# Local Housing Statistics

**England and Wales** 

lo. 36 ebruary 1976 IMSO £1·50 net

A publication of the Government Statistical Service

### The Government Statistical Service

A service of statistical information and advice is provided to the Government by specialist staffs employed in the statistics divisions of individual Departments. Statistics are made generally available through their publications and further information and advice on them can be obtained from the Departments concerned.

## Local Housing Statistics

### **England and Wales**

1. Local Housing Statistics is prepared by the Department of the Environment and the Welsh Office to provide figures for individual local authority areas in a quarterly publication.

The tables relating to the provision of new permanent housing, slum clearance and, from the beginning of 1972, renovation grants, appear regularly in each issue. They show annual cumulative figures. Before 1972 annual totals for renovation grants were published in supplementary tables.

Supplementary tables on various other housing matters are included as data become available.

Supplementary tables so far published are listed on page iv.

- 2. **Definitions**. Detailed definitions of the terms used are to be found in the Notes and Definitions Supplement to "Housing and Construction Statistics". It may be noted that:
  - "Dwellings" include all permanent houses and flats.
  - "Houses" in relation to slum clearance action has the meaning attributed to it for the purposes of Part II and Part III of the Housing Act 1957 (see para. 6).
  - "Local authorities" include local housing authorities and new town authorities.
  - "Other public sector" includes Government departments, county councils and housing associations.
  - "Regions" are the standard regions for statistical purposes, revised following local government reorganisation on 1 April 1974.
  - "Counties" are the areas specified in the London Government Act 1963 and the Local Government Act 1972; the Isles of Scilly are included with Cornwall for statistical purposes.

3. Local authority areas. Local housing authorities may provide housing either within or outside their own areas. The figures shown in Table 5 against the name of the authority include dwellings situated outside its area, for which particulars of completions are given separately in Table 6. Table 7 shows the distribution within and outside Greater London of dwellings completed by the Greater London Council, or by housing associations assisted by the Greater London Council. Authorities shown in Tables 6 and 7 are indicated in Table 5 by the following symbols:

§An authority which completed dwellings in the area of another authority during the period.

||An authority in whose area another authority completed dwellings during the period.

Other public sector and private sector dwellings are shown against the name of the authority in whose area they are situated.

- 4. New Towns. Against the name of each new town in Table 5 are shown the dwellings built for the development corporation or for the Commission for the New Towns. These are all situated within the new town area and are not included in the figures for any other local authority. Private sector building on land made available by the new town is included against the name of the authority or authorities in whose area it is situated, but is also shown separately in italics against the name of the new town and included in the new town total.
- 5. Adjustments to earlier returns may occasionally result in a negative figure for an individual authority, when, for example, dwellings reported as started are subsequently withdrawn or there is a transfer from one sector to another.

- 6. Unfit houses. The figures in Table 5 show the number of houses (whether or not unfit) demolished in or adjoining clearance areas under Part III of the Housing Act 1957, and the number of unfit houses demolished or closed elsewhere under Part II of the Act or certain other powers. When houses previously reported closed are demolished under Part III of the Act, the addition to demolitions in or adjoining clearance areas is balanced by a deduction from the numbers demolished or closed elsewhere. This may result in a negative figure in the final column for an individual authority. Demolitions under Part II of houses previously reported closed are balanced by a similar deduction, the effect of which is to exclude them from Table 5. In Table 3, all demolitions of houses previously reported closed are balanced by a deduction from the numbers "closed". The London Borough distribution of houses demolished by the Greater London Council is shown in Table 8.
- 7. **Population.** The figures are the latest available estimates of the home population prepared by the Registrar General.
- 8. Renovation grants. Table 9 shows the number of local authority, county council and new town dwellings for which Exchequer assistance was approved by the Secretary of State for the Environ-

ment or the Secretary of State for Wales, and the number of other dwellings for which grants were approved by local authorities during the period. The figures for local authorities include assistance given in a similar way by the Exchequer to some housing associations under the Housing Act 1969 (Section 21) and the Housing Act 1974 (Section 29); the distribution of these approvals is shown in Table 10 (page 35). Alternatively housing associations can receive a grant from local authorities on the same terms as private owners and figures for these grants are merged in Table 9 and shown separately in Table 11

9. Index of local authority districts, London boroughs and new towns: England and Wales. (H.M.S.O. 1974. 50p net) lists alphabetically all local authorities and new towns and shows the county and statistical region in which each is situated; sub-divisions of regions are the counties with certain exceptions in Wales, which are described in the foreword to the index. Maps showing district, county and regional boundaries are included.

A comprehensive description of the new system of local government, including the relationship between the old and new authorities, is given in "Local Government in England and Wales: A guide to the new system" (H.M.S.O., 1974. £4.00 net).
