MARRIAGES.

No. 13.—The number of marriages solemnized during the half-year, 1st January to 30th June, 1904, was 3,193. Friday was again regarded as the unpropitious day for the solemnization of the marriage ceremony, as out of 6,193 marriages during the half-year, 196 of the whole took place on that day. Tuesdays were most frequently selected, 34.4 per cent. occurring then, Mondays coming next with a percentage of 34.2, while 930 happened on Wednesdays, 405 on Thursdays, 227 on Saturdays, and 294 on Sundays. One day is credited with two marriages only. The highest number, namely 132, on the contrary is recorded against the 5th April, with 111 on the 3rd May. The largest number in a full week was 350, in the seven days ended the 9th April, and the lowest 178, in January. In 5,374 cases banns were called by Ministers of Religion or by Resident Magistrates, the remaining instances, 819, being by licence. The number of marriages before Protestant Clergymen was 5,360, before Roman Catholic 155, and before Jewish 53, while 601 (or 9.7 per cent.) were dealt with by Magistrates under the provisions of Act No. 16 of 1860. The majority of the parties wedded belonged to the Dutch Reformed Church, the number of marriages being 1,790. The Church of England follows next with 1,216 cases, which was 372 in advance of the Wesleyan Church, while London Missionary Society and Independents combined show 632 marriages. In point of Education, 31.86 per cent. of the wives, and 32.13 per cent. of the husbands, could not write their names. It appears that in 395 cases widowers married spinsters, in 196 cases bachelors married widows, and in 188 cases widowers married widows. There were 32 cases relating to divorced wives or husbands.

REVENUE 1ST JANUARY TO 30TH JUNE, 1904.

Arranging the districts according to the amount of the collections on account of Births and Deaths Registration in each, it is found that they take the following order:

Total, £214 1s. 6d.

The Municipal Records of Births and Deaths kept prior to the 1st January, 1895, and the Voluntary Births Registration Books are preserved in the fireproof safe of the Central Office, where £21 was collected. The total revenue for the half-year was therefore £235 1s. 6d.

The fee for alteration or assignment of a child's christian name is 2s. 6d.; for a search, 1s. for each year or part of a year; for a certificate, 5s.—all payable in revenue stamps. If a certificate is authenticated by the Under Colonial Secretary, that officer charges a fee of 15s. in addition. It should be noted the Bank of England insists upon authentications.

The Revenue derived from certified copies of duplicate original and R.M.'s MARRIAGE REGISTERS was £57 12s. for the same period.

REMARKS.

In compliance with instructions issued in June, 1904, by the Prime Minister's Department, to the effect that all reports for presentation to Parliament were to be framed to cover the period 1st January to 30th June, 1904, and thereafter for the Financial Year (1st July to 30th June), instead of the Calendar Year, as hitherto, it has been found impracticable to publish any comparative results with previous years' summaries, as the data on which these tabular statements are framed cover the period from 1st October, 1903, to 30th June, 1904. The previous tabular report, G 85-1904, was for the 12 months, 1st October, 1902, to 30th September, 1903.

A. J. BRINTON,
Acting Registrar-General.
