an Adviser of Studies, and arrangements will be made for the applicant to be interviewed by that Adviser during the fortnight before the opening of the Session. The Advisers of Studies will attend, for the purpose of seeing applicants, at stated hours during this fortnight.

9. If the Adviser is satisfied that the applicant is qualified for admission as a Regular Student, he will settle the details of the course to be followed, assist the applicant to fill in the remainder of the form, and endorse the application as approved by him. The applicant, on paying the requisite fees, will then be admitted as a Regular Student and as a full member of the Students' Union, and will receive a ticket to serve both for admission to lectures and as a ticket of membership of the Union. This ticket must be produced at any time on demand.

10. Persons whose mother-tongue is not English will be admitted as Regular Students for First Degrees only on showing sufficient proficiency in English. For this purpose they will be required to attend an examination to be held at the School on the Monday in the week before the opening of the session. On the results of that examination they may be admitted unconditionally, or be admitted subject to attending special courses in English and paying the requisite additional fee, or may be refused admission until they can qualify themselves to pass the examination. Such persons should apply for admission not later than ten days before the opening of the session.

11. Before a student can be registered as a candidate for a first degree (internal) of the University of London (*e.g.*, B.Sc. (Econ.), B.Com., LL.B., B.A.) he must either have passed the London Matriculation Examination, or have obtained exemption from it. Under the University regulations, however, a student may enter upon a degree course at the opening of a session *before* he has matriculated, and—provided that he becomes a matriculated student not later than the following January—may have his registration antedated to the beginning of that session. Further information as to matriculation requirements may be obtained from the External Registrar, University of London, South Kensington, S.W.7.

12. Students intending to follow a course for a higher degree must produce evidence of their graduation at an approved University, with a degree implying study up to the standard of a first degree in the faculty in which they wish to proceed.

13. The School will only recommend to the University the acceptance of any Student to work for a higher degree at the School after consideration of his application by the School Higher Degrees Committee.

14. In order to avoid disappointment, students desiring to come to London from abroad to work for a higher degree should give notice of their desire and supply full particulars of their qualifications at least five months in advance; that is to say, before the end of April, if they wish to begin their course in the following October.

## RE-REGISTRATION OF REGULAR STUDENTS.

15. Except by special permission of the Director, registered students of the School who fail twice in a degree examination, whether intermediate or final, or who have completed the normal day or evening course of study for such examination and have failed to enter without adequate reason, will not be eligible for re-registration.

16. Students of the School who fail in an intermediate or final examination, or in any part thereof, will not be permitted in the year following such examination to take any work at the school other than work for that examination (or part of examination) in which they failed. Departures from this rule will only be made in the case of students whose failure is due to exceptional circumstances and will be subject to such conditions as the Director may require in any particular case.

## OCCASIONAL STUDENTS.

17. A person desiring admission as an Occasional Student must obtain a form of application from the Secretary of the School and must return this either personally or by post at least six days before the first meeting of the lectures or classes which he desires to attend.

[Contd.]

18. Every such person will be asked to state on the form of application his qualifications for study at the School and the purpose for which he wishes to study, and may be invited to attend for interview before admission. The School will not as a rule be prepared to admit as an occasional student a person whom it would not admit as a Regular Student.

19. If the application is accepted, the student will, on payment of the fees, receive a ticket of admission for the lectures and classes named thereon, and must produce this on demand. This ticket will serve also as a ticket of limited membership of the Students' Union.

#### RESEARCH STUDENTS.

20. Research Students may be admitted at any time subject to the approval of the Director. The Research Fee entitles the student to attend one seminar and to use the Library and Common Room.

#### DATES FOR ADMISSION OF STUDENTS.

Monday, September 23rd, to Saturday, October 5th, 1929. Applicants not already admitted as students should obtain forms personally, or by post, in the week beginning Monday, September 23rd. [N.B.—In all cases students are strongly recommended to consult the Regulations and pamphlets issued by the University, to which references are given and which alone are authoritative.]

### 1.—Matriculation.

Before being registered as a student of the University and being entitled to proceed to a degree, a person must

- (1) have passed the London Matriculation Examination,
- or (2) have satisfied the conditions for Matriculation at the Senior or General School Examination,
- or (3) have passed the Special University Entrance Examination,
- or (4) have been exempted from the Matriculation Examination in accordance with the regulations approved by the Senate,
- or (5) have been registered as a candidate under the regulations for postgraduate students proceeding to a bachelor's degree or to a higher degree.

#### (1.) The Matriculation Examination.

This is held three times a year, and candidates must take English, Elementary Mathematics, a language, and two other subjects to be selected from a list given in the Regulations for Matriculation. Candidates must be sixteen years of age, and should apply to the External Registrar, University of London, S.W.7, for an entry form, by the dates shown in the following table. The examination fee is £2 12s. 6d.

The examinations are held as follows :—

Date Examination Begins.	Entry Forms must be applied for by	Entry Forms must be completed and returned by	Candidates must have completed their sixteenth year by
1 Second Tuesday in September.	August 20th.	14 Days before beginning of examination	September 15th.

3 First Tuesday in June.	April 18th.	April 24th.	July 31st.

(2). **The Senior or General School Examinations.**

The University holds in approved Schools an examination called the Senior or General School Examination, for which any pupil who has pursued an approved course of study is eligible. Candidates who pass the examination are entitled to be registered without further fee as Matriculated Students provided they are sixteen years of age and provided also that the subjects in which at one and the same examination they have attained the standard required for matriculation include those required by the regulations for matriculation.

(3). **Special University Entrance Examination.**

Certain overseas students of not less than nineteen years of age on presentation of certificates which, in the opinion of the Principal, indicate that they have attained a standard *prima facie* involving an education equivalent in their own country to that required for matriculation in London University, may apply to sit for the Special University Entrance Examination. Admission to this examination may also be obtained by persons over 25 years of age who possess certain definite professional qualifications, or special qualifications for study or research.

(4). **Exemption from Matriculation Examination.**

Certain students are exempted from the Matriculation Examination because either (1) they are graduates of approved Universities or (2) they have passed certain specified examinations.

For full details regarding the regulations governing the Matriculation Examination see the "Regulations for Matriculation," which may be obtained on application to the External Registrar, University of London, S.W.7.

## 2.—Registration.

Students of the University are Internal, External, or Associate students.\*

In accordance with Statute 21 (new Statutes) :—

"An Internal Student shall be a student who is registered as pursuing :—

(i) In a School, or in a public educational institution under one or more teachers of the University, a prescribed course of study for a degree or postgraduate diploma of the University ; *or*

(ii) In a School a prescribed course of study for a diploma or certificate of proficiency of the University within the purview of the Academic Council ; *or*

(iii) In a School, or in a public educational institution under one or more teachers of the University, an approved course of research."

A Matriculated Student of the University who wishes to proceed to a first degree (B.A., B.Sc. (Econ.), B.Com., or LL.B.) as an Internal Student at the London School of Economics and Political Science, should in addition to the form of admission to the School apply to the Secretary of the School for a registration schedule. These registration schedules are supplied by the Academic Registrar of the University to the authorities of Schools or Institutions, and after they have been issued to students and filled up are returned by these authorities to the Academic Registrar. A card is sent by the Academic Registrar to each student whose application for registration is approved, notifying him of his registration as an Internal Student.

Students attending at more than one School or Institution must be registered at each such school or Institution.

\* Under Statute 22 :—"An External Student shall be a matriculated student, not being an Internal Student, who is registered as preparing for an examination leading to a degree, diploma or certificate, of proficiency of the University within the purview of the Council for External Students."

Under Statute 23 :—"An Associate Student shall be a student registered as pursuing in a School a course of study recognized by the Senate in this behalf for a degree, diploma or certificate of proficiency other than a degree, diploma or certificate of proficiency of the University."

Applications for Registration as an Internal Student should normally be made within three months from the first attendance at the course on account of which Registration is desired and before the end of the Session in which such Course was begun. The following fees are payable in respect of Applications received at a later date, and acceded to :—

(i.) In respect of an Application received more than three months\* after the beginning of the Course submitted but during the same Session—£1.

(ii.) In respect of an Application received in a Session subsequent to that in which the Course submitted was begun—£3.

Students who begin their Course of Study in October and matriculate in the following January may be registered without payment of a fine, on the receipt by the University of a registration schedule not later than March 31st.

Fees on the same scale will be payable in respect of Applications for the retrospective approval of Honours Courses and Courses for Higher Degrees.

Students whose third year's Course of Study under Section 19 of the General Regulations as to Approved Courses of Study is received later than May 1st in the second year's Course of Study (or, in the case of postgraduate Courses, later than June 15th in the second year's Course of Study) but in time to be approved by the University during the third term, will be required to pay a fine of £1.

*Note.*—Students are advised to apply for Registration as soon as they have qualified. Students whose names have been returned by the Authorities of a School or Institution as having discontinued attendance at an Approved Course of Study and whose names have consequently been removed from the Register of Internal Students may be re-registered, after notification by the Authorities of a School or Institution that they have resumed an Approved Course of Study. Fees payable in respect of late Applications for re-registration will be on the same scale as those payable in respect of late Application for Registration.

\*The period of three months will be reckoned as from the last day of the month in which the Course in question was begun.

### 3.—First Degrees.

The First Degrees for which the School registers students are :—

Bachelor of Science	(B.Sc. [Econ.] ).
Bachelor of Commerce	(B.Com.).
Bachelor of Laws	(LL.B.).
Bachelor of Arts	(B.A.).

Candidates for the degree of B.Sc. in Pure Science and Household Science, and for the B.Sc. in Anthropology, Psychology or Geography will find a number of courses at the School in the subjects prescribed for these degrees, but can only take a complete course as Internal Students by registering elsewhere.

#### i.—THE DEGREE OF BACHELOR OF SCIENCE IN ECONOMICS (B.Sc. [Econ.] ).

This degree is taken in two stages :

- (1) The Intermediate, which, in the case of day students, is normally taken at the end of the first year of study, consists of two parts. Either part may be taken first at the option of the candidate (and in such cases the intermediate course is spread over two years), or the two parts may be taken together. The Intermediate must be passed before a student can proceed to.
- (2) The Final, which, in the case of day students, is normally taken at the end of the third year of study. Students who have deferred their intermediate are recommended to defer their final also. The Final Examination is common to Honours and Pass candidates. Successful candidates will be awarded First or Second Class Honours, or a Pass Degree.

The School provides complete courses for this degree, both for day and for evening students.

In the case of evening students, the Intermediate Syllabus involves attendance at the School on at least four nights a week, which does not leave sufficient time for reading for students who are engaged on other work during the day. Evening students, therefore, are recommended not to take the intermediate course in one year, but to spread it over two years, unless after consultation with their Adviser of Studies they are found to have a sufficient preliminary knowledge. The Final Course also involves attendance on four nights each week and should, therefore, not be attempted, as a rule, by evening students in less than three years (in place of two for day students).

Students of the School who fail in the Intermediate Examination will not be allowed to work in their next year for both the Intermediate and the Final. Departures from this rule will only be made in the case of students whose failure is due to exceptional circumstances, and subject to such conditions as the Director may require in any particular case.

Students who are referred in any subject at the Intermediate Examination will only be allowed to begin work for the Final with the approval of the Director, and if this approval is obtained, will, as a rule, be required to take special classes in the subject or subjects in which they were referred, and to pay an additional fee for each subject.

UNIVERSITY REGULATIONS :—Full details of the regulations governing the degree are given in a pamphlet entitled "Regulations in the Faculty of Economics for Internal Students," which may be obtained at the School or from the Academic Registrar, University of London, South Kensington, S.W.7.

### The Intermediate.\*

The Intermediate examination is held once a year in July. The examination is divided into two parts. Either part may be taken first at the option of the candidate (in such cases the intermediate course is spread over two years), or the two parts may be taken together. The following table gives the two parts and the courses provided for the different subjects :—

Candidates may confine themselves to the passages in one of these languages, but no candidate will be approved unless he has shown a capacity to read with intelligence French or German or Italian. (For translation classes in these languages see p. 202.)

The Examiners shall be at liberty to test any candidate by means of *vivâ-voce* questions in the subjects in which they are appointed to examine.

A candidate shall not be approved in Part I. or in Part II. unless he has shown a competent knowledge in each of the subjects included in that Part; but a candidate who enters for the whole Examination on the same occasion and passes in four subjects out of the five may be allowed to offer the fifth subject alone at the next following Examination.

The day and evening time-tables of approved courses for this examination are given on pages 212 and 213 respectively.

\*Under the revised regulations for the Higher School Examination (Group E), it is possible for a student who passes that examination to obtain exemption from part or the whole of the Intermediate B.Sc. (Econ.) Examination. For full details as to the various Exemptions granted by the University, reference should be made to the University Regulations.

## Notes for Students reading for the B.Sc. (Econ.) Final.

(i) Students must acquaint themselves as far as possible with the bibliography, statistics, and the main original sources of information bearing on their selected subjects. They will be expected to be acquainted with the principal works dealing with the selected subject in English, French, German and Italian.

(ii) An examination is held by the School for all Second Year students reading for the B.Sc.(Econ.). The examination applies to all students who are in the first year of their Finals, including those who are re-entering for the Intermediate. Evening students, however, who are spreading their final course over three years are advised to take their examination at the end of the *second* year of their Finals instead of at the end of the first. Absence from this examination will only be excused on the production of a medical certificate.

The purpose of this examination is to assist the student by testing his progress during the session and his facility in applying his knowledge. His performance will in no way prejudice his academic record or the results of his final degree examination. No lists will be published in connection with the examination, and it is not desired that any special preparation be undertaken.

## ii.—THE DEGREE OF BACHELOR OF COMMERCE (B.COM.).

The degree is taken in two stages :—

- (1) The Intermediate, which is normally taken at the end of the first year of study, and which consists of two parts. If desired the two parts may be taken separately; in such cases the intermediate course is spread over two years instead of one.
- (2) The Final, which consists of two parts, the first part being taken at the end of the second year, and the second part at the end of the third year of study.

Students of the School who fail in the Intermediate Examination will not be allowed to work in their next year for both the Intermediate and Part I. of the Final. Departures from this rule will only be made in the case of Students whose failure is due to exceptional circumstances, and subject to such conditions as the Director may require in any particular case.

Students who are referred in any subject at the Intermediate Examination will only be allowed to begin work for the Final with the approval of the Director, and, if this approval is obtained, will, as a rule, be required to take special classes in the subject or subjects in which they were referred, and to pay an additional fee for each subject.

UNIVERSITY REGULATIONS.—Full details of the regulations governing the degree are given in a pamphlet entitled "Regulations for Degrees in Commerce for Internal Students," which may be obtained at the School, or from the Academic Registrar, University of London, South Kensington, S.W.7.

## The Intermediate.\*

The Intermediate Examination is divided into two parts. An examination in both parts is held twice a year (in June and November). The examination shall consist of (a) four written papers, including an essay paper, which shall be set on the selected general subject, one of the papers to have reference to an approved section of the general subject, with the provision that candidates may submit a thesis written on the approved topic in substitution for the essay paper and the paper on the approved section; and (b) an oral examination at the discretion of the examiners.

v.—THE DEGREE OF DOCTOR OF SCIENCE IN ECONOMICS  
[D.Sc. (ECON.)].

(NOTE.—The following Regulations apply to all candidates entering for the Examination in or after January, 1930, except those candidates who, previously to that date, had been registered as students for the Degree under Statutes 113 or 129.)

A candidate for the D.Sc. (Economics) Degree must have previously obtained the M.Sc. (Economics) Degree, or the Ph.D. Degree in the Faculty of Economics, as an Internal Student.

Nevertheless a candidate who has obtained the B.Sc. (Economics) Degree as an Internal Student may, in exceptional circumstances, be exempted from this requirement provided he has already done work of the character and standard which may reasonably be expected of a candidate for the M.Sc. (Economics) Degree. As a rule, such exemption will be granted only on the ground of published work.

A candidate may make application at any time for the Degree and must at the same time submit evidence of his qualifications, such evidence to consist of published papers or books, containing original contributions to the advancement of knowledge which must be his own independent work.

A candidate entering for the Degree in the year 1930 or 1931 may, however, submit an unpublished thesis (printed or typewritten) treating scientifically some special portion of a subject within the purview of the Faculty of Economics and Political Science. The candidate must indicate how far the thesis embodies the result of his own research or observation, and in what respects his investigations appear to him to advance scientific knowledge.

A candidate submitting unpublished work in the year 1930 or 1931 will further be required to have completed the standing of four years from the date of his passing the B.Sc. (Economics) Examination as an Internal Student. This requirement will not apply to a candidate submitting published work in any year.

Every candidate must apply to the Academic Registrar for an entry-form which must be returned accompanied by the thesis and the proper fee.\*

Every candidate for the D.Sc. (Economics) Degree must pay at each entry a fee of 20 guineas, except as provided below.

All cheques should be made payable to the University of London or Bearer, and crossed "Westminster Bank Ltd., Brompton Square, S.W.3, University of London Account."

The candidate must furnish not less than four copies of the thesis or published work submitted to the Examiners.

Every candidate will be required to forward to the University with his thesis a short abstract thereof (four copies) comprising not more than 300 words.

Work done conjointly with other investigators will not be accepted as a thesis qualifying for the Doctorate; but the candidate is invited to submit as subsidiary matter in support of his candidature any printed contribution or contributions to the advancement of Science which he may have published independently or conjointly. In the event of a candidate submitting conjoint work in support of his candidature he will be required to state fully his own share in such conjoint work.

Any thesis submitted for the D.Sc. (Economics) Degree must be satisfactory as regards literary presentation, as well as in other respects, and if not already published in an approved form, must be submitted in a form suitable for publication.

A candidate will not be permitted to submit as his thesis work for which a Degree has been conferred on him in this or in any other University, but a candidate shall not be precluded from incorporating work which he has already submitted for a Degree in this or in any other University in a thesis covering a wider field, provided that he shall indicate clearly any work which has been so incorporated.

After the Examiners have read the thesis the candidate may be required to present himself at such place in the University as the Examiners may direct upon such day or days as may be notified to him, to be further tested either orally or practically or by printed

If a thesis submitted by a candidate for the D.Sc. (Economics) Degree, though inadequate, shall seem of sufficient merit to justify such Recommendation, the Examiners shall be empowered to recommend the Senate to permit the candidate in question to re-present his thesis in a revised form after six months and within one calendar year from the decision of the Senate with regard thereto; and the fee on re-entry, if the Senate adopt such Recommendation, shall be half the fee originally paid.

A candidate for the D.Sc. (Economics) Degree who submitted an unpublished thesis and who has been approved by the Examiners shall be required to publish his thesis as a whole, or such portion or epitome thereof as the Examiners shall approve, and the Degree shall not be conferred until four copies of the published work as approved by the Examiners have been received by the Senate.

Any thesis approved by the University for this Degree and subsequently published must bear the following inscription on the title-page: "Thesis approved for the Degree of Doctor of Science (Economics) in the University of London."

A Diploma for the Degree of D.Sc. (Economics) under the Seal of the University and signed by the Chancellor, shall be delivered to each candidate who has passed, after the Report of the Examiners shall have been approved by the Senate.

Nevertheless a candidate who has obtained the B.A. Degree as an Internal Student may, in exceptional circumstances, be exempted from this requirement provided he has already done work of the character and standard which may reasonably be expected of a candidate for the M.A. Degree. As a rule such exemption will be granted only on the ground of published work.

A candidate may make application at any time for the Degree and must at the same time submit evidence of his qualifications, such evidence to consist of published papers or books, containing original contributions to the advancement of knowledge which must be his own independent work.

A candidate entering for the Degree in the year 1930 or 1931 may, however, submit evidence consisting of unpublished work (printed or typewritten), making a distinct addition to learning, in one or more branches of the Faculty of Arts.

A candidate submitting unpublished work in the year 1930 or 1931 will further be required (i) to have completed the standing of five years from the date of his passing the M.A. or Ph.D. Examination, or (ii) to have attained the age of 30. Any work submitted for the D.Lit. Degree must be satisfactory as regards literary presentation, as well as in other respects, and, if not already published in an approved form, must be submitted in a form suitable for publication.

The candidate may be required to present himself at such place in the University as the Examiners may direct, upon such day or days as may be notified to him, to be further tested orally on the subject of the work submitted by him for the Degree; but it shall be within the discretion of the Examiners to approve or reject a candidate without such oral test.

If the work submitted by a candidate for the D.Lit. Degree, though inadequate, shall seem of sufficient merit to justify such Recommendation, the Examiners shall be empowered to recommend the Senate to permit the candidate in question to re-present it in a revised form after six months and within one calendar year from the decision of the Senate with regard thereto; and the fee on re-entry, if the Senate adopt such Recommendation, shall be half the fee originally paid.

The special subject, and the special portion thereof to be dealt with in his thesis or dissertation, must, not less than twelve months before entry to the Examination, have been submitted to the University for approval.\*

The candidate must state how far the dissertation or thesis embodies the result of his own research, whether it has been conducted independently, under advice, or in co-operation with others, and in what respects his investigations appear to him to advance the study of Law.

The candidate must furnish not less than four copies of the dissertation or thesis or published work submitted to the Examiners.

Any dissertation or thesis submitted for the LL.D. Degree must be satisfactory as regards literary presentation, as well as in other respects, and, if not already published in an approved form, must be submitted in a form suitable for publication.

    - (ii) He must produce evidence satisfactory to the University of the standard he has already attained and of his ability to profit by the course. If the evidence first submitted is not satisfactory, the candidate may be required to undergo such examination as may be prescribed by the University.

5. Applications for registration submitted later than three months after the date on which the course was begun must be accompanied by a statement from the Head of the College, School or Institution in explanation of the delay. 9. The course must be pursued continuously, except by special permission of the Senate.

\*NOTE.—The expression "two years" in these Regulations will be interpreted in the case of students registering for the Ph.D. Degree in October as the period from the beginning of that month to the June in the second year following. In other cases it will be interpreted as two calendar years.

10. It is essential that the student, while pursuing his course of study as an Internal Student should be prepared to attend personally for study in a College, School or Institution of the University during the ordinary terms at such time or times as his supervising Teacher may require.

11. The student shall during his course of study pay a fee to the College, School or Institution in which he is working.

20. The Thesis must consist of the candidate's own account of his research. It may describe work done in conjunction with the teacher who has supervised the work provided that the candidate clearly states his personal share in the investigation, and that this statement is certified by the teacher. In no case will a paper written or published in the joint names of two or more persons be accepted as a Thesis. Work done conjointly with persons other than the Candidate's teacher will only be accepted as a Thesis in special cases.

21. The candidate must indicate how far the Thesis embodies the result of his own research or observation, and in what respects his investigations appear to him to advance the study of his subject.

22. Every candidate will be required to forward to the University with his Thesis a short abstract thereof comprising not more than 300 words.

23. *Examination.*

28. For the purpose of the examination the candidate will be required to present himself at such place as the University may direct and upon such day or days as shall be notified to him.

29. 30. If the Thesis, though inadequate, shall seem of sufficient merit to justify such a Recommendation, the examiners may recommend the Senate to permit the Candidate to re-present his Thesis in a revised form after six months and within one calendar year from the decision of the Senate with regard thereto ; and the fee on re-entry, if the Senate adopt such recommendation, shall be half the Fee originally paid. ## 6.—Certificates.

### i.—CERTIFICATES IN SOCIAL SCIENCE AND ADMINISTRATION.

A Certificate is awarded to Students in the DEPARTMENT OF SOCIAL SCIENCE AND ADMINISTRATION.

The Department of Social Science and Administration (Ratan Tata Foundation) is intended for those who wish to prepare themselves to engage in the many forms of social and charitable effort, and in administration.

While the lectures are open on payment of the fees to all who wish to attend them, candidates for the certificate in the Department give their whole time to the work for one or two sessions, during which they are under the guidance and direction of a special staff of supervising tutors. The course includes both practical and theoretical work. In their practical work the students are placed under experienced administrators in all parts of London, and thus obtain some knowledge of the conditions of life in a great industrial centre, and of the various methods of social effort, alike in the administration of charitable resources and in the work of Municipal or State Departments. The advanced students are also enabled to take part in certain branches of social research.

By these means the students acquire first-hand experience of the difficulties to be dealt with and of the different ways in which effort is now directed to meeting them. In their theoretical work the students obtain, through lectures, classes, reading and individual tuition, a knowledge of the relation of present conditions and efforts to the past history of industrial and social life and to the generalisations of Economic Science and Sociology. It is necessary that students desiring to take the full course should possess a good general education.

There is no fixed age which students must have reached before entering upon the course; but it is generally inadvisable for anyone to begin the work before 21.

A certificate is granted, after examination, on the work done during the course.

For full particulars see the special pamphlet issued by the Department, which may be obtained on application to the Secretary of the School.

## ii.—CERTIFICATE FOR SOCIAL WORKERS IN MENTAL HEALTH.

A Certificate is awarded to students who have satisfactorily concluded the One Year Course for Social Workers in Mental Health.

The course for the Certificate is conducted by the Department of Social Science and Administration (Ratan Tata Foundation) in co-operation with the Child Guidance Council, and is intended to prepare men and women for social work in the field of Mental Health.

The course covers one University session, beginning in October of any year, and consists of lectures and discussion classes as well as practical work. The practical work will be conducted not only during the University session but also during part of the University vacations.

The main courses of lectures are in Psychiatry, General Psychology, the Psychology of Individual Differences, Mental Subnormality, and Social Case Work. The practical work is under skilled supervision, and consists of visiting and observation of cases at Child Guidance and other clinics and hospitals, as well as attendance at case discussions conferences, and demonstrations.

Students are admitted to the Course on the recommendation of a selection committee appointed by the School. Generally speaking, students are only accepted if they (i) are over 25 years of age; (ii) have already obtained a Social Science Certificate of a University; (iii) have had some experience of some form of social work.

For full particulars reference should be made to the special leaflet issued by the Department, which may be obtained on application to the Secretary of the School.

## iii.—CERTIFICATE IN INTERNATIONAL AND DIPLOMATIC STUDIES.

The School of Economics provides a course specially adapted for students either seeking posts in the Diplomatic and Consular Services, or already holding them.

The full course extends over two years, and a Certificate in International and Diplomatic Studies is awarded by the School to students successful in passing the examination set at the end of each of the two parts of the course (Certificate A). For students for whom only one year of study is possible a modified course is provided, and students successful in passing the examination held at the end of the year receive a modified certificate (Certificate B).

Students registering for either Certificate A or Certificate B are expected to have a thorough knowledge of English and of one or more modern foreign languages.

Most of the lectures for the course can be taken by day or by evening, so that students already employed at an Embassy or Legation may obtain the certificate by attending in the evening.

A tutor will direct the studies of students following the course, and will in particular arrange with each student when he first enters the School which of the lectures and classes provided by the School in preparation for the Certificate examination he should take. He will also supervise some of the essay work of the students.

The fee for the course is 35 guineas each year; or, if paid terminally, 13 guineas a term.

A special pamphlet issued by the Department of International Studies may be obtained on application to the Secretary of the School.

The following schedule sets out in detail the subjects for the Full Course (Certificate A) and the Modified Course (Certificate B).

**PART IX.—Post-Graduate Work and After-Careers.****1.—Research.**

The London School of Economics and Political Science has become one of the largest centres of "post-graduate" study in the United Kingdom. Some of the most important work of the School is done in the Research Department. The work of the Department is carried on by means of (i.) individual supervision of students, (ii.) Seminars or Special Classes and, (iii.) the Library. The lectures at the School likely to be useful to students are pointed out to them. The method of utilising the British Museum, the Public Record Office, and other great libraries and collections of material is explained. Brief bibliographies are supplied, and the main sources are indicated from which such bibliographies may be supplemented and extended. The manner in which students collect their material and the use they make of it are criticised, and points arising out of their researches are discussed. Wherever suitable, arrangements are made for enabling students to come into contact with contemporary social and economic organisations, public and private, in London and elsewhere. One of the most valuable means of training research students is to be found in the Library, which contains ordinary textbooks and works of reference, official documents issued by the British and other Governments, a unique collection of the official documents issued by the various local authorities of the United Kingdom and other countries, tracts and pamphlets, and several special collections of material for investigation and research. Research students (who are not required to be graduates) may join at any time, and for any period.

The Statistical Room, which is a part of the General Library and contains current statistical publications, together with machines for aiding calculation, is open to students for research and reading, in consultation with the statistical staff.

Graduates from other Universities desiring to work for a higher Degree of the University of London are referred to the Section on Higher Degrees, pp. 264-288. [For fees, see p. 33.]

Graduates of London University proceeding to a Higher Degree in the same Faculty (*except in the case of the Ph.D.*), and persons pursuing research without desiring to proceed to any degree, can obtain the facilities of the Research Department, including admission to the necessary seminars, on payment of the Research fee of £7 7s.

The University of London has established an Institute of Historical Research in Malet Street, Bloomsbury, W.C.1, the object of which is to train students in the methods of historical research and in the use of archives. A number of seminars by teachers of the University and its Colleges are given at the Institute. Research students of the School are entitled to use the Institute and to attend these seminars, on the following conditions :

(1) Research students registered at the School who have paid any of the composition fees will be entitled to use the Institute and to attend such seminars as their supervising teachers may recommend, without additional payment.

(2) Research students who have paid the research fee of seven guineas will be entitled to attend *one* seminar, either at the School or at the Institute, without additional payment. But in the event of their desiring to attend a seminar both at the School and at the Institute, or to attend a seminar at the School, and also have the full use of the Institute, they will be required to pay to the School authorities an additional fee of £2 12s. 6d. per session.

## 2.—Higher Civil Service Appointments.

Under the new scheme introduced in 1920 there is now a single competitive examination for practically all the different branches of the Higher Civil Service, including the Home Civil Service (Junior Grade of the Administrative Class, formerly known as Class I. Clerkships), the Foreign Office and Diplomatic Service, the Indian Civil Service, Student Interpreterships in the Far East, Eastern Cadetships, the Levant Consular Service, and the General Consular Service.

The choice of subjects for the examination is so wide that candidates have every opportunity to satisfy their special bent, while taking into account the special requirements of the kind of posts they have in view.

Moreover, the subjects for the examination may be selected in such a way as to allow the ordinary preparation for a first London Degree in Arts, Science, Economics, Commerce or Laws to form the major part of the preparation for the Civil Service Examination.

In particular, those who propose to select their optional subjects (Section B) for the Civil Service Examination mainly under the heads of History, Economics, Politics, Law, Philosophy, or Geography will find that by taking the degree of Bachelor of Science in Economics, or Bachelor of Laws, as students of the London School of Economics and Political Science, they will have nearly covered the ground required, whilst similarly students who propose to take the examination for appointments as Assistant Inspectors of Taxes will find that practically all the subjects in that examination are covered by the curriculum of the B.Com. degree. The normal time for these Degree Courses is three Sessions, and students should then, as a rule, devote one more session, making four sessions in all, to a Civil Service course, in order to complete their preparation.

Special arrangements can, however, be made to suit special cases. Thus exceptional students may find it possible to compete with some hope of success on their degree course alone. Others, particularly those who have already graduated elsewhere, may confine themselves to one or more sessions of special preparation in London for the Civil Service Examination.

Candidates must bear in mind that the examination is competitive, and that the posts to be obtained offer great attractions, in respect of interesting work, good pay and pension, and opportunities for public service. Good natural abilities backed by an adequate special training are essential for success in the examination.

The subjects of examination and marks allotted to each are set out below, with notes as to age limits and special conditions in particular branches of the service. Those subjects which can with advantage be taken by students of the School of Economics, because courses for them are given at the School or are included in the curriculum of degrees for which students may register at the School, are shown in heavy type.

Under the intercollegiate system arrangements can be made for students to take other subjects or attend other courses in the University, whether named in the table or not, on payment of special fees.

Students who pay the Sessional Composition Fee of 30 guineas, covering all the necessary courses given at the School, also receive the advice of an Adviser of Studies. For courses taken elsewhere, additional fees will be charged under the intercollegiate system.

Intending candidates should communicate with the Secretary who will inform them of the times at which they may consult the Adviser of Civil Service Studies as to choice of subjects and courses.

#### Regulations for the Administrative Group of Competitions.

*Section C.*—Subject to the instructions at the head of Section B an *extra numerum* subject may be offered carrying 100 marks. For the Indian Civil Service or for Eastern Cadetships in the Colonial Service this subject may be chosen from the following :—

**General Anthropology.**

**Special Anthropology.**

**An Auxiliary Language.**

For the other services an auxiliary language only may be offered.

The auxiliary language in Section A or Section C will be tested by means of translation from the language. The following languages may be offered :—French (except in the case of candidates for the Foreign Office and Diplomatic Service or for the Consular Services), German (except in the case of candidates for the Foreign Office and Diplomatic Service), Italian, Spanish, Portuguese, Dutch, Norwegian, Swedish, Danish, Russian, Latin, Ancient Greek.

No candidate may offer any language or General Anthropology or Special Anthropology twice in the examination.

No candidate may offer in Sections A and C together two languages of the group Italian, Spanish, Portuguese or two of the group Norwegian, Swedish, Danish.

Only a candidate who takes two modern languages in Section B may offer Latin or Ancient Greek as an auxiliary language.

[Contd.]

\*For the Foreign Office and Diplomatic Service and for the Consular Services this subject carries 250 marks, providing for a higher allowance of marks for the test in conversation.

†For the Foreign Office and Diplomatic Service this subject carries 250 marks, providing for a higher allowance of marks for the test in conversation.

‡These two subjects are for the Indian Civil Service only and may not be taken by candidates for the other services.

Instead of an auxiliary language a candidate for the Indian Civil Service whose mother tongue is an Indian language or a candidate for Eastern Cadetships whose mother tongue is a Ceylonese language may offer as Subject 5 either General Anthropology or Special Anthropology.

In Subjects 50 to 67 the civilization subject associated with a language can only be taken by candidates who offer the language itself for examination in Section B.

A candidate desiring to offer Subject 24 or any of the Subjects 31 to 43 must produce evidence satisfactory to the Commissioners of laboratory training in an institution of university rank. For Astronomy (29), Geography (44), the Physical Anthropology branch of Special Anthropology (46), and Agriculture (47), other equivalent training will be required. There will be no laboratory test as part of the examination.

Candidates for the Foreign Office and Diplomatic Service will be required to reach a high standard of qualification in Subject 54.

Candidates for the Consular Services will be required to reach a high standard in Subject 54. They will be required to take Subject 11 (General Economics), but not to reach a prescribed standard in this subject.

From the marks assigned to candidates in each subject such deduction will be made as the Civil Service Commissioners may deem necessary in order to secure that no credit be allowed for merely superficial knowledge. Moreover, if a candidate's handwriting is not easily legible, a further deduction will, on that account, be made from the total marks otherwise accruing to him; the number of marks deducted for bad handwriting may be considerable.

### 3.—Appointments and Career Advice for Students.

#### UNIVERSITY OF LONDON COMMERCE DEGREE BUREAU AND APPOINTMENTS BOARD.

Students of the London School of Economics who are eligible are invited to make use of the facilities offered by the University Appointments Boards, which assists Graduates, Diploma Holders, and Students proceeding to their Final Degree Examination, to obtain appointments of all kinds. The registration fee covering regular notification of posts and other individual assistance is 5/- for one year, and no other charge is made. The registration may be renewed after the first year on payment of 5/- per annum. The register is open alike to men and to women.

By arrangement with the Senate, the work of the Appointments Board is now amalgamated with that of the University Commerce Degree Bureau, but the Appointments Board continues to be open to Graduates and Diploma Holders, in all Faculties and deals with all classes of openings. In addition to the work of obtaining definite appointments for London Graduates, the Board aims at providing students with up-to-date information concerning the various careers open to them, including all Civil Service and business appointments at home and abroad. There is also a selected library of vocational literature. Students of the School of Economics are at liberty to make use of these information facilities by calling at the Bureau, if notice is given.

Co-operation is maintained between the Bureau and the staff of the School of Economics in assisting students to obtain employment, and those who desire advice or assistance should, in the first place, consult Dr. Stamp at the School and then arrange for an interview with the Secretary of the Bureau, or one of his Assistants, Mr. A. G. Mellor, B.Com. (London School of Economics), or Miss E. A. Rand, B.Sc. (University College).

The educational side of the work of the Bureau is now fully organised, and Advisers of Study, all of whom are Recognised Teachers of the University, guide and assist the studies of External Students preparing for the Commerce Degree Examinations, who

are prevented by residential or other reasons from attending approved courses of Study at recognised Colleges or Institutions. A series of Educational Pamphlets is issued by the Bureau and there is a Lending Library for the use of registered students.

The Prospectus and Supplement giving full information as to the work of the Bureau, on both the employment and the educational sides can be obtained free on application to the Secretary of the Bureau.

## PART X.—The British Library of Political and Economic Science.

*Librarian* : B. M. HEADICAR

1.—*General*.—The "British Library of Political and Economic Science," founded by public subscription in 1896, and maintained by the School of Economics, is open for the free use not only of the students of the School but of all approved readers, in accordance with the rules set out below. There is a separate Lending Library administered by a committee of the Students' Union in co-operation with the Librarian. Its use is confined to students of the School and of the Commerce Degree Bureau.

2.—*Buildings*.—The Library Buildings were completed in 1925 by the addition of a new wing erected partly by the aid of grants from the Carnegie United Kingdom Trustees, the Laura Spelman Rockefeller Trustees, and the Commerce Degree Bureau Fund, and partly from the proceeds of the sale of Dunford House presented to the School by Mr. and Mrs. Cobden-Unwin. They occupy the whole north side of the School site; the entrance is on the ground floor at the north end of the main corridor, reached by turning to the right beyond the entrance hall.

The Library consists of a number of connected reading rooms on the ground, mezzanine, and first floors, and a basement book-store. The room on the right of the entrance now used as a First-Year Reading Room was built in 1900 and till 1921 was the only reading room for all purposes. The other reading rooms have been built at various dates from 1921 to 1925, the latest additions being the Cobden Library of International Commerce and Peace, and the Transport Reading Room in the Corner Building.

3.—*Contents*.—The Library comprises some 750,000 items, including :—

(a) General works of reference, British and foreign.

(b) Standard works, British and foreign, on economics, political science, law and modern history.

(c) A collection of about 250,000 pamphlets and similar materials for research, all classified in accordance with the general scheme.

(d) British parliamentary publications from the end of the eighteenth century to date. These are nearly but not quite complete, the principal lacunæ being between 1865 and 1896.

(e) Parliamentary and official publications of foreign countries and British dominions and colonies. The Library is greatly indebted to certain foreign governments for the manner in which they have presented practically complete sets of official documents not otherwise obtainable in the United Kingdom. The United States Government has made it a library of deposit for congressional documents in London and has presented a set of documents since 1873 as complete as it is possible to make it. The same course has been taken by the Governments of Australia, Canada, India and South Africa. The reports of the North German Confederation and the German Reichstag are included from 1867 to the present day.

(f) Official reports on municipal administration presented by more than 300 municipalities in the United Kingdom, the British colonies and dependencies, France, Germany, Austria, Italy, Holland, Belgium, the United States, and other countries. No similar collection of municipal documents has been made in this country.

(g) Copies of the Chronicles, Memorials, Calendars of state papers, and other publications of the Stationery Office.

(h) Special libraries which have been deposited with the London School of Economics for custody and administration. The most important of these are the Edward Fry Library of International Law and the Schuster Library of Comparative Legislation. Other special libraries so deposited include the collections of the Child Study Society, the Royal Economic Society, and the World Conferences Library.

(i) The Acworth Collection on Transport, containing a large number of reports, textbooks, periodicals, etc., dealing with the administration and economics of railways, shipping, canals, roads, etc. This collection was begun out of funds given by the greater railway companies of this kingdom, and is constantly being added to. In 1910, the late Sir William Acworth generously gave the greater part of his railway library, consisting of more than 5,000 items, to this collection, which is, in all probability, the most important library of transport literature in the United Kingdom.

(j) The Hutchinson collection of works in all languages for, against and about socialism and allied questions. This collection has been acquired partly by gifts of books and other documents and partly by purchase from a fund provided by the trustees of the late Constance Hutchinson.

(k) Other special collections of material illustrating particular subjects or groups of subjects. These special collections are unique, for they have invariably been made by experts. The most valuable and extensive of them consists of the materials collected by Mr. and Mrs. Sidney Webb for their "History of Trade Unionism," "Industrial Democracy," and "English Local Government," and presented by them to the Library. Professor Borgeaud, of the University of Geneva, collected for the Library an extensive set of documents illustrating the working of the Referendum and the Initiative in Switzerland. Professor Graham Wallas made a similar but much more extensive collection, illustrating certain political problems of the United States, and during 1898 Mr. and Mrs. Webb, at the request of the Library Trustees, obtained, in addition to standard works, a large collection of official reports and documents, and other materials bearing upon public administration in the United States and the Australasian Colonies. In 1909 an extensive collection of similar material relating to Canada was obtained by Mr. McKillop, during a visit to the Dominion. There is also a unique collection of posters, orders, food cards, etc., appertaining to the food rationing, war loans and taxation and other emergency legislation in Germany during the war; while the specimens of paper currency in the Library include more than 2,000 examples of local paper money issued during the war in Austria-Hungary.

(l) Manuscript and other collections bequeathed to the Library by the late Lord Farrer, Rev. Henry Solly, Mr. Charles Harrison and others.

(m) A collection of economic works in Japanese amassed by Mr. Sidney Webb during his tour in the East, 1911.

(n) A large collection of books, pamphlets, periodicals, wholesale price lists, etc., relating to the tobacco industry of this country from the seventeenth century.

The Library includes also a representative collection of economic, political, financial and commercial journals and reviews of all countries, and a large and important bibliographical section. This contains the catalogues of libraries (both general and special), readers' guides, general and subject bibliographies and reading lists. Also a large number of special bibliographies and lists of references prepared by the lecturers, library staff and students of the School. These are being constantly added to.

4.—*Catalogues.*—The general catalogue of the Library, arranged by authors, stands just inside the main entrance and gives references to location books, indicating where each book is to be found. Books in the basement book-store are marked "C."; all others are shelved in one or other of the rooms accessible to readers without formalities.

The card catalogue in the drawers of the catalogue desk is arranged

- (a) For ordinary books issued by an author, under the author's surname ;
- (b) For official reports under the name of the state, city, or other corporate body responsible for the publication. For British and other parliamentary papers to which reasonably good catalogues are published, no entries will in general be found in the catalogue, but the necessary catalogues will be found in the gallery of the Cobden Library.

Students desiring information on a subject are recommended to consult the sheaf-catalogue of bibliographies, kept on the catalogue desk in the Cobden Library. All reading lists, bibliographies, lists of authorities, etc., separately published are catalogued therein. The entries are classified alphabetically.

Special and detailed subject indexes to the Acworth, Hutchinson, Edward Fry, and Geography collections have been compiled and are kept with the respective collections. In addition, special subject indexes have been made to all maps and charts in British parliamentary papers since 1850, to matters in these papers relating to Africa, and to the publications of English local government bodies. There is a separate catalogue of all periodical publications received, and the contents of about 150 of the more important of them are regularly indexed as they arrive.

Readers should also consult Wilson's *Cumulative book index (United States catalogue supplement)*, *Readers' guide to periodical literature and International index to periodicals (Readers' guide supplement)* and the *Bulletin of the Public Affairs Information Service*; the *English catalogue of books*, and the *Subject index to periodicals* issued by the Library Association. These are all cumulative publications kept up to date.

*The whole Library has been re-classified according to the scheme of the Library of Congress. A Subject catalogue of the Library is now nearing completion and the first of the four volumes will be published before the end of the year.*

5.—**Arrangement of Reading Rooms.**—On the left of the entrance is the largest reading room known as "The Cobden Library of International Commerce and Peace" (Room 14). It contains on the ground floor general works on Economics, Commerce, and Finance, together with economic periodicals, dictionaries, cyclopædias, the catalogue of the British Museum library, and bibliographies of various kinds. In the gallery are the most recent Parliamentary papers from about 1907 to the present day, the Hutchinson collection of books for

and against Socialism, periodicals dealing with political science, and a collection of biographies. At the south-east end of this gallery is a space set aside for a periodical room in which seventy or more current periodicals are displayed on a rack. The shelves round this room contain a complete set of the Parliamentary Debates.

On the right of the entrance is the main stairway to the gallery and mezzanine floor ; beyond the stairway is the First-Year Reading Room (19), leading to Room 20 containing the Acworth Collection on Transport. By the gallery is the Librarian's Room.

The gallery under the skylight next to the periodical room is set aside for Political and Social Science, including Sociology, Philosophy, and Political Science and Administration. The early British Parliamentary Papers from 1788 to 1844 are also shelved here. Beyond this gallery is the History Room, divided into two (Rooms 24 and 25), so that one end can be used for seminars but is available for readers when not so used.

Immediately above the History Room and connected with it by a spiral staircase is the Law Library (114) containing the Edward Fry Library of International Law and the Schuster Library of Comparative Legislation. During the daytime this room can also be entered from the main corridor on the first floor of the School buildings.

There are separate departmental Libraries for Statistics (119) on the first floor, and for Geography (223) on the second floor. Access to these may be obtained by approved readers, on application being made to the Librarian.

The book-store extends under the greater part of the School buildings. It contains among other things very large collections of official papers relating to all the principal foreign countries and the Dominions, as well as part of the British Parliamentary Papers. It contains also unique pamphlet collections, and long files of periodicals. Part of this basement has been reconstructed so as to provide for research students' reading accommodation, opening upon an inner court of the School.

6.—**Use of the Library.**—In using the Library the needs and convenience of other readers should be considered.

Readers are at liberty to take books shelved in any of the reading rooms into any of the other connected reading rooms. Books when finished with should be closed and left upon the tables in the room to which they belong. They must not be returned to the shelves.

The Library is for reference only and books may not in any circumstances be removed from it. Library books may not be taken either from or to the departmental rooms for statistics or geography without previous permission from the assistant in charge in each case.

Attaché cases, handbags, umbrellas, and similar impedimenta may not be taken into the Library. They can be deposited in the cloak rooms or left at the owner's risk on a rack at the entrance to the Library.

A limited number of lockers in the Library are available for students at a small fee, for keeping papers and their own books.

## ii.—LONDON SCHOOL OF ECONOMICS GUILD OF GRADUATES.

*Affiliated to the XXth Century Society of London Graduates.*

The XXth Century Society of London Graduates was formed early in 1924 with the primary object of encouraging younger Graduates to take an active interest in the government of the University and to take an effective part in the business of Convocation and in the election of the Convocation representatives on the Senate of the University. Other declared aims of the Society are to maintain contact with the University of London Union Society and the Collegiate Unions and to assist in welding the *esprit de corps* of the individual Colleges, Schools and Institutions, into a common University spirit, and in particular to increase the influence of the University as a factor in the public life of London and of the Empire.

As a result of this movement a School Guild of Graduates was formed in April, 1924, and affiliated to the XXth Century Society.

Membership of the Guild is open to all graduates of the University of London who have been regular students of the School for not less than one Session, and to past or present members of the regular teaching or administrative staff of the School who are members of Convocation.

Associate membership is open to members of the Professorial Council, regular members of the Teaching and Administrative Staffs of the School who are graduates of other Universities, and to graduates of the University of London who are, or have been, students of the School.

The subscription is 3s. 6d. per annum, or 35s. for life for full members, and includes membership of the XXth Century Society. The annual subscription for associate members of the Guild is 1s. Applications and enquiries should be addressed to the Secretary, Guild of Graduates, London School of Economics.

## iii.—OLD STUDENTS' ASSOCIATION.

OFFICERS FOR THE YEAR 1928-29.

<i>Chairman</i>	.. .. .	.. ..	Professor T. E. GREGORY.
<i>Representative of the Old Students' Association on the Board of Governors</i>	.. .. .	.. ..	Mr. E. T. RHYMER.
<i>Honorary Secretary and Treasurer</i>	.. .. .	.. ..	Mr. A. P. HUGHES.
<i>Honorary Assistant Secretary</i>	.. .. .	.. ..	Mrs. N. M. SKENE SMITH.

The Old Students' Association is open to all students who have been members of the Students' Union for at least one session. A dinner is held at the end of each term, and members are given the privilege of using the School Buildings, and of attending the Students' Union meetings. *The Clare Market Review* is sent to country and overseas members free of charge. The annual subscription is 5s. and the life subscription £2 2s. Enquiries should be addressed to the Honorary Secretary and Treasurer at the School.

### Social Science Group.

<i>President</i>	.. .. .	.. ..	Mr. C. M. LLOYD.
<i>Chairman</i>	.. .. .	.. ..	Miss M. L. HASKINS.
<i>Vice-Chairman</i>	.. .. .	.. ..	Miss E. V. ECKHARD.
<i>Hon. Secretary and Treasurer</i>	.. .. .	.. ..	Mrs. L. TURIN.

The Social Science Group is affiliated to the Old Students' Association and its members enjoy Old Students' Association privileges. The Group holds Social Gatherings and Lectures on Social problems, and endeavours to promote mutual assistance in their work among members. Full particulars can be obtained from the Honorary Secretary and Treasurer.

#### iv.—RESEARCH STUDENTS' ASSOCIATION.

Membership of the Research Students' Association is open to all students undertaking post-graduate work at the School, either for higher degrees or otherwise. It is often difficult for the research student to participate in the life of the School as freely as he would desire. His undergraduate days have usually been spent elsewhere, while the nature of his work and the scattered materials of his study often render regular attendance at the School impossible.

It is the object of the Association to overcome these difficulties, and to enable research students to take advantage of the many social and intellectual facilities offered by the School. A committee is responsible for a Common Room (on the fourth floor of the main building), which is always open, and in which tea is served every Thursday. Meetings, at which outside speakers are present, are held from time to time, and "week-ends" and walks arranged. In the past the need has long been felt for a recognised place in which research students could meet, and where experiences could be compared and common problems discussed. This want has been supplied, and at least one group for the discussion of problems of interest to advanced students in cognate fields has already been formed.

Adjoining the Common Room, there is also a Research Reading Room in which, for a nominal sum, desks with filing cupboards may be reserved for the year. Applications for these desks should be addressed to the Secretary of the School.

The Association is always glad to welcome graduates from other Universities who are temporarily resident in London.

On the first two Thursdays in the Michaelmas term the Secretary and members of the Committee will be present at tea for the purpose of meeting new members and introducing them to other students. Further information can be obtained by letter addressed to the Secretary, at the School.

#### v.—THE ECONOMIC CLUB.

The Economic Club, founded in 1890, now meets at the School for reading and discussion of papers on the second Tuesday in each month at 8 p.m. The meeting is usually preceded by a dinner in the Refectory at 7.30 p.m. The President of the Club for the session 1928-29 was the late Professor Allyn A. Young, and the Honorary Secretaries are Mrs. J. St. H. Lander, 14, Harley Gardens, The Boltons, S.W.10, and J. R. Hicks, Esq., London School of Economics. The Club is managed by a Committee which is empowered to elect members, such members being persons who "can furnish satisfactory evidence of economic training."

#### vi.—THE COMMERCE SOCIETY.

*President:* SIR WILLIAM J. LARKE, K.B.E.

The chief object of the Commerce Society is to study and discuss matters of commercial interest.

In the pursuit of this object the Society organises meetings, averaging three a term, which are addressed by eminent men of affairs. Recent visitors include Sir Samuel Instone, Sir Edwin Stockton, F. W. Goodenough, Esq. and W. H. Coates, Esq.

An Annual Re-union Dinner, which is held in March of each year, affords to Graduates a valuable and much prized opportunity to maintain their association with the School and with each other.

Membership is confined to Graduates and Undergraduates registered at the School and any other students of the School who can satisfy the Committee that they have sufficient interest in commercial subjects to warrant their admission to the Society.

The Society maintains a Graduate Register which is issued annually.

## vii.—SOCIOLOGY CLUB.

The Sociology Club was founded in 1923. It meets at the School for the discussion of papers twice each term, usually on a Wednesday at 8.15 p.m. The meetings are preceded by a dinner in the refectory at 7 p.m. The President of the Club is Professor Graham Wallas and the Hon. Secretary, Dr. Morris Ginsberg. Membership is at present limited to forty-five members resident in the London Metropolitan District, and twenty non-resident. New members are elected by the Club on the nomination of the Executive by a majority vote.

## 2.—Officers' Training Corps.

The School has a separate Company—"E" Company—in the University of London Officers' Training Corps, a social organisation which unites the whole University.

MEMBERSHIP.—Admission is open to students who are British subjects of pure European descent and are either matriculated members of the University of London, or non-matriculated students pursuing a regular course in the School. The following may be mentioned as amongst the benefits which follow admission :—

- (a) A Summer Camp, usually on the South Coast.
- (b) A Whitsun Camp at Princes Risborough for the purpose of rifle shooting on the ranges.
- (c) An active Rifle Club which trains those who are interested in shooting and encourages them to enter for inter-collegiate and inter-varsity competitions.
- (d) Membership involves no financial outlay whatsoever. The cost of uniform and equipment and the expenses of Camps and Field Days are not borne by the members.
- (e) Membership involves no military obligations of any kind.
- (f) Members are encouraged to enter for the examinations for Certificates "A" and "B," the possession of which qualifies them for many vocations which would otherwise be closed to them. These Certificates are usually secured without difficulty by those who attend the weekly parades and the annual camps.

ENROLMENT.—For further particulars and for enrolment enquire at the Orderly Room.

### 3.—Office Machinery Room.

Room 215 contains a selection of machines and appliances useful in connection with modern office work. This room is open to all students of the School and to members of the public at stated times during Term.

A Demonstrator is in attendance when the room is open. Students desirous of obtaining special facilities to learn how to manipulate individual machines should apply to Professor de Paula or Professor Dicksee for a permit.

All B.Com. Students not exempted from Accounting should make themselves familiar with the contents of this room before presenting themselves for their Final Examination.

#### PUBLIC LECTURES.

A series of Public Lectures on the use of Office Machines has been arranged in co-operation with the Office Machinery Users' Association. Details of these lectures, which will be held on Wednesdays at 6 p.m., will be found on p. 80.

### 4.—Publications.

#### i.—“ECONOMICA.”

The London School of Economics and Political Science publishes terminally a Journal devoted to research in all branches of the social sciences—economics and economic history, politics and public administration, international relations, law, sociology, anthropology, social biology, etc. The Journal is under the supervision of an editorial board consisting of Sir William Beveridge, Professor T. E. Gregory and Professor H. J. Laski. Mr. G. L. Schwartz is Assistant Editor. A large section is devoted to reviews of current literature in the social sciences. An annual feature is the publication, in the summer number, of a list of theses in economics and allied subjects, in preparation in the various universities of Great Britain and Northern Ireland. The need for some co-ordination in this matter had long been apparent, in order to prevent overlapping and to assist students in similar fields to know one another.

While “Economica” is issued primarily to enable the public to become acquainted with the results of investigations and other work by the staff and students (past and present) of the London School of Economics, offers of contributions of a similar kind from other sources will be welcomed. No financial remuneration can be given, but reprints of their articles are offered to contributors.

The price of “Economica” is 2s. 6d. per number or 7s. 6d. per annum post free. Back numbers can be supplied at the usual price, except No. 2, for which the charge is 5s., and No. 1, which is out of print; second-hand copies of No. 1, which become available from time to time at the price of 25s., are supplied in rotation to those who order them.

Subscriptions and editorial communications should be addressed to the Assistant Editor, “Economica,” London School of Economics, Houghton Street, W.C.2.

### A Review of Economic Theory

By EDWIN CANNAN, EMERITUS PROFESSOR OF POLITICAL ECONOMY IN THE UNIVERSITY OF LONDON.

Demy 8vo. 460 pp. Cloth 16s.

In this book Professor Cannan has been faithful to the principle which he followed at the London School of Economics—the principle that general economic theory can best be made intelligible by following its development from its simplest beginnings. The story told in his “Theories of Production and Distribution” is now retold, but in a much shorter form, so that room is found not only for starting the history of these theories at their birth and carrying it down to the present time, but also for a similar history of the theory of value, and for a chapter on “Aspirations and Tendencies” in which the drift of economic progress is discussed.

### A History of French Colonial Policy (1870-1925)

By STEPHEN H. ROBERTS, M.A., PROFESSOR OF HISTORY, UNIVERSITY OF SYDNEY.

2 Vols. Royal 8vo. 760 pp. and 25 Maps. 42s.

This book contains an historical account of the development of the French colonies, and a thoughtful analysis of the successive policies that France has adopted in regard to them. It deals not merely with political relationship and the machinery of administration, but with economic policy and native policy as well, and, of equal importance, with the right co-ordination of all these. A very full biography and many maps are also included.
