VERDUIDELIKENDE OPMERKINGS

1. Bevolkingsensus op 'n de facto-grondslag

Gegewens in hierdie verslag word op 'n de facto-basis aangegee, dit wil sê, persone word opgegee volgens die plek waar hulle opgeneem is. Die enigste uitsondering is in die geval van persone wat op treine opgeneem is. Hulle is volgens hulle gewone woonplek ingedeel.

Vreemde besoekers wat by die Sensus opgeneem is, is uit alle tabelle uitgesluit. Hierdie weglating verklaar die verskille tussen die getalle hier gepubliseer en die wat in die verslag "Geografiese Indeling van die Bevolking - 1960" verskyn.

2. Rasse

Die verslag is in vier reekse tabelle ingedeel wat gegewens oor onderskeidelik Blankes, Kleurlinge, Asiate en Bantoes bevat.

3. Die eienskap "Kerkverband"

Die vraag in die betrokke sensusvraelys het gelui "Geloof - Noem bepaalde kerkgenootskap".

Respondente is versoek om die bepaalde denominasie te meld en vroeë uitdrukkings te vermy. Kragtens die Sensuswet is respondente wat beswaar daarteen gehad het om hulle geloof of denominasie op te gee, egter van hierdie vraag vrygestel.

Faktore wat die betroubaarheid van die indeling van kerkverband beïnvloed, is die volgende:

(i) Sommige persone mag moontlik aangetoon het dat hulle aan 'n bepaalde kerkgenootskap behoort terwyl hulle in werklikheid slegs aanhangers van daardie kerkgenootskap was en nie noodwendig lidmate nie.

(ii) Die kerkverband van kinders word normaalweg as dié van hulle ouers aangegee alhoewel hulle nie noodwendig lidmate van hul ouers se kerk hoef te wees of selfs daarin gedoop is nie.

(iii) Persone wat nie aktiewe lidmate is nie, is dikwels onbekend met die juiste denominasie van hul geloof en kon dit moontlik foutief aangegee het.

Hierdie beperkings moet in gedagte gehou word by gebruik van die gegewens.

Weens indelingsmoelikhede is die "Church of the Province of South Africa" en die "Church of England in South Africa" saamgevat onder die begrip "Anglikaans".

4. Afwykings van die gegewens

In sommige gevalle bestaan daar verskille tussen die getalle van ooreenstemmende items in verskillende tabelle. Hierdie verskille word toegeskryf aan die metodiek van masjinale verwerking van die gegewens. In die meerderheid van die gevalle is die verskille relatief klein en dus onbelangrik. Dikwels stem die totaal van die persone wat onder die verskillende karakteristieke op 'n tabel ingedeel is, ook nie met die betrokke bevolkingsyfer ooreen nie. Die "verskil" tussen dié totaal en die betrokke bevolkingsyfer word onderaan die totaal kolom met 'n + -teken of -teken aangedui. Hierdie "verskil" bygetel by of afgetrek van die totaal van die persone wat ingedeel is, gee die "Bevolking Totaal", en is so aangetoon aan die voet van elke tabel.

EXPLANATORY NOTES

1. Population census on a de facto-basis

Particulars in this report are given on a de facto basis, that is, persons are shown according to the place where they were enumerated. The only exceptions are in cases where persons were enumerated on trains. They were classified according to their ordinary place of residence.

Foreign visitors who were enumerated in the census are excluded from all tables. This omission explains the differences between the figures published here and those published in the report "Geographical Distribution of the Population - 1960".

2. Races

This report is divided into four series of tables containing information on Whites, Coloureds, Asiatics and Bantu, respectively.

3. The attribute "Religion"

The question in the relevant census questionnaire reads: "Religion - state particular denomination".

Respondents were requested to state the particular denomination and to avoid vague expressions. Respondents who objected to state their religion or denomination were exempted, by virtue of the Census Act, from doing so.

The following are the factors that affected the reliability of the classification of religion:

(i) Some persons may have indicated that they belong to a certain church denomination, whereas in reality they are only followers of that denomination and not necessarily members thereof.

(ii) The religion of children is normally given as that of their parents although they need not necessarily be members of their parents' church or even have been baptised in it.

(iii) Persons who are not active members, are often unacquainted with the correct denomination of their faith and could possibly have indicated it incorrectly.

These restrictions must be borne in mind when this information is used.

On account of difficulties in the classification, the "Church of the Province of South Africa" and the "Church of England in South Africa" were both taken as falling under the concept "Anglican".

4. Inconsistencies

In some cases there are differences in the figures of corresponding items in different tables. These differences are attributed to the method of machine processing of the data. In most of the cases the differences are relatively slight and therefore insignificant.

The total of persons classified under the various characteristics in a table often differs from the relevant population figure. The "difference" between the total and the relevant population figure is indicated at the foot of the total column with a + or - sign. This "difference" added to or subtracted from the total persons classified, shows the "Population Total" and is so indicated at the foot of each table.

Die persentasies in Tabel 1 aangegee, is afsonderlik gerond. Derhalwe is hulle totaal nie in iedere geval gelyk aan 100 nie.
