## Housing Return for England and Wales as at 31st October, 1947

This return is the twenty-second of a series of monthly progress statements on housing in England and Wales. The figures in the present return show the position up to 31st October, 1947, and relate from 1st April, 1945. The return includes an Appendix A giving general tables relating to England and Wales as a whole and to various subdivisions by types of authority and by geographical distribution.

A detailed statement for each of the 1,469 housing authorities will shortly be published as a separate document (Appendix B.).

### PERMANENT HOUSES—LOCAL AUTHORITIES

The following figures shows the progress made on the construction of permanent houses by Local Authorities by 31st October, 1947, compared with 31st July, 1945, and 30th September, 1947. Non-Traditional houses, other than permanent aluminium houses and experimental houses erected by the Ministry of Works have been included :—

Houses under construction at end of period ... ..	Nil	173,820	174,927
Houses completed ... ..	Nil	70,737	80,496

The figures shown above do not include houses built in replacement of those destroyed during the war, which are shown separately on page 8.

Appendix A, Table 2, contains information in respect of building schemes for all permanent houses except permanent aluminium houses. This information is shown in Tables 2 a and 2 b for traditional and non-traditional types respectively, the sum of these two Tables being shown at Table 2.

### PERMANENT NON-TRADITIONAL HOUSES (except Permanent Aluminium Houses)

With the object of accelerating the rate at which houses can be erected a number of methods of house construction have been evolved which, for ease of reference, are known as "non-traditional". In Appendix A, Table 11, a list of the main types is given together with details regarding the numbers of each type for which tenders have been approved and the numbers completed. Information regarding the development of sites and the preparation of housing schemes for non-traditional houses is included in the figures shown in Appendix A, Tables 1, 2, 8 and 9, and is shown in detail in Table 2 (b).

The position as at 31st October, 1947, compared with that at 30th September, 1947, was as follows :—

	30th September, 1947	31st October, 1947
Tenders approved ... ..	71,259	72,974
Houses—construction begun ... ..	54,030	57,817
Houses under construction at end of period ... ..	39,701	41,001
Houses completed ... ..	14,329	16,816

A total number of 30,442 B.I.S.F. and 1,380 Howard houses have been allocated to Local Authorities. 20,000 applications have been received from Local Authorities and Government Departments for Airey Rural component sets.

See Appendix A, Tables 2b and 11.

### PERMANENT ALUMINIUM HOUSES

Since the erection of permanent Aluminium houses does not make the same calls on building labour and materials as do other houses details in respect of this type are shown separately.

The position at 31st October, 1947, was as follows :—

Tenders approved ... ..	9,439
Houses—construction begun ... ..	610
Houses under construction at end of period, including slabbing ... ..	610
Houses completed ... ..	Nil

See Appendix A, Table 2c.

### ERECTION OF TEMPORARY HOUSES

All sites for temporary houses have now been handed over to the Ministry of Works for slabbing and house erection. The comparative progress on slabbing and erection of temporary houses by 31st October, 1947, compared with 31st July, 1945, and 30th September, 1947, has been as follows :—

	31st July, 1945	30th September, 1947	31st October, 1947
Slabbing begun ... ..	21,496	123,211	124,129

See Appendix A, Table 3.

In addition to the number of houses shown above as erected 62 and 30 houses have been completed in all respects in the Southern and South Eastern Regions respectively, but cannot be handed over for occupation until connected to electricity and other services.

### PERMANENT HOUSES—UNDER LICENCE

The number of houses on licences issued to private persons and the number of houses completed have been as follows up to the end of September and October, 1947, respectively :—

	30th September, 1947	31st October, 1947
Number of houses on licences issued ... ..	81,172	81,597
Houses—construction begun ... ..	73,884	75,383
Houses under construction at end of period ... ..	23,786	22,545
Houses completed ... ..	50,098	52,838

The figures shown above do not include houses built in replacement of those destroyed during the war, which are shown separately on page 8.

The total number of houses on licences issued by the end of October has been arrived at after allowing for those licences notified as having lapsed.

See Appendix A, Table 4a.

### PERMANENT HOUSES—HOUSING ASSOCIATIONS

The number of houses on licences issued or in respect of which approval has been given and the number of houses completed to the end of September and October, 1947, respectively, are as follows :—

	30th September, 1947	31st October, 1947
Number of houses on licences issued ... ..	612	437
Number of houses on approvals given... ..	2,414	2,830

Houses completed ... ..	624	779

See Appendix A, Table 4b.

### HOUSES—GOVERNMENT DEPARTMENTS

The construction of houses and the conversion or adaptation of premises into family units of accommodation is authorised by Government Departments for the families of police, prison staffs, the Defence Services and other Government employees. The number of new houses for which tenders have been approved and the numbers completed to the end of September and October, 1947, respectively, are as follows :—

	30th September, 1947		31st October, 1947

Houses completed ... ..	411	341	464	350

The number of family units of accommodation provided by the conversion or adaptation of existing premises to the end of October was 77.

## REBUILDING OF WAR DESTROYED HOUSES

The rebuilding of war destroyed houses by private builders can be undertaken only under licence. Rebuilding by Local Authorities can be begun with the approval of the Ministry of Health and War Damage Commission. Information in respect of a few Local Authorities may be incomplete and the figures quoted are subject to adjustment. The position at the end of October compared with that at the end of September, 1947, was as follows:—

	30th September, 1947	31st October, 1947
Local Authorities—Houses approved ... ..	7,863	7,970

See Appendix A, Table 5a.

## USE OF EXISTING PREMISES

Apart from new building additional accommodation for family units has also been provided by Local Authorities and by private builders under licence by the repair or adaptation of existing premises.

Information relating to accommodation provided by private builders under licence became available for the first time in April, 1946. That in respect of the repair of unoccupied war damaged dwellings may be incomplete for a few Local Authorities and the figures quoted are subject to adjustment. The position at the end of October, 1947, was as follows:—

	Family Units of Accommodation Provided				Total, April, 1945, to October, 1947
	On contracts let		On licences issued		
	1st January, 1946, to 31st October, 1947	1st January, 1946, to 31st August, 1947	September, 1947	October, 1947

See Appendix A, Tables 5b and 6.

## OTHER HOUSING ACCOMMODATION

A total of 31,349 flats and houses of less than 12 rooms was released from occupation by the Services and Government Departments over the period 1st May, 1945, to 30th September, 1947. Some of the dwellings on release were taken over by the Local Authorities.

The total number of requisitioned dwellings held by the Local Authorities for residential purposes was 96,888 at the end of October; of these 61,358 were situated in the London region.

Of the total of 96,888 requisitioned dwellings held by the Local Authorities, 69,275 were held at 31st March, 1945. From that date to 30th September, 1947, there was a net increase in unoccupied houses requisitioned by Local Authorities for residential purposes of 27,421 and a further 192 were requisitioned in October, 1947, making a net increase of 27,613 houses in the 31 months to 31st October, 1947.

## SERVICE CAMPS—TEMPORARY ACCOMMODATION

In addition to accommodation referred to above, there were at 31st October, 1947, 17,322 families occupying accommodation in 1,182 camps redundant to the needs of the Services or Government Departments, which had been offered to Local Authorities for housing purposes and were considered suitable for those purposes. In the main these camps had been taken over by Local Authorities as part of their pool of housing accommodation or were being managed by them on behalf of the Ministry of Health.

Those family units of accommodation included in the number quoted above that are shown in the Summary on page 3, are at least up to the standard of the temporary accommodation already included in the Summary.

Accommodation for a further 2,263 families was occupied in 192 camps which are still required for Government purposes, or are unsuitable for housing, or are still subject to decision as to their future use.

Accommodation in camps remaining under the control of Service Departments has been provided for 209 families of men still serving in the Forces.

## HOUSES LET TO COAL MINERS AND AGRICULTURAL WORKERS

The numbers of new permanent houses let to coal miners and agricultural workers during the month of October, 1947, were 545 and 395 respectively. The total number let to coal miners since 1st April, 1947, is 3,842. Information in respect of earlier months is not available. The total number let to agricultural workers since 1st April, 1945, is 3,075.

## PROGRESS OF INDIVIDUAL HOUSING AUTHORITIES

Of the total of 1,469 Authorities there were at the 31st October, 1947, 7 Authorities, excluding L.C.C. and Metropolitan Boroughs, who had as yet no sites of which possession had been obtained. Of these Authorities 5 were urban areas (mainly small urban districts) and 2 rural districts; the population in these areas represents 0.067 per cent. of the total population of England and Wales. There were 8 Authorities, excluding L.C.C. and Metropolitan Boroughs, who had not obtained authority to go to tender on a specific scheme. The population in the area of these Authorities represents 0.072 per cent. of the total population of England and Wales.

The increase of the numbers of Local Authorities over those shown in the previous Return is due to the inclusion of 3 urban districts in whose area building is now reported as being carried out by a Housing Association.

See Appendix A, Table 7.

## HOUSING LABOUR FORCE

Returns of the number of operatives aged 16 and over employed on the construction of new houses are now based on a new system of collecting the data recently instituted by the Ministry of Works. The estimate of 231,600 so employed in England and Wales at the end of October may still be incomplete and, therefore, subject to adjustment. It should be noted that this estimate relates to operatives engaged both on the construction of permanent houses and on the preparation of housing sites. In view of the change in the basis of collecting the data, and of the possible incompleteness of the new return, comparisons of the numbers engaged on new housing at the end of January and at the end of October respectively might be misleading. The number employed on war damage repairs decreased from 102,100 at the end of September, 1947, to 100,100 at the end of October.

See Appendix A, Table 12.

## BUILDING MATERIALS AND COMPONENTS

Details of production of the more important building materials and components are included in Appendix A. The information relates to Great Britain as a whole; separate details in respect of England and Wales are not available. It should be noted that the production of the items listed is utilised not only for the construction of and installation in new dwellings but also for repairs and replacements and building work other than house building.

In general the production in any given month is not known until towards the end of the following month. It is not therefore always possible for the complete data relating to the month under review to be available in time for inclusion in the Return.

See Appendix A, Table 13.

## APPENDIX A—NOTES

The material contained in this Return is derived from a census of the housing position at 31st December, 1945, and the reports of subsequent progress completed by the Local Authorities. Certain information is obtained from Government Departments. Where this is the case the items concerned have been annotated. At the 14th November, 1947, reports of progress had not been received from 1 Authority for the months February–October and from 2 Authorities for the months of September and October, and from 26 Authorities for the month of October. Reports of progress in October were due to be received by the 5th November, 1947. Reports received after 14th November arrived too late to be included in the figures shown in this report relating to progress in October. By 14th November, 1947, 1,440 reports had been received.

## Classification of Urban and Rural Authorities

The classification of Urban Authorities other than the L.C.C. and Metropolitan Boroughs into Large Towns and Cities, Medium Towns and Cities and Small Towns has been made in terms of population. The classification has been made as follows based on the estimated population at mid-1939 as returned by the Registrar General.

Large Towns and Cities	...	...	over 75,000
Medium Towns and Cities	...	...	over 25,000 and up to 75,000
Small Towns	...	...	25,000 and under

The Rural Authorities comprise all Rural District Councils.

The total population of England and Wales as at mid-1939 is divided between the various groups of cities and towns and Rural Authorities as follows:—

	<i>Number of Housing Authorities</i>	<i>Estimated Population</i>	<i>Percentage of total in England and Wales</i>
<b>Urban Areas</b>			
Large Towns and Cities ...	81	14,655,000	35.3
Medium Towns and Cities ...	218	9,116,000	22.0
Small Towns ...	665	6,399,000	15.4
<b>L.C.C. and Metropolitan Boroughs</b>			
Boroughs ...	30	4,013,000	9.7
<b>Rural Authorities</b>			
...	475	7,277,000	17.6
<b>Total</b> ...	<b>1,469</b>	<b>41,460,000</b>	<b>100.0</b>

## Regions

Certain changes in the composition of the Northern, North Midlands and North Western Regions were made as from 1st April, 1946. As from that date the "North Eastern Region" became known as "East and West Ridings". The Description and composition of the Regions are now as follows—

*Northern* ... Cumberland, Durham, Northumberland, Westmorland and the North Riding of Yorkshire.

*East and West Ridings* ... The East and West Ridings of Yorkshire.

*North Midlands* ... Derbyshire (except the High Peak District), Leicestershire, Lincolnshire, Northamptonshire (including the Soke of Peterborough), Nottinghamshire and Rutland.

*Eastern* ... Bedfordshire, Cambridgeshire (including the Isle of Ely), Essex, Hertfordshire, Huntingdonshire, Norfolk and Suffolk, except such parts of Essex and Hertfordshire as are within the London Region.

*London* ... London (Administrative County), Middlesex and parts of Kent, Essex, Hertfordshire and Surrey.

*Southern* ... Berkshire, Buckinghamshire, Dorset, Hampshire (including the Isle of Wight) and Oxfordshire.

*South Western* ... Cornwall, Devon, Gloucestershire, Somerset and Wiltshire.

*Wales* ... The whole of Wales and Monmouthshire.

*Midlands* ... Herefordshire, Shropshire, Staffordshire, Warwickshire and Worcestershire.

*North Western* ... Cheshire, Lancashire and the High Peak District of Derbyshire.

*South Eastern* ... Sussex, Kent and Surrey except such parts of Kent and Surrey as are within the London Region.

The changes in regional composition referred to above should be borne in mind in comparing the regional classifications shown in the Tables in Appendix A in this return with those shown in returns published before 30th April.

The total population of England and Wales as at mid-1939 was divided between the Regions as follows:—

	Number of Housing Authorities	Population at Mid-1939	Percentage of total in England and Wales

#### Tables 8 and 9

Table 8 shows the numbers of sites at different stages from the initial stage of selection to the stage when the site is available for construction.

Between the selection of the site and the completion of houses ready for occupation there is a long chain of events equivalent to the "pipeline" of materials and components of mass production in the engineering industry.

In general the use of the site for housing requires consideration from the point of view of regional and town planning, local transport facilities and so on. Sites have then to be acquired, a layout agreed, and roads, sewers and other services provided generally in advance of beginning the actual erection of houses. The actual construction of the houses themselves is the final process in the chain of production, which also, of course, comprises the fabrication of building materials and components ready for use.

Table 9 shows the number of houses at different stages towards completion beginning with the preparation of house plans.

Many of the initial stages in the erection of houses such as the preparation of house plans, bills of quantities and the chain of events leading to the acceptance of a tender are, in many cases, undertaken concurrently with the work of developing the corresponding sites.

Reductions as compared with previous months in the number of houses for which site layout plans have been approved or development begun before the erection of dwellings (Cols. (4) and (5)) are due to the decision to develop the site concurrently with the erection of dwellings, which are shown in Column (7).

Note.—The number of housing authorities at each stage in the above table is included in the figure at each subsequent stage towards the completion of building schemes, e.g., authorities without authority to obtain tender on a specific scheme appear at each subsequent stage.

The greater part of the housing provision for the County of London area is made by the London County Council and the fact that no tenders have yet been approved for a number of Metropolitan Borough Councils does not mean that provision is not being made for the needs of those Boroughs.

Since the last Return reports have been received that the building schemes of 3 Urban Districts are being carried out by a Housing Association. The increase in the number of Local Authorities is apparent in the figures for those with no authority to obtain tender, with no tenders approved and with no building begun.

(a) Provisional.

(b) Operatives engaged on repair both of unoccupied (i.e., severely damaged) war damaged houses and upon repair of war damaged occupied houses.

(c) The figures for September and October are derived from a new system of collecting the data and may be incomplete. Comparisons with the number employed in the comparable categories at the end of January, might be misleading. These figures do not include the number of Building and Civil Engineering workers directly employed by Local Authorities. The numbers of such workers in England and Wales were 18,828 and 19,803 in September and October respectively.

(d) This estimate relates to men engaged on work on existing premises resulting in additional accommodation but not necessarily in the provision of new family units.

(e) The numbers shown under this head may be overstated since they may include operatives employed on the construction of permanent houses.

(f) Source—Ministry of Works (based on Census and Sample Returns).

(g) Source—Ministry of Labour. Owing to differences in classification it is not possible to relate the number of "insured workers" to the number of "operatives employed."

Notes:—Source—Board of Trade.

(a) The total supplies of softwood timber shown in the above table necessarily relate to all qualities and dimensions although only certain qualities and dimensions are normally used in building. Softwood timber is required for use in the repair and construction of ships, the repair and construction of railway passenger and goods vehicles, furniture, agricultural equipment, packing cases, etc. An allocation between the various uses of the supplies available each quarter is agreed inter-departmentally and implemented through the timber licensing machinery.

There is a marked variation during the course of the year in the monthly flow of imports into this country, due both to the logging seasons in the country of origin and to the freezing of the ports in the Baltic Sea and in the Gulf of St. Lawrence. Normally the bulk of imports arrive in this country in the latter part of the calendar year.

(b) Imports of roundwood logs of pine, spruce, etc., which averaged 71,666 standards in the pre-war years and 18,115 standards in 1946 are not included in the above table.

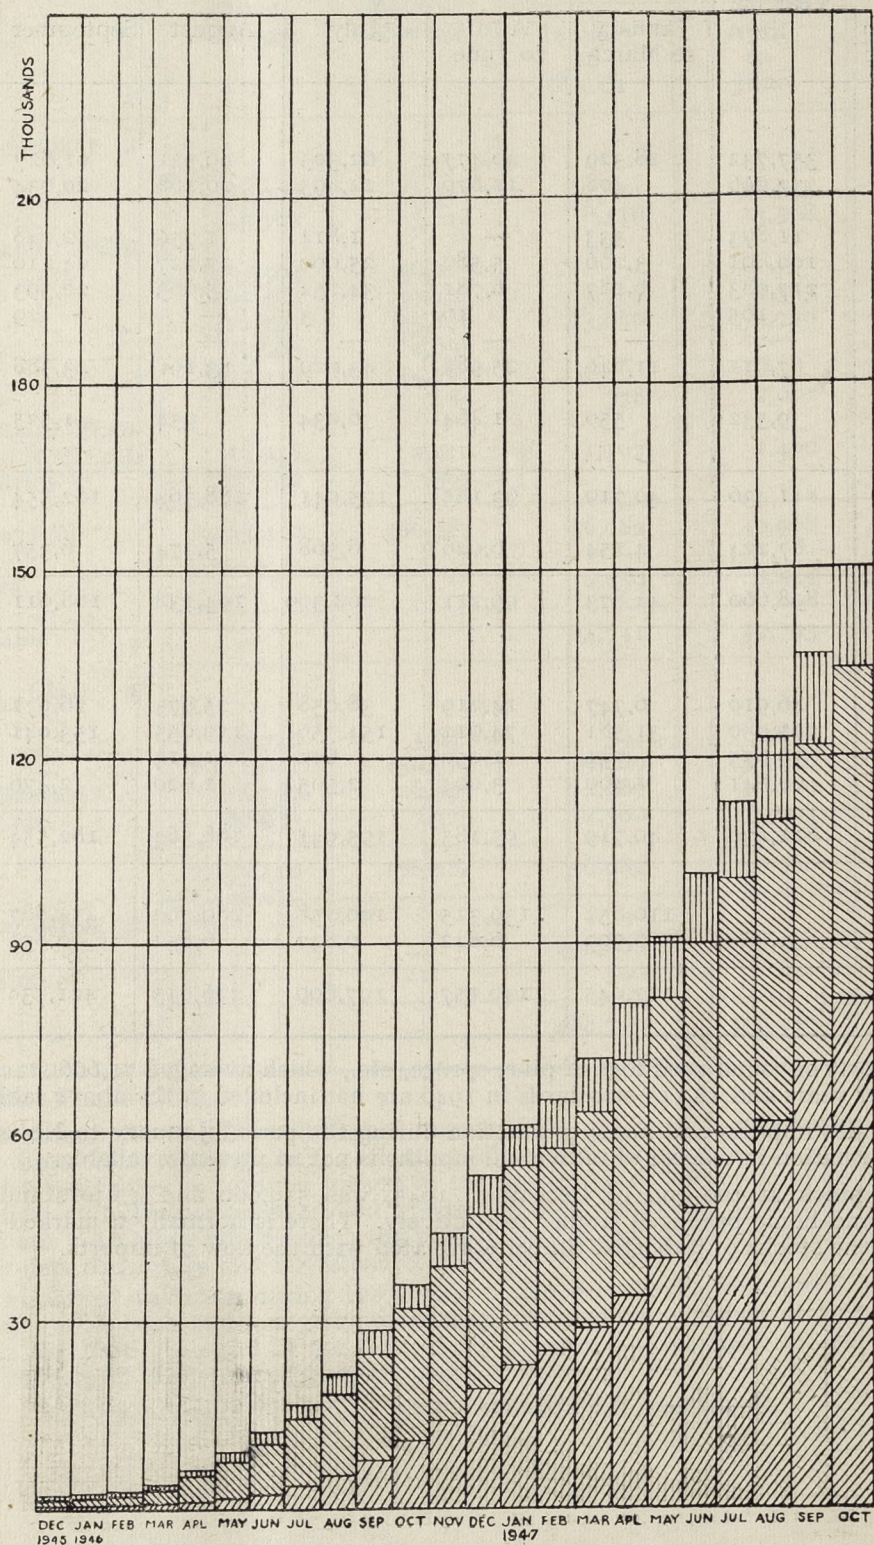

(c) Includes imports and home production during the period January to November on which information in respect of individual months is not at present available.

(d) The stock at the end of December, 1945, was 559,000 and 4,130 standards for imported and home produced timber respectively. There is normally a marked seasonal change in the stocks of imported timber correlated with the flow of imports.

NOTES

1. An alphabetical index of Regions and Counties is shown on page 78.
2. The data shown in this Appendix has been based on Appendix B to the Housing Return for England and Wales for the 31st January, 1946, and includes additions and alterations notified in monthly Progress Reports up to and including October, 1947, received from Local Authorities. In cases where entries in the Progress Reports were incomplete or inconsistent the information contained in this Appendix has been compiled in the light of evidence contained in the Census Return and in the Progress Reports as a whole. The tabular statement shows the position as at the 31st October. In certain instances Progress Reports have not been received in time for inclusion. Those local authorities in respect of whom Progress Reports for September and October, 1947, have not been received are marked with § and \* respectively. The data in respect of permanent housing shown for such authorities relates to the position as at the 31st August and 30th September, 1947, respectively.
3. The term "under construction" in Columns (4), (6), (15) and (17), means that the contractor has actually begun work on the construction of the dwellings. In some instances work has begun on all dwellings in a particular contract; in a few cases it would appear that all the dwellings in a particular scheme have been shown as "under construction" on the Progress Report although work has not necessarily started on all of them.
4. In certain instances the Ministry of Works are undertaking the erection of groups of experimental permanent non-traditional houses on sites provided by housing authorities. These houses have been included in the data shown for the authorities concerned.
5. Where Tenders (or Estimates in the case of Direct Labour) for site development (Roads and Sewers) have been approved by the Ministry of Health but where work on the site has not begun, the sites have not been shown as under development (Col. (2)).
6. In the few instances where sites developed before the war by private enterprise are being taken over by the local authority but possession has not yet been obtained, the relevant figures have been entered in Column (2).
7. Permanent Houses. The figures in all columns except Columns (4) and (5) are not included in any other column. "Houses under construction" (Column (4)) and "Houses completed" (Column (5)) are included in "Houses on Tenders Approved" quoted in Column (3).
8. It should be noted that the greater part of the housing provision for the County of London is made by the London County Council. It is not, therefore, possible to relate the data shown in this Appendix for each Metropolitan Borough to the housing needs of the population of the Borough.  
The bulk of the preliminary work in connection with the provision of permanent houses made by certain housing associations in the County of London area is undertaken by the Metropolitan Boroughs.  
Certain data on temporary houses in respect of the London County Council and the Metropolitan Boroughs have been consolidated.
9. The erection of some temporary houses has been completed but their connection to electric and other services has not been effected. Where this is the case the number of temporary houses shown as completed (column (13)) has been marked † and the name of the Local Authority and the number of houses completed but not ready for occupation is stated at the foot of the page. Such houses are not included in the number shown as completed in column (13).
10. The total number of dwellings on licences issued (Column 14) includes licences issued both in regard to new dwellings and to the rebuilding of war destroyed dwellings. An analysis of the respective numbers falling into these two categories is shown in Tables 4a and 5a of Appendix A to the Housing Return.  
The total number of licences shown in Column 14 also takes into account information received from local authorities in respect of any licences that may have lapsed. The data received in respect of licences may not in all cases be complete and may, therefore, be subject to correction.
11. The numbers of houses on licences issued or approved under Section 94 of the Housing Act, 1936, under construction and completed by Housing Associations are included in Columns (3), (4) and (5) respectively. In Returns prior to that for 31st July, 1947, this information was included in Columns (14), (15) and (16). The numbers of such houses included in Columns (3), (4) and (5) are shown at the foot of the page for each Local Authority concerned.
