Notes.—Source—Board of Trade.

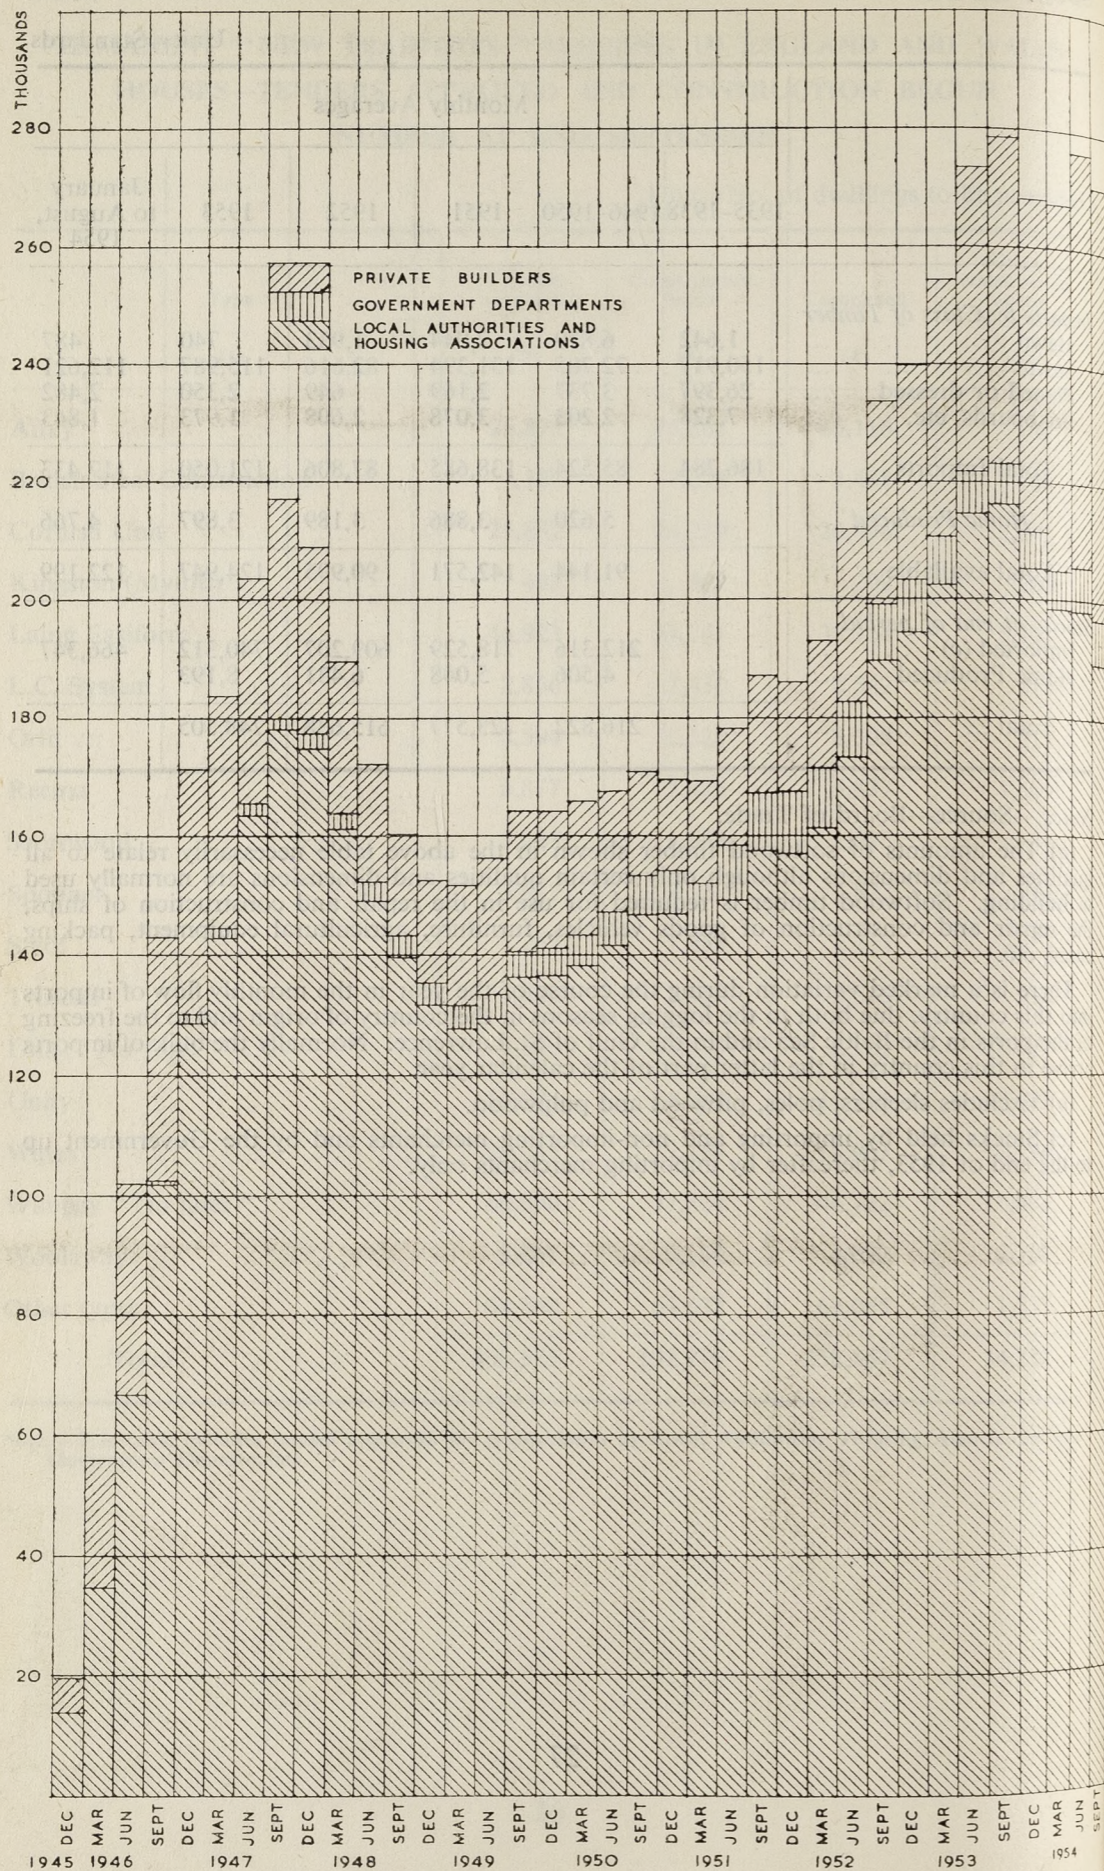

(a) The amounts of softwood timber shown in the above table necessarily relate to all qualities and dimensions although only certain qualities and dimensions are normally used in building. Softwood timber is required for use in the repair and construction of ships, the repair and construction of goods vehicles, furniture, agricultural equipment, packing cases, etc.

There is a marked variation during the course of the year in the monthly flow of imports into this country, due both to the logging seasons in the country of origin and to the freezing of the ports in the Baltic Sea and in the Gulf of St. Lawrence. Normally the bulk of imports arrive in this country in the latter part of the calendar year.

(b) Excludes sleepers, poles, pitwood and pulpwood.

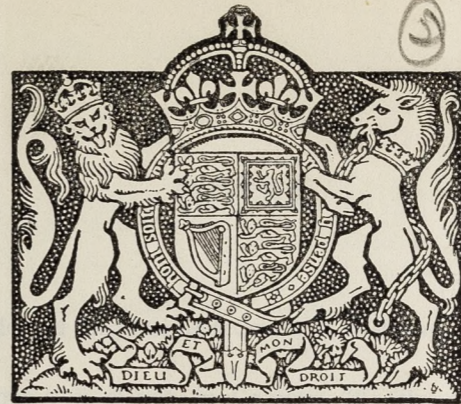

(c) Stocks held by importing and non-importing merchants and by the Government up to the end of 1953, thereafter by importing merchants only.

NOTES

1. An alphabetical index of Regions and Counties is shown on page 86.
2. The estimated population shown in Column (8) relates to 30th June, 1953, and includes members of the Armed Forces.
3. The figures given in this Appendix relate to the period from 1st April, 1945, and have been based on Progress Reports received from Local Authorities and New Towns Development Corporations up to 30th September, 1954, inclusive. The progress of Development Corporations is recorded under the counties in which they are situated.
4. Houses shown as being under construction or completed are included in the number of houses on tenders approved or on licences and approvals issued; otherwise, figures in each column are not included in any other column.
5. The data shown for each Metropolitan Borough excludes housing provision made by the London County Council.
6. The numbers of houses on licences issued or approved under Section 94 of the Housing Act, 1936 (as amended by Section 8 of the Housing (Financial Provisions) Act, 1938), under construction and completed by Housing Associations are included in Columns (3), (4) and (5) respectively. The numbers of such houses included in Columns (3), (4) and (5) are shown separately for each Local Authority concerned in a Table at the end of this Return.
7. The total number of dwellings on licences and approvals issued (Column (10)) relates both to new dwellings and to rebuilt war destroyed dwellings. Approvals for the erection of new dwellings include those built under the Housing (Financial Provisions) Act, 1938 (Section 3), and houses approved before 1st February, 1947, on which the work was done without valuable consideration.

The total number of dwellings shown in Column (10) takes into account licences and approvals reported as having lapsed.
8. The number of houses on licences issued at the request of New Towns Corporations for erection for private owners in the New Towns are included in Column (10) against the name of the Local Authority or Authorities in whose area the New Town is situated. The number of such houses is shown separately, in italics, in Column (10) against the name of the New Town.
9. Where Local Authorities' areas have been affected by an alteration of boundaries the figures for the Authorities concerned take account of any post-war house-building in the area transferred.

In this issue the figures for those Authorities marked § embody some adjustments resulting from a recent change of boundaries.

Notes.—Source—Board of Trade.

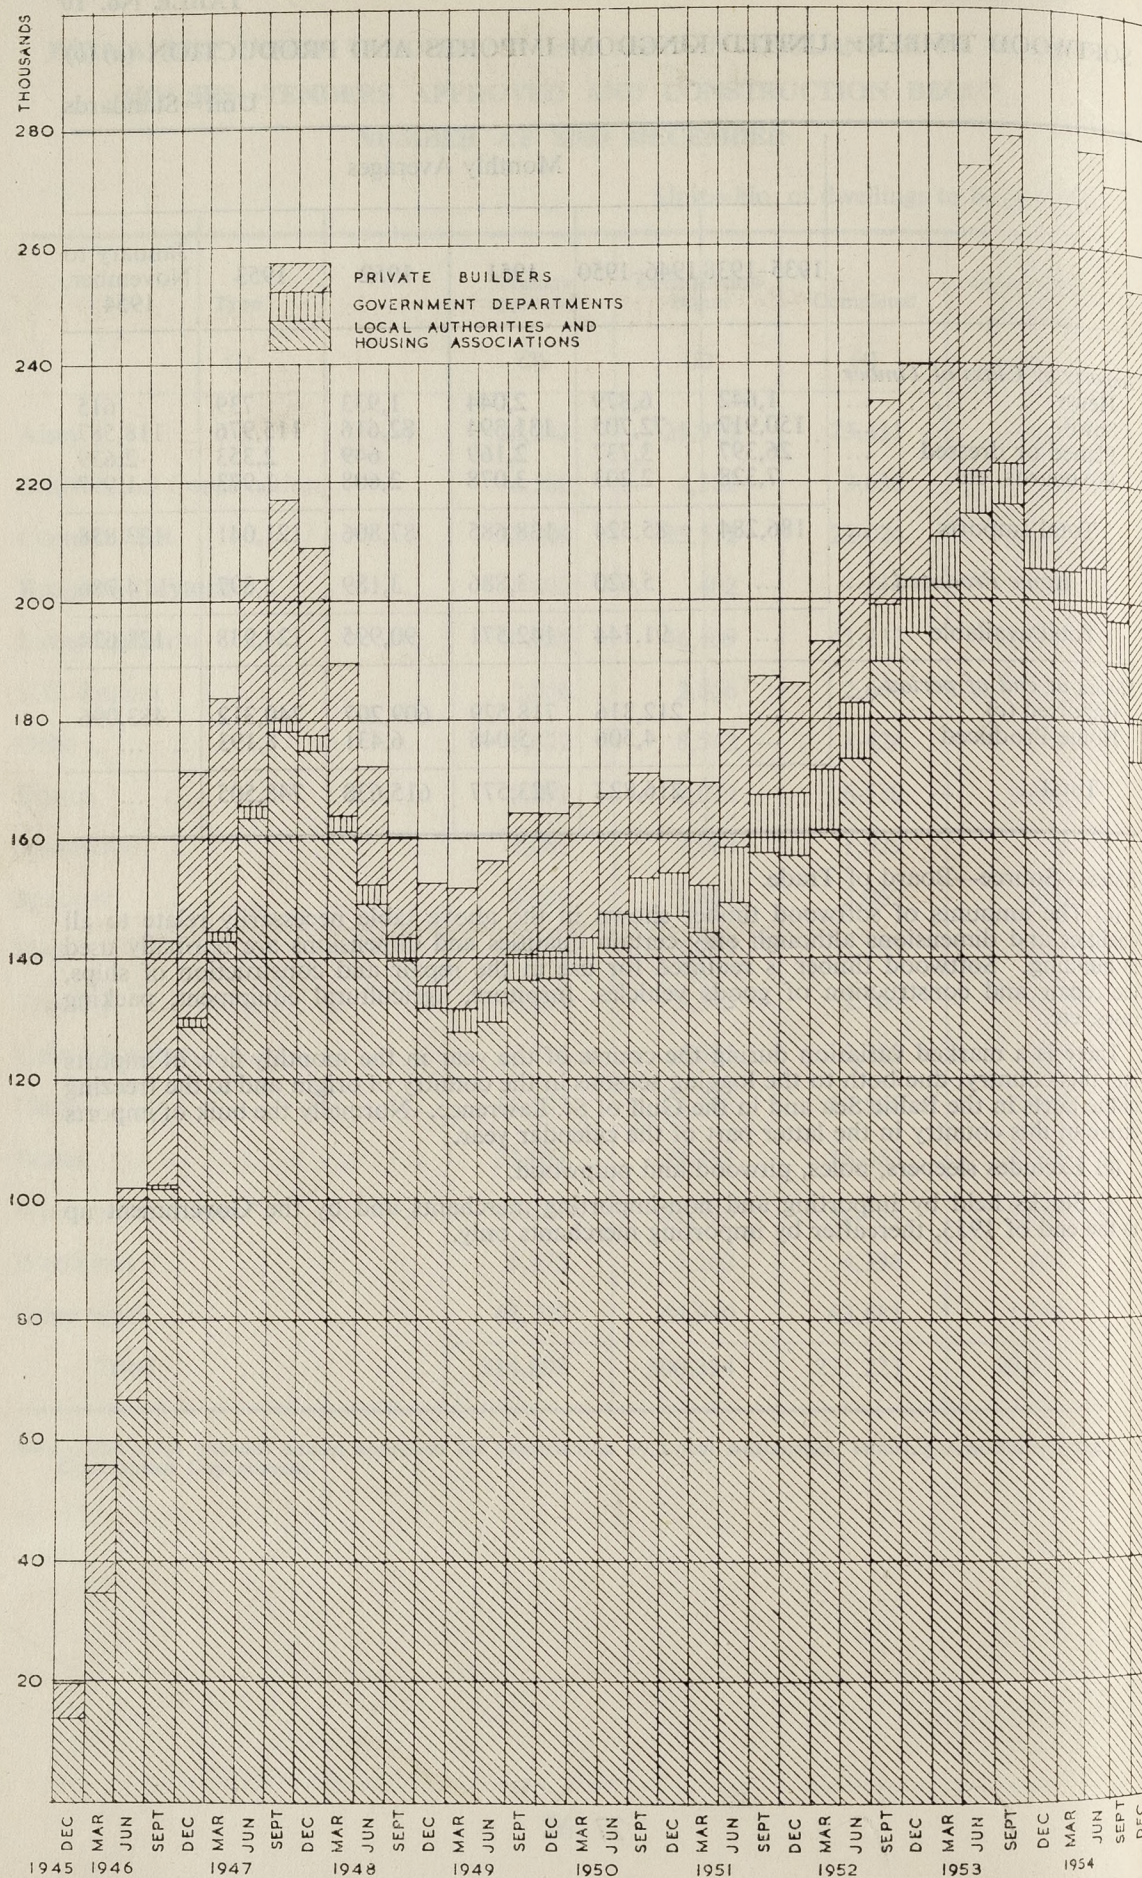

(a) The amounts of softwood timber shown in the above table necessarily relate to all qualities and dimensions although only certain qualities and dimensions are normally used in building. Softwood timber is required for use in the repair and construction of ships, the repair and construction of goods vehicles, furniture, agricultural equipment, packing cases, etc.

There is a marked variation during the course of the year in the monthly flow of imports into this country, due both to the logging seasons in the country of origin and to the freezing of the ports in the Baltic Sea and in the Gulf of St. Lawrence. Normally the bulk of imports arrive in this country in the latter part of the calendar year.

(b) Excludes sleepers, poles, pitwood and pulpwood.

(c) Stocks held by importing and non-importing merchants and by the Government up to the end of 1953, thereafter by importing merchants only.

(Cmd. 9367) 1s. 3d. (by post 1s. 4½d.)

NOTES

1. An alphabetical index of Regions and Counties is shown on page 86.
2. The estimated population shown in Column (8) relates to 30th June, 1953, and includes members of the Armed Forces.
3. The figures given in this Appendix relate to the period from 1st April, 1945, and have been based on Progress Reports received from Local Authorities and New Towns Development Corporations up to 31st December, 1954, inclusive. The progress of Development Corporations is recorded under the counties in which they are situated.
4. Houses shown as being under construction or completed are included in the number of houses on tenders approved or on licences and approvals issued; otherwise, figures in each column are not included in any other column.
5. The data shown for each Metropolitan Borough excludes housing provision made by the London County Council.
6. The numbers of houses on licences issued or approved under Section 94 of the Housing Act, 1936 (as amended by Section 8 of the Housing (Financial Provisions) Act, 1938), under construction and completed by Housing Associations are included in Columns (3), (4) and (5) respectively. The numbers of such houses included in Columns (3), (4) and (5) are shown separately for each Local Authority concerned in a Table at the end of this Return.
7. The total number of dwellings on licences and approvals issued (Column (10)) includes licences issued up to 10th November, 1954, and relates both to new dwellings and to rebuilt war destroyed dwellings. Approvals for the erection of new dwellings include those built under the Housing (Financial Provisions) Act, 1938 (Section 3), and houses approved before 1st February, 1947, on which the work was done without valuable consideration.
The total number of dwellings shown in Column (10) takes into account licences and approvals reported as having lapsed.
