* The Registration Counties consist of groups of Registration Districts, which are generally co-extensive with the Poor Law Unions. A District which extends into two or more Geographical Counties is included entirely in that Registration County in which the principal town of the District, or the greater part of the population, is located. The boundaries of the Registration Counties differ therefore more or less from the boundaries of the Geographical Counties. For areas and populations of the Registration Divisions and Counties, see pages 64-67.

* The 632 Registration Districts (Paddington 1a and Holyhead 630b having been constituted Registration Districts since the numerical arrangement 1 to 630 was adopted on 1st January 1881) are collections of contiguous Parishes or Places combined for purposes connected with the Registration of Births, Deaths, and Marriages, and are nearly always identical with the Poor Law Unions of the same names; they are arranged, according to the local position, under the Registration Counties. The Registration Sub-districts (2124 in number at the end of the year 1890) are sub-divisions of Registration Districts, within which the Births and Deaths are registered by Registrars severally appointed for that purpose. The letter W denotes that the Sub-district contains within its limits a Workhouse Establishment belonging to the District or Union; w indicates that a Workhouse Establishment receiving inmates from other Districts than the one in which it stands is included; H indicates a Hospital or Infirmary; L a Lunatic Asylum; and repetitions of these letters show the number of such Institutions in each Registration sub-district.

† The Deaths in the principal Institutions in England in 1890 are given on pages 71-94.
‡ 3: 1, 2, 3.—On 1st Oct. 1890 the Registration District of Chelsea was re-divided into three districts as follows: the detached part of Chelsea parish situated at Kensal Green to form the Chelsea Kensal Town sub-district; and the portions to the north and south respectively of the middle of King's Road to form Chelsea North and Chelsea South sub-districts. See Table 57, pp. lxxv-lxxvi.

DEATHS IN WORKHOUSES, HOSPITALS, AND PUBLIC LUNATIC ASYLUMS. 1890.

THE following Table shows the numbers of deaths (Persons, Males, and Females) registered during 1890 in the Workhouses, Hospitals, and Public Lunatic Asylums of England. These figures afford the means of correcting the mortality of districts and sub-districts in which these Institutions are situated. The Table includes 1838 Institutions; of which 741 are Workhouses, Workhouse Infirmaries, or Workhouse Schools; 1007 Hospitals or Infirmaries; and 90 Lunatic Asylums. The Lunatic Asylums are mostly County Asylums, but a few private Asylums which receive pauper patients (held on that account to be public for the purposes of this Table) are also included. In these 1838 Institutions 65,161 deaths were registered during the year, or 11.6 per cent. of the total deaths in England and Wales, against 11.4 and 11.2 per cent. in the two preceding years; 39,346 occurred in Workhouses, 19,655 in Hospitals, and 6160 in Lunatic Asylums. The proportion to total deaths was 7.0 per cent. in Workhouses, 3.5 in Hospitals, and 1.1 in Lunatic Asylums. The proportion of deaths recorded in Workhouses, which had been 6.9 and 6.6 per cent. in 1888 and 1889, rose again to 7.0 per cent. in 1890.

Information relating to the deaths recorded in many Private Lunatic Asylums, Private Asylums for Idiots and Imbeciles, and in a few other institutions, will be found in the notes to the following pages.

* In this classification of Violent Deaths the totals of the sub-divisions Burns, Scalds, &c., Drowning, and Suffocation, necessarily differ from the totals of the headings bearing similar names in the classification of Causes of Death on pp. 120, 121, as the classification here takes account of the cause of the injury, and there only of the nature of the injury.

INDEX OF REGISTRATION DISTRICTS.

The following Index furnishes a reference to the *Number* of each REGISTRATION DISTRICT in the topographical arrangement adopted in the Tables of Abstracts contained in the Report.* The alphabetical arrangement places compound names in the order in which they are pronounced: thus, East Ashford will be found under the letter E, and *not* under A.

In consequence of numerous alterations (amalgamations of districts and formations of new districts) since the numerical arrangement, 1 to 623, was adopted in the Abstracts for the year 1847, the districts were re-numbered consecutively from 1 to 630 in the Abstracts for the year 1881. Since that date two new Registration Districts have been formed, the District of Kensington (1) having been divided into Paddington (1a) and Kensington (1b), and the District of Anglesey (630) into Anglesey (630a) and Holyhead (630b).

For names of Towns, such as *Leamington, Torquay, &c.*, which are not found in this "Index of Registration Districts," see the "Index of Registration Sub-districts" (pp. 208-217) and "Index of certain Towns" (pp. 218, 219).

INDEX OF REGISTRATION SUB-DISTRICTS.

[This alphabetical arrangement places the Registration Sub-Districts (or Registrars' Districts) having compound names in the order indicated by the usual pronunciation of those names; thus, East Grinstead will be found under the letter E, and not under G; St. James under the letter S, and not as "James, St." The number against each Sub-District, in the third column, refers to its numerical place in the Tables of Abstracts; thus, Abbey Holme (573; 2) is the 2d Sub-District of the Wigton District, No. 573.]

Table with 9 columns: SUB-DISTRICT, DISTRICT, No., SUB-DISTRICT, DISTRICT, No., SUB-DISTRICT, DISTRICT, No. Includes entries for A and B.
