This man had 74 applications for work on the first day he put a notice in his window. Hands wanted for juvenile grade. Most of these were females who wanted work to do at their own homes. Mrs Key says that her mother was a regular needle worker. She has 3 B machines. Cannot get just work for her home. Paid all home (May 1902) and made up 100 juvenile hats wanted. Says he has his window broken.

5) Hollington work (7a 9d), men's jackets, 14 pockets, stitched edges, cotton button holes. Material, a mixed 5 machine & 4 hand. Most stuff faded like a diagonal. Make over 4 hours work. Sell with rent at 25%. The other company for 4 other boys past youths jackets @ 9% less work. Mother & daughter work together. Cannot afford to have any help. Would like to employ if they could.

12) Mrs Key (S) says this woman works for Hardy, Abbott R^o & then gives out work to other people. Probably finishing.
