

## Section XVII.—Occupations and Industries.

189. **Form of Inquiry as to Occupations and Industries.**—The three questions in the Householders' Schedule in regard to occupation were as follows:—

J.—State the INDUSTRY, TRADE, PROFESSION, INSTITUTION, or SERVICE in which employed. (For domestic servants and others in private personal service, write "Private Service." For persons occupied in unpaid domestic duties at home, write "Home Duties.")

Before replying to J, K, and L, please study the examples and read the instructions given.

K.—State precise personal occupation from which income is mainly derived. Distinguish between Dealers and Makers or Manufacturers. (If retired from business, of independent means, or if living solely on a pension, state accordingly.)

L.—If employing any one (European or non-European) for purposes of business..... write 1.  
If working on own account but not employing any one for purposes of business.. write 2.  
If working for an employer..... write 3.  
If at present out of a job..... write 4.  
If retired from business, of independent means, or living solely on a pension..... write 5.

The tables derived from the information supplied in reply to question (J) reflect the total number of persons employed by the various grouped industries irrespective of the nature of the work performed by the individual, while those compiled from the answers to question (K) deal only with the occupations of individuals, ignoring the industry with which they may be connected.

The tabulation and presentation of statistics dealing with the occupations of the people present more difficulty than any other part of the Census investigation, and in this South Africa shares the general experience. The description of occupation or profession seems to provide abundant opportunities for the exercise of individual judgment, and there is also the tendency to exaggerate the position held: The plumber becomes a sanitary engineer, the fitter—a mechanical engineer, the bank clerk—a banker, and the shop assistant—a merchant. Another difficulty frequently encountered is that of securing a uniform description of occupation where alternatives could be given, each with apparent accuracy. For example, a Post Office telegraphist may describe himself as a clerk in the Civil Service when he is desired to describe himself as a telegraph operator in the Post Office. The Secretary of a Department of State may describe himself according to his profession as a lawyer, a medical man, or an engineer. The possible cases of alternative descriptions are practically unlimited.

Generally speaking, however, the information furnished is sufficiently accurate, and cases such as those instanced above form but a small minority.

190. **Classification of Occupations and Industries.**—The lists of occupations and industries used at this Census were similar to those used at the Census of 1921. There have been minor additions and alterations to meet changed conditions, but these do not greatly affect comparability.

A summary of the groupings is included here for convenience of reference, particularly in relation to the groupings adopted for the purposes of this section of the Report.

## SUMMARY OF CLASSIFIED LIST OF "PERSONAL" OCCUPATIONS.

## ORDERS AND SUB-ORDERS.

## I.—Fisherman.

1. Fisherman.

## II.—Agricultural Occupations.

1. Agricultural Occupations.

## III.—Mining and Quarrying Occupations.

1. In Coal and Shale Mines.
2. In Metalliferous Mines and Workings.
3. In Diamond Mines and Workings.
4. In Other Mines and Quarries.
5. At Oil Wells and Brine Wells.

## IV.—Workers in the Treatment of Non-Metalliferous Mine and Quarry Products (excluding Workers in Gas Works).

1. Makers of Coke and By-Products (excluding Tar Distilling).
2. Makers of Other Products.

## V.—Makers of Bricks, Pottery, Glass, etc.

1. Makers of Bricks, Pottery and Earthenware.
2. Makers of Glass and Glassware.

## VI.—Workers in Chemical Processes; Makers of Paints, Oils, etc.

1. Workers in Chemical Processes.
2. Makers of Paints, Oils (not Mineral), etc.

## VII.—Metal Workers (not Electro Plate or Precious Metals).

1. Employers, Managers, Foremen.
2. Furnacemen (not Foundry) and Puddlers.
3. Rollers.
4. Foundry Workers.
5. Smiths and Skilled Forge Workers.
6. Machine Tool Workers.
7. Fitters and Millwrights.
8. Other Workers.

## VIII.—Workers in Precious Metals and Electro-plate.

1. Workers in Precious Metals and Electro-plate.

## IX.—Electrical Apparatus Makers and Fitters (not elsewhere enumerated), and Electricians.

1. Electrical Apparatus Makers and Fitters (not elsewhere enumerated), and Electricians.

## X.—Makers of Watches, Clocks, and Scientific Instruments.

1. Makers of Watches, Clocks, and Scientific Instruments.

## XI.—Workers in Skins and Leather, and Makers of Leather and Leather Substitute Goods (not Boots or Shoes.)

1. Furriers, Skinners, Tanners, and Leather Dressers.
2. Makers of Leather and Leather Substitute Goods (not Boots or Shoes).

## XII.—Textile Workers.

1. Textile Workers.

## XIII.—Makers of Textile Goods and Articles of Dress.

1. Makers of Textile Goods and Articles of Dress.

## XIV.—Makers of Foods, Drinks, and Tobacco.

1. Makers of Foods.
2. Makers of Drinks.
3. Makers of Tobacco, Cigars, Cigarettes, Snuff.

## XV.—Workers in Wood and Furniture.

1. Workers in Wood.
2. Other Workers.

## XVI.—Makers of and Workers in Paper; Printers, Bookbinders, Photographers, etc.

1. Makers of Paper, Pulp, Straw, and Cardboard.
2. Printers, Bookbinders, and Photographers.
3. Makers of Stationery, Cardboard Boxes, and Other Workers in Paper.

## XVII.—Builders, Bricklayers, Stone and Slate Workers; Contractors.

1. Builders, Bricklayers, Stone and Slate Workers; Contractors.

## XVIII.—Painters and Decorators (not Pottery).

1. Painters and Decorators (not Pottery).

## XIX.—Workers in Other Materials.

1. Workers in Rubber, Vulcanite, Ebonite.
2. Workers in Bone, Horn, Ivory, Celluloid, etc.
3. Workers in Other Materials.

## XX.—Workers in Mixed or Undefined Materials (not elsewhere enumerated).

1. Makers of Musical Instruments (not Piano, etc., Case Makers).
2. Makers of Vehicles (see also Metal Workers and Wood Workers).
3. Builders of Ships and Boats (see also Metal Workers and Wood Workers).
4. Other Workers.

## XXI.—Persons Employed in Gas, Water, and Electricity Undertakings (not elsewhere enumerated).

1. Persons Employed in Gas, Water, and Electricity Undertakings (not elsewhere enumerated).

## XXII.—Persons Employed in Transport and Communication.

1. Railway Workers.
2. Road Transport Workers.
3. Water Transport Workers.
4. Other Workers in Transport and Communication.

## XXIII.—Commercial, Finance, and Insurance Occupations (excluding Clerks).

1. Commercial Occupations.
2. Persons Employed in Finance and Insurance.

## XXIV.—Persons Employed in Public Administration and Defence (excluding Professional Men and Typists).

1. Public Administration.
2. Defence.

## XXV.—Professional Occupations (excluding Clerical Staff).

1. Professional Occupations (excluding Clerical Staff).

## XXVI.—Persons Employed in Entertainments and Sport.

1. Persons Employed in Entertainments and Sport.

## XXVII.—Persons Engaged in Personal Service (including Institutions, Clubs, Hotels, etc.).

1. Persons Engaged in Personal Service.

## XXVIII.—Clerks and Draughtsmen (not Civil Service or Local Authority); Typists.

1. Clerks and Draughtsmen (not Civil Service or Local Authority); Typists.

## XXIX.—Warehousemen, Storekeepers, and Packers.

1. Warehousemen, Storekeepers, and Packers.

## XXX.—Stationary Engine-drivers, Dynamo and Motor Attendants.

1. Stationary Engine-drivers, Dynamo and Motor Attendants.

## XXXI.—Other and Undefined Workers.

1. Other and Undefined Workers.

## XXXII.—Retired.

1. Retired.

## XXXIII.—Other.

1. Other.

## SUMMARY OF CLASSIFIED LIST OF INDUSTRIES.

## ORDERS AND SUB-ORDERS.

## I.—Fishing.

1. Fishing.

## II.—Agriculture.

1. Agriculture.

## III.—Mining and Quarrying, and Treatment of Non-Metalliferous Mine and Quarry Products.

1. Mining and Quarrying.
2. Treatment of Non-Metalliferous Mine and Quarry Products (excluding Gas Works.)

## IV.—Manufacture of Bricks, Pottery, Glass, etc.

1. Bricks, Pottery, Glass, etc.

## V.—Manufacture of Chemicals, Dyes, Explosives, Paints, Non-Mineral Oils, Grease.

1. Chemicals.
2. Explosives.
3. White Lead, Paints, and Varnish.
4. Non-Mineral Oils, Greases, Glue, etc.
5. Miscellaneous.

## VI.—Manufacture of Metals, Machines, Implements, Conveyances, Jewellery, Watches.

1. Smelting, Converting, Refining, and Rolling of Iron and Steel.
2. Extracting and Refining of other Metals and Alloys.
3. Founding and other Secondary Processes in Metal Working.
4. Engineering (not Marine or Electric).
5. Electrical Installations, Cables, and Apparatus.
6. Vehicles.
7. Ship Building and Repairing and Marine Engineering.
8. Cutlery and Small Tools (not Machine Tools).
9. Other Metal Industries (not Precious Metals, Jewellery, or Plate).
10. Precious Metals, Jewellery, Plate.

## VII.—Manufacture of Textiles and Textile Goods (not Dress, Cellulose).

1. Cotton.
2. Wool, Worsted, and Shoddy.
3. Silk.
4. Flax, Hemp, Jute.
5. Miscellaneous Products.
6. Textile Dyeing, Printing, Bleaching, Calendering, Finishing.

## VIII.—Preparation of Skins and Leather, and Manufacture of Goods of Leather and Leather Substitute (not Boots or Shoes).

1. Fur, Skins, Leather.
2. Saddlery, Harness, Bags, Trunks, and other Goods of Leather and Leather Substitute (not Boots or Shoes).

## IX.—Manufacture of Clothing.

1. Manufacture of Clothing.

## X.—Manufacture of Food, Drink, Tobacco.

1. Food.
2. Drink.
3. Tobacco, Cigars, Cigarettes, Snuff.

## XI.—Woodworking; Manufacture of Cane and Basketware, Furniture, Fittings (not elsewhere enumerated).

1. Woodworking and Basketware.
2. Furniture (not Metal or Basket); Fittings.

## XII.—Paper Making; Manufacture of Stationery and Stationery Requisites; Printing, Bookbinding and Photography.

1. Paper Making.
2. Paper Goods, Stationery, and Stationery Requisites.
3. Printing, Bookbinding, and Photography.

## XIII.—Building, Decorating, Stone and Slate Cutting, and Dressing and Contracting.

1. Building, Decorating, Stone and Slate Cutting, and Dressing and Contracting.

## XIV.—Other Manufacturing Industries.

1. Other Manufacturing Industries.

## XV.—Gas, Water, Electricity.

1. Gas, Water, Electricity.

## XVI.—Transport and Communication.

1. Railways.
2. Road.
3. Water.
4. Docks, Lighthouses, Canals, etc.
5. Air.
6. Storage.
7. Other Transport and Communication.

## XVII.—Commerce and Finance.

1. Commerce and Finance.

XVIII.—Public Administration and Defence.

1. Defence.
2. Central Civil Government.
3. Local Government.

XIX.—Professions.

1. Professions.

XX.—Entertainments and Sport.

1. Entertainments and Sport.

XXI.—Personal Service (including Hotels and Catering, but excluding Government and Local Authority).

1. Personal Service.

XXII.—Other Industries or Industry not Stated.

1. Other Industries or Industry not stated.

The detailed list of personal occupations comprises 661 items classified into 33 orders and 63 sub-Orders; and the list of industries, 481 items classified into 22 orders and 55 sub-Orders.

191. **System of Grouping Personal Occupations.**—The detailed tabulation of occupations which was confined to returns from persons aged 15 years and over (persons under the age of 15 years are included in Class VIII—see below) forms Part XI of the Report. The analysis covers all the more important phases of occupational statistics and tables are given showing in detail the nature of occupation and grade of employment in relation to sex, age, parentage, marital condition, and birthplace of the population of the Union, the Provinces, and the principal urban centres. Further detailed information is available in manuscript which is being preserved for record and reference. Summaries have been prepared and are included in this section so as to illustrate various general aspects of the question of the occupational distribution of the European population.

The following statement furnishes a key to the nine grouped classes of personal occupations used in the summary tables in this section.

*Class I, Primary Producers.*—All persons engaged in agricultural pursuits, mining, and fishing, and in obtaining other raw materials from natural sources.

*Class II, Industrial.*—All persons, not otherwise classified, engaged in the manufacture, construction, preparation, or working up of materials, but excluding, as far as possible, all who are solely engaged in the service of commerce and distribution.

*Class III, Transport and Communication.*—Persons engaged in the transport of passengers or goods, or engaged in postal, telegraph, and other services of communication.

*Class IV, Commercial (and Clerical).*—Persons directly connected with the sale, hire, transfer, distribution, storage, and care of commodities and materials, together with clerks employed in other industries than commerce, but not allocated to other groups.

*Class V, Professional.*—Persons, not otherwise classified, (a) in the employ of the central, provincial, local, and municipal administrations, and in the defence of the country, and the maintenance of law and order; (b) in ministering to religion or charity, or following the professions of the law, medicine, education (including school teachers), art, science, etc.

*Class VI, Personal Service.*—Persons engaged in the supply of board and lodging, and in rendering personal services for which they are remunerated.

*Class VII, Independent.*—Persons of independent means having no specific occupation, pensioners, and persons retired from previous gainful occupation.

*Class VIII, Dependents.*—Persons engaged in household duties at home, all children under 15 years of age, students, and others not otherwise engaged in pursuits for which remuneration was paid.

*Class IX, Other and Unspecified.*—Persons whose occupation was ill-defined, visitors from abroad, and others who failed to indicate the nature of their occupation.

192. **Europeans Gainfully and Not Gainfully Occupied.**—Persons who failed to return their occupation have been eliminated from the statistics used in this paragraph. Omitting these, the total number of persons "gainfully occupied" according to the Census was 580,166, of whom 490,849 were males and 89,317 were females. The proportion for the Union of both males and females gainfully occupied increased by 7 per 1,000 as compared with 1921. In the Provinces, Natal had the highest proportion of both males and females gainfully occupied and the Orange Free State the lowest. Compared with 1921 the proportion for males in Natal was 2 per thousand less, while in the Orange Free State males

gainfully occupied increased 19 per thousand. Females gainfully occupied in both Provinces increased by 7 per thousand. The increases in the Cape Province were males 3 and females 5 per thousand, and in the Transvaal 8 per thousand for both males and females.

TABLE CLXVIII.—EUROPEANS GAINFULLY AND NOT GAINFULLY OCCUPIED, 1926 (EXCLUDING UNSPECIFIED).

| Province.     | Male.               |                         |         | Female.             |                         |         |
|---------------|---------------------|-------------------------|---------|---------------------|-------------------------|---------|
|               | Gainfully Occupied. | Not Gainfully Occupied. | Total.  | Gainfully Occupied. | Not Gainfully Occupied. | Total.  |
| Number.       |                     |                         |         |                     |                         |         |
| Cape.....     | 201,622             | 153,637                 | 355,259 | 40,365              | 307,588                 | 347,953 |
| Natal.....    | 51,620              | 28,865                  | 80,485  | 12,087              | 65,481                  | 77,568  |
| Transvaal.... | 180,020             | 130,718                 | 310,738 | 30,061              | 264,110                 | 294,171 |
| O.F.S.....    | 57,587              | 46,024                  | 103,611 | 6,804               | 91,681                  | 98,485  |
| UNION.....    | 490,849             | 359,244                 | 850,093 | 89,317              | 728,860                 | 818,177 |

Distribution per 1,000.

|               |       |       |       |       |       |       |
|---------------|-------|-------|-------|-------|-------|-------|
| Cape.....     | 567.5 | 432.5 | 1,000 | 116.0 | 884.0 | 1,000 |
| Natal.....    | 641.4 | 358.6 | 1,000 | 155.8 | 844.2 | 1,000 |
| Transvaal.... | 579.3 | 420.7 | 1,000 | 102.2 | 897.8 | 1,000 |
| O.F.S.....    | 555.8 | 444.2 | 1,000 | 69.1  | 930.9 | 1,000 |
| UNION.....    | 577.4 | 422.6 | 1,000 | 109.2 | 890.8 | 1,000 |

Graph No. LXXVI illustrates the distribution of persons gainfully occupied per 1,000 of each sex in the Union and each Province.

EUROPEANS GAINFULLY AND NOT GAINFULLY OCCUPIED AT THE CENSUSES OF 1921 AND 1926—MALES AND FEMALES PER 1,000 OF EACH SEX.

Graph LXXVI.

193. **Personal Occupations of Males.**—Table CLXIX shows the numerical and proportionate distribution of the male population of the Union and of each Province classified in nine groups of occupations as above described.

Excluding the dependent class, which accounted for 391 males per 1,000 of the total, the proportion of males engaged in pursuits connected with agricultural production in the Union, i.e. 203 per 1,000, was higher than for any other class. This was also the case in each Province except Natal, where only 119 per 1,000 males were so engaged. Compared with 1921, the proportion of males following agricultural occupations was lower by 8 per 1,000. The decrease was confined to the Cape and Natal Provinces, the proportion in the former Province dropping by 15 per 1,000 and in the latter by 9 per 1,000. The industrial class came next in order of importance in the Union with 122 per 1,000 of the male population, an increase of 3 per 1,000 as compared with 1921. In Natal the industrial class contained the highest proportion of the total males, viz., 185 per 1,000. Commerce (and clerical) filled third place in order of importance on the list of male occupations in the Union, and the proportion of males so employed was 101 per 1,000, which was slightly lower than in 1921. As in the case of industrialists, the proportion of Natal males engaged in commercial occupations was far in excess of the other three Provinces. These figures afford some indication both of the industrial and commercial importance of Durban, and of the economic dependence of Natal on the interior. The proportion of males engaged in occupations connected with transport and communications rose from 40 per 1,000 in 1921 to 55 per 1,000 in 1926, and again Natal had the highest proportion. Europeans engaged directly in mining formed less than 27 per 1,000 of the Union male population, and were mainly to be found in the Transvaal, where 77 per cent. of miners in the Union were located.

The proportion of males following professional occupations (Class V) was 52 per 1,000 (28 per 1,000 were engaged in administrative government). Natal had the highest proportion of the combined sections of the professional class, 68 per 1,000, and the Orange Free State the lowest, 38 per 1,000. The professions classed in V (b) showed a fairly equal distribution in the Cape, Transvaal, and Orange Free State, viz., 22, 24, and 21 per 1,000, respectively. In Natal the proportion was 31 per 1,000. The figures seem to point to a higher average level of material prosperity in the Garden Province than in other parts of the Union.

The personal service class represented only 12 per 1,000 of the males in the Union, and was least strong in the Orange Free State, where the proportion was only 7 per 1,000.

The number of males in the independent class in 1926 was more than double the number so recorded in 1921. Reference to the age tables shows that the number of males aged 60 years and over increased by 10,301 or nearly 24 per cent. as compared with the year 1921. Many of these would, of course, fall within the classification of pensioners and retired persons. In the case of male civil pensioners the number increased from 3,785 in 1921 to 5,619 in 1926, which is equivalent to 49 per cent., and of railway pensioners from 1,503 to 2,642, or 76 per cent. To these must be added new pensioners from local government administrations and private institutions and businesses.

TABLE CLXIX (a).—CLASSES OF OCCUPATION AND INDUSTRY: MALE EUROPEANS, UNION AND PROVINCES, 1926.

| Class.                              | Personal Occupation. |        |            |                    |         | Industries. |        |            |                    |         |
|-------------------------------------|----------------------|--------|------------|--------------------|---------|-------------|--------|------------|--------------------|---------|
|                                     | Cape.                | Natal. | Transvaal. | Orange Free State. | Union.  | Cape.       | Natal. | Transvaal. | Orange Free State. | Union.  |
| (i) Number.                         |                      |        |            |                    |         |             |        |            |                    |         |
| I—Primary Producers—                |                      |        |            |                    |         |             |        |            |                    |         |
| (a) Fishing and Agriculture.....    | 78,684               | 9,656  | 53,084     | 32,233             | 173,657 | 78,692      | 9,751  | 52,870     | 32,205             | 173,518 |
| (b) Mining.....                     | 4,046                | 639    | 17,531     | 620                | 22,836  | 5,107       | 1,004  | 26,783     | 914                | 33,808  |
| II—Industrial.....                  | 38,296               | 14,977 | 42,325     | 9,119              | 104,717 | 27,041      | 10,195 | 25,650     | 6,512              | 69,398  |
| III—Transport and Communication.... | 21,488               | 7,379  | 14,224     | 4,134              | 47,225  | 28,587      | 11,891 | 18,084     | 5,637              | 64,199  |
| IV—Commercial.....                  | 36,186               | 11,935 | 31,680     | 6,705              | 86,506  | 29,985      | 8,649  | 24,091     | 5,591              | 68,316  |
| V—Professional.....                 |                      |        |            |                    |         |             |        |            |                    |         |
| (a) Administrative Government.....  | 9,986                | 3,001  | 9,431      | 1,780              | 24,198  | 17,338      | 4,888  | 17,624     | 3,919              | 43,769  |
| (b) Other Professions.....          | 7,813                | 2,546  | 7,424      | 2,216              | 19,999  | 6,174       | 2,285  | 5,081      | 1,364              | 14,904  |

194. **Unskilled Workers.**—In South Africa unskilled labour has been generally regarded as the sphere of the native and coloured races, particularly in the Transvaal, Orange Free State and Natal. In the Cape Province there are many skilled and semi-skilled artisans of non-European race. The presence of the natives in large numbers in many occupations of a low economic value, has rendered competition by white persons for these, both economically and socially, difficult. Conditions in the Union have made it essential that newcomers to the country should either have a trade or profession or be possessed of sufficient means to enable them to start work or business on their own account. These requirements have retarded the rate of increase of population by immigration, which has been almost negligible. In the last five years the surplus of settlers over emigrants totalled only 13,552, which represents an increase from immigration of merely 0.8 per cent. in the population. The conditions in regard to immigration which apply to South Africa do not exist in the other States of the British Commonwealth or in the United States of America, where all who wished to enter, until recent years, were welcomed irrespective of their skill in any trade. These differences in the conditions existing in the countries mentioned is reflected in the proportions of male unskilled workers, compared with the proportion in the Union, which is less than half that of those countries.

The statement which follows shows the total male population aged 15 years and upwards and the numbers and proportions of unskilled workers in the four countries mentioned above and England and Wales compared with the proportions of Europeans similarly employed in the Union.

| Country.                          | Male Population, 15 Years and Over.* | Unskilled Workers. |           |

| Union of South Africa.....1921    | 494,588                              | 40,525             | 8.19      |
| Union of South Africa.....1926    | 559,754                              | 59,847             | 9.08      |

\* England and Wales and Canada, 14 years and over.

The increase of 25.5 per cent. in the number of European unskilled workers in the Union between the Censuses of 1921 and 1926 was mainly the result of the policy of employing white labourers on the Government railways and on forestry and farm settlements.

Table CLXIX (a) deals with Classes of Occupation and Industry for males in the Union and Provinces in 1926, and (b) gives comparative tables for 1921.

Graph LXXVII illustrates the number of males in each class of occupation and Graph LXXVIII deals similarly with males employed in each class of industry.

NUMBER OF MALES IN EACH CLASS OF PERSONAL OCCUPATION.—UNION, 1921 AND 1926.

NOTE.—The shaded portion of the Column for Class VIII represents the number of children under 15 years, and the solid portion persons aged 15 years and over.  
Graph LXXVII.

NUMBER OF MALES 15 YEARS OF AGE AND OVER IN EACH CLASS OF INDUSTRY.—UNION, 1921 AND 1926.

Graph LXXVIII.

195. **Classes of Occupations Distinguished from Industry.**—As explained at the commencement of this section, the groupings under personal occupations and industries in Tables CLXIX and CLXX serve quite distinct purposes. The former provides for the classification of the personal occupations of individuals without reference to the industries in which they were employed, while the latter provides for the classification of the same individuals according to the industries in which employed, no matter in what personal capacities such individuals may have been employed. There is thus not necessarily any direct comparison between industries and personal occupations when grouped into classes, chiefly for the reason that many occupations are common to all or most industries. The industrial groupings reveal the extent to which each industry provides employment for the European population and its relative share in the activities in the country. The two tables mentioned above have been arranged to show the effects of the re-distribution in industrial groupings as distinct from individual occupational groupings. To effect this the industrial classes have been reduced to seven as compared with nine personal occupation classes. The seventh and eighth classes of the latter having no corresponding groups in industries, as they are made up principally of persons of no occupation, fall under the group "Other and Unspecified," (Class IX of the personal occupation group).

It will be seen that there is but slight difference between the occupational and the industrial groupings in regard to fishing and agricultural and personal service, while commerce assumes more correct proportions in the industrial groupings by virtue of the proper distribution, among the other groups, of accountants, clerks, etc.

The following shows the percentage increases in each group from 1921 to 1926 :—

|                                  |       |           |
|----------------------------------|-------|-----------|
| Fishing and Agriculture.....     | 4.23  | per cent. |
| Mining.....                      | 1.43  | "         |
| Industrial.....                  | 21.30 | "         |
| Transport and Communication..... | 22.72 | "         |
| Commerce.....                    | 16.68 | "         |
| Administrative Government.....   | 9.78  | "         |
| Other Professions.....           | 31.30 | "         |
| Personal Service.....            | 4.48  | "         |

The wide diversity of the rates of increase is striking. The mining industry took up a very small proportion of the increase in the population. This industry, being largely run with native labour, gives the white man but a poor chance except in a limited number of higher posts. It is, however, disconcerting to find that in agriculture the progress is so small. This tends to show that this important industry is not adjusting itself to the needs of the times at the speed at which the increase of the population demands. It is reasonable to expect that in a country like South Africa depending on a large reserve of low-grade native labour, the increases in the ratios of those occupations which serve not only the white, but also the millions of the non-European population, will be relatively large. From the point of view of the future of the white race it is important, however, that a sufficient scope for employment should be found not only for those Europeans who are capable of taking the lead (including herein even the humble task of being a policeman, etc.) in the economic utilisation of the natives, but also for others who fall below this line. That there will be some who fall below the line must be expected in any society which has not achieved the ideal of the eugenists that every individual should be well-born. It is probably equally certain that the white men cannot expect that there will be a sufficient number of openings of a nature requiring either skill or special training or ability to take responsibility to keep all of them employed. In other words, there will have to be a certain number of more humble occupations which the white man will have to fill.

Considerable increases which have taken place in the proportions employed in transportation and industry have been the result of a direct policy of encouraging the employment of whites in these occupations. To this extent the condition set out above is being fulfilled. It must, however, be obvious that increases in a similar ratio cannot be expected to continue.

The increase of nearly 17 per cent. in employment in commerce is not a favourable sign if one considers that not only was this activity very well developed at the beginning of the period, but that a large number of Indians are engaged in it as well. In other occupations the influx of too large a number of individuals tends to bring its own remedy in making the occupation less lucrative. In commerce, however, this remedy, while by no means absent, is much less direct. In many countries there is a tendency for the number of middlemen to be increased beyond the degree to which this class of person is economically useful, and South Africa would seem to be one of these.

196. **Personal Occupations of Females.**—Particulars in regard to the occupations of females are given in Table CLXX, in a form corresponding with Table CLXIX, dealing with the occupations of males. The dependent class contained 859 per 1,000 of the female population of the Union. In 1921 the proportion was 874 per 1,000 and apart from the increase of 7 per 1,000 in the number of women gainfully occupied, the drop is partly accounted for by the large increase in the numbers of women returned as independent. In 1921 the number in the independent class was 4,376 and in 1926 it was 21,060. This increase is probably the result of a change in classification between the two Censuses, or of a change in the mode of living of the persons concerned. An analysis of this class shows that 70 per cent. of the total were aged 55 years and over—60 per cent. being 60 years and over—and that the large majority were widows. Many of them were found to be living in private hotels and boarding-houses, but if, in 1921 they were residing in their own homes or with relations they would have been classified as occupied in household duties and thus have fallen within the dependent class.

Females in industrial occupations increased by 27 per cent. as compared with 1921; those in the commercial (and clerical) class by 22 per cent.; and those in personal service by 35 per cent. In the latter class the number of indoor domestic servants increased from 7,545 to 11,432, and this increase represents four-fifths of the total increase in the group. The gradual emergence of a class of white domestics is an interesting and a useful development.

Of the female population grouped according to industry, 894 per 1,000 were comprised in Class IX. Compared with 1921, females employed in industrial concerns increased by 37 per cent.; in commerce by 35 per cent.; in Government employ by 10 per cent.; and in the professional group by 29 per cent.

197. **Primary Producing Class (Occupational).**—Of the 200,671 persons falling within the occupational class of primary producers, 196,493 were males, of whom agriculture claimed 172,643 or 88 per cent. The majority of these were owners or occupiers of farms, or relatives working for or assisting the farmer, the bulk of the farm labourers being non-Europeans. White labourers represented 17,402 or 9 per cent. of the total number of male agriculturists. The numbers returned as following special types of farming such as tobacco planters, viticulturists, etc. (items 30 to 35 in Table 2 of Part XI) do not fully represent the number of producers of such products, as the majority of farmers in South Africa engage in general farming operations and describe themselves merely as farmers in the Census returns.

In the mining groups metalliferous mines furnished the largest amount of employment, gold mining predominating, with diamond and coal mines coming next in importance in the order mentioned. The first-named represented 58 per cent., the second 36, and the third 4. The number of alluvial diamond diggers was nearly double the number returned in 1921. At the time of the Census the big alluvial discoveries in Lichtenburg had not yet been made. In the succeeding year, therefore, there was a further increase in the numbers of this class. Subsequently the figure went down again.

Europeans engaged in fishing numbered 1,014 males, or .5 per cent. of the primary producers. This is an increase in numbers of 302 as compared with 1921.

Table CLXXI shows the numbers for the main sub-orders and the proportions per 1,000 of the population and per 1,000 of the male and female population gainfully occupied.

TABLE CLXX.—CLASSES OF OCCUPATION AND INDUSTRY: FEMALE EUROPEANS, UNION AND PROVINCES, 1926.

| Class.                               | Personal Occupation. |        |            |                    |         | Industries. |        |            |                    |         |
|--------------------------------------|----------------------|--------|------------|--------------------|---------|-------------|--------|------------|--------------------|---------|
|                                      | Cape.                | Natal. | Transvaal. | Orange Free State. | Union.  | Cape.       | Natal. | Transvaal. | Orange Free State. | Union.  |
| (i) Number.                          |                      |        |            |                    |         |             |        |            |                    |         |
| I—Primary Producers—                 |                      |        |            |                    |         |             |        |            |                    |         |

198. **Industrial Class (Occupational).**—The number of persons engaged in industrial occupations and the proportions per 1,000 of the European population were as follows :—

|              | Number. | Proportion per 1,000. |
|--------------|---------|-----------------------|
| Males.....   | 104,717 | 122.2                 |
| Females..... | 10,814  | 13.2                  |
| TOTAL.....   | 115,531 | 68.9                  |

The increases since 1921 were males, 11,395 (12.21 per cent.); females, 2,322 (27.30 per cent.); and total 13,717 (13.47 per cent.).

The majority of white persons following industrial pursuits are skilled or semi-skilled. Of the males so employed only 9 per cent. were unskilled workers and of the females 6 per cent.

The following statement shows the proportions of persons engaged in industrial occupations compared with the proportions similarly employed in Canada, Australia, New Zealand and the United States of America. It should be remembered that the numbers in the Union do not include, as in the other four countries, large numbers of unskilled workers.

| Country.                      | Year. | Proportion Per Cent. |                                      |
|-------------------------------|-------|----------------------|--------------------------------------|
|                               |       | Of Total Population. | Of Total Persons Gainfully Occupied. |
| Union of South Africa.....    | 1926  | 6.89                 | 19.81                                |
| Canada.....                   | 1921  | 9.07                 | 25.09                                |
| Australia.....                | 1921  | 13.31                | 31.24                                |
| New Zealand.....              | 1921  | 11.54                | 27.50                                |
| United States of America..... | 1920  | 12.13                | 30.80                                |

The proportions in relation to males only are as follows :—

| Country.                      | Year. | Proportion Per Cent. |                                    |
|-------------------------------|-------|----------------------|------------------------------------|
|                               |       | Of Total Population. | Of Total Males Gainfully Occupied. |
| Union of South Africa.....    | 1926  | 12.22                | 21.33                              |

Of the male industrial workers, 27 per cent. were engaged in the metal working industry. The group of builders, bricklayers, and contractors and that of workers in wood and furniture ranked next in importance with 18 and 15 per cent. respectively of males engaged in industry.

The majority of female industrial workers were employed in the manufacture of textile goods and articles of dress. This was the only sub-order in which females predominated, and here they represented 72 per cent. of the total. It may be noted that this sub-order covers a wide range of occupations, the principal ones being tailoring, dressmaking, bootmaking, millinery, and the making of tents, sails, sacks and other canvas goods. Females were found in some numbers among workers in foods, drinks, and tobacco, and in printing, bookbinding, and photography, these being the only other industrial occupations in which they were employed extensively.

199. **Transport and Communication Class (Occupational).**—The numbers and proportions of each sub-order for each sex are shown in the following table:—

TABLE CLXXIII.—PERSONAL OCCUPATIONS OF EUROPEANS: TRANSPORT AND COMMUNICATION CLASS, 1926.

| <b>TOTAL.....</b>  | <b>47,225</b> | <b>55·1</b>              | <b>96·2</b>               | <b>1,690</b> | <b>2·1</b>               | <b>18·9</b>                 |

The increases between 1921 and 1926 were: Males, 15,850 (51 per cent.); and females, 305 (22 per cent.). Over 75 per cent. of the increase is accounted for by the increase in persons employed on the railways and is mainly comprised of labourers.

Included in "Other Workers" were 3,535 postal employees, 2,077 males and 1,458 females, comprising postmen, postal sorters, wireless operators, telegraphists, and telephone operators. These, however, did not represent the total number of persons employed by the Postal Administration, but the number only of those who definitely recorded their occupation as connected with the postal service. The total number of persons employed by the Postal Administration was approximately 8,000 in 1926, and the 56 per cent. unaccounted for in the above table are mainly included with other public servants under Administrative Government, having returned their occupation as "Government Clerk" or "Civil Servant" without qualification, or with those following industrial or other pursuits, e.g., electricians, etc.

200. **Commercial Class (Occupational).**—The numbers and proportions of each sex employed in the occupations comprising the commercial class are shown in the following table:—

TABLE CLXXIV.—PERSONAL OCCUPATIONS OF EUROPEANS: COMMERCIAL CLASS, 1921 AND 1926.

| Orders and Sub-Orders.   | 1921.         |                        |                     | 1926.         |                        |                     |

In the commercial class are included clerks not allocated to other groups. Thus all clerks, other than Government, municipal, bank, and insurance clerks, and all typists wheresoever employed, have been included under the heading "Office Managers,

Accounting and Clerical Staffs." As a greater proportion of accountants and clerks are employed by commercial houses than by any other single industry, they have, although somewhat arbitrarily, been placed in this class. The actual distribution of clerks according to the industry with which they are connected is shown in Table 8 of the Statistical Section of the Report—Part XI. The following is a summary of the information there given.

OFFICE MANAGERS, ACCOUNTING AND CLERICAL STAFFS ACCORDING TO INDUSTRY WITH WHICH CONNECTED.

| Industry.                            | Male.         | Female.       | Total.        |
|--------------------------------------|---------------|---------------|---------------|
| I—Primary Producers—                 |               |               |               |
| (a) Fishing and Agriculture.....     | 81            | 28            | 109           |
| (b) Mining.....                      | 1,323         | 198           | 1,521         |
| II—Industrial.....                   | 2,490         | 1,793         | 4,283         |

| <b>TOTAL.....</b>                    | <b>26,135</b> | <b>16,347</b> | <b>42,482</b> |

\* Typists only.

Commerce employed 40 per cent. of males and 59 per cent. of females of the numbers shown above engaged in clerical occupations.

Excluding from the calculation clerks employed in central and local government offices, the total number of clerks in the Union amounted to 46,792 persons. Bank and insurance clerks numbered 4,167 and 1,039 respectively, and these added to the 20,088 clerks employed in commerce concerns bring the proportion of clerks employed in commerce and finance to 54 per cent. of the figure shown above.

The commercial class as a whole represented nearly 7 per cent. of the total population of the Union, and was the second largest group of persons gainfully occupied, with a proportion of 19·9 per cent. as compared with primary producers with 34·9 per cent., industrial with 19·9 per cent., and professional with 11·8 per cent.

Wholesale and retail merchants and persons connected with this class of business, excluding clerks, accounted for 54 per cent. of the commerce and finance group, clerks 37 per cent., while finance and insurance occupations represented only 9 per cent. of the total.

201. **Professional Class (Occupational).**—The term "Professional Class" as used for Census purposes is broad in its application and by no means confined to the recognised professions. Under the heading "Public Administration," are included police and penal establishments, and municipal and local government Officials, in addition to the administrative branches of the Public Services of the Union and Provinces, inclusive of the Judiciary. Defence includes 798 males belonging to the Imperial Naval Forces.

In the following table it will be noticed that the numbers of females classified under religion show a large increase as compared with 1921 and that those for education show a decrease. This apparent variation is the result of a change in classification in 1926. In 1921 a large proportion of nuns connected with convents where there were also educational establishments returned their occupation as teachers and were classified as such. In 1926 these people were classified as nuns under religion. Unfortunately the number of persons affected is not ascertainable, but it would probably approximate 1,500 to 1,600 and would thus account for the shortfall under the heading "Education."

TABLE CLXXV.—PERSONAL OCCUPATIONS OF EUROPEANS: PROFESSIONAL CLASS, 1921 AND 1926.

| Sub-Orders.                                      | 1921.   |                        |                      | 1926.   |                        |                      |

202. **Personal Service Class (Occupational).**—Within this class are grouped all persons employed in rendering personal service for which remuneration is usually paid. The second sub-order comprises proprietors of hotels, restaurants, cafés, boarding and lodging houses, etc., and their employees. The third sub-order, institution service, includes the staffs of benevolent and other private institutions, and matrons and stewards in schools. The fourth sub-order, includes laundry workers, hairdressers, bath attendants, caretakers, etc. The numbers in the Union were as follows:—

The figures for female occupations show that of the total females aged 15 years and over falling within the first seven classes of occupation, 48 per cent. were under 25 years of age. In the industrial and personal service classes the age-group containing

the maximum number of female workers is 15-19, and in transport and communication, commercial and professional 20-24. The agricultural class shows a gradual rise as the ages advance.

204. Distribution of Industries in Provinces.—The totals under 22 industrial orders in the summaries following represent, as previously stated, the total number of persons connected with each industry in whatever capacity they may have been employed. From these summaries may be seen at a glance the relative numbers and proportions of those engaged in these industries in the Union and the four Provinces compared with the returns at the Census of 1921. Children under 15 years of age have been excluded from these summaries.

The following are significant points in regard to the proportions of the male population engaged in the various industries.

*Agriculture* has decreased in all the Provinces, the figure for the Union having fallen from 334 to 308 per 1,000.

*Mining* has absorbed a larger proportion in the Cape and the O.F.S., but in the two remaining Provinces and in the Union the ratio is lower. The proportions engaged in *Public Service and Defence* have fallen in the Cape and Transvaal Provinces and in the Union as a whole. In Natal there is little change and in the O.F.S. there is a small rise. Most manufacturing industries as well as *transport and communication, commerce, and finance* and the *professions* show increased proportions. *Personal service* gave employment to a smaller proportion of the male population everywhere except in Natal.

TABLE CLXXIX.—EUROPEAN MALES OF 15 YEARS OF AGE AND OVER IN CLASSES OF INDUSTRY: UNION AND PROVINCES, 1921 AND 1926.

| Industry.   | Cape.       |         | Natal. |        | Transvaal. |         | O.F.S. |        | Union.  |         |
|---|-------------|---------|--------|--------|------------|---------|--------|--------|---------|---------|
|   | 1921.       | 1926.   | 1921.  | 1926.  | 1921.      | 1926.   | 1921.  | 1926.  | 1921.   | 1926.   |
|   | (i) Number. |         |        |        |            |         |        |        |         |         |
| I. Fishing.....   | 850         | 1,024   | 175    | 180    | 3          | 7       | —      | —      | 1,037   | 1,211   |
| II. Agriculture.....  | 77,119      | 77,668  | 9,403  | 9,571  | 48,362     | 52,863  | 30,251 | 32,205 | 165,135 | 172,307 |

| VI. Manufacture of Metals, Machines, Implements, Conveyances, Jewellery, Watches—      |         |  |         |  |
| (i) Smelting, Converting, Refining, and Rolling of Iron and Steel.....                 | 112     | .14                                      | 186     | .22                                      |
| (ii) Extracting and Refining of Other Metals and Alloys.....                           | 22      | .03                                      | 66      | .08                                      |
| (iii) Founding and Other Secondary Processes in Metal Working—                         |         |  |         |  |
| Iron and Steel Foundries.....  | 655     | .88                                      | 557     | .65                                      |
| Patternmaking.....   | 76      | .10                                      | 44      | .05                                      |
| Other Metal Foundries.....   | 27      | .03                                      | 15      | .02                                      |
| Forging.....   | 2,638   | 3.37                                     | 2,831   | 3.30                                     |
| Other.....   | 156     | .20                                      | 98      | .11                                      |
| (iv) Engineering (not Marine or Electric).....   | 3,874   | 4.95                                     | 4,480   | 5.23                                     |
| (v) Electrical Installations, Cables, and Apparatus.....                               | 322     | .41                                      | 1,686   | 1.91                                     |
| (vi) Vehicles—   |         |  |         |  |
| Carriages, Coaches, Motor-car Bodies.....  | 669     | .86                                      | 1,653   | 1.93                                     |
| Carts and Vans, Motor-lorry Bodies, and Wheelwrights' Works.....                       | 945     | 1.21                                     | 1,366   | 1.59                                     |
| Other.....   | 83      | .11                                      | 104     | .12                                      |
| (vii) Shipbuilding and Repairing and Marine Engineering.....                           | 184     | .23                                      | 179     | .21                                      |
| (viii) Cutlery and Small Tools (not Machine Tools).....                                | 19      | .02                                      | 20      | .02                                      |
| (ix) Other Metal Industries (not Precious Metals, Jewellery, or Plate).....            | 1,033   | 1.32                                     | 854     | 1.00                                     |
| (x) Precious Metals, Jewellery, Plate.....   | 468     | .60                                      | 776     | .91                                      |
| TOTAL CLASS VI.....  | 11,813  | 15.10                                    | 14,660  | 17.11                                    |

TABLE CLXXXI.—EUROPEAN MALES DISTRIBUTED IN CLASSES OF INDUSTRY, WITH ORDERS AND SUB-ORDERS, 1921 AND 1926—(contd.)

| Classes, Orders, and Sub-Orders.   | 1921.   |  | 1926.   |  |
|--|---------|--|---------|--|
|  | Number. | Proportion per 1,000 of Male Population. | Number. | Proportion per 1,000 of Male Population. |
| <i>Class II.—Industrial—(continued).</i>   |         |  |         |  |
| VII. Manufacture of Textiles and Textile Goods (not Dress)—  |         |  |         |  |
| (i) Cotton.....  | 16      | ·02                                      | 42      | ·05                                      |
| (ii) Wool, Worsted, and Shoddy.....  | 53      | ·07                                      | 160     | ·19                                      |
| (iii) Silk.....  | 3       | —  | —       | —  |
| (iv) Flax, Hemp, Jute.....   | 8       | ·01                                      | —       | —  |
| (v) and (vi) Miscellaneous Products.....   | 147     | ·19                                      | 189     | ·22                                      |
|  | 227     | ·29                                      | 391     | ·46                                      |
| VIII. Preparation of Skins and Leather, and Manufacture of Goods of Leather and Leather Substitute (not Boots or Shoes)— |         |  |         |  |
| (i) Furs, Skins, Leather.....  | 282     | ·36                                      | 477     | ·56                                      |
| (ii) Saddlery, Harness, Bags, Trunks, and Other Goods of Leather and Leather Substitute (not Boots or Shoes).....        | 696     | ·89                                      | 630     | ·73                                      |
|  | 978     | 1·25                                     | 1,107   | 1·29                                     |
| IX. Manufacture of Clothing—   |         |  |         |  |
| Tailoring (including Waterproof and Leather Clothing).....   | 2,028   | 2·59                                     | 2,425   | 2·83                                     |
| Dress and Blouse-making.....   | 92      | ·12                                      | 37      | ·04                                      |
| Millinery.....   | 14      | ·02                                      | 11      | ·01                                      |
| Boots, Shoes, and Slippers (not Rubber).....   | 2,521   | 3·22                                     | 3,607   | 4·21                                     |
| Other.....   | 78      | ·10                                      | 56      | ·06                                      |

206. Industries and Personal Occupations.—Table 8 of Part XI of this Report shows, in detail, the number of persons employed in each industry classified according to the personal occupation followed within the industry. The distribution of unskilled workers and accounting and clerical staffs among the various industries is dealt with earlier in this section. The table serves to show the diversity of occupations to be found in every industry, and it will be seen that members of most industrial trades are common to practically all industries.

207. Occupation and Parentage.—Information is contained in Table 5 of Part XI, regarding the personal occupations of Europeans, classified according to parentage, in the six largest industrial areas of the Union, viz., the Witwatersrand, Cape Town, Durban, Pretoria, Port Elizabeth, and East London, and their environs. For the purposes of this analysis the figures for the six centres have been summarized in the following table, which also shows the proportions per cent. of persons of Dutch, British, and other descent employed in the more important occupations found in the Union.

TABLE CLXXXII.—SUMMARY OF OCCUPATIONS AND PARENTAGE OF EUROPEAN MALES IN THE SIX PRINCIPAL INDUSTRIAL AREAS—CENSUS, 1926.

| Occupation.   | Numbers.             |                        |                |        |        | Proportion Per Cent. |                        |                |        |        |
|---|----------------------|------------------------|----------------|--------|--------|----------------------|------------------------|----------------|--------|--------|
|   | Dutch South African. | British South African. | Other British. | Other. | Total. | Dutch South African. | British South African. | Other British. | Other. | Total. |
| III. Mining and Quarrying Occupations—  |                      |                        |                |        |        |                      |                        |                |        |        |

| Occupation unknown (not stated or unspecified).....               | 1,248                | 580                    | 1,083          | 503    | 3,414  | 36.56                | 16.99                  | 31.72          | 14.73  | 100.00 |
| All Other Occupations.....  | 207                  | 154                    | 314            | 161    | 836    | 24.76                | 18.42                  | 37.56          | 19.26  | 100.00 |
| XXXII. Retired from Gainful Occupation.....                       | 1,195                | 681                    | 3,776          | 1,146  | 6,798  | 17.58                | 10.02                  | 55.54          | 16.86  | 100.00 |

In mining the ownership and control is very largely in the hands of persons not born in the Union. The groups Dutch South African, and British South African account for less than 30 per cent. of the owners, agents, and managers in metalliferous mines and workings, 72 per cent. being "Other British" and "Other." These two groups also account for 55 per cent. of the subordinate superintending staff. In the underground jobs the persons of Dutch or British South African extraction have a larger share. 55 per cent. of the gold miners are of Dutch South African descent and 12 per cent. are of British South African extraction. The same applies to "other workers below ground." The healthier jobs on the surface are again predominantly manned by persons not of either Dutch or British South African descent. These two groups would indeed not seem to be particularly well-favoured in regard to the more desirable mining jobs.

The most striking fact emerging from these figures, however, is the limited extent to which persons of Dutch South African descent have found employment in the industries of the country. This is a matter which bears a direct relation to the so-called "Poor White" question.

Persons of Dutch South African descent represent approximately 57 per cent. of the white population of the Union. Below are given the industrial groups in which Dutch South Africans represent 30 per cent. or more of the workers. It will be noticed that, with the exception of three subordinate jobs in the Railway Administration and of the group "General Labourers or other Unskilled Workers," the percentage in no case exceeds the proportion which this group bears to the population of the Union. In 120 groups, for which figures are given, the Dutch South Africans represent 30 per cent. or more in only 33 cases.

TABLE CLXXXIII.—OCCUPATIONS SHOWING MORE THAN 30 PER CENT. OF WORKERS OF DUTCH SOUTH AFRICAN DESCENT IN THE SIX PRINCIPAL INDUSTRIAL AREAS OF THE UNION.

| Occupation.   | Dutch South Africans. |
|---|-----------------------|
| Gold Miners.....  | 55.28                 |
| Other Workers Below Ground.....                         | 46.53                 |
| Bricks, Pottery, etc.....                               | 50.00                 |
| Foremen and Overlookers.....                            | 42.71                 |
| Brick and Unglazed Tile-makers.....                     | 50.00                 |
| Other Workers.....                                      | 37.03                 |
| Makers of Leather and Leather Substitute Goods.....     | 36.31                 |
| Boot and Shoe Makers and Repairers.....                 | 41.34                 |
| Boot and Shoe Slippers—                                 |                       |
| Clickers and Cutters.....                               | 48.92                 |
| Other Defined Boot, etc.—                               | 31.89                 |
| Factory Operatives.....                                 | 34.10                 |
| Tent, Sail, and Other Canvas Goods Makers, etc.....     | 31.43                 |
| Bricklayers.....  | 35.03                 |
| Masons.....   | 31.70                 |
| Painters and Decorators (House, Ship, and General)..... |                       |
| Makers of Vehicles.....                                 |                       |

| Occupation.                                       | Dutch South Africans. |
|---|-----------------------|
| Railway Workers—                                  |                       |
| Loco. Engine-drivers, Firemen, Cleaners, etc..... | 41.43                 |
| Guards.....                                       | 33.16                 |
| Signalmen.....                                    | 32.96                 |
| Shunters, Pointsmen, etc.....                     | 66.94                 |
| Porters, Lampmen, Checkers, etc.....              | 36.35                 |
| Gangers and Platelayers.....                      | 60.00                 |
| Labourers.....                                    | 71.40                 |
| Ticket Collectors and Examiners.....              | 36.89                 |
| Other Railway Servants.....                       | 44.92                 |
| Road Transport Workers—                           |                       |
| Drivers of Lorries, Wagons, Vans, Cars, etc.....  | 36.44                 |
| Drivers of Trams.....                             | 38.49                 |
| Bus and Tram Conductors.....                      | 30.16                 |
| Other Workers.....                                | 37.68                 |
| Postmen and Post Office Sorters.....              | 30.42                 |
| Messengers.....                                   | 31.95                 |
| Civil Service Officials and Clerks.....           | 55.60                 |
| Police.....                                       | 49.42                 |
| Defence.....                                      | 59.17                 |
| General Labourers or Other Unskilled Workers..... |                       |

The explanation of this state of affairs is largely historical. Originally the Dutch South Africans very largely followed pastoral and agricultural occupations, a small number taking to the church, the law, and other professions. During the stage when the country was being opened up the occupations other than those pertaining to the soil were few. As more settled conditions came about there emerged higher demands in respect of industry and commerce. These called for men with specialised knowledge on the one side and manual workers on the other. The former came from over the sea and the latter were in the prevailing shortage of white labour, generally recruited from the non-European races. Gradually, however, the agricultural pursuits underwent a change. When land was still plentiful the large families, which were the order of the day, found scope for their activities in opening up new areas. There came a time, however, when all the healthy areas had either been developed or were in the hands of people who demanded a considerable price for them. It was no longer easy to get land, and capital began to play a considerable rôle. Moreover, new technique had to be introduced. This involved special training and generally also considerable capital. Neither of these were at the disposal of the sons of poorer agriculturists. The normal development would have taken these people into the towns to man the various trades. These had, however, in the meantime been largely recruited from abroad. The position had slowly come about that the rural occupations were largely in Dutch, the urban largely in British hands.

It is exceedingly unfortunate for the development of the country that there should have been this coincidence of racial and occupational boundaries. The racial political conflict had results which were unfortunate enough. This conflict has thrown rather into the shadow a similar economic struggle which was proceeding

at the same time. The boundaries already referred to tended to prevent the free flow of ability to the occupation to which it was most suited. Twenty years ago the Dutch South African who emerged from the University thought of teaching, the church, the law, and medicine as occupations offering him some scope. Only in exceptional cases did his thoughts go to engineering, architecture, actuarial science, accountancy, and similar occupations connected with commerce or industry. There seemed to him to be no scope in those directions. At the same time men were being regularly imported to fill well-paid billets in these occupations. The racial boundary was a very real thing. In the same way the industrial occupations were manned by workers from abroad. It is a striking fact that even in what we may call the "village" industries, i.e. industries which are carried out in every small community, like bricklaying, painting, and woodworking, the percentages of Dutch South Africans are still very low. These occupations should in the normal course of orderly development, have absorbed a certain proportion of the country-bred youths for whom there was no opening in farming. The immigration of large numbers of well-trained artisans militated against this and once again there was a conflict of race for available occupations.

A peculiar sociological position was thus created. Numbers of young men grew up landless. Having no land of their own, they could only hope to make a living as "bywoners." The increasing density of population made land more valuable and, therefore, it became necessary to farm better to make a living. This meant more capital and better knowledge of farming methods. The "bywoner" did not possess the former and had no facilities for obtaining the latter. As a natural consequence the landowner would no longer tolerate his uneconomical methods and he was slowly but surely forced into the towns and villages. There

he was not only up against the opposition of properly trained artisans, but he had also to overcome the natural tendency of employers to give preference to men of their own race. When he turned to unskilled occupations he was confronted with the competition of non-Europeans, living on a standard much below what was demanded for even his simple wants.

During the Great War the withdrawal of men for the fighting services gave an opening in underground work on the gold mines. Since the War the development of certain secondary industries, notably the leather industry, has absorbed a considerable number. In later years the policy of absorbing white men as labourers on the railways has further tended to ease the situation, and in occupations like shunters, pointsmen, gangers, platelayers, and general railway labourers the proportions of Dutch South Africans now exceed the proportion which this group bears to the rest of the population. This also applies to the group of "General Labourers or other Unskilled Workers."

It is noteworthy, however, that the older section of the population of the Union is largely dependent on those occupations which are economically the least profitable. The natural history of pioneering has once again repeated itself.

**208. Grade of Employment.**—Information regarding the grade of employment of persons engaged in the various occupations will be found in Tables 4, 10, 11, and 12 of Part XI of the Census Report. In the Union 152.7 per cent. of the male population were employers of labour, 45.3 per cent. were engaged on their own account, and 37.87 per cent. comprised the wage or salary-earning class. The percentages of females were 0.93, 0.98, and 9.0 per cent. respectively. Comparable figures for England and Wales (1921), Australia (1921), and New Zealand (1926) are given hereunder:—

| Grade.                              | Union of South Africa. |              | England and Wales. |              | Australia.       |              | New Zealand.   |              |

| Employer.....                       | 180,841                | 15.27        | 563,203            | 3.12         | 129,142          | 4.67         | 48,226         | 7.03         |
| Own Account.....                    | 38,813                 | 4.53         | 749,239            | 4.14         | 296,291          | 10.72        | 62,226         | 9.08         |
| Employee.....                       | 324,492                | 37.87        | 10,800,276         | 59.75        | 1,817,427        | 47.08        | 325,400        | 47.41        |
| <b>TOTAL MALE POPULATION.....</b>   | <b>856,918</b>         | <b>100.0</b> | <b>18,075,239</b>  | <b>100.0</b> | <b>2,762,870</b> | <b>100.0</b> | <b>686,384</b> | <b>100.0</b> |
| <b>Females.</b>                     |                        |              |                    |              |                  |              |                |              |
| Employer.....                       | 7,635                  | 0.93         | 73,708             | 0.37         | 10,481           | 0.39         | 3,358          | 0.51         |
| Own Account.....                    | 8,011                  | 0.98         | 327,021            | 1.65         | 46,030           | 1.72         | 7,705          | 1.17         |
| Employee.....                       | 73,765                 | 9.00         | 4,664,603          | 23.54        | 379,338          | 14.19        | 99,924         | 15.18        |
| <b>TOTAL FEMALE POPULATION.....</b> | <b>819,742</b>         | <b>100.0</b> | <b>19,811,460</b>  | <b>100.0</b> | <b>2,672,864</b> | <b>100.0</b> | <b>658,085</b> | <b>100.0</b> |

The proportion of employers in the Union for both males and females is far higher than in either of the other three countries. On the other hand, persons engaged on their own account in England and Wales, Australia, and New Zealand exceed the number of employers, whereas in the Union, employers outnumber own-account workers by over 3 to 1. The presence in this country of a large reservoir of cheap native labour enables the majority of persons, who in other countries would not be able to afford assistance, to employ natives to perform the unskilled work connected with their occupations.

**209. Grade of Employment in Urban and Rural Areas.**—There is a considerable difference in the proportions of the three grades of occupation in urban as compared with rural areas, as will be seen from the figures given below which show the percentage for each grade of males 15 years of age and over:—

| Grade.           | Urban. | Rural. |
|------------------|--------|--------|
| Employer.....    | 11.37  | 39.94  |
| Own Account..... | 6.26   | 7.87   |
| Employee.....    | 67.72  | 44.52  |

**210. Grade of Employment and Birthplace.**—The following table shows the numbers and proportions per cent. of males 15 years of age and over in each grade of employment classified according to country of birth:—

| Birthplace.   | Employers. |      | Own Account. |      | Employees. |      |
|---|------------|------|--------------|------|------------|------|
|   | No.        | %.   | No.          | %.   | No.        | %.   |

The highest proportion of employers and workers on own account are found among males born in Syria, the percentages for whom were: Employers 46 per cent. and workers on own account 26 per cent. Then follow males born in Eastern European countries with 44 and 18 per cent.; Greece, 38 and 18; Germany, 27 and 11; Union of South Africa, 25 and 7; and Italy, 25 and 14. The proportions for employees are highest for males born in Norway, i.e. 75 per cent. Then come Sweden, 73; United Kingdom, 72; Australia and New Zealand, 70; United States of America, 69; Canada, 67; India and Ceylon, 61; Holland, 57; and Union of South Africa, 56.

**211. Grade of Employment in Occupational Groups in the Six Largest Industrial Areas.**—The table which follows shows numerically and proportionately males and females 15 years of age and over classified according to grade and class of occupation in each of the six largest industrial areas of the Union. Persons unemployed have been included with employees in this table. The numbers of unemployed have been dealt with separately in the section following.

| Birthplace.                      | Employers. |      | Own Account. |      | Employees. |      |
