New Year Day.

After a fortnight of hard thinking, 4 days  
 & 4 nights, I built to U.S.S.R., between my heavy Philosophy  
 journals & 1929<sup>ed</sup>, ~~the~~ journals & 1935 ~~into~~  
 in what I believe is the U.S.A. - the historical view,  
 the part ~~of~~ the end of an era, which is  
 a view ~~of~~ for a long time. This view  
 of 2000 years, had to be my long philosophical about  
 internal relation, as I had to justify the re-  
 -formation of a glorious account of the internal of nature  
 of the U.S.S.R. not an easy task, even to present-  
 circumstances. Yesterday I put it to Allen & then  
~~presented~~ <sup>the</sup> to English edition, containing, I  
 assume to British <sup>in 2 vols</sup> ways, with one or two  
 pages contained - ~~was~~ Albert Einstein? I  
 note this small ~~but~~ <sup>my writing is</sup> ~~is~~ is to one  
 short of light, on the Jordan's time ~~so far~~ in  
 as thoughts & feelings about the world we live  
 in, but has happened since our marriage in 1892.  
 We ourselves have little to complain of: we live  
 in the most comfortable of homes, well looked after,

2 Tho' he may become stigmatized in circumstances  
near to the end of life, to tremble about it.

It is the strain on our middle aged relations &  
friends, the bewildered hopelessness of the young men  
called up, & the hideousness of war & its  
glorifications which comes on to us &  
to press - on a day of mourning to will  
to win that Darwin to outwork for the  
whole 'human race. Is Homo Sapiens  
a helpless failure - or is the obvious  
break-down of Western civilization - the inevitable  
tragedy of the Christian faith, Capitalism,  
& Political Democracy, a mere episode in the  
madness of man to a happy vigorous present

De Toqueville during his last illness took refuge in  
 to N.C. of which he had less conventional morality but  
 not a belief - owing to unbelief in God - as a  
 type of super-naturalism. His main dream was his  
 to find out if the political democracy was inevitable  
 & working in its trail the demand for economic  
equality. Could this communism be achieved by  
 gradual evolution or was violent revolution, with its  
 distortions of the truth & the expression of its spirit  
 & personal invention? was the question raised.

it all seems so dead & useless. Certainly it

 It is Versailles was again: with

 have fought on a revised & united basis.

~~As if it is Germany had put Russia  
 on her side - not Italy on her side;  
 & it is clear to every one of France - her

## I Believe

A BOOK OF LIVING PHILOSOPHIES

*Med. 8vo. About 15s.*

Here we have, speaking directly and frankly to the reader, the voices of more than a score of the eminent men and women of our time. Here are the intellectual last wills and testaments, professions of faith or unfaith, of philosophers, physicists, biologists, historians, economists, poets, novelists, humorists. They have nothing in common except that they are all world-renowned, that each is a leader in his or her own calling and generation and that all are possessed of an ultimate faith in human intelligence.

In these days, when the shadow of unreason has fallen upon the world, these living philosophies have therefore a special importance. Implicit in them is the whole of our tradition of rational thought—a tradition which to-day is threatened with destruction, which has in fact already been destroyed, in some parts of the world. As Einstein, in a statement to be found in this book, has put it: "confidence in the stability, yes, even the very basis of existence, of human society has largely vanished. One senses not only a threat to man's cultural heritage, but also that a lower value is placed upon all that one would like to see defended at all costs."

It is well, therefore, that in these times we should be reminded of the tradition for which we say we are struggling. This collection of credos is not set out that readers may choose from among them, but rather that they may share the fundamental faith in freedom and intelligence that is the inspiration of them all.

The authors are: H. G. Wells, Bertrand Russell, Lancelot Hogben, E. M. Forster, Julian Huxley, Beatrice Webb, H. J. Laski, Rebecca West, W. H. Auden, Emil Ludwig, Thomas Mann, Jules Romains, Jacques Maritain, Sir Arthur Keith, Albert Einstein, Pearl Buck, Stuart Chase, Lin Yutang, Hendrik Van Loon, James Thurber, J. B. S. Haldane.

## Apostle of Charity

THE LIFE OF SAINT VINCENT DE PAUL

by Theodore Maynard

*La. Cr. 8vo. About 8s. 6d.*

An astonishing story of a seventeenth-century French peasant who became a priest, then was captured as a slave by Barbary pirates, to escape two years later to find a career as an organiser of charity. In a patched cassock St. Vincent de Paul moved in the highest circles of French society, but solely to inspire the nobles with a love for the poor. As his main instrument of service he devised—what seemed an impossible innovation—an order of women who should not be nuns, but whose cloister was wherever poverty called them. These were the sisters of charity.

It was the age of Richelieu and Mazarin, when a cynical worldliness rubbed shoulders with mysticism and sanctity. Vincent de Paul was, however, in no sense narrowly French, but with supreme skill laid down the lines still followed by charity organisations everywhere. This makes the book peculiarly timely, though the extraordinary personality of Vincent is timeless.

Theodore Maynard's life of St. Vincent de Paul is the first to be written in English that makes use of the enormous documentation only recently sifted and evaluated; is unique in its field, a work at once of humanity and beauty, as well as one of deep social significance. *April*

## The Man from Heaven

by Alfred Cope Garrett

*La. Cr. 8vo. 8s. 6d.*

*The Man from Heaven* is a simpler and more complete life of Christ than many that have recently appeared, a restatement of the subject embodying the results of the latest scholarship, and yet designed for the general reader. The author is a scholar who possesses literary grace, and he handles old material with refreshing charm. He has visited Palestine and is thus able to enrich the narrative with delightful descriptions. It is a masterly essay in creative historical interpretation. The author's aim is

to give a series of detail—

Meeting of Lloyd to Chimen Anderson for the  
 couple of hours yesterday afternoon. He is excellent, steady

 illusions or particular ~~ambitions~~ <sup>ambitions</sup> ~~in life~~. He said he  
 creed a social hyphen.

had made all arrangements for Steffens visit to his headquarters.  
 In Stuttgart my nephew a very able man of his character  
 failed to be a bond of union with the Reichswehr who  
 were genuine Christians. He was confident that the  
 Reichswehr were loyal & eventually would have to give up  
 their attempt to dominate the German people. The New  
 Army was entering loyally into the Reichswehr, & the  
 presents were being, co-opting minds. When  
 Mischke was out of the room, he observed that the  
 USA had lost reputation by its invasion of  
 Finland & its "trick" in man so into the German  
 & foreign world, that with the Communists, who had  
 done nothing to disturb the situation & <sup>deserted the</sup> <sup>social cause</sup>

Mischke was quietly self-confident. The war  
 would end "in a draw or a revolution" in  
 Germany & France & Germany, a 1st Division. Without  
 the sacrifice of millions of men & the smashing  
 of the old order of Europe, the Allies never could  
 have <sup>been</sup> <sup>saved</sup> Germany; her position would become  
 stronger & not weaker as the way was - there was

Industrial Democracy, published 1928,  
of its structure, activities & its economic character & field  
of activity? ~~Industrial Democracy 1928.~~

Further there is the development of Trade Unions, alike in  
its internal structure, & its relation to the life of the  
country, since the attainment of our social ~~ideals~~ has  
to be considered before one finds judgment of Trade Unions  
under its Capitalist philosophy, considering its place  
& its limitations. The limitations of Trade Unions

as a result way of social uplift, will  
have to find ~~the~~ section of the chapter.

The industrial Democracy of the present, by its  
very nature is a <sup>restricted</sup> minority of  
the individuals; it excludes the infant, the child, the  
woman, the aged, the sick, the mentally & physically  
& the aged. Moreover it tends to be sectional (refers).

It interests a minority of particular groups of persons; <sup>of the type of common class</sup>  
the transaction of money, of the specialists, the Scientist &  
artists, of the acquisition of leisure - sports, games &  
other form of pleasure & recreation. Hence its exclusiveness <sup>is a highlight.</sup>

Moreover it has to be complementary of  
voluntary work of employers & subordinates to compulsory  
essence of adult citizen. In <sup>the</sup> economic changes  
with the two supreme factors of productivity & surplus plus

was seen a - subordination of other Purge Plans,

 aspect of political Democracy, the compulsory ...

The leading feature of the Labour Section was the acceptance of Capitalist profit making, ~~and the~~ for the time of course, as to Domestic matters of industry ~~industry~~ the production, Distribution & exchange of commodities & services.

The outstanding fact will appear in the final stage of the Programme: all the institutions described in Part one - the Consumer Co-operative Movement, the T. & A. Movement, the Labour Co-operative Movement, <sup>which would serve to</sup> & even the legislation regarding, been taken up by Labour & the others & adapted to the principles of the Communist Party of Great Britain & to the needs of the people. The one

new institution - of course the most powerful, perhaps & the most difficult in its initial effort - is the Voluntary Leadership Centre for Britain and Ireland, But new is it so?

What is implied clearly in the growth of the creation of the views of the common man, as he is an entity in the Western Democratic World does not lead to an official & proper community.

In one way or another it is the exceptional man who is most characteristic & valuable - who must be supported and not just the leader of the majority. How do you get him? There

Bordenau's Totitarianism is written so  
informative and so well suited as his History of the  
Third Reich. Mostly clear German history, with  
a short essay on ~~Social~~ Prussian Communism, it  
deals very well with the Dictatorship & suppression of

the structure of civil & military & the other - & makes  
no distinction between the statutory authority of Hitler

& the totalitarian democracy of the Scientific Union with  
a State on the good grounds of <sup>the 19th & 20th</sup> development of

suggestive & well advised. The Prussian Parliament will  
play a similar part in the totalitarian entry to

I am putting the case against Hitler and for war to the knife disentangled from all the complications that are confusing poor Tom, Dick & Harry who will have to do the fighting. A bit of a job, that!

June 18<sup>th</sup> - Shiloh Train

I jumped up to London to attend the annual meeting of the Farm Song, but the weather has come in the form of that to travel. Sub<sup>had</sup> asked for an admission. The train was crowded into sections of Africa & civilization in great numbers, all were silent as if they were going to a funeral. Opposite me ~~was~~ the handsome young woman traveling just alone. Looked to be a well-matched; too early, however, than was talking about - some were business in a moderate manner. Bertha received me with her usual

affectionate greeting & a sense of an evening class. There were about 50 persons present at the little meeting at the Farm ~~street~~ office, among them the ever present Charles Allen Wilkeson, from down towards Norfolk & some younger men who seem pleased to be introduced to me. I was, by little speech on President in a new of the, entitled to South in its combination of intellectual tolerance & research, & putting out the problem the words of - was solved in a modest way. The good feeling was for me I spoke to show hope: the good feeling was a sense of the good humored & fear - similar one, similar another effort. When at Berkeley, Maria Eva Paul came to see me: an attractive old man - 8 ft or 9 ft high.  What I note is to find of these people, is the  
 shrewdness of them & that I see clear evidence  
 of genius - he accepts to be classed as a "liberal"  
 & was shocked at the <sup>social</sup> unrest & represents of the  
 Trade Unions sitting in the front opposite hand after  
 "It was the war." It was ~~the~~ out-phant  
 but the Trade Unions cannot you have & "Denny"

be unless. What interest me is the Devotion record is the  
 internal defection of English Christians - the  
 Head of the Church is fighting on to maintain the Refo-  
 m to Rome, as to other, the growing doubts of English  
 Clergy, as to Virgin birth & womanhood - p. to Jew  
 of Jesus of Nazareth - is even in a personal God  
 here also to Devil & Hell. Surely to see them was  
 the burning question: How could crept-Christians be?  
 Are they part of it only in practicing it out of law,  
 but also in extending it to murdering women &  
 children on a just scale. The majority said Yes they  
 are. Davidson hesitates & murmurs one modification  
 of ~~absolute~~ mass murder or another. With this res-  
 triction to some circle of the violence of law & truth, how  
 can Christianity, especially Protestant Christianity be  
 maintained in a long fight among the Multitudes?  
 This doubt as to the metaphysics & the ethics of  
 Christian faith makes the corruption of Western Arts  
 is based on Christianity - sedition, hypocrisy, selfishness,  
 the British Empire has no women part, neither  
 anti-main which to its invasion is about the  
 self-interest of man & his rights to men lives. Thus  
 the weakness of both, the weakness of hypocrisy, showing

one percent in the conduct of home & foreign affairs  
 during the last decade. How soon will we sell  
 many former ideas. We must let the so-called  
 modern civilization has fallen in pieces & let us  
 have to conceive & implement a new pattern of  
 behavior? But Tarney is right when he stresses  
 a better & more let it is not only Confucius  
 who are ideas & spirit of the 19th century  
 civilization & the common man by all of a <sup>kind</sup> ~~kind~~  
 but, not knowing which way to take action in personal  
 conduct - a prudent policy. To say we are united  
 in one position & one position up to defend  
 ourselves against a whole domination of holders  
 forming. The Fifth Column exists, but is not  
 better it is accepted. The one & only center  
 is there we to men & arms to do it is  
 understanding to us, The Nation & the Republic let  
 stand & well improve American civilization  
 it. Whether we can get rid of defects without  
 invasion, but even to see so as to reach Puritan  
 economy to an one concept of Western Civilization?  
 can make it deeper. About the new world I am  
 more & deeper. But in an age when I realize my  
 first is broken

One reason from his period of surprised terror, I note,  
is it ordinary man or woman <sup>at his home class</sup> is simple yet true. "If we are to be  
killed we shall be, so its no good thinking about it"

It seems to be a comforting thought: it is "Gods will be  
done"; in a half-curious expression <sup>with</sup> the divine word  
mirrored. It never seems to occur to them that on all other

issues of their daily life, they assume that you will do or  
not do. It even from the complete ignorance - an  
ignorance which all but the inner circle of military

experts share, of what are the facts of the relative strength  
to kill a million, of the invader British & invading  
German. This question will be settled in <sup>perhaps weeks</sup> ~~months~~ -

is my comforting thought - it won't collect this year. For  
it can be felt; it is a very limited risk - limited by the even possi-  
bility that our life will anyway be sharply terminated: but to the <sup>rest of</sup> world

young, in the middle age, with young men to care for -  
it is a terrible thing. Then to the neighbor here comes  
here to ask me, "shall we or shall we not" see one chance

to be left in London? The <sup>the</sup> <sup>man</sup> <sup>of</sup> <sup>perfect</sup> <sup>state</sup> believe that  
he is the best to prove to combat <sup>the</sup> <sup>war</sup> <sup>is</sup> <sup>a</sup> <sup>big</sup> <sup>and</sup> <sup>valued</sup>  
occupation to use it in the war. I expect from risk or

great disaster. It is the powerless man who considers himself  
not to be - but that a <sup>has been</sup> ~~is~~ inevitable &

could not have been prevented by human  
actions.

Keynes' mistake. Bolivar implicit to British  
 giving class of wealthy landowners & capitalists -  
 especially in the Republic - to law may have to be  
 relations a some instances. But the whole must -  
 be retained by the class brought up to make the  
 common people, to which <sup>in a development of the</sup> may be added, the urban  
 & consumer capitalist class, at present to represent the  
 legitimate interests of the working & lower middle class. He  
 admits that the most violent of his younger friends believe  
~~that~~ to the old governing class, an Communist  
 or kind so - but it was not a whole - it was  
 these were into the sphere of life - & after we  
 had won to see - who we should, all will be well with <sup>the world will be</sup> us  
 He is contemptuous anti-christian: to churches is  
 not - could - either among the wealthy. & among  
 the workers' is protestant - conviction. In Catholic  
 countries <sup>Fit Church</sup> ~~the~~ is defined as to see of the social

by the ruling class, somewhat similar to that of Pétain  
 & his staff; after which there will be, in the  
 & France, a "revolution", by which they mean the coming  
 of Communism by the rising of the workers. The Russian  
 character told the girls "let it all be over  
 & finished in two months" which means the defeat  
 of the British. I had a talk about this with  
 Maddy; she could not understand any character  
 & so was not invited to the event: we were  
 again the last persons to understand what the  
 USSR & has shown a middle headed indecision  
 which even Dr. & Josephine decide to avoid the  
 collection of captives. Maddy gives an amusing  
 account of the last minute attempt of the recruiting club  
 & the F.O. to avoid giving credentials to Stoffel as half  
 justified Anderson. Stoffel had left England but then; the  
 F.O. has refused to telegraph this: the Kings of London  
 could not be telegraphed there was no precedent. Maddy  
 suggests that he might see the Director, & even have a copy of  
 it & then it could be telegraphed, but it will take 2 months to get  
 it returned to Moscow. After interminable discussion & all sorts of  
 objection, this innovation was sanctioned. As for the French by  
 the reports let them see no form of France in London

He had son Tom C. & Madame T. & his wife &  
 a Josephine & his wife of the T. & his wife;  
 They were a great big family. They are  
 called the "good families" & are up to the inner  
 circle of the army here. It is first class a military  
 defect, as to me & my way of interesting France with  
 France. He went to Belgium & his wife & his  
 family from Belgium & Belgium so he let country &  
 also go to Paris. The Ministry, especially the one,  
 of Anderson is more open mind, do not believe  
 a peaceful accept of politics by the French class. The  
 French Ministry, the is pro. But, is really superior  
 & his attitude & is more (not to allow) so the Ministry  
 has long in France. I expect that there might be a statement,  
 to France remaining superior in Europe, & to Belgium in the  
 sea & in the air & sea, but then to the USA & to the  
 ed change peace terms. But Ministry has no use to  
 to the Ministry position, which Roosevelt & Wilkie, they  
 also suffer from the uncertainty & violent anti-  
 Communist propaganda. The situation will come in the USA, but  
 it will be long delay. Although the net result of the  
 Ministry has been disastrous to the English party, all  
 it has so on I remember the other person deals

 how for 3 hours: his one defect is that he has become
   
 completely at all times a lecturer, speaking to an
   
 gathering of students; he is no longer a researcher or
   
 useful thinker; he has become a lecturer, he no longer
   
 collects it from others. What makes a lecture hour like

 to do that it requires that it is a minimal set,
   
 not-bound up with the ruling class, & able to do

Revelation & Delusion of Hans Kohn is  
an impressive work because of the author's knowledge of  
general education & scholarship of his present intellectual situation  
& of the internal situation of the Communist bloc, of the  
USA, of the fascist leaders of Germany. His level  
of historicism, the work of you are real & modern but  
before it the work of the thought of the real. in your view for  
you real to demand to work. Germany is the contradictory  
instance of this because of her extreme way of trying to be  
expensive - military force. But Japan has to discuss equal

He admits that USA is a model of the contradictions  
and of real equal - that is its great contribution,  
comes into its attempt to establish economic equality among  
its members. But he is however obsessed with  
international relations, so he is with the internal aspects

of laughter & shouting, celebrating winning it's sea & earth red & ch-  
 men women & children in the town was a falling, emphatic  
 & emotional relief for the Church. Since appeal to scholars

 he negates he does not affirm. He agrees that as  
 a nation we have no common creed, whether political  
 or economic, secular or religious. Our liberty is  
 an absolute constant for self defence against control  
 of any other European state. Whether it is intended as  
 a home effort or an imperial device as to  
 what is right or what is wrong. Personality confesses  
 that he is an egoistic creature - a social animal,  
 he has no living philosophy, except a hatred of  
 them & a love of freedom to say & do what you  
 like.

July 20 Roosevelt accepts nomination for a third term; a  
 assault to ~~the~~ <sup>conquer</sup> destruction of the United States of  
 godless Germany against the independence of Christian  
 Democracy. Hitler's address to Reichstag, giving the  
 the story of the humbling of the German people by  
 Venetian hands, his emancipation by his leadership,  
 & end of efforts to maintain independence of  
 peace with the British.

Destroy much needs wisdom by the sacrifice in the world; it  
 to express, of half a dozen lives a small piece of machine, &  
 here Japan is important; then must be equal if not,  
 more certain destruction of life & property in the enemy

Victor Washington & Thomas, a co-partnership

 It is Roosevelt - but will return not Stalin.  
 It is good news that it is the American Congress  
 that let fear the speed of the Communist class,

Situations like the present are phases of the profoundest  
 problem confronting a democracy—the problem which  
 Lincoln cast in memorable dilemma: "Must a government  
 of necessity be too *strong* for the liberties of its people, or  
 too *weak* to maintain its own existence?" No mere textual  
 reading or logical talisman can solve the dilemma. And  
 when the issue demands judicial determination, it is not the  
 personal notion of judges of what wise adjustment requires  
 which must prevail. *New Republic* 24/6/41 158A.

The Manly's Group - Down to present - Sue with the article  
 the second one in the Pioneer, two years ago. A tall handsome  
 man, like common manner, speaking perfect English

 common man with international connections, but his  
 father had a steel manufacturing plant at ~~St. Paul~~ in Kansas (?)

 because he was nearly 70 and wanted to be

 a cold blooded philosopher, scientist or his culture

 his American Church considerable influence in the country),  
 & appeared in his view of the Marx's view - the man.  
 At least he is an unconcerned type of diplomat.  
 More like an American Ambassador to a country.  
 Much he is a good friend - saying much was

A fortnight ago we had a morning talk with the Pious at their graduation. A real evening yesterday. To Wotkins & back by train & five hour conference talk with four old friends - to Freds Belman & to Noel Burtin. Both & he (and) invalid husbands have settled in their foreign cities with one servant to look after them.

Freds, age 86, was lying in a sofa, to some kind of pillows & ~~with~~ honest cilija, he has sleep less, stopped the crippled by a fall, but clear & intent of interests & persons, books, & all the subjects, free love of human spirit. We discussed the topic of the world; at home & abroad; there was no fiction between us. Freds left in repeating "how one knows what will happen: to find it with an so novel & propositions, the first experience is no guess." All to some, he suggested "let something good with come out of it." The same unannounced with the possibility of having to the world - they had already been taken to solution. Harold & his couples etc. Betty said let us look for almost "morally happy" (that an still lower & changing with others with a hard soul, & their daughter had them like him men?)

[to Noel Burtin was being treated in a

Charming villa with lawn a fine young daughter,  
 alluring a local school; a motor car was at the  
 door. It would fetch me to Bolzano & look  
 me to the station. This large house & N.E. coast was  
 given me to the city. Oddly enough I had found  
 that had, as a handsome young man, fully years  
 ago staying with the Bolzano of Foston Villa -  
 yet to him I do not know what this & I sub-  
 stantial Bolz had seen his son some other times,  
 as she observed but when he had walked in  
 to see them to the afternoon "he was an old man  
 the still left a good looking." He & I had a  
 somewhat cantankerous talk - she listened & agreed  
 with me rather than with him "You too always did  
 see" he showed rather dryly. He & Charles Butler  
 went peca into Hitler; I gather they had with  
 them from p. to down Berg, because they were of the  
 Party excepting that under Churchill. I  
 tried to get to the bottom of that: persistent from  
 effort: all he would say is that it was <sup>was</sup> bound  
 to be disastrous; but Hitler might compare Peck,  
 & let even if he would sympathetically, we did not  
 understand his meaning of such. He was hostile to

The ASD; he thought but they had got the best  
 of the bargain: what Mottram & Stedman needed  
 was to complete a transfer of Germany & of Berlin  
 so that they could return to territory <sup>the</sup> improvement of the Soviet  
 Union. He questioned me about Hitler, was he not  
 a Jew? What was the real situation with the ASD,  
 was there any freedom of thought & action. And then  
 came a little bit of information which interested me:  
~~to Stedman's surprise~~ because it explained to Stedman  
 his own impression that there was an inner circle  
 of Jews of power in Germany. Now Boulton had  
 had a long talk with Pity, and he gathered, as  
 I had done, that he was anti-British & anti-Germans.  
 Pity had been charming, & older & more friendly. But  
 said Boulton "he had advised seeing me again." \*  
 I asked Noel about it "What sort of piece  
 do you see us, to accept a Hitler ready to offer?"  
 "Hitler is against the independence of France, Belgium  
 Holland Denmark & Norway, & also for the British  
 French Africa colonies" — was the substance of his answer.  
 He is not much of a Jew or a Jew. And  
 Boulton said into a pleasant smile by the way.

\* That was also my opinion: a letter to Michael Pity reviewed accordingly.

"The writer has his special communication to make, which when you come to analyse it is the personality with which he is endowed by nature, and during the early years of his activity he is groping in the dark to express it; then, if he is fortunate, he succeeds in doing this and if there is in his personality a certain abundance he may continue for a long time to produce work which is varied and characteristic; but the time comes at last (if he is so imprudent as to live to a ripe age) when, having given what he has to give, his powers seem to fail....."

"A generation has arisen which is strange to him and it is only by an effort of will that he can understand the interests of a world of which he can now be only an observer. But to understand is not enough; the novelist must feel, and he must not only feel with, he must feel in. It is when he has reached this stage that he finds his readers turning from him in weariness. It is well then if he can bring himself to cease writing books which might just as well have remained unwritten. He is wise to watch warily for the signs which will indicate to him that, having said his say, it behoves him to resign himself to silence....."

"What I cannot understand" said Schuyler ~~that~~ <sup>she</sup> told  
 me that this he had telephoned to her & that  
 went to being Bernice down to her in Sunday  
 afternoon "is why don't Bernice come with  
 Turing - why don't he not come alone?" (at Turing's  
 home <sup>say</sup> but he has a long standing admittance - I don't  
 for Bernice). ~~As a result~~ <sup>A</sup> not p. W. Turing explained  
 why: he did master the machine & device, was very  
 fast & depressed it would be good to see.  
 So they arrived there yesterday afternoon & stayed until  
 6:30 p.m.

Tom Bernice was a state of collapse: I had  
 seen him so depressed about public affairs, so  
 depressed <sup>about</sup> his own part in bettering things. The  
 collapse of France & the obvious incompetence of our  
 own government & governing class to pursue the chastity  
 of Hitler's march upon & circumvent it, has overthrown  
 his old confidence that ~~for~~ <sup>from the</sup> ~~the~~ <sup>was</sup>  
 & dictated to him. ~~What~~ <sup>What</sup> is even more personally  
 depressing is that he has been ignored, his services  
 in an administration have not been recognized -  
 all that has happened is that Bernice (I think it is)

~~at~~ ~~the~~ suggestion) has appointed him as adviser,  
 (not as administrator) in respect of the operations of  
 the Bureau for the supply of munitions & equipment in  
 the War. He has no paid staff & no authority to  
 do the job; all he can do is to present a report as  
 to what is actually happening & how to detract  
 from the impression a report would give that he  
 either ~~is~~ ~~is~~ conscious of Bevin, a habitué.  
 He has a contempt for Bevin: partly because he  
~~is~~ ~~is~~ dislikes the working man & partly because  
 he sees in Bevin (as that it is) a prevaricator  
personally without any intellect or comprehension of the  
 facts - just to do long time preparation of the trade  
 unionist, intent on getting good wages for his own members,  
 what is more interesting is that Bevin's realisation  
 that if the war is the war, & still more if  
 the industrial state of the British is to be  
 saved p. Jacey, planned production & control  
 has to be introduced. But as of old, Bevin  
 is obstinately convinced that he & his class has to do

a misleading capture. He often let them meet his

 He has ~~an~~ a great admiration for Cole: & he is  
 Cole are working together a modifying and others  
 views? As for his last work in Trade Cycle, to which  
 he has devoted his <sup>life</sup> energy - he has, at least, written  
 that it is outmoded "I have with the new Trade

 of the stagnation of an old consumption he  
~~emphasizes~~ <sup>emphasizes</sup> to our interest. If the socialist-st  
 mean that he is collaborating these colleges as  
 to engage in to put with a view of ordering (altering)  
 them - Boycott is a socialist. What he  
 desires, is to bring them, the city of industry,  
 & is intent on getting them back to less use.  
 He don't see that capital & industrial  
can be attained through some social institutions  
such as trade unions, <sup>though</sup> the workers feel they  
are determining their own conditions & taking their  
part in the power of the nation. Perhaps Cole will

 of his & Coleridge's report - in the situation. He was  
 almost as pessimistic as I am, about the  
 likelihood of any serious change (including the

Dear Mrs. Webb,

Many thanks for sending me your  
 Presidential address to the Fabian Society  
 I read it with great interest and with  
 hardly any disagreement. It is a moving  
 elocution to the Society to which you  
 belong.

I wish one could begin by sweeping  
 away the motives of personal gains  
 substituting the motives of service in  
 war as a preparation for peace.

I am sending back your copy of the

Wen is a <sup>dynamic</sup> telegraph letter of Micoles, to the effect

 that by next year, she will be superior to her, either  
 in medicine & in the number & quality of her pilots & her

 & she will be Germany & her occupied territories will increase  
 in demand. He also thinks it possible - perhaps  
 probably, by the time we shall receive our plastici Africa - and  
 that of Italy is to be mentioned. But - but will not  
 destroy the Italian Dominion over European Europe:  
 He is even of the opinion that substantial help for the

The USA is becoming the wealthiest Super Power & it would  
 be the standard of Capitalist countries of home of

 between the UK, the USA & the USSR, could still make  
 to have a simple peace, ~~with~~ ~~the~~ ~~rest~~ ~~of~~ ~~the~~ ~~world~~ on  
 their own terms, if they all agree on what those terms should be.  
 They have no territorial ~~to~~ mutual hostility, only  
 to one another, of the Ministers of puppetry, Captain Voronov.  
 to speak of Communist Communism ~~is~~ ~~not~~ ~~an~~ ~~ideal~~ ~~but~~ ~~an~~ ~~ideal~~ ~~of~~ ~~the~~ ~~people~~

It will be in some activities of the Third International  
and perhaps there might be some hope left in  
rest of the world to find a Soviet Communist  
handing to its accepted needs, part in the  
science of the nation and guide to needs of  
the new machine in a new process, which required  
then minutes on the end of a foreign world.

But when the editors of the Soviet system, we hear  
the casting up of the leaders and the cabinet, they

Saturday, April 18 with his friend Ellinger here for tea; <sup>letter</sup> Shell,

Churchill's address to the British people, was  
 addressed to the attitude towards the great people themselves,  
 but brutally aware of Hitler's interruption of his speech. But  
 what is the <sup>or last word</sup> ~~meaning~~ of "long live the forward march

 inheritance? Is it mere rhetoric <sup>with part of</sup> of the ~~speech~~

 All of which is disturbing, for to overlook after the  
 war the Army is a lot of K.O.S. Harlow, which lights  
 up the happenings in France, their anti-Communist

From the National Socialism is socialist - it is likely to

How far does the destiny of the human race depend  
 on the manner & determination of powerful personalities, or on  
 the relative vitality of opposing creeds? Is the  
 relation of man to the universe & the conduct of man  
 to be related to the man? The contesting personalities  
 of today are Roosevelt & Churchill, Hitler & Mussolini, Stalin  
 & less notably the <sup>because they have exercised less powerful roles</sup> Reichstein & Chiang & Nehru &  
 Mao. But even these ~~to~~ acknowledged leaders are  
 not mere arbiters of persuasion, they represent a claim to  
 leadership, distinct ideologies: Roosevelt & Churchill "Western Civilization"

 democracy, Hitler & Mussolini "Local ~~Democracy~~, though the

 war, as the acceptance of a self-asserted, leader on dictation.  
 Stalin's influence rests on his acceptance of the scientific

 of world peace, believing <sup>a goal which binds</sup> in <sup>the</sup> <sup>eyes</sup> of each man according to his  
 faculty & each man according to his needs with no racial  
 distinctions. <sup>2 or 3 of the best results</sup> Does the issue of this world war depend on  
 the relative wisdom & persistence of the leading personalities or  
 on the vitality & acceptability of the creeds? Or on the physical  
 courage & technical proficiency of the people concerned?

The Robson came one afternoon, & asked a number <sup>last week</sup> for tea  
 & a talk. <sup>Churchill essays</sup> He even & Dalton are his <sup>Robson</sup> leaders, after  
 8 years or so in the & Stuart hours times & was

He told <sup>us</sup> of <sup>a political</sup> ~~an interesting~~ interview with Arnold, about  
 the letters of a ~~critic~~ <sup>critic</sup> ~~to~~ <sup>to</sup> ~~the~~ <sup>the</sup> ~~Whiskering~~

 Certainly De Gaulle & reactions in expression are anti-  
 war sentiments, even to us. "If Churchill died who would  
 you wish to be Premier?" We carried it we saw  
 no one fit for the job. He tented (supported) Halifax

 What about Beverin? I also - half serious.

except Churchill

In truth there is no parallel in British political circles  
today who is any more keen to believe of  
news for leadership in this terrible crisis in the  
history <sup>of</sup> the British Empire of its circles.

The same is true - even true - of France as  
evident for its collapse. That is the explanation of  
the rise to power of such monstrous personalities  
- both proletarians in it - as Hitler & Mussolini;  
men without any <sup>real</sup> code of conduct & no culture whether  
scientific or literary. It is not surprising in 1941, but how  
can it have happened in Germany with its science &  
music & its literature as well as its highly disciplined technical  
efficiency. Is it some strange peculiarity of the Soviet  
impulse leading to Soviet longings to conquer by  
killing? which has been instilled into you?

Abnormal & uncontrollable social habits have been  
\* attributed to the ruling class of Prussians & we  
in all Germany - they have now been proletarian, <sup>even when</sup>  
~~not~~ <sup>telegrams</sup>, like the British proletarians, for example,  
like the firm Roman Catholic Emperor the Russian  
have the Tolstoy, the Chinese then with his  
Hsiangshu & now his Mao. But the German like the  
Japanese are secretly <sup>degraded</sup>; in the front is their  
more widely dissipated & the social relations.

a Peace involving <sup>the</sup> increased disarmament of Europe & the  
 constitution of an international Air Power Force, to  
 put down any aggression. But who is to control this  
 Air force which is to monopolize world power? This is,  
 to my mind, the preliminary problem to be solved. If it  
 be solved by <sup>Democracies</sup> universal vote suffrage? If so, the so-called  
 Western Civilization of white people - ~~Europe~~ <sup>the</sup> British  
 U.S.A. (the Dominions) & of the former Democratic of Europe,  
 all not bred to power - The inhabitants of Asia, Africa, &  
 South America, are to vest majority of the human race. And does  
 not one such abundance of the <sup>material</sup> ~~social~~ <sup>rich</sup>, in form of  
 one immense culture, involve an identical ecology as to  
 the social aspects of human beings as to part of the potentiality  
 of the race of the world? Is it if possible to limit the  
 international control <sup>so as not to touch</sup> ~~international~~ <sup>wherever</sup> ~~the~~ <sup>rich</sup> ~~internal~~ <sup>of</sup>  
 of the ~~national~~ <sup>national</sup> ~~self-governing~~ <sup>self-governing</sup> units? On this point, H. F. Wells  
 has a blank mind - ~~it is a question of~~ <sup>it is a question of</sup>  
 he has not thought it out; it is an aspiration not a  
 plan. As a novel to look to for stuff, it lacks literary skill, wit  
 & drama. All around the World is far superior as a  
 dialogue piece: it is height, but amazingly heights. The large  
 book is perhaps ~~not~~ <sup>not</sup> being either entertaining or convincing

Wages & Scales. At present this Debt & Destruction seems  
 to engage the people of Britain more than to frighten  
 them. But will it continue to do so? Will the ill health  
 & possible epidemics, owing to the use of unhygienic  
 crowded shelter, prove more deadly to the workers?

When Churchill, in his speech of the opening of the  
 new parliament, ended his oration by stating that even  
 if he were all bombed out of his home, he should  
 still stand up together to resist a German invasion; ~~that~~  
 it seems <sup>to me to be</sup> ~~more~~ <sup>rhetorical</sup> ~~and~~ <sup>unrealistic</sup> than realistic?

Mutual destruction of two great Powers, by air & sea,  
 cannot go on indefinitely: it ~~must~~ <sup>must</sup> lead to a pitiful  
 Peace <sup>by</sup> exhaustion? Which would lead to another ~~war~~ war  
 than the most warlike nations <sup>Germany</sup> had known to its  
 capacity for <sup>to amount</sup> ~~endurance~~. Optimists say, that it is  
~~the purpose~~ <sup>the purpose</sup> of US & British intervention to expose Germany to  
~~the~~ <sup>which may be done</sup> ~~the~~ <sup>the</sup> ~~v.~~ <sup>v.</sup> ~~depend~~ <sup>depend</sup> on the consent of  
 the USSR: otherwise the German ~~is~~ <sup>is</sup> ~~to~~ <sup>to</sup> ~~be~~ <sup>be</sup> ~~driven~~ <sup>driven</sup> into 4 Soviet  
~~fronts~~ <sup>fronts</sup>. And so the better of its ~~condition~~ <sup>condition</sup> ~~is~~ <sup>is</sup> ~~improved~~ <sup>improved</sup>  
 we are more to wish as to what will actually happen  
 during the next year - one, two, three or four, ~~of~~  
 continuous Debt & Destruction & Hunger, before a ~~halt~~ <sup>halt</sup>.  
 Will Stalin & his group succeed in helping the USSR  
 out of the War & Russia & what group of Britain

return to Hitler's policy. Hegri is an enthusiastic  
 admirer of Churchill - a great one; he worked for  
 De Gaulle. The Marquis told me that the Dutch  
 Socialist leader De Bruchin & his daughter - a scientist -  
 were now in England & that they <sup>with</sup> Mr. Soviet - So Comin  
 They now do not represent, with his <sup>vigilant</sup> ~~strict~~ <sup>watchful</sup> ~~control~~ <sup>oversight</sup>  
 all the Dutch Socialists. The last time, De Bruchin was  
 at the house of Paul Cuffin & Beaumont ~~after~~ <sup>before</sup>  
 he had presented Soviet Comin, a wife had a long talk with  
 his high culture & well so. Dutch - <sup>a man of letters</sup> <sup>at</sup> <sup>the</sup> <sup>time</sup> he  
 was dubious about the USSR: he was always on the right of  
 the Marxist and intimate friend of Van Helle - so his  
 verging towards Soviet Comin as the future social order  
 is significant.

The Deeper Causes of the War and the Spring of 1945  
 is a series of essays by prominent men - ~~at the time~~  
~~and~~ <sup>all</sup> liberals, including, of course, also, I might  
 say, Christian. Every one of <sup>the</sup> <sup>great</sup> <sup>men</sup> <sup>of</sup> <sup>the</sup> <sup>USA</sup> <sup>as</sup> <sup>a</sup> <sup>dictator</sup>  
 since Hitler's Germany & Mussolini's Italy. In the first by all eyes.  
 What is significant is that 3 or 4 insist on without the Churchill  
religion & faith is an omnipotent God, civilization will be overrun by  
barbarians - hence, France is a Commitment; which is to show that they are  
well known peculiarities - this they do say so - a policy of

 Then there is the assertion by his own critics,

of words & slogans & its intention of to lead.

All this is relevant to the early 20th century.

It can be combined elements of Soviet Communism  
into an ~~attack~~ admission of its defects:  
Soviet which is the suppression of free thought & free  
expression & the abuse of its <sup>secret</sup> methods of  
implementing its policy of New Middle for  
Communist Conscience. What is happening to  
the state to the Soviet part of your plans?

According to the pamphlet issued by the Europe,  
the occupation of the area by the Red Army & the  
Soviet administration has been directed to the interests.

The has been usually to the present ruling class without  
any benefit to the poor - there is famine & disease,  
poor & resultant among all classes & even when  
the to the state, then also refer to they are held in

conditions & the end of the war at the USSR that the price

to learn. According to the facts given in the Moscow Press,

the people of the new program are willing to be the cause of the

& sense of emancipation, increased culture & perhaps in the

front of the country. When this is to be the case to become

partners of Moscow & the Red is called by the people

and tacit approval of principles of Mutual Aid  
 between the insured & the community, to ensure the  
 good life for all the individuals, what he holds is  
 the disease of ultra-wealth, the pendency to be here  
 instead, a perfect repetition of sloping, <sup>the</sup> vicissitudes  
 of history. All this is ~~related~~ <sup>relevant</sup> to the essay of  
 history. How can I combine an administration for the  
 constitution & activities of South America, with a  
 frank admission of its defects, serious work in  
 the suppression of the trust & the system, &  
 the strong exercise of many of its methods of  
 complementing its history of mass movements to  
 Communist corruption. What is happening, in history,  
 the Soviet part of power? A lesson to a  
 longish issue of The Europe to understand the New Age  
 & to be a reminder of the Soviet Union, has not only been  
 written ~~but that~~ to the government, but

 the Polish republic. What?

... give up the Presidency of the Society was reported to  
Committee at their last Meeting, and accepted with regret.

the unanimous wish of the Committee that I should convey to you  
great appreciation of the service you rendered the Society by occupying  
post. Your acceptance of the specially created position of President  
undoubtedly smoothed the way for the amalgamation with the Fabian Research  
Bureau which, as you know, has proved a conspicuous success.

We are placing on record in the minutes our acknowledgement of the deep
