The Stationery Office

Placing a **standing order** with The Stationery Office Books enables a customer to receive future editions of this title automatically as published. This saves the time, trouble and expense of placing individual orders and avoids the problem of knowing when to do so. The standing order service also enables customers to receive automatically as published all material of their choice which additionally saves extensive catalogue research. The scope and selectivity of the service has been extended by new techniques, and there are more than 3,500 classifications to choose from. A special leaflet describing the service in detail may be obtained on request.

Enquiries about orders and subscriptions for *Local Housing Statistics* and other Stationery Office publications should be made to The Stationery Office, PO Box 276, London SW8 5DT (☎ 0171 - 873 8499 for subscriptions; 0171 - 873 8466 for standing orders; 0171 - 873 9090 for orders).

The Government Statistical Service

A service of statistical information and advice is provided to the Government by specialist staffs employed in the statistics divisions of individual Departments. Statistics are made generally available through their publication and further information and advice on them can be obtained from the Departments concerned.

Enquiries about statistical series published in this volume should be made to:

Notes and Definitions

1. **Local Housing Statistics** is prepared by the Department of the Environment and the Welsh Office to provide figures for individual local authority areas in a quarterly publication. These figures are taken mainly from returns made by local authorities; housebuilding figures incorporate reports from the National House Building Council on those dwellings which they inspect for building control purposes. Tables are by region and local authority area, unless otherwise stated.

Most of the regular tables appearing in each issue (see paragraphs 5 to 8) show cumulative figures within either the calendar year or the financial year. The tables showing action under the homelessness provisions of the 1985 Housing Act show quarterly figures and, when available, a calendar year total (see paragraph 9).

Supplementary tables on various other housing matters are included as annual data become available.

2. **Regional** figures, county figures, and those for England are estimates allowing for missing returns; estimates are also published in Housing and Construction Statistics. Where such estimated figures are shown it would be inappropriate to derive figures for any missing authorities from these estimated totals. Some figures shown for individual authorities in England may come from late returns received after the regional estimates etc were finalised for publication.

3. Definitions

'**Local authorities**' in this publication are local housing authorities (shire and metropolitan districts and unitary authorities), and New Town authorities;

'**Counties**' are the areas specified in the London Government Act 1963 and the Local Government Act 1972, or orders under the Local Government Act 1992. The Isles of Scilly are included with Cornwall for statistical purposes;

'**Regions**' are the Government Office regions;

'**Population**': the latest available estimates of the home population published by the Office of Population Censuses and Surveys. Population figures for New Towns are not separately available but are included in the figure for the housing authority in which they are situated.

More detailed definitions of the terms used are given in the annual volume of Housing and Construction Statistics.

4. **Adjustments to earlier returns** may occasionally result in a negative figure for an individual authority, when, for example, dwellings reported as started are subsequently withdrawn.

5. **Housebuilding.** Table 1 shows the building progress of permanent houses and flats, cumulatively within the calendar year.

'**Local authorities**' housebuilding figures include not only dwellings which they will rent but also those they intend to sell or lease (see para 7). Any dwellings built for an authority outside its own area would be included in that authority's figures in Table 1, but this activity has now effectively ceased, reflecting the decline in local authority housebuilding in recent years. These dwellings were formerly also identified in a separate table under the local authority area of their location, but due to the absence of any recent reported activity this table has been discontinued from Issue No. 104 onwards.

'**All**' includes progress on dwellings provided or authorised by government departments, county councils and other local government bodies acting in capacities other than as housing authorities.

'**New Towns**'. Private building on privately owned land within New Towns is shown against the relevant housing authority. All building on land owned by development corporations and the Commission for New Towns is shown against the name of the New Town.

Figures are subject to amendment by housing authorities when they reassess housebuilding activity in their areas.

6. **Renovations.** Table 2 deals with completions of local authority and housing association dwelling renovation work for which government assistance in the form of a subsidy or a contribution may be given, including local authority dwellings which have been improved for sale (Table 3), and renovation work by private owners and by tenants for which grants were paid by local authorities. (Where a local authority has not reported improvements for sale but has reported other improvements to its stock only the latter component is shown against the name of that authority.) The figures, cumulative within calendar years, are the numbers of dwellings and in the case of conversions these are the total available after the completion of the work. Housing Corporation funded renovations of hostel bedspaces are excluded from January 1985. Estimated figures for New Town dwellings are included in regional totals but are not shown separately. Figures for Housing Corporation funded renovations are not currently available for local authorities in England. Figures for Wales were for the number of renovations completed by housing associations funded by the Housing Corporation. Since the first quarter of 1992 figures for dwellings funded by Tai Cymru/ Housing for Wales are also included.

7. **Table 3: Sales of Dwellings owned by local authorities and New Towns.** The Housing Act 1980 extended the provisions under which local authorities and New Towns dispose of dwellings, particularly through the 'right to buy' established in Part 1 of the Act which came into force on 3 October 1980; these provisions are now embodied in Part V of the Housing Act 1985. The Housing Act 1988 introduced the provisions for 'Tenants Choice' and these came into force in April 1989. The Leasehold Reform, Housing and Urban Development Act 1993 introduced the Rent to Mortgage scheme with effect from 11 October 1993, open to full rent-paying tenants who qualify for RTB but cannot afford the full RTB discounted price.

'**Right to Buy**' This first section summarises progress during the financial year of sales to tenants exercising this right, but only in respect of full ownership sales. It shows the number of tenants from whom formal claims have been received on form RTB1 (no adjustment is made for claims subsequently withdrawn); the numbers whose claim had been formally accepted by the local authority on form RTB2; and the number of completed sales.

'**Rent to Mortgage**' This section similarly shows the number of formal scheme applications received on form RTB3; the number of formal admissions issued on form RTB3A; and the number of sales completed during the period.

The '**Other sales to sitting tenants**' column reflects any sales made by authorities under voluntary consents.

'**Sales to tenants other than sitting tenants**' This section excludes any Shared Ownership sales (shown separately in the final section of the table). Sales under the categories shown exclude dwellings which have been built on land made available under licence - see para 8. '**Other**' includes Tenants Choice or voluntary disposals by the authority to housing associations (eg LSVT arrangements) or private developers.

'**Shared Ownership Sales**' These sales are in addition to full ownership sales shown under the RTB and 'Sales to Other than Sitting Tenants' sections. As above, sales of dwellings built on land made available under licence are excluded.

8. **Housing land disposals.** Table 4 deals with local authorities' sales and disposals under licence of land for housing and in addition sales of dwellings built by private developers on land previously made available by authorities under licence.

9. **Table 5: local authorities' action under the homelessness provisions of the 1985 Housing Act.** Part III of the Housing Act 1985 gives local authorities the primary responsibility for dealing with homelessness. Their main duty is to secure accommodation on a permanent basis for those whom they accept as homeless, who are in priority need and who are not intentionally homeless. Acceptances include households found to be homeless (or threatened with homelessness within four weeks) and in one of the seven designated 'priority need' categories and it also includes any homeless households not in priority need for whom they have nevertheless undertaken to secure accommodation.

Following extensive consultations with local authority associations the quarterly returns were revised as from April 1991, bringing the statistics more closely into line with the 3rd edition of the homelessness Code of Guidance. The figures for households accepted as homeless now relate to those for whom local authorities have accepted responsibility to secure permanent accommodation as required by the legislation. Acceptances on the previous return included a number of households - those found to be intentionally homeless and provided with temporary accommodation - who did not meet the full criteria for acceptance under the legislation. Other changes to the return and improved notes for guidance on completing the return have resulted in some authorities changing their reporting practices and results may not be consistent with those for earlier periods (even after allowing for 'intentionally homeless' cases). In particular the term 'enquiries completed' previously used has been replaced with 'Total Applications' and 'Total Decisions Issued'. Although in the past most authorities reported under 'Total enquiries completed' the cases decided in the quarter, other authorities included all applications, many of which do not warrant full enquiries, and some counted acceptances at the stage of an interim not a final decision.

Those accepted by local authorities are provided with temporary accommodation if required, or may be helped to stay where they were on a temporary basis until permanent accommodation can be found ('Homeless at Home'). Those found to be intentionally homeless are also provided with temporary accommodation for a limited period. Annual summaries are published in the issue containing results for the first quarter of the following year.

.. = not available.

- = nil or less than half the final digit shown.

Housebuilding and renovations statistics

Published figures of housebuilding and renovations (Tables 1 to 4) are compiled from the available returns for the relevant period. Revised annual tables incorporating late returns from the English authorities are published. However, earlier practice was to count the returns as and when these were received from local authorities, including any late returns for earlier periods, and to make no revisions; although distortions in the national and regional statistics were relatively slight, they could be large in the case of individual authorities which did not report regularly. The change in procedure was implemented for English authorities' housebuilding in 1980 and renovations in 1978 and for Welsh authorities' housebuilding and renovations in 1978.

Issues containing annual figures are listed below: for any authority, figures should be taken from the latest issue in which the authority is included.

Housing and Construction Statistics - Annual

Most of the tables in this reference book on housing and construction topics show how things have changed over the last eleven years; others give detailed analyses for the latest year. The quantity and type of housing built each year and the size of stock, improvements and energy conservation, slum clearance, rents and rent rebates, house prices and mortgage payments can all be derived from this publication. It also contains figures on the volume and type of construction work and new orders in Great Britain, the labour market, costs and prices of materials and labour, and the use of materials. Detailed analyses of the activities of private contractors and local authorities direct labour departments are given for recent years.

Housing and Construction Statistics - Quarterly

Produced in two parts each quarter designed to supplement the annual volume by making the latest figures available as quickly as possible.

Local Housing Statistics - Quarterly

This publication gives regular statistics on the progress of housebuilding, house renovations and council house sales in individual local authorities in England and Wales. Statistics on homeless households, slum clearance and homes specially designed for the chronically sick and disabled are included as they become available.

Household Projections, England to 2016

The latest in an occasional series of publications giving summary results of the Department's 1992 based household estimates for England, the regions, counties, metropolitan districts and London Boroughs. Estimates are given for certain years between 1981 and 2016. It includes a description of the method of calculation.

SO publications are available from their bookshops at the addresses given on the back cover.

Housing in England 1995/96

This report presents a comprehensive picture of housing in England, including:

Trends in tenure and the changing demographic and economic profiles of owners, social renters and private renters

Peoples's views about their accommodation and the area in which they live

The report also presents the latest information about privately renting tenancy groups, the housing costs and financial circumstances of owners and renters, waiting lists for council housing and movements between tenures.

Digest of Environmental Statistics - Annual

This Digest provides information on the main trends in environmental protection. Its explanatory text and commentary highlights the trends, gives information on some of the factors likely to influence them and, where appropriate, links series together. It has sections on global atmosphere, air quality, inland water, marine waters, radioactivity, noise, waste and recycling, land cover and use and wild life. A separate section updates the series on water supply and use.

Local Government Financial Statistics - Annual

This publication presents details of local authority expenditure and income during the last financial year. The main figures relate to local authorities in England, but summary figures are also shown separately for the various types of authority (counties and districts, metropolitan and non-metropolitan) in both England and Wales. Further tables set the total of local authority expenditure in the context of the whole of the national economy, and relate present levels of expenditure with those recorded in earlier years.
