### The Stationery Office

Placing a **standing order** with The Stationery Office Books enables a customer to receive future editions of this title automatically as published. This saves the time, trouble and expense of placing individual orders and avoids the problem of knowing when to do so. The standing order service also enables customers to receive automatically as published all material of their choice which additionally saves extensive catalogue research. The scope and selectivity of the service has been extended by new techniques, and there are more than 3,500 classifications to choose from. A special leaflet describing the service in detail may be obtained on request.

Enquiries about orders and subscriptions for *Local Housing Statistics* and other Stationery Office publications should be made to The Stationery Office, PO Box 276, London SW8 5DT (☎ 0171 - 873 8499 for subscriptions; 0171 - 873 8466 for standing orders; 0171 - 873 9090 for orders).

### The Government Statistical Service

A service of statistical information and advice is provided to the Government by specialist staffs employed in the statistics divisions of individual Departments. Statistics are made generally available through their publication and further information and advice on them can be obtained from the Departments concerned.

Enquiries about statistical series published in this volume should be made to:

Local Housing Statistics no longer includes **Welsh data**. Local statistics for Wales remain available in the annual publication 'Welsh Housing Statistics' and the free booklet 'Quarterly Welsh Housing Statistics', both available from the Welsh Office (telephone 01222 - 825055).

## Notes and Definitions

1. **Local Housing Statistics** is prepared by the Department of the Environment, Transport and the Regions to provide figures for individual local authority areas in a quarterly publication. These figures are taken mainly from returns made by local authorities; housebuilding figures incorporate reports from the National House Building Council on those dwellings which they inspect for building control purposes. Tables are by region and local authority area, unless otherwise stated.

Most of the regular tables appearing in each issue (see paragraphs 5 to 8) show cumulative figures within either the calendar year or the financial year. The tables showing action under the homelessness provisions of the 1985 Housing Act show quarterly figures (see paragraph 9).

Supplementary tables on various other housing matters are included as annual data become available.

2. **Regional** figures, county figures, and those for England are estimates allowing for missing returns; estimates are also published in Housing and Construction Statistics. Where such estimated figures are shown it would be inappropriate to derive figures for any missing authorities from these estimated totals. Some figures shown for individual authorities in England may come from late returns received after the regional estimates etc were finalised for publication.

### 3. Definitions

'**Local authorities**' in this publication are local housing authorities (shire and metropolitan districts and unitary authorities), and New Town authorities.

'**Counties**' are the areas specified in the London Government Act 1963 and the Local Government Act 1972, or orders under the Local Government Act 1992. The Isles of Scilly are included with Cornwall for statistical purposes.

'**Regions**' are the Government Office regions.

'**Population**': the latest available estimates of the home population published by the Office of Population Censuses and Surveys. Population figures for New Towns are not separately available but are included in the figure for the housing authority in which they are situated.

More detailed definitions of the terms used are given in the annual volume of Housing and Construction Statistics.

4. **Adjustments to earlier returns** may occasionally result in a negative figure for an individual authority, when, for example, dwellings reported as started are subsequently withdrawn.

5. **Housebuilding.** Table 1 shows the building progress of permanent houses and flats, cumulatively within the calendar year.

'**Local authorities**' housebuilding figures include not only dwellings which they will rent but also those they intend to sell or lease (see para 7). Any dwellings built for an authority outside its own area would be included in that authority's figures in Table 1, but this activity has now effectively ceased, reflecting the decline in local authority housebuilding in recent years. These dwellings were formerly also identified in a separate table under the local authority area of their location, but due to the absence of any recent reported activity this table has been discontinued from Issue No. 104 onwards.

'**All**' includes progress on dwellings provided or authorised by government departments, county councils and other local government bodies acting in capacities other than as housing authorities.

'**New Towns**': Private building on privately owned land within New Towns is shown against the relevant housing authority. All building on land owned by development corporations and the Commission for New Towns is shown against the name of the New Town.

Figures are subject to amendment by housing authorities when they reassess housebuilding activity in their areas.

6. **Renovations.** Table 2 deals with completions of local authority and housing association dwelling renovation work for which government assistance in the form of a subsidy or a contribution may be given, including local authority dwellings which have been improved for sale, and renovation work by private owners and by tenants for which grants were paid by local authorities. (Where a local authority has not reported improvements for sale but has reported other improvements to its stock only the latter component is shown against the name of that authority.) The figures, cumulative within calendar years, are the numbers of dwellings and in the case of conversions these are the total available after the completion of the work. Housing Corporation funded renovations of hostel bedspaces are excluded from January 1985. Estimated figures for New Town dwellings are included in regional totals but are not shown separately. Figures for Housing Corporation funded renovations are not currently available for local authorities in England.

7. **Table 3: Local authorities' activities under the homelessness provisions of the 1985 and 1996 Housing Acts.** Part VII of the Housing Act 1996, which came into force on 20 January 1997, places statutory duties on local housing authorities in England and Wales to provide assistance to people who are homeless or threatened with homelessness. A main homelessness duty is owed where the authority is satisfied that the applicant is eligible for assistance, unintentionally homeless and falls within a priority need group. Where a main duty is owed, the authority must either provide sufficient assistance to enable the household to obtain suitable private accommodation in the district or, if this is not available, must secure accommodation for the household for at least two years. In either case, the household is entitled to be placed on the housing register and considered for the allocation of a long-term tenancy. Where households are found to be intentionally homeless, or homeless but not in a priority need group, the authority should provide advice and assistance to help them find their own accommodation.

Part VII of the 1996 Act replaced Part III of the Housing Act 1985, which continues to apply in respect of homelessness applications made before 20 January 1997. A proportion of the homelessness cases for which decisions were made during 1997 are cases to which Part III of the Housing Act 1985 applies. The main homelessness duty under the 1985 Act was widely interpreted by authorities as a duty to secure permanent accommodation. The duties in respect of applicants found to be intentionally homeless or not in priority need are similar to those under the 1996 Act.

Those accepted by local authorities are provided with temporary accommodation if required, or may be helped to stay where they were on a temporary basis until accommodation can be arranged ('Homeless at Home'). Those found to be intentionally homeless are also provided with temporary accommodation for a limited period.

8. **Symbols used.** The following symbols are used throughout:

- = not available.
- = nil or less than half the final digit shown.

### Housebuilding and renovations statistics

Published figures of housebuilding and renovations (Tables 1 and 2) are compiled from the available returns for the relevant period. Revised annual tables incorporating late returns from the English authorities are published. However, earlier practice was to count the returns as and when these were received from local authorities, including any late returns for earlier periods, and to make no revisions, although distortions in the national and regional statistics were relatively slight, they could be large in the case of individual authorities which did not report regularly. The change in procedure was implemented for English authorities' housebuilding in 1980 and renovations in 1978.

Issues containing annual figures (calendar or financial as indicated) are listed below: for any authority, figures should be taken from the latest issue in which the authority is included.

## Statistical Publications from the Department of the Environment, Transport and the Regions

### Stationery Office Publications

#### Housing and Construction Statistics - Annual

Most of the tables in this reference book on housing and construction topics show how things have changed over the last eleven years; others give detailed analyses for the latest year. The quantity and type of housing built each year and the size of stock, improvements and energy conservation, slum clearance, rents and rent rebates, house prices and mortgage payments can all be derived from this publication. It also contains figures on the volume and type of construction work and new orders in Great Britain, the labour market, costs and prices of materials and labour, and the use of materials. Detailed analyses of the activities of private contractors and local authorities direct labour departments are given for recent years.

#### Housing and Construction Statistics - Quarterly

Produced in two parts each quarter designed to supplement the annual volume by making the latest figures available as quickly as possible.

#### Local Housing Statistics - Quarterly

This publication gives regular statistics on the progress of housebuilding, house renovations and council house sales in individual local authorities in England and Wales. Statistics on homeless households, slum clearance and homes specially designed for the chronically sick and disabled are included as they become available.

#### Household Projections, England to 2016

The latest in an occasional series of publications giving summary results of the Department's 1992 based household estimates for England, the regions, counties, metropolitan districts and London Boroughs. Estimates are given for certain years between 1981 and 2016. It includes a description of the method of calculation.

*SO publications are available from their bookshops at the addresses given on the back cover.*

#### Housing in England 1995/96

This report presents a comprehensive picture of housing in England, including:

Trends in tenure and the changing demographic and economic profiles of owners, social renters and private renters

Peoples's views about their accommodation and the area in which they live

The report also presents the latest information about privately renting tenancy groups, the housing costs and financial circumstances of owners and renters, waiting lists for council housing and movements between tenures.

#### Digest of Environmental Statistics - Annual

This Digest provides information on the main trends in environmental protection. Its explanatory text and commentary highlights the trends, gives information on some of the factors likely to influence them and, where appropriate, links series together. It has sections on global atmosphere, air quality, inland water, marine waters, radioactivity, noise, waste and recycling, land cover and use and wild life. A separate section updates the series on water supply and use.

#### Local Government Financial Statistics - Annual

This publication presents details of local authority expenditure and income during the last financial year. The main figures relate to local authorities in England, but summary figures are also shown separately for the various types of authority (counties and districts, metropolitan and non-metropolitan) in both England and Wales. Further tables set the total of local authority expenditure in the context of the whole of the national economy, and relate present levels of expenditure with those recorded in earlier years.

### Department of the Environment, Transport and the Regions Publications

#### Land Use Change in England

This bulletin presents the results of the Department's statistics on changes in land use, based on data recorded by Ordnance Survey as part of its work on map revision.

#### Rent Officer Statistics

Normally published quarterly, they contain statistics on housing benefit referrals to rent officers (primarily in the private sector) and fair rent determinations (in the private and housing association sectors).

#### Development Control Statistics

This annual publication provides details of planning statistics handled by local planning authorities in England. It also contains information on planning appeals and data on land with outstanding planning permission for private housing development.
