## COLONY OF NATAL.

## CENSUS 1904.

## Part III.—Religions of the People.

157. The instructions given on the Householder's Schedule for the direction of the people in recording information relating to Religious Sect or Denomination were as follows:—"State the name of particular Religion, Denomination, or Sect. Write against the names of children, however young, the Religion in which it is intended they are to be brought up. In the case of Indians, state whether Músalmán, Hindu or Pársi." Instructions.

158. These Tables reflect the numerous Religious Denominations of all "Europeans or Whites," "Indians and Asiatics," and "Mixed and Others," Males and Females (Natives excepted), for every Census area throughout the Colony, whilst, on the last page, a Summary of the same information, for the whole Colony, is given. Part 3—Table I. (See Annexures)

159. For this section of Enumeration there were signs of objection on the part of a few, mainly belonging to the minor denominational bodies, many persons declaring that a man's religious opinions are his own affair, and that no one has a right to enquire into them. This objection is, no doubt, largely founded on the misconception that the object of a Census is enquiry into individuals, whereas enquiry is made solely with a view to obtain results in the aggregate, and we are of opinion that if this Category is followed up in any successive Census very few objections to this useful and interesting statistic will be recorded, especially if the matter is carefully explained. Objections.

160. The subjoined Table shows the relative positions of the persons under the various Denominations, in relation to the "European or White" Population, as also to the "Indians and Asiatics," and "Mixed and Others," and further, in relation to the total population of the three Races combined:— Relative positions of various Denominations, with per-centage
