# WHY YOU SHOULD BE #VOTIN

## CASH

EU membership keeps prices down in the shops, saving the average UK household over £350 a year. (Source: London School of Economics' Centre for Economic Performance.)

## JOBS

Over 3 million UK jobs are linked to EU trade. If we leave Europe, we'll be damaging future job prospects. (Source: HM Treasury)

## CLIMATE

The EU is a leader in tackling climate change and environmental protection, ensuring there is ambitious international action

## NHS

The NHS relies on a strong economy for vital investment. If we leave and go into recession the government will have £36 billion less to spend on public services like the NHS each year. (Source: HM Treasury)

## TRAVEL

It's easy to travel, work and study in Europe, without visas. Outside of the EU, this will all be under threat.

## UNIVERSITIES

15,000 UK students study in Europe each year, while our universities get almost £1 billion of EU funding, every year. (Source: European Commission)

# WHAT DO EXPERTS THINK

## MARTIN LEWIS, LEADING CONSUMER CHAMPION

"On balance of probability, it is more likely we'll have less money in our pockets if we vote to leave." 18/04/2016

## MEGAN DUNN, NUS PRESIDENT

"Students in Britain fear isolation, not internationalism. While we recognise the world is a complex place, the answer is to campaign for change together, not quit and walk away." 15/01/16

## PALOMA FAITH

"We believe that being part of the EU bolsters Britain's leading role on the world stage. Let's not become an outsider shouting from the wings." 20/05/2016  
Signed in a letter alongside 281 other leading creatives.

## RICHARD BRANSON

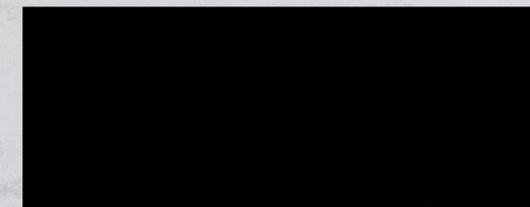

Leaving the EU "would be very, very damaging for Great Britain." 19/02/2016
