NOTE.—For area and population of the Registration Divisions and Counties, see pages 64-67.

\* The Registration Counties consist of groups of Superintendent Registrars' Districts, which are generally co-extensive with the Poor Law Unions. Those Districts which extend into two or more Counties (proper) are included entirely in that County in which the principal town of the District, or the greater part of the population, is located. The boundaries of the Registration Counties therefore differ more or less from the boundaries of the Counties (proper).

\* The 632 Superintendent Registrars' or Registration Districts (Paddington 1a and Holyhead 630b having been constituted Superintendent Registrars' Districts since the numerical arrangement 1 to 630 was adopted on 1st January 1881) are collections of contiguous Parishes or Places combined for purposes connected with the Registration of Births, Deaths, and Marriages, and are nearly always identical with the Poor Law Unions of the same names; they are arranged, according to the local position, under the Registration Counties. The Registration Sub-districts (2143 in number at the end of the year 1886) are sub-divisions of Registration Districts, within which the Births and Deaths are registered by Registrars severally appointed for that purpose. The letter *W* denotes that the Sub-district contains within its limits a Workhouse Establishment belonging to the District or Union; *w* indicates that a Workhouse Establishment receiving inmates from other Districts than the one in which it stands is included; *H* indicates a Hospital or Infirmary; *L* a Lunatic Asylum; and repetitions of any of these letters show the number of such Institutions in each Registration Sub-district.

† The Deaths in the principal Institutions of England in 1886 are given on pages 71-92.

\* The Registration or Union Counties consist of groups of Superintendent Registrars' Districts which are generally co-extensive with the Poor Law Unions. Those Districts which extend into two or more Counties (proper) are included entirely in that County in which the principal town of the District, or the greater part of the population, is located. The boundaries of Registration Counties therefore differ more or less from the boundaries of Counties (proper).  
 † These areas, which were partly revised by the Ordnance Survey Department, are the same as those published in the Census Report of 1881. They do not include space occupied by foreshore or tidal water of rivers and creeks.

## DEATHS IN WORKHOUSES, HOSPITALS, AND PUBLIC LUNATIC ASYLUMS. 1886.

THE following Table shows the numbers of deaths (Persons, Males, and Females) registered during 1886 in the Workhouses, Hospitals, and Public Lunatic Asylums of England. These figures afford the means of correcting the mortality of districts and sub-districts in which these Institutions are situated. The Table includes 1671 Institutions; of which 732 are Workhouses, Workhouse Infirmaries, or Workhouse Schools; 851 Hospitals or Infirmaries; and 88 Lunatic Asylums. The Lunatic Asylums are mostly County Asylums, but a few private Asylums which receive pauper patients (held on that account to be public for the purposes of this Table) are also included. In these 1671 Institutions 57,425 deaths were registered during the year, or 10·7 per cent. of the total deaths in England and Wales, against 10·3 and 10·8 per cent. in the two preceding years; 35,140 occurred in Workhouses, 16,763 in Hospitals, and 5522 in Lunatic Asylums. The proportion to total deaths was 6·6 per cent. in Workhouses, 3·1 in Hospitals, and 1·0 in Lunatic Asylums; the proportion of deaths recorded in Workhouses showed a slight decline from that recorded in the preceding year; the proportion of deaths that occurred in Workhouse establishments was 5·6 per cent. in 1875, after which it steadily increased to 6·7 per cent. in 1885, declining again to 6·6 in 1886.

Information relating to the deaths recorded in many Private Lunatic Asylums, and Private Asylums for Idiots and Imbeciles, will be found in the notes to the following pages.

\* The deaths of 24 males from Hydrophobia in the year are classed under Zoogenous Diseases in the Table of Causes of Death, p. 108.  
† When a person dies from an operation, performed on account of any disease or injury the nature of which is stated in the certificate, the death is classed under that disease or injury. The same is done with deaths attributed to Traumatic Tetanus. The figures above refer, therefore, only to those deaths from operation and those deaths from Traumatic Tetanus concerning which no further information was obtained.

OF the above 10,812 ACCIDENTS, 102 are stated to have occurred to Persons in a state of INTOXICATION, and 2 to Persons suffering from DELIRIUM TREMENS. And in 233 other cases Death was accelerated by the supervention of ERYSIPELAS, MORTIFICATION, PYÆMIA, or TETANUS. Here follow the details:—

## INDEX OF DISTRICTS.

The following Index furnishes a reference to the *Number* of each REGISTRATION DISTRICT in the topographical arrangement adopted in the Tables of Abstracts contained in the Report.\* The alphabetical arrangement places compound names in the order in which they are pronounced: thus, East Ashford will be found under the letter E, and *not* under A.

In consequence of numerous alterations (amalgamations of districts and formations of new districts) since the numerical arrangement, 1 to 623, was adopted in the Abstracts for the year 1847, the districts were re-numbered consecutively from 1 to 630 in the Abstracts for the year 1881.

For names of Towns, such as Leamington, Torquay, &c., which are not found in this "Index of Districts," see the "Index of Sub-districts" (page 196) and "Index of certain Towns" (page 206).

INDEX OF SUB-DISTRICTS.

[This alphabetical arrangement places the Registration Sub-Districts (or Registrars' Districts) having compound names in the order indicated by the usual pronunciation of those names; thus, East Grinstead will be found under the letter E, and not under G; St. James under the letter S, and not as "James, St." The number against each Sub-District, in the third column, refers to its numerical place in the Tables of Abstracts; thus, Abbey Holme (573; 2) is the 2d Sub-District of the Wigton District, No. 573.]
