Housing Return for England and Wales as at 30th April, 1947

This return is the sixteenth of a series of monthly progress statements on housing in England and Wales. The figures in the present return show the position up to 30th April, 1947, and relate from 1st April, 1945. The return includes an Appendix A giving general tables relating to England and Wales as a whole and to various subdivisions by types of authority and by geographical distribution.

The *first issue included general explanatory notes which have not been repeated in this return.

A detailed statement for each of the 1,469 housing authorities will shortly be published as a separate document (Appendix B.).

This information became available for the first time in regard to April, 1946.

Besides the total provision of additional accommodation as set out above, 708,000 dwellings which were damaged during the war but not so severely as to be unfit for occupation were repaired during the twenty-five months ending 30th April, 1947.

See Appendix A, Summary Tables A and B.

The following figures show the progress made on the construction of permanent houses by Local Authorities by 30th April, 1947, compared with 31st July, 1945, and 31st March, 1947. Experimental houses erected on behalf of the local authorities by the Ministry of Works and non-traditional houses have been included:—

	31st July, 1945	31st March, 1947	30th April, 1947
Tenders authorised to be obtained	21,687	292,561	300,012

The figures shown above do not include houses built in replacement of those destroyed during the war, which are shown separately on page 7. Figures in respect of non-traditional houses are also shown separately below.

See Appendix A, Table 2.

Appendix A, Table 2, contains information in respect of building schemes for permanent houses. This information is shown in Tables 2 (a) and 2 (b) for traditional and non-traditional types respectively, the sum of these two Tables being shown at Table 2.

PERMANENT NON-TRADITIONAL HOUSES

With the object of accelerating the rate at which houses can be erected a number of methods of house construction have been evolved which, for ease of reference, are known as "non-traditional". Included in this category are types that have been referred to as "permanent prefabricated". In Appendix A, Table 11, a list of the main types is given together with details regarding the numbers of each type for which tenders have been approved and the numbers completed. Information regarding the development of sites and the preparation of housing schemes for non-traditional houses is included in the figures shown in Appendix A, Tables 1, 2, 8 and 9, and is shown in detail in Table 2(b).

The position as at 30th April, 1947, compared with that at 31st March, 1947, was as follows:—

	31st March, 1947	30th April, 1947
Tenders approved	54,054	56,754
Houses—construction begun	29,374	32,657
Houses—under construction at end of period	25,119	27,495
Houses completed	4,255	5,162

A total number of 30,288 B.I.S.F. and 1,380 Howard houses have been allocated to Local Authorities. 13,743 applications have been received from Local Authorities for Airey Rural component sets.

See Appendix A, Table 2(b) and 11.

ERECTION OF TEMPORARY HOUSES

The comparative progress on slabbing and erection of temporary houses by 30th April, 1947, compared with 31st July, 1945, and 31st March, 1947, has been as follows:—

	31st July, 1945	31st March, 1947	30th April, 1947
Slabbing begun	21,496	112,242	114,337

Houses—under erection at end of period	2,651	6,288	5,541
Houses erected	1,701	87,541	91,456

See Appendix A, Table 3.

The number of houses as shown below are included in the figure for houses erected and have been handed over for occupation before all internal fittings have been installed.

London Region 24

In addition to the number of houses shown above as erected 473 houses have been completed in all respects but can not be handed over for occupation until connected to electricity and other services. The numbers in each Region are as follows:—

PERMANENT HOUSES—UNDER LICENCE

The number of houses on licences issued to private persons and the number of houses completed have been as follows up to the end of March and April, 1947, respectively:—

	31st March, 1947	30th April, 1947
Number of houses on licences issued	71,528	73,182
Houses—construction begun	61,832	63,572
Houses—under construction at end of period	27,363	26,530
Houses completed	34,469	37,042

The figures shown above do not include houses built in replacement of those destroyed during the war, which are shown separately below.

The total number of houses on licences issued by the end of March has been arrived at after allowing for those licences notified as having lapsed.

See Appendix A, Table 4 (a).

PERMANENT HOUSES—HOUSING ASSOCIATIONS

The number of houses on licences issued or in respect of which approval has been given and the number of houses completed to the end of March and April, 1947, respectively, are as follows:—

Houses completed	145	171

See Appendix A, Table 4 (b).

HOUSES—GOVERNMENT DEPARTMENTS

The construction of houses is authorised by Government Departments for the families of police, prison staffs, the Defence Services and other Government employees. The number of houses for which tenders have been approved and the numbers completed to the end of March and April, 1947, respectively, are as follows:—

	31st March, 1947		30th April, 1947

Houses completed	116	130	141	130

REBUILDING OF WAR DESTROYED HOUSES

The rebuilding of war destroyed houses by private builders to private contract can be undertaken only under licence. Rebuilding by Local Authorities can be begun with the approval of the Ministry of Health and War Damage Commission. The figures for April take into account information regarding houses approved and on licences issued and houses completed in earlier months which was not previously available. Information in respect of some Local Authorities is still incomplete and the figures quoted are subject to adjustment. The position at the end of April compared with that at the end of March, 1947, was as follows:—

	31st March, 1947	30th April 1947
Local Authorities—Houses approved	6,709	6,808
Private Builders—Houses on licences issued ...	19,738	20,741

See Appendix A, Table 5 (a).

USE OF EXISTING PREMISES

Apart from new building additional accommodation for family units has also been provided by Local Authorities and by private builders under licence by the repair or adaptation of existing premises.

Information in regard to such provision made by Local Authorities has been published in earlier housing returns. Corresponding information relating to the provision made by private builders under licence was available for the first time in April, 1946. The data available may be summarised as follows:—

	Family Units of Accommodation Provided				
	On contracts let				Total, April, 1945, to April, 1947
	1st January, 1946, to 30th April, 1947	1st January, 1946, to 28th February, 1947	March, 1947	April, 1947	
Local Authorities	1947	1947	1947	1947	1947
Conversions and adapta- tions	22,931	18,784	1,063	975	29,428
Repairs of unoccupied war-damaged dwell- ings	35,894	—	1,170	1,736	102,324
	Family Units of Accommodation Provided				
	On licences issued				Total
	1st January, 1946, to 30th April, 1947	March, 1947	April, 1947		
Private Builders under licence					
Conversions and adapta- tions	37,807	963	967		13,711
Repair of unoccupied war-damaged dwell- ings	44,434	992	919		14,448

See Appendix A, Tables 5(b) and 6.

It is anticipated that revision will be necessary in respect of figures for the repair of unoccupied war damaged dwellings. The existing figures should therefore be regarded as provisional.

OTHER HOUSING ACCOMMODATION

A total of 30,781 flats and houses of less than 12 rooms was released from occupation by the Services and Government Departments over the period 1st May, 1945, to 31st March, 1947. Some of the dwellings on release were taken over by the Local Authorities.

The total number of requisitioned dwellings held by the Local Authorities for residential purposes was 96,061 at the end of April; of these 60,426 were situated in the London region.

Of the total of 96,061 requisitioned dwellings held by the Local Authorities, 69,275 were held at 31st March, 1945. From that date to 31st March, 1947, there was a net increase in unoccupied houses requisitioned by Local Authorities for residential purposes of 26,616 and a further 170 were requisitioned in April, 1947, making a net increase of 26,786 houses in the 25 months to 30th April, 1947.

SERVICE CAMPS—TEMPORARY ACCOMMODATION

In addition to accommodation referred to above, there were at 30th April, 1947, 14,847 families occupying accommodation in 1,059 camps that were redundant to the needs of the Services or Government Departments, which had been offered to Local Authorities for housing purposes and were considered suitable for those purposes. In the main these camps had been taken over by Local Authorities as part of their pool of housing accommodation or were being managed by them on behalf of the Ministry of Health.

Accommodation for a further 1,399 families was occupied in 215 camps which are still required for Government purposes, or are unsuitable for housing, or are still subject to decision as to their future use.

PROGRESS OF INDIVIDUAL HOUSING AUTHORITIES

Of the total of 1,469 Authorities there were at the 30th April, 1947, 10 Authorities, excluding L.C.C. and Metropolitan Boroughs, who had as yet no sites of which possession had been obtained. Of these Authorities 6 were urban areas (mainly small urban districts) and 4 rural districts; the population in these areas represents 0.11 per cent. of the total population of England and Wales. There were 8 Authorities, excluding L.C.C. and Metropolitan Boroughs, who had not obtained authority to go to tender on a specific scheme. The population in the area of these Authorities represents 0.08 per cent. of the total population of England and Wales.

See Appendix A, Table 7.

HOUSING LABOUR FORCE

Returns of the number of operatives aged 16 and over employed on the construction of new houses are now based on a new system of collecting the data recently instituted by the Ministry of Works. The estimate of 201,100 so employed in England and Wales at the end of April may still be incomplete and, therefore, subject to adjustment. It should be noted that this estimate relates to operatives engaged both on the construction of permanent houses

and on the preparation of housing sites. In view of the change in the basis of collecting the data, and of the possible incompleteness of the new return, comparisons of the numbers engaged on new housing at end of January and at end of April respectively might be misleading. The number employed on war damage repairs decreased from 124,900 at the end of January, 1947, to 112,100 at the end of April.

BUILDING MATERIALS AND COMPONENTS

Details of production of the more important building materials and components are included in Appendix A. The information relates to Great Britain as a whole; separate details in respect of England and Wales are not available. It should be noted that the production of the items listed is utilised not only for the construction of and installation in new dwellings but also for repairs, replacements and building work other than house building.

In general the production in any given month is not known until towards the end of the following month. It is not therefore always possible for the complete data relating to the month under review to be available in time for inclusion in the Return.

See Appendix A, Table 13.

APPENDIX A—NOTES

The material contained in this return is derived from a census of the housing position at 31st December, 1945, and the reports of subsequent progress completed by the Local Authorities. Certain information is obtained from Government Departments. Where this is the case the items concerned have been annotated. At the 15th May, 1947, reports of progress had not been received from 1 Authority for the months December–April, from 2 Authorities for the months January–April, from 5 Authorities for the months February–April, from 1 Authority for the months March and April, and from 31 Authorities for the month of April. Reports of progress in April were due to be received by the 5th May, 1947. Reports received after 15th May arrived too late to be included in the figures shown in this report relating to progress in April. By 15th May, 1947, 1,429 reports had been received.

Classification of Urban and Rural Authorities

The classification of Urban Authorities other than the L.C.C. and Metropolitan Boroughs into Large Towns and Cities, Medium Towns and Cities and Small Towns has been made in terms of population. The classification has been made as follows based on the estimated population at mid-1939 as returned by the Registrar General.

Large Towns and Cities	over 75,000
Medium Towns and Cities	over 25,000 and up to 75,000
Small Towns	25,000 and under

The Rural Authorities comprise all Rural District Councils.

The total population of England and Wales as at mid-1939 is divided between the various groups of cities and towns and Rural Authorities as follows:—

	Number of Housing Authorities	Estimated Population	Percentage of total in England and Wales
Urban Areas			
Large Towns and Cities ...	81	14,655,000	35.3
Medium Towns and Cities ...	218	9,116,000	22.0
Small Towns ...	665	6,399,000	15.4
L.C.C. and Metropolitan Boroughs			
... ..	30	4,013,000	9.7
Rural Authorities			
... ..	475	7,277,000	17.6
Total	1,469	41,460,000	100.0

Regions

Certain changes in the composition of the Northern, North Midlands and North Western Regions were made as from 1st April, 1946. As from the same date the "North Eastern Region" is to be known as "East and West Ridings". The Description and composition of the Regions are now as follows—

<i>Northern</i>	Cumberland, Durham, Northumberland, Westmorland and the North Riding of Yorkshire.
<i>East and West Ridings</i>	The East and West Ridings of Yorkshire.
<i>North Midlands</i>	Derbyshire (except the High Peak District), Leicestershire, Lincolnshire, Northamptonshire (including the Soke of Peterborough), Nottinghamshire and Rutland.
<i>Eastern</i>	Bedfordshire, Cambridgeshire (including the Isle of Ely), Essex, Hertfordshire, Huntingdonshire, Norfolk and Suffolk, except such parts of Essex and Hertfordshire as are within the London Region.
<i>London</i>	London (Administrative County), Middlesex and parts of Kent, Essex, Hertfordshire and Surrey.
<i>Southern</i>	Berkshire, Buckinghamshire, Dorset, Hampshire (including the Isle of Wight) and Oxfordshire.
<i>South Western</i>	Cornwall, Devon, Gloucestershire, Somerset and Wiltshire.
<i>Wales</i>	The whole of Wales and Monmouthshire.
<i>Midlands</i>	Herefordshire, Shropshire, Staffordshire, Warwickshire and Worcestershire.
<i>North Western</i>	Cheshire, Lancashire and the High Peak District of Derbyshire.
<i>South Eastern</i>	Sussex, Kent and Surrey except such parts of Kent and Surrey as are within the London Region.

The changes in regional composition referred to above should be borne in mind in comparing the regional classifications shown in the Tables in Appendix A in this return with those shown in returns published before 30th April.

The total population of England and Wales as at mid-1939 was divided between the Regions as now defined as follows:—

	Number of Housing Authorities	Population at Mid-1939	Percentage of total in England and Wales
<i>Northern</i>	123	3,003,100	7.3
<i>East and West Ridings</i>	118	3,975,700	9.6
<i>North Midlands</i>	131	3,065,100	7.4
<i>Eastern</i>	159	2,691,400	6.5
<i>London</i>	96	8,746,500	21.1
<i>Southern</i>	109	2,317,400	5.6
<i>South Western</i>	167	2,672,700	6.5
<i>Wales</i>	168	2,465,200	5.9
<i>Midlands</i>	121	3,986,500	9.6
<i>North Western</i>	178	6,236,500	15.0
<i>South Eastern</i>	99	2,299,900	5.5
Total	1,469	41,460,000	100.0

Tables 8 and 9

Table 8 shows the numbers of sites at different stages from the initial stage of selection to the stage when the site is available for construction.

Between the selection of the site and the completion of houses ready for occupation there is a long chain of events equivalent to the "pipeline" of materials and components of mass production in the engineering industry.

In general the use of the site for housing requires consideration from the point of view of regional and town planning, local transport facilities and so on. Sites have then to be acquired, a layout agreed, and roads, sewers and other services provided generally in advance of beginning the actual erection of houses. The actual construction of the houses themselves is the final process in the chain of production, which also, of course, comprises the fabrication of building materials and components ready for use.

During the early stages of expanding the volume of house building, the number of house sites under development and the number of houses under construction and so on will continue to rise in advance of a corresponding increase in the number of houses completed. As the production of houses by Local Authorities evolves into a smooth and continuous cycle of operations, the number of houses or house sites at the various stages in the chain of production will tend to be roughly equal.

Table 9 shows the number of houses at different stages towards completion beginning with the preparation of house plans.

Many of the initial stages in the erection of houses such as the preparation of house plans, bills of quantities and the chain of events leading to the acceptance of a tender are, in many cases, undertaken concurrently with the work of developing the corresponding sites.

Note.—Houses on licences issued to the end of December, 1945, cannot be sub-divided between those intended for owner occupation or for sale and those to be available for letting (Cols. 2 and 3). The classification under these two heads in Sections B and C of the Table relates only to licences issued from January, 1946, to April, 1947, inclusive.

The total number of houses on licences issued has been arrived at after allowing for licences notified as having lapsed. The information shown in Sections B and C of the Table relates to the total number of houses on licences issued as at the end of April, 1947.

Information in respect of new dwellings being built by Housing Associations now being shown in Table 4(b), was in months prior to August, 1946 included with dwellings being erected by private builders under licence. For this reason strict comparison between this Table and Table 4 in such Returns is not possible.

Note.—The number of housing authorities at each stage in the above table is included in the figure at each subsequent stage towards the completion of building schemes, e.g., authorities without authority to obtain tender on a specific scheme appear at each subsequent stage.

The greater part of the housing provision for the County of London area is made by the London County Council and the fact that no tenders have yet been approved for a number of Metropolitan Borough Councils does not mean that provision is not being made for the needs of those Boroughs.

This table in Returns up to that for 31st December, 1946 included information on the numbers of Local Authorities with no sites of which possession had been obtained or for which plans had been approved. The inclusion of this information has been discontinued in view of the small numbers involved. Summarised figures are quoted on page 8 of the Return.

- (a) Provisional.
 (b) Operatives engaged on repair both of unoccupied (i.e. severely damaged) war damaged houses and upon repair of war damaged occupied houses.
 (c) These figures, derived from a new system of collecting the data, may be incomplete. Comparisons with the number employed in the comparable categories at the end of January, might be misleading.
 (d) This estimate is based on the Ministry of Works census taken at the end of November, 1946.
 (e) This estimate relates to men engaged on work on existing premises resulting in additional accommodation but not necessarily in the provision of new family units.
 (f) The numbers shown under this head may be overstated since they may include operatives employed on the construction of permanent houses.
 (g) Source—Ministry of Works (based on Census and Sample Returns).
 (h) Source—Ministry of Labour. Owing to differences in classification it is not possible to relate the number of "insured workers" to the number of "operatives employed."

Notes:—

(a) The total supplies of softwood timber shown in the above table necessarily relate to all qualities and dimensions although only certain qualities and dimensions are normally used in building. Softwood timber is required for use in the repair and construction of ships, the repair and construction of railway passenger and goods vehicles, furniture, agricultural equipment, packing cases, etc. An allocation between the various uses of the supplies available each quarter is agreed inter-departmentally and implemented through the timber licensing machinery.

There is a marked variation during the course of the year in the monthly flow of imports into this country, due both to the logging seasons in the country of origin and to the freezing of the ports in the Baltic Sea and in the Gulf of St. Lawrence. Normally the bulk of imports arrive in this country in the latter part of the calendar year.

NOTES

1. An alphabetical index of Regions and Counties is shown on page 78.
2. The data shown in this Appendix has been based on Appendix B to the Housing Return for England and Wales for the 31st January, 1946, and includes additions and alterations notified in monthly Progress Reports up to and including April, 1947, received from Local Authorities. In cases where entries in the Progress Reports were incomplete or inconsistent the information contained in this Appendix has been compiled in the light of evidence contained in the Census Return and in the Progress Reports as a whole. The tabular statement shows the position as at the 30th April. In certain instances Progress Reports have not been received in time for inclusion. Those local authorities in respect of whom Progress Reports for February, March and April, 1947, have not been received are marked with §, † and * respectively. The data in respect of permanent housing shown for such authorities relates to the position as at the 31st January, 28th February and 31st March, 1947, respectively.
3. In certain cases temporary houses have been handed over to Local Authorities for occupation before all internal fitments have been installed. Where this has been done the number of temporary houses shown as completed (Column (13)) has been marked ∅ and the name of the Local Authority and the number of houses included in the figure shown in Column 13 which are not complete with all fitments is stated at the foot of the page.
4. The erection of some temporary houses has been completed but their connection to electric and other services has not been effected. Where this is the case the number of temporary houses shown as completed (Column (13)) has been marked ‡ and the name of the Local Authority and the number of houses completed but not ready for occupation is stated at the foot of the page. Such houses are not included in the number shown as completed in Column (13).
5. The term "under construction" in Columns (4), (6), (15) and (17), means that the contractor has actually begun work on the construction of the dwellings. In some instances work has begun on all dwellings in a particular contract; in a few cases it would appear that all the dwellings in a particular scheme have been shown as "under construction" on the Progress Report although work has not necessarily started on all of them.
6. In certain instances the Ministry of Works are undertaking the erection of groups of experimental permanent non-traditional houses on sites provided by housing authorities. These houses have been included in the data shown for the authorities concerned.
7. Where Tenders (or Estimates in the case of Direct Labour) for site development (Roads and Sewers) have been approved by the Ministry of Health but where work on the site has not begun, the sites have not been shown as under development (Col. (2)).
8. In the few instances where sites developed before the war by private enterprise are being taken over by the local authority but possession has not yet been obtained, the relevant figures have been entered in Column (2).
9. Permanent Houses. The figures in all columns except Columns (4) and (5) are not included in any other column. "Houses under construction" (Column (4)) and "Houses completed" (Column (5)) are included in "Houses on Tenders Approved" quoted in Column (3).
10. It should be noted that the greater part of the housing provision for the County of London is made by the London County Council. It is not, therefore, possible to relate the data shown in this Appendix for each Metropolitan Borough to the housing needs of the population of the Borough.
The bulk of the preliminary work in connection with the provision of permanent houses made by certain housing associations in the County of London area is undertaken by the Metropolitan Boroughs. The information is included in Columns (14), (15) and (16).
Certain data on temporary houses in respect of the London County Council and the Metropolitan Boroughs have been consolidated.
11. The total number of dwellings on licences issued (Column 14) includes licences issued both in regard to new dwellings and to the rebuilding of war destroyed dwellings. An analysis of the respective numbers falling into these two categories is shown in Tables 4a, 4b and 5a of Appendix A to the Housing Return.
The total number of licences shown in Column 14 also takes into account information received from local authorities in respect of any licences that may have lapsed. The data received in respect of licences may not in all cases be complete and may, therefore, be subject to correction.
12. The numbers of houses on licences issued, under construction and completed by Housing Associations is included in Columns (14), (15) and (16).
