Local Housing Statistics

England and Wales

1. **Local Housing Statistics** has been prepared by the Ministry of Housing and Local Government and the Welsh Office to provide figures for individual local authority areas in a quarterly publication. Corresponding figures for years before 1966 appeared in the former Appendix to the Housing Return for England and Wales.

The tables relating to the provision of new permanent housing and to slum clearance appear regularly in each issue. They show annual cumulative figures.

Supplementary tables on various other housing matters are included as data become available. Tables in this issue show tables on improvement grants for 1969; dwellings started and completed in the regional sub-divisions; amendments to the Classified Index of Local Authorities and New Towns.

Supplementary tables published in previous issues are listed on Page iv.

2. **Definitions.** Detailed definitions of the terms used are to be found in the quarterly publication Housing Statistics, Great Britain. It may be noted that:

“Dwellings” include all new permanent houses and flats.

“Houses” in relation to slum clearance action has the meaning attributed to it for the purposes of Part II and Part III of the Housing Act 1957 (see para. 7).

“Local authorities” include local housing authorities and new town authorities.

“Other public authorities” include Government departments and housing associations.

“Regions” are the economic planning regions adopted in 1965. These only differ from the Standard Statistical Regions by including Poole Borough in the South West rather than the South East.

“Counties” are primarily the areas for which Lieutenants are appointed. Greater London as a whole is dealt with as a county. Stockport is dealt with as wholly in Chester. The part of Derbyshire in the North West region is shown as “Derbyshire (High Peak District)”. The county borough of York is included with Yorkshire, West Riding (until the end of 1968 it was included with Yorkshire, East Riding).

3. **Local authority areas.** Local housing authorities may provide housing either within or outside their own areas. The figures shown in Table 4 against the name of the authority include dwellings situated outside its area, for which particulars of completions are given separately in Table 5. Table 6 shows the distribution within and outside Greater London of dwellings completed by the Greater London Council, or by housing associations assisted by the Greater London Council. Authorities shown in Tables 5 and 6 are indicated in Table 4 by the following symbols:

§ An authority which completed dwellings in the area of another authority during the period.

|| An authority in whose area another authority completed dwellings during the period.

Other public sector and private sector dwellings are shown against the name of the authority in whose area they are situated.

4. **New towns.** Against the name of each new town are shown the dwellings built for the development corporation or for the Commission for the New Towns. These are all situated within the new town area and are not included in the figures for any other local authority. Private sector building within the new town area is included against the name of the authority or authorities in whose area the new town is situated, but is also shown separately in italics against the name of the new town and included in the new town total.

5. **Boundary changes.** Where the boundaries of local authority areas have been altered during the period shown, dwellings are shown in Table 4 against the local authority in whose area they are now situated.

6. **Adjustments to earlier returns** may occasionally result in a negative figure for an individual authority, when, for example, dwellings reported as started are subsequently withdrawn or there is a transfer from one sector to another.

7. **Unfit houses.** The figures in Table 4 show the number of houses (whether or not unfit) demolished in clearance areas under Part III of the Housing Act 1957, and the number of unfit houses demolished or closed elsewhere under Part II of the Act or certain other powers. Houses reported as closed in an earlier period which have subsequently been demolished under slum clearance action are excluded from the latter total; this may result in a negative figure for an individual authority. In Table 3 they are excluded from houses "closed". (Up to issue No. 8 the adjustment was made to "Houses not in clearance areas: demolished".) The London Borough distribution of houses demolished or closed by The Greater London Council is shown in Table 7.

8. **Population.** The figures are the latest available estimates of the home population prepared by the Registrar General.

9. **Index.** An alphabetical list of all local authorities and new towns in England and Wales is published separately. In addition to page references this shows the type of each authority and the region and regional sub-division in which it is situated. A map of the regional sub-divisions is included.

In Local Housing Statistics and in the Index certain boroughs are listed for convenience by a name in common use which differs from their correct title. They are:—

Dartmouth	properly Clifton Dartmouth Hardness
Durham	properly Durham and Framwelgate
Launceston	properly Dunheved, otherwise Launceston
Salisbury (New Sarum)	properly New Sarum

Supplementary tables

Improvement grants

1. The tables show the number of local authority dwellings for which Exchequer assistance was approved by the Minister of Housing and Local Government or the Secretary of State for Wales, and the number of other dwellings for which grants were paid by local authorities, during 1969.

2. Approval for assistance to local authorities is given before the work commences, and no figures are available of the number of dwellings in respect of which payments were made during the year. Virtually all approvals are taken up though not necessarily in the year shown. The figures are not, therefore, strictly comparable with those for private owners, but a total for all grants is given as an indication of the volume of improvement work done in each area.

3. Most housing associations receive assistance from local authorities on the same terms as private owners and their figures have therefore been merged. A few housing associations choose to receive assistance from the Exchequer similar to that given to local authorities. These discretionary grants, approved under the Housing (Financial Provisions) Act 1958 (Section 12) and the Housing Act 1969 (Section 21), together with grants to housing associations approved under the Housing Subsidies Act 1967 are included with the figures for local authorities. Distribution of these grants is shown in Table 10 (Page 82).

4. More detailed notes and definitions on improvement grants may be found in the quarterly publication Housing Statistics, Great Britain.

Statistical sub-divisions of regions

5. The regional sub-divisions are those in general use for statistical purposes with some further sub-divisions used by the Ministry of Housing and Local Government.

Dwellings completed by authorities outside their own sub-divisions are included in the sub-division in which they were built (see also Tables 5 and 6). Information is not readily available for similar treatment of dwellings started by authorities (other than the Greater London Council) outside their own sub-divisions; starts are therefore included in the sub-division in which the authority is located. In most cases the numbers are probably small, but it should be noted that the figures for the West Midlands conurbation and for the Manchester sub-division are inflated by a significant number of starts actually located in the West Midlands Central (South) and the South Cheshire and High Peak sub-divisions respectively. Dwellings started by the Greater London Council and by G.L.C.-assisted housing associations are included in the sub-division in which they are located.

Amendments to the Classified Index of Local Authorities and New Towns

6. Table 12 shows amendments to the Index, published separately in May 1968.
