Name of Street	Colour	HOUSES. Scheduled	HOUSES. Unscheduled	Character	No. of Children 3—13	Description of Street	A	B	C	D	E	F	G	H

Mr. Mullett has been on this district for 16½ years, during which he has seen it steadily going down. No gardens in front or any serious attempt to make the houses look attractive. Main part just struggling with poverty. The S.A. has taken up its quarters in St. Georges New Town. & has vigorously attacked the apathy & drunkenness of the people with considerable success. Many hatstock smokers & brush makers. Edward Pink's factory in Staple St. employs about 1 bro hands.

A generally very conv. working class, residential neighbourhood. Most of the streets have children over the 9d line, but all are scheduled. It is the best part of Southwark. The locality is deteriorating. In Aldermister Rd. there are a few tenement houses.

during that time. People respect themselves more than they did, & the children are cleaner. The houses, drains, &c, have in several of the poorer roads been much improved lately. But the district is deteriorating. There is not much active charitable work. The principal work done in this way is sending children to the country.

Hyson Road. part in A 7 2 is closed now; it was merely a roadway through fields & the railway arches were used for unmoral purposes. Closed by Railway Co 17

The last five roads are all of one type. They were built by Mr Batten, who owns many of them still. Only good tenants are allowed to remain

Dr Wilson has been on this district nearly 12 years and has noticed a decline in the character of the AE[3] part & A.F.' blocks. There are not so many people attend higher class schools as formerly. More irregular and shifty population. The better class are moving towards New Cross and Brunhead, where more modern houses are being built. Some migration of poorer class to model dwellings: Tooley St and Old Kent Road.

Mr C. Jones.

Mr Willett's 12 yrs experience as Visitor & his knowledge extending over 30 years show that this district is deteriorating; especially block X. Better class people are going away and are replaced by a vicious, lawless set.

There are two Penny Board schools on the ground: Webb Street & Hunter Street; the latter being a "Special difficulty" school.

Few children go to schools above 90 & these few are from the Kent Rd & Warner St. A very poor district on the whole.

Some of the old houses in the part of Abbey St contained in this block formed parts of the old Abbey –

Mr Gibb.

Fee 2d
Fee reduced 1d if children are regular

Mr Gibb has been on district five years & sees but little change; population is stationary. The people shift continually on the district but do not leave it. Most of the labourers are employed in timber trade & would be more correctly called deal porters.

General Remarks — C is the poorest part of this visitor's district. There has been but little change in recent years — The greatest alterations are in C, were the blocks of buildings have been erected.

Ponsonby Buildings (B) are new blocks; well kept and arranged.

Running Horse Yard. (A) — is a very unsanitary place. The rooms are built over stables attached to the Running Horse Publichouse and are reached by a flight of steps from the yard. At the top there is a dark corridor with eight rooms on each side and two W.C's. at the further end for general use. These rooms are crowded — An old man, who was a well-known street seller in Blackfriars road died in one of these rooms. He had three sons, two of school age & one older, and two grown up daughters. The mother and these five lived and slept in the room where the corpse was.

Interview with Mr Meek, Scripture Reader
74 Blackfriars Road
in Christchurch parish.

Mr M. is a tall man, between 50 & 60, with iron-grey whiskers and a slight stoop. He is somewhat slow in comprehending ideas and has some difficulty in expressing himself.

He visits the whole of the parish, street by street, and this round occupies three to four months. He has thus obtained a good knowledge of the old inhabitants of the parish but does not know much about the "fletters". He has been Scripture reader over 20 years.

Mr M. is at the Church on Monday, Wednesday & Friday morning. Busy on Wednesday.

Interview with Sister Louise Mary, St Alphege Home, 16 & 17 Blackfriars Road. S.E.

This is one of the members of an Order, resident here and engaged in systematically visiting the parochial district of St Alpheges. This sister has been engaged on this district for many years and visits a group of poor streets, situate between Friar & King Streets.

Having explained the signification of colours used on the map, we ~~dis~~ talked over the condition of the sheets with which Sister Louise was familiar. Her opinion was that we had not made the streets poor enough but she admitted that the comparative colouring was correct. e.g. Francis ~~the~~ Street, the only purple street in the group was the best. Gun St Buildings, the only patch of dark blue, was the worst, while the other streets, Martin, Gun, etc coloured light blue

Name of Street	Colour	HOUSES. Scheduled	HOUSES. Unscheduled	Character	No. of Children 3—13

were all about the same..

She had a very good knowledge of the district: the following notes respecting the people in Gun Street, were dictated without the aid of any notes whatever. When we came to Gun Street Dwellings, the Sister referred to her notes for the first time.

The people in these Dwellings are quite different to those in the small houses: the latter do not move much and there are many old inhabitants; in the dwellings however there is a continual change taking place, many of the people only stopping a few weeks.

Gun Street Dwellings.

(Visitor's figures ~~at~~ would make these Light Blue; they are coloured Dark Blue in accordance with consensus of opinion. See pages 46-7.)

There are three blocks of these dwellings, all similar in construction. In each, there are ~~fo~~ four floors viz the ground floor & three above. ~~Th~~ The roof is flat & reached by a staircase; it is intended as a drying ground for the inhabitants.

On each floor, there are seven tenements, six of which contain two rooms each & the other is a one room tenement. The staircases are very dark and steep; the water supply is intermittent owing to the defective fittings; altogether the dwellings are as undesirable habitations as can well be imagined. They are the property of a philanthropic company, whose raison d'etre is to provide improved workmen's dwellings. The Company has ~~made~~ been equally successful(?) in Hoxton Market.

Interview with Sisters visiting in All Hallows Parish, Southwark, at All Hallows Home 127 Union Street. October 18th 1890.

Reaching the Home at 10·30, I was introduced to the Sister Superior. She told me that Sister Mary Margaret was engaged for a short time. She (the Sister Superior) had been ~~several~~ many years at All Hallows & would be glad to go over the district generally. She told me that the population was stationary; as a rule when ~~the~~ a family moved it was only from one part of the parish to another. They had many families, the heads of which were ex children in their schools & had grown up with them. The district was, however, growing poorer, principally by the removal of the better class, shopkeepers etc from the district. The people were much intermarried. They had but few Irish, except in Albert Terrace.

In looking over the map, and talking of the various streets, I gathered that they regarded the Southwark Bridge Road end of Orange Street ~~was~~ very bad while the other end was much better. Pepper Street, Loman St & adjacent districts were poor but not so bad as in past years. Union Street then came under review & was regarded as poor, the number of people well-off being regarded as too small to influence the colouring to any extent. I directed special attention to the shops and was met with the reply that only a few lived there & the number of these was diminishing. The sister, who ~~&~~ visited Union St being in the house, the Sister Superior called her & they gave me

particulars of part of the street (See page opposite)

Whilst I was taking notes of this, Sister Mary Margaret came in. She is quite a young woman and had been working in Surrey Row for ~~over a~~ two years. She gave me particulars of the south side of the street. During the interview, I remarked that it was not so bad as I had expected. She said that the north side was worse than the south (this agrees with Dr Moss's statement.) It said that the tall houses at East end had been cleared some six months before and were now occupied by a better class. Albert Terrace, reached thro' an archway under these houses was mainly Irish. At 12.45 am a bell rang & the sister said she would have to go in a few minutes, so when the South side was completed, I asked whether she would be able to give information as to the former occupants of the North side. The Sisters Superior said that perhaps another sister might be able to give the information if I would write. Sister Mary Margaret, it appeared was leaving the Mission on the following Monday.

St George the Martyr.

Saw Mr Hill the city missionary, who works the St George's Market district, in conjunction with the Chislehurst Camden Mission.

He agreed with the colouring generally, especially in the comparative views; Kell St the worst & then Providence Place - others following. Only objection was to red line on Southwark Bridge Road, which he does not think better than York Street.

May do Kell Street in detail but will write.

Mr Harris, Visitor for part of Bermondsey Parish, east of Bermondsey Street.

Mr H. is a fair, nervous man & has a large district, which he could not know accurately.

Linnaeus Street. Great number of labourers, might be ~~pu~~ 2/3 instead of purple. Quite as bad as Gedling Street.

Paulin Street should be purple; does not think there is much difference between Paulin & Little Paulin St. Would not make any difference between Tindall & Paulin Streets.

Mr H. does not know any street well enough to give particulars but he gave the following particulars as to Blackmans Court which he thinks is not Dark Blue

No 1. Man, wife and 4 or 5 children. Keep the house (4 rooms). Man is in regular work but does not know what he does. House is very dirty; very little furniture; do not seem to drink. Have been in great difficulties but are getting better. Man got help from the C.O.S. & had to repay the money. Two or three of the boys allowed to run about; have given clothes but they seem to have gone.

No 2. Man works at leather works; second wife and several children, about 6. Struggling poor; one girl has gone out as servant.

Interview with Mr. Wilson, London City Missionary in connection with Rev. J. Tarrer's Congregational Church, Jamaica Road, Bermondsey. S.E. at 492 Southwark Park Road.

Mr W. is a middle-aged, well built ~~man~~, with a ruddy complexion. He speaks in a decided tone and knows the district well, as does his wife, who was in the room & would occasionally supplement his account with her opinion of the people or some particular he had omitted. He explained her acquaintance with the people by saying that Mrs W. used to take things to the people and would visit cases which it was not judicious for him to go to. The whole of the interview was done without reference to any notes.

Mr W. objected to our colouring of West Lane, part of which he says should be Dark blue. He offers to do it, if we want it.

Interview with Mr Boddington, Visitor for Rev. E. J. Beck. St Mary's Rotherhithe.

Mr B. is an undersized old man who has lived in St Mary's parish some thirty years and has grown up with the people. His opinion as to the relative poverty of the streets is given below.

Adam Street. Lower part is poor, especially near the river.

Adam's Gardens. Not quite so good as Adam Street, because there are a number of old men. Mostly let in tenements of 2 rooms.

Adam Place. Eve's Place. These places are, if anything better than Adam's Gardens, so far as amount of earnings. Adam's Place is more like Elephant Lane; not so poor as Clark's Orchard.

Ainsty Street, about the same as Swan

Poor mixed class; some earn good money.

More drunken & dirty than Swan Lane.

Clarence St. Rather good; most of the people earning 24/. Better than Swan Lane & perhaps than Princes Street.

Weston Street. Some poor; most of the people work in the gas-works. Not so poor as Ainsley Street but nearly so.

Masters Bldgs, about equal to Adam Street.

Mr B. is rather impracticable; he was always branching off to give particulars as to some individual in a street, rather than regarding the street as a whole. He would have given specimen houses in every street. On the other hand, he has an exceedingly good knowledge of the district & people, considering the large area of the parish & when pinned to one district, he gave me the following particulars respecting Adam's

For particulars, see Page 18.

Small houses, 3 rooms, 2 upstairs & one down. Back to back with Eve's Place. Small gardens in front.

No 1. Man, a painter, very regular in the spring and autumn but does nothing in the winter. Steady & industrious but has bad health. Wife & 6 children; one
B a baby; the eldest about 9. Middle-aged people; woman is about 30 & looks quite young; does a little shirtwork. "Very poor. "Have charity but not parish relief"

No. 2. Perry. Man works in the docks &
E gets good money; never asks for anything. Wife does not work. One son works in the docks and another has just started to work. 3 children at school. Earnings about 30/- per week.

No 3. Widow and 2 daughters. Widow goes out cleaning when she can. One girl goes to
C school & the other ought to be at work. Quite respectable; seem poor. New comers.

No 4. Labourer in docks, wife & children.
C Roman Catholic family.

No 5. Seaman. Wife takes in washing. No children at home. One daughter married and another goes to service but is at home
C sometimes being subject to abscesses. "Never ask for anything, but will take anything that is given".

No 6. New comers. Have no information but think they are well off. There have been three families here within the past three months. Always moving here.

Interviews with Mrs Colby 96 New Church Street. Principal visitor of St James's, Bermondsey.								
Called to see Mrs C. on Oct 29th 40. She is a tall elderly woman with aquiline features; her hair is almost white but her rapid movements and keen bright eyes show that the mind is bright & active. She speaks very rapidly & know the district well. We went over the map, street by street, the only criticisms being as under:								
Llewellyn Grove - poorest part we have: should be blue. I mentioned incidently that the visitor made it pink (it is coloured purple) & had a greengrocer amongst the inhabitants. "Oh!" said she, "that must be a woman who sits at the top of the street

				with some vegetables in a basket" Marine St. better than New Church Street Frederick Street is poor; about the same as Princes Road.	
				Mrs C. said that she knew New Church St ~~as~~ well as she visited it herself and readily consented to give me particulars of one side of the street. This, she said, would give a fair picture of the street as a whole; indeed much better than portions of each side. Both sides of the street varied in the same manner: the Jamaica Road end was comfortable but the people were poorer as the river was approached, until at the extreme end the families were poor. October 31st was fixed for the interview. (See next page)

Interview with Mr Dawson Visitor in connection with Bermondsey Church on October 29th 1890.

Met Mr D. at the Rectory. He is a man between 20 & 30 years of age, about middle height, full puffy features & unhealthy appearance. He has only been in the district about 6 months and as his ground is rather extensive he had not a very minute acquaintance with it. He said he could not do a street then but offered to do Webb Street on another occasion. An appointment was made, but on the day, I received a note saying that Mr D. was ill. Another appointment was made; I was a little late & found that Mr D. had just gone out. I made another attempt to meet him but failed & so gave it up as he was evidently avoiding a meeting.

His criticisms on the map were as follows:

Marigold Court (D13), quite as bad as Woods Place (D13) if not worse.

Hargrave Place is better; not worse than street adjoining (Alice St)

Interview with Mr Ackerman

Missionary connected with St ~~Mary~~ James' Bermondsey.

at 16 Stork's Road. (His house)

Mr A. is an elderly man with iron-gray hair & whiskers. About the middle height, he has a clear, intelligent face. and is superior to the usual type of missionary.

He made West street & Grove poorer than we have them (pink) & said he should class them with Lucey Road & the other roads to the south which are purple. He wanted to give me specimen houses & offered to give some in each road of the district. I told him that I ~~wanted~~ preferred the specimens from one street and he promised to let me have particulars of Lucey Road & another street at another interview.

On November 5th, I called again. Mr A. had prepared some notes but was in a great hurry to get away as he had another appointment at 1.45. It was 1 o'clock then. We set to work & I took his notes as quickly as possible, only stopping him occasionally to ask a question. I did not ask many as it would have delayed too much. I found he had done parts of 4 streets. The particulars are meagre in some cases but possibly as a result of the want of time to enter into detail by questioning. The details are given on following pages: —

November 17. 1890

Interview with Mr Simpson at Willow Walk. Mr S. is the missionary in St Stephen's Parish and has visited there for over 13 years.

Mr S. ~~said~~ is an elderly man; somewhat nervous. He evidently wished to give all the information he could and ~~was~~ evinced great anxiety lest he should give me a wrong impression. He had written out particulars respecting Lansdowne Place (a copy of which, he mentioned incidentally, Mr Dodge had had). I. went through this with him & obtained some additional information; a transcript of which is given in the following page. We went over the map together sheet by sheet and he agrees with the comparative colouring of the sheets, but displayed a tendency to make them poorer as a whole. His notes on particular

Name of Street	Colour	HOUSES. Scheduled	HOUSES. Unscheduled	Character	No. of Children 3—13

streets are as follow:-

Weston St, part, St Stephen's Square & Wickham Place, are the best parts of the parish. Probably right as purple.

St Paul's Yard. Right as Light blue.

Falstaff Yard. These people are improvident. Look worse than St Paul's Yard but are probably only more improvident.

Lansdown Place. D.B. Majority are "very poor indeed". Nearly all are casual hawkers and dock labourers. Three houses of indifferent character. See detailed particulars.

Westcott St. Quite as bad as Lansdown Pl.

Clarendon St. Not quite so bad but almost. Several fish smokers, comfortably off & a few earning good money.

Henry Street - Like Clarendon St.

Eltham Street. Nos 1-17, houses backing on Henry street are fairly respectable. The rest of the street is taken & let out in rooms to prostitutes, who bring people here. A ~~go~~ large number of soldiers come here.

Red Cow Alley Four houses, very poor indeed.

D.B. NB These are not marked on small map

Delph & Castle Streets are L.B., poor.

Staple Street is worse off than the preceding two. The people are cleaner but poorer. The short streets between should be poorer. Some of the people in these streets go very hungry. Don't know how they live.

Wickham Gardens. Gone now. Was very bad.

St Stephen's Place. Very poor. D.B. Very dirty.

Tabard Street. Even the shopkeepers here do not do well. They have to send some of the tradesmen's children to the sea-side during the summer, because they could not afford to pay for them. He has found these shopkeepers very grateful ~~for~~ ~~about~~ anything that

is given them. The Vicar has lent some of them money for stock & they pay it back again regularly. Nearly every house takes lodgers; some one, and others two sets.

The Common Lodging houses are of a poor kind. In the district there is the Artichoke close to Wickham Place for married couples. ~~There~~ Farther up there is another belonging to "Church"; then two belonging to a widow & then two more of Churches.

Note. On the whole, the people of the district are poorer than when Mr S. came. They do not change much. Some who have improved move out of the district. The Church has done a great deal of good since Mr Dodge's advent. Many families have altered wonderfully & some of them remain in the district but as a rule ~~as~~ when people improve, they leave the district.

Mr S. was an interesting man & has an interest in his work. He gave nearly three hours to the interview & then offered to give any other information he could if he were asked.

On his mantelpiece, I noticed a clock presented to him by the members of his bible class.

Notes of Interview between Mr Booth & Rev W.m L. Bell at Christ Church Vicarage, Spa Road.

Mr Bell classifies his parish as follows:-

Wolsey Bldgs. 140 families. "The scum".

Seven small streets (Like Virginia Row.)
Elizabeth Place
George Court
Pleasant Place
Virginia Row
Kings Arms Place
Joiner's Place
Edward Street
} 178 families. Rather better.

London Street 18 families } Like above. These 276
Jacob Street 80 " } families are all low.

George Row
East Lane
Flockton St
} 314 families. Again a trifle better.

Others to make up 800 much the same; at 5 to family equals 4000 people.. All dark blue.

Reckinger St
Perseverance St
Arnold's Place
Druid Street
Gedling Street
Abbey Street
} 376 families. Light blue.

376
799

1175 × 5 = 5875. total population.

Charity Organisation Society

March 17. 1890

St Saviour's Committee

Saw Mr Ingham Brooke (Hon Sec) and the agent - The latter knows the district well -

√ Willmott's Bldgs & Colliers Rents are much alike - The purple part of the Rents should be poorer - There is a bad brothel there. (Agent says that Willmott's Bldgs have improved this year)

√ Margaret's Court - part at back is very poor. much poorer than the other

√ Stanhope & Mowbray Bldgs are bright comparatively but both are too poor - Manager of Stanhope Bldgs gives average earnings as 20/- per week for his block. Mowbray is much worst than Stanhope - far more police cases.

√ Douglas Bldgs are better than those on the other side of the road - Manager is very particular.

√ St Georges House - LB.

√ Maypole Alley - not criminal; nor is the west side of Red Cross St.

William, Toulman & Rodney Sts are poor Light blue

√ Queens Bldgs - poorer than Douglas Bldgs

√ Harrow St - should be D.B.

√ Kell St might be black. Agent thinks it is the worst street in the district.

Princess St. & Gaywood St are poorer than Marshall St - The people in the latter consider themselves superior to the others - Many Irish women in former streets.

Elliotts Row. Would not make much difference between opposite sides of street - Thinks purple is better.

+ Orient St - purple only.

√ Power, Duke & Jones Streets should only have a black line. The first named is best thought not be black at all.

Police

Boundaries – Blackfriars Road, London Road, New Kent Road, Old Kent Road to the Canal Bridge, along the Canal to Windmill Budge thence along Windmill Lane to the Thames, along the Thames to Blackfriars Budge

Superintendent was very willing to assist us and ordered a sergeant from each of the four sub-divisions to meet me at Blackman St.

I met them on the evening of March 28th. They were all long service men. I adopted the comparative method with them and noticed that the "roughness" of a district had a great influence on their estimate of its poverty.

2/6

Description of Street	A	B	C	D	E	F	G	H

Rotherhithe section

Queen St is correctly marked black – About the same as King St as regards poverty.

Littlington St – Many bad ones here – might have a black line.

Debnam Road – Some thieves.

Goodson Road. Lower end is very poor.

This district is bad but is improving as the owners are getting rid of the bad characters.

Princes Road – "Elbt. here" The phrase in police idiom means that there are some thieves

Nolan Place & Kennings Gardens are not so poor as Elephant Lane but bear a worse character.

√ Albion St is better than Princes St.

√ Tawlin Place is like Acorn Place

√ Houses next to publichouse at corner of Elgar St are not very poor.

Elim St is not much poorer than Wilderness Road.

Hargreave Square should be LB.

King St - The buildings here are as poor as the rest of the street.

Jane Place - Very poor.

Rotherhithe New Road - LB. old houses

Marlborough Road, Cooper's Row and Hawbey St are about on a par.

Marigold Court was a very bad spot. Many locked up from there - it is now improving.

Bermondsey section

Ship & Mermaid Court is the worst of that group of alleys - Infested with prostitutes.

Ferguson's Rents are about the same as Black Swan Yard.

Smith's Place is worse than Woolf Street.

Description of Street	A	B	C	D	E	F	G	H

Wolsey Bldgs - as bad as Edward St

Spa Road - streets on south side are as poor as those on the north, Derby Street etc.

Southwark section

Blackfriars Road - streets on east are all about the same - purple.

Moss Alley - is worse than surrounding courts.

Orange St. only part east of P.H. is black - other part only poor.

Friar St - all turnings on south side are poor.

Surrey Row - South side is worse.

Green St - dark blue, worst part is near Pocock St.

Warwick St - poor.

Rodney St				worst of the group.	
Cole St & Globe St				not criminal - a few criminals in the latter.	
Uxbridge St				only know two criminals	
Arnott & Adam St				should be better than here light blue - Many police!	
Upper Bland St				is about the same as Adam St	
Great Bland St				is better than Buckenham Sq.	
Eltham St				Black - low class of prostitutes. Soldiers frequent the street	
Castle Street				is better than Delph St.	
St Stephen's Place				should only have a black line - there are several respectable families.	

Description of Street	A	B	C	D	E	F	G	H
Violet & Warren Places are poor but not criminal - (Evidently Mrs Haynes has made her district much too black.)								
Tabard St - 1 black line near Blackhorse Court & at Long Lane end only. Middle of street is comfortable -								
Maze Pond - no poor.

No 5. District.				Mr W.J. Lyle 19 St Georges Circus	

Boundaries. Lambeth parish boundary from Waterloo Rd round to Elephant & Castle. Down New Kent Rd to Falmouth Rd. Thence to Union Rd, Swan St & Trinity Rd to High St. Borough Rd, St Georges Circus & Waterloo Rd to parish boundary

Notes. √Shinks Tower St, Joiners St & Duke St are all criminal. The doctor agreed with this description. Both however seemed inclined to make the places worse than we represent them. √They agree that Joiners & Duke St are the worse. †& Marshall St is better than Garden Row †Princess & Haywood St are also better. √Rockingham St. Southern portion is poorer † than that north of Bend. ought to be LCB. †King's Place. should not be very poor. √ LCB. quite bad enough. Was closed because of bad drains. Also √Uxbridge St & the rest of courts there are only very poor; not criminal.

Description of Street	A	B	C	D	E	F	G	H

†Inverton St & Goode's Ct are the only criminal patches †Earl St might be LCB. Butcher Row is poorer & Kell St poorest.

Mr Lyle's ideas as to poverty were not very clear. He seems to have a tendency to extremes and would have made the place poorer as a whole. There is a great amount of prostitution in the streets near the Elephant & Castle. Scarcely one is free from the contagion.
