Local Housing Statistics

England and Wales

1. **Local Housing Statistics** has been prepared by the Ministry of Housing and Local Government and the Welsh Office to provide figures for individual local authority areas in a quarterly publication. It supersedes the former Appendix to the Housing Return for England and Wales.

The tables relating to the provision of new permanent housing and to slum clearance appear regularly in each issue. They show annual cumulative figures, those relating to slum clearance being published one quarter later than those relating to housing progress.

Supplementary tables are introduced for the first time in this issue with tables on improvement grants and on the sale of local authority dwellings: other subjects will be covered from time to time. Notes to these tables are given in an introductory page.

2. **Definitions.** Detailed definitions of the terms used are to be found in the quarterly publication *Housing Statistics, Great Britain*. It may be noted that:

“Dwellings” include all new permanent houses and flats.

“Houses” in relation to slum clearance action has the meaning attributed to it for the purposes of Part II and Part III of the Housing Act 1957 (see 7 below).

“Local authorities” include local housing authorities and new town authorities.

“Other public authorities” include Government Departments and housing associations.

“Regions” are the economic planning regions adopted in 1965. These only differ from the Standard Statistical Regions by including Poole Borough in the South West rather than the South East.

3. **Local authority areas.** Local housing authorities may provide housing either within or outside their own areas. The figures shown in Table 5 against the name of the authority include dwellings situated outside its area, for which particulars of completions are given separately in Table 6. Authorities which have completed dwellings outside their area during the period are indicated thus § in Table 5. Authorities in whose area dwellings have been completed

by another authority are indicated thus ||. The latter include areas in which dwellings have been completed by the Greater London Council (see Table 7).

Other public sector and private sector dwellings are shown against the name of the authority in whose area they are situated.

4. **New towns.** Against the name of each new town are shown the dwellings built for the development corporation or for the Commission for the New Towns. These are all situated within the new town area and are not included in the figures for any other local authority. Private sector building within the new town area is included against the name of the authority or authorities in whose area the new town is situated, but is also shown separately in italics against the name of the new town and included in the new town total.

5. **Boundary changes.** Where the boundaries of local authority areas have been altered during the period shown, dwellings are shown in Table 5 against the local authority in whose area they are now situated.

6. **Adjustments to earlier returns** may occasionally result in a negative figure for an individual authority, when, for example, dwellings reported as started are subsequently withdrawn or there is a transfer from one sector to another.

7. **Unfit houses.** The figures in Table 5 show the number of houses in clearance orders and compulsory purchase orders confirmed under Part III of the Housing Act 1957, and houses demolished in clearance areas whether or not unfit. Houses demolished or closed elsewhere are those dealt with under Part II of the Act. The latter figures are adjusted to exclude houses reported as demolished which had previously been reported as closed.

8. **Population.** The figures are the latest available estimates of the home population prepared by the Registrar General.

9. **Index.** An alphabetical list of all local authorities and new towns in England and Wales is in preparation and will be published separately. In addition to page references this will show the type of each authority and the region and regional sub-division in which it is situated. A map of the regional sub-divisions will be included.

Slum clearance: houses demolished and closed
England and Wales
1967: 1st nine months

| | Houses demolished in or adjoining clearance areas | | | | | | Houses not in clearance areas | | | Total demolished or closed | Parts of buildings closed | Persons moved | Families moved |

Supplementary tables

Improvement grants

1. The tables show the number of local authority dwellings for which Exchequer assistance was approved by the Minister of Housing and Local Government or the Secretary of State for Wales, and the number of other dwellings for which grants were paid by local authorities, during 1967.

2. Approval for assistance to local authorities is given before the work commences, and no figures are available of payments made during the year. Virtually all approvals are taken up though not necessarily in the year shown. The figures are not, therefore, strictly comparable with those for private owners, but a total for all grants is given as an indication of the volume of improvement work done in each area.

3. Most housing associations receive assistance from local authorities on the same terms as private owners, and their figures have therefore been merged. A few discretionary grants approved under Section 12 Housing (Financial Provisions) Act 1958 are however included with the figures for local authorities, as indicated in footnotes, as the number paid is not available.

4. More detailed notes and definitions on improvement grants may be found in the quarterly publication Housing Statistics, Great Britain.

Sale of local authority dwellings

5. This table shows the number of dwellings owned by local authorities (including county councils) and new towns which were sold or leased during 1967. Dwellings built for sale are those for which the tender was approved for the purpose.

Summary of improvement grants: 1967
England and Wales
