A detailed statement for each of the 1,470 housing authorities will shortly be published as a separate document (Appendix B).

The following figures show the progress made on the construction of permanent houses by Local Authorities by 31st December, 1948, compared with 31st July, 1945, and 30th September, 1948. Non-Traditional houses other than permanent aluminium houses, and experimental houses erected by the Ministry of Works have been included:—

The figures shown above do not include houses built in replacement of those destroyed during the war, which are shown separately on page 7.

Appendix A, Table 2, contains information in respect of building schemes for all permanent houses, except permanent aluminium houses. This information is shown in Tables 2 (a) and 2 (b) for traditional and non-traditional types respectively, the sum of these two Tables being shown at Table 2.

PERMANENT NON-TRADITIONAL HOUSES—LOCAL AUTHORITIES (except Permanent Aluminium Houses)

With the object of accelerating the rate at which houses can be erected a number of methods of house construction have been evolved which, for ease of reference, are known as “non-traditional”. In Appendix A, Table 8, a list of the main types is given together with details regarding the numbers of each type for which tenders have been approved and the numbers completed. Information regarding the development of sites and the preparation of housing schemes for non-traditional houses is included in the figures shown in Appendix A, Tables 1, 2, 6 and 7, and is shown in detail in Table 2b.

The position as at 31st December, 1948, compared with that at 30th September, 1948, was as follows:—

	30th Sept., 1948	31st Dec., 1948
Tenders approved	97,560	102,222
Houses—construction begun	88,180	93,571
Houses under construction at end of period	33,182	27,157
Houses completed	54,998	66,414

A total number of 31,048 B.I.S.F. and 1,380 Howard houses have been allocated to Local Authorities. 20,000 applications have been received from Local Authorities and Government Departments for Airey Rural component sets.

See Appendix A, Tables 2b and 8.

PERMANENT ALUMINIUM HOUSES—LOCAL AUTHORITIES

Since the erection of permanent Aluminium houses does not make the same calls on building labour and materials as do other houses, details in respect of this type are shown separately.

The position at 31st December, 1948, compared with that at 30th September, 1948, was as follows:—

	30th Sept., 1948	31st Dec., 1948

HOUSES—GOVERNMENT DEPARTMENTS

The construction of houses and the conversion or adaptation of premises into family units of accommodation is authorised by Government Departments for the families of police, prison staffs, the Defence Services and other Government employees. The number of new houses for which tenders have been approved and the number completed to the end of September, 1948, and December, 1948, respectively, have been as follows:—

Houses completed	2,164	457	3,066	512

In addition to the number of houses shown above tenders have been approved for the erection of 228 permanent Aluminium houses of which 51 had been completed on the 31st December.

The number of family units of accommodation provided by the conversion or adaptation of existing premises to the end of December was 462.

REBUILDING OF WAR DESTROYED HOUSES

The rebuilding of war destroyed houses by private builders can be undertaken only under licence. Rebuilding by Local Authorities can be begun with the approval of the Ministry of Health and War Damage Commission. Information in respect of a few Local Authorities is incomplete and the figures quoted are subject to adjustment. The position at the end of December, 1948, compared with that at the end of September, 1948, was as follows:—

USE OF EXISTING PREMISES

Apart from new building, additional accommodation for family units has also been provided by Local Authorities and by private builders under licence by the repair or adaptation of existing premises.

Information relating to accommodation provided by private builders under licence became available for the first time in April, 1946. That in respect of the repair of unoccupied war damaged dwellings may be incomplete for a few Local Authorities and the figures quoted are subject to adjustment. The position at the end of December, 1948, was as follows:—

	<i>On contracts let</i>		<i>Family Units of Accommodation Provided</i>

OTHER HOUSING ACCOMMODATION

A total of 31,928 flats and houses of less than 12 rooms was released from occupation by the Services and Government Departments over the period 1st May, 1945, to 31st December, 1948. Some of the dwellings on release were taken over by the Local Authorities.

The total number of requisitioned dwellings held by the Local Authorities for residential purposes was 95,803 at the end of December; of these 61,054 were situated in the London region.

Of the total of 95,803 requisitioned dwellings held by the Local Authorities, 69,275 were held at 31st March, 1945. From that date to 30th September, 1948, there was a net increase in unoccupied houses requisitioned by Local Authorities for residential purposes of 26,962 and 434 were released in October-December, 1948, making a net increase of 26,528 houses in the 45 months to 31st December, 1948.

SERVICE CAMPS—TEMPORARY ACCOMMODATION

In addition to accommodation referred to above, there were at 31st December, 1948, 22,659 families occupying accommodation in 1,443 camps redundant to the needs of the Services or Government Departments, which had been offered to Local Authorities for housing purposes and were considered suitable for those purposes. In the main these camps had been taken over by Local Authorities as part of their pool of housing accommodation or were being managed by them on behalf of the Ministry of Health.

Those family units of accommodation included in the number quoted above that are shown in the Summary on page 3, are at least up to the standard of the temporary accommodation already included in the Summary.

Accommodation for a further 760 families was occupied in 99 camps which are still required for Government purposes, or are unsuitable for housing, or are still subject to decision as to their future use.

Accommodation in camps remaining under the control of Service Departments has been provided for 225 families of men still serving in the Forces.

HOUSES LET TO COAL MINERS AND AGRICULTURAL WORKERS

The number of new permanent and temporary houses built by Local Authorities that have been let to miners and agricultural workers up to the end of December, 1948, was as follows:—

	<i>Coal Miners</i>			<i>Agricultural Workers</i>	
	<i>Permanent Houses Aluminium</i>	<i>All others</i>	<i>Temporary Houses</i>	<i>Permanent Houses</i>	<i>Temporary Houses</i>
Oct.-December, 1948 ...	1,254	3,430	73	2,809	47
Total to end December, 1948	4,461	16,701	2,476	12,679	979

The total number of houses let to agricultural workers relate from 1st April, 1945. Those let to coal miners relate from 1st April, 1947, information in respect of earlier months is not available.

PROGRESS OF INDIVIDUAL HOUSING AUTHORITIES

Of the total of 1,470 Authorities there were at the 31st December, 1948, 4 Authorities, excluding L.C.C. and Metropolitan Boroughs, who had as yet no sites of which possession had been obtained. Of these Authorities 2 were small urban districts and 2 rural districts; the population in these areas represents 0.043 per cent. of the total population of England and Wales. There were 6 Authorities, excluding L.C.C. and Metropolitan Boroughs, who had not obtained authority to go to tender on a specific scheme. The population in the area of these Authorities represents 0.096 per cent. of the total population of England and Wales.

HOUSING LABOUR FORCE

Returns of the number of operatives aged 16 and over employed on the construction of new houses are now based on a new system of collecting the data instituted by the Ministry of Works. The estimate of 190,400 so employed in England and Wales at the end of December may still be incomplete and, therefore, subject to adjustment. It should be noted that this estimate relates to operatives engaged both on the construction of permanent houses and on the preparation of housing sites.

See Appendix A, Table 9.

BUILDING MATERIALS AND COMPONENTS

Details of production of the more important building materials and components are included in Appendix A, and relate to Great Britain as a whole. It should be noted that the production of the items listed is utilised not only for the construction of and installation in new dwellings but also for repairs and replacements and building work other than house building.

See Appendix A, Table 10.

APPENDIX A—NOTES

The material contained in this Return is derived from a census of the housing position at 31st December, 1945, and the reports of subsequent progress completed by the Local Authorities. Certain information is obtained from Government Departments. Where this is the case the items concerned have been annotated. At the 14th January, 1949, reports of progress had not been received from 2 Authorities for the months of November and December and from 14 Authorities for the month of December. Reports of progress in December were due to be received by the 5th January, 1949. Reports received after 14th January arrived too late to be included in the figures shown in this report. By 14th January, 1949, 1,454 reports had been received.

Classification of Urban and Rural Authorities

The classification of Urban Authorities other than the L.C.C. and Metropolitan Boroughs into Large Towns and Cities, Medium Towns and Cities and Small Towns has been made in terms of population. The classification has been made as follows based on the estimated population at mid-1939 as returned by the Registrar General.

Large Towns and Cities	over 75,000
Medium Towns and Cities	over 25,000 and up to 75,000
Small Towns	25,000 and under

The Rural Authorities comprise all Rural District Councils.

The total population of England and Wales as at mid-1939 is divided between the various groups of cities and towns and Rural Authorities as follows:—

	Number of Housing Authorities	Estimated Population	Percentage of total in England and Wales
Urban Areas			
Large Towns and Cities	81	14,655,000	35.3
Medium Towns and Cities	218	9,116,000	22.0

L.C.C. and Metropolitan Boroughs	30	4,013,000	9.7
Rural Authorities	476	7,277,000	17.6
Total	1,470	41,460,000	100.0

Tables 6 and 7

Table 6 shows the numbers of sites at different stages from the initial stage of selection to the stage when the site is available for construction. Table 7 shows the number of houses at different stages towards completion beginning with the preparation of house plans.

Between the selection of the site and the completion of houses ready for occupation there is a long chain of events equivalent to the "pipeline" of materials and components of mass production in the engineering industry.

In general a proposal to use a site for housing requires consideration from the point of view of regional and town planning, local transport facilities and so on. The site has then to be acquired, a layout agreed, and roads, sewers and other services provided. The actual construction of the houses themselves is the final process in the chain of production, which also, of course, comprises the fabrication of building materials and components ready for use.

Many of the initial stages in the erection of houses such as the preparation of house plans, bills of quantities and the chain of events leading to the acceptance of a tender are, in many cases, undertaken concurrently with the work of developing the corresponding sites.

The numbers of such workers in England and Wales were 17,539 and 16,510 in September, 1948, and December, 1948.

(d) This estimate relates to men engaged on work on existing premises resulting in additional accommodation but not necessarily in the provision of new family units.

Notes :—Source—Board of Trade.

(a) The total supplies of softwood timber shown in the above table necessarily relate to all qualities and dimensions although only certain qualities and dimensions are normally used in building. Softwood timber is required for use in the repair and construction of ships, the repair and construction of railway passenger and goods vehicles, furniture, agricultural equipment, packing cases, etc. An allocation between the various uses of the supplies available each quarter is agreed inter-departmentally and implemented through the timber licensing machinery.

There is a marked variation during the course of the year in the monthly flow of imports into this country, due both to the logging seasons in the country of origin and to the freezing of the ports in the

Baltic Sea and in the Gulf of St. Lawrence. Normally the bulk of imports arrive in this country in the latter part of the calendar year.

(b) Imports of roundwood logs of pine, spruce, etc., which averaged 71,666 standards in the pre-war years and 18,115 standards in 1946 are not included in the above table.

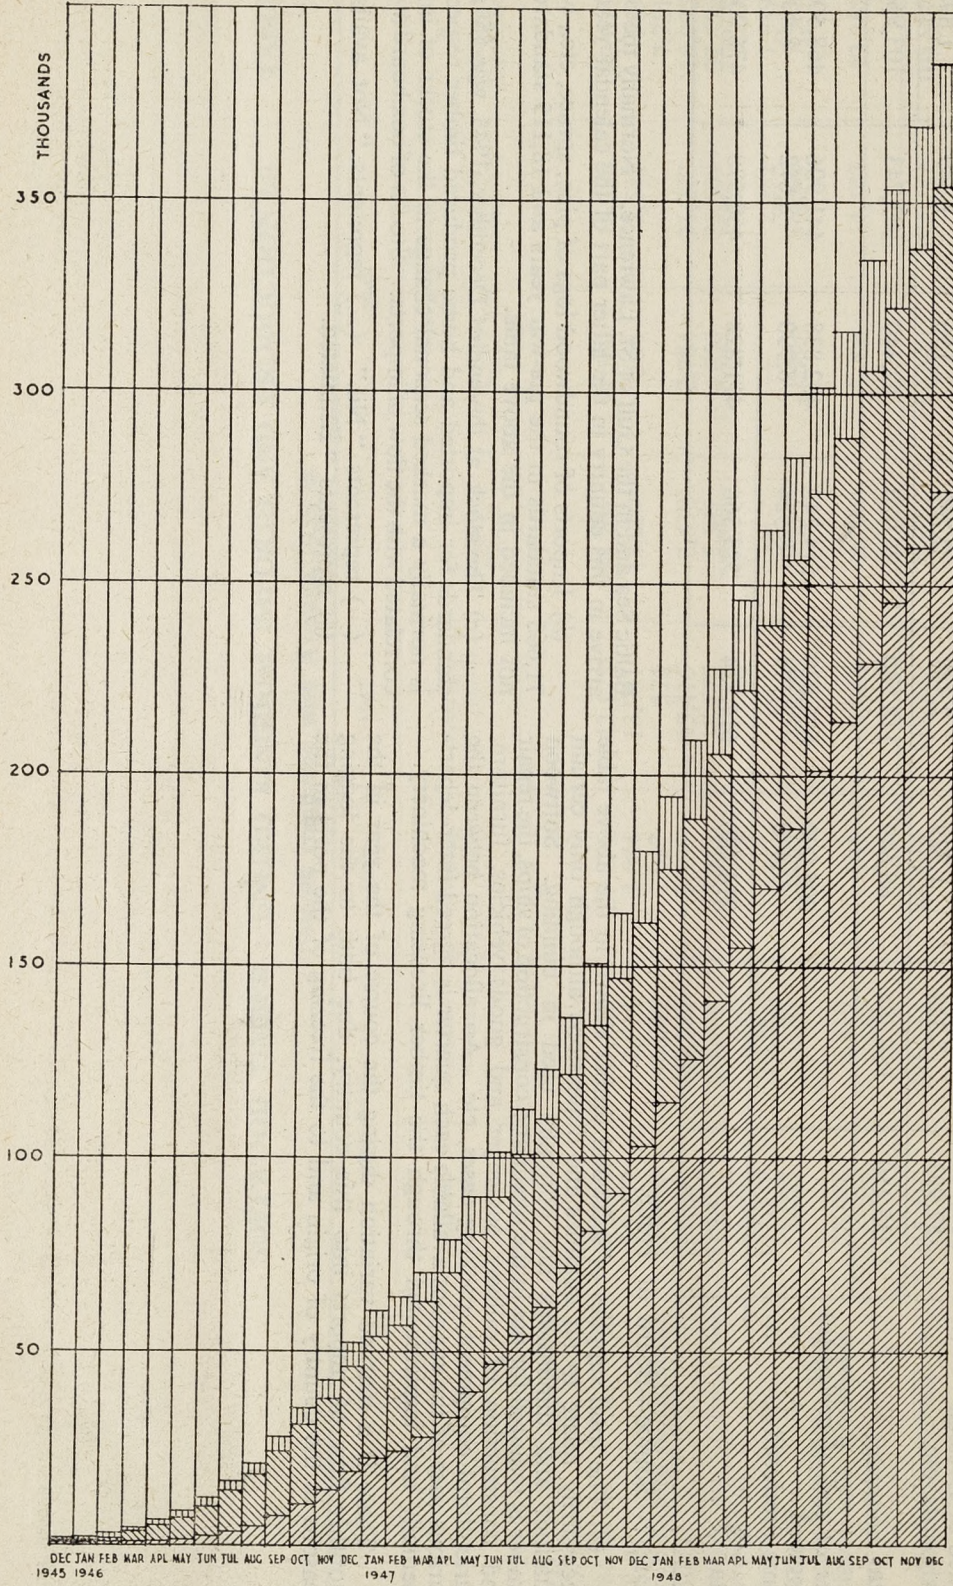

(c) The stock at the end of December, 1945, was 559,000 and 4,130 standards for imported and home produced timber respectively. There is normally a marked seasonal change in the stocks of imported timber correlated with the flow of imports. Stocks of box board are not included.

NOTES

1. An alphabetical index of Regions and Counties is shown on page 78.

2. The data shown in this Appendix has been based on Appendix B to the Housing Return for England and Wales for the 31st January, 1946, and includes additions and alterations notified in monthly Progress Reports up to and including December, 1948, received from Local Authorities. In cases where entries in the Progress Reports were incomplete or inconsistent the information contained in this Appendix has been compiled in the light of evidence contained in the Census Return and in the Progress Reports as a whole. The tabular statement shows the position as at the 31st December, 1948. In certain instances Progress Reports have not been received in time for inclusion. Those local authorities in respect of whom Progress Reports for November and December, 1948, have not been received are marked with * and † respectively. The data in respect of permanent housing shown for such authorities relates to the position as at the 31st October and 30th November, 1948, respectively.

3. The term "under construction" in Columns (4), (7), (9), (16) and (18), means that the contractor has actually begun work on the construction of the dwellings. In some instances work has begun on all dwellings in a particular contract; in a few cases it would appear that all the dwellings in a particular scheme have been shown as "under construction" on the Progress Report although work has not necessarily started on all of them.

4. In certain instances the Ministry of Works are undertaking the erection of groups of experimental permanent non-traditional houses on sites provided by housing authorities. These houses have been included in the data shown for the authorities concerned.

5. Where Tenders (or Estimates in the case of Direct Labour) for site development (Roads and Sewers) have been approved by the Ministry of Health but where work on the site has not begun, the sites have not been shown as under development (Col (2)).

6. In the few instances where sites developed before the war by private enterprise are being taken over by the Local Authority but possession has not yet been obtained, the relevant figures have been entered in Column (2).

7. Permanent Houses. Permanent Aluminium houses are shown separately from other types in Columns (6), (7) and (8). "Houses under construction" (Columns (4) and (7)) and "Houses completed" (Columns (5) and (8)) are included in "Houses on tenders approved" (Columns (3) and (6)); otherwise, figures in each column are not included in any other column.

8. It should be noted that the greater part of the housing provision for the County of London is made by the London County Council. It is not, therefore, possible to relate the data shown in this Appendix for each Metropolitan Borough to the housing needs of the population of the Borough.

The bulk of the preliminary work in connection with the provision of permanent houses made by certain housing associations in the County of London area is undertaken by the Metropolitan Boroughs. The information is included in Columns (3), (4) and (5).

9. The total number of dwellings on licences and approvals issued (Column (15)) includes licences and approvals issued both in regard to new dwellings and to the rebuilding of war destroyed dwellings. An analysis of the respective numbers falling into these two categories is shown in Tables 3A and 4A of Appendix A to the Housing Return. Approvals for the erection of new dwellings include those built under Housing (Financial Provisions) Act, 1938, Section 3, and houses on which the work is done without valuable consideration that were approved before 1st February, 1947.

The total number of licences and approvals shown in Column (15) takes into account information received from Local Authorities in respect of licences that may have lapsed.

10. The numbers of houses on licences issued or approved under Section 94 of the Housing Act, 1936 (as amended by Section 8 of the Housing (Financial Provisions) Act, 1938), under construction and completed by Housing Associations are included in Columns (3), (4) and (5) respectively. In Returns prior to that for 31st July, 1947, this information was included in the columns relating to private builders. The numbers of such houses included in Columns (3), (4) and (5) are shown at the foot of each page for each Local Authority concerned.

11. The estimated population shown in Column (11) relates to 30th June, 1948, and excludes members of the Armed Forces and Mercantile Marine.
