# Local Housing Statistics

## England and Wales

1. **Local Housing Statistics** has been prepared by the Ministry of Housing and Local Government and the Welsh Office to provide figures for individual local authority areas in a quarterly publication. It supersedes the former Appendix to the Housing Return for England and Wales.

The tables relating to the provision of new permanent housing and to slum clearance appear regularly in each issue. They show annual cumulative figures, those relating to slum clearance being published one quarter later than those relating to housing progress.

Supplementary tables vary in each issue and relate to subjects not available for regular publication. Tables in this issue show dwellings started and completed in the regional sub-divisions, and the number of private sector sites on which dwellings were under construction on 31st January 1968.

2. **Definitions.** Detailed definitions of the terms used are to be found in the quarterly publication *Housing Statistics, Great Britain*. It may be noted that:

“Dwellings” include all new permanent houses and flats.

“Houses” in relation to slum clearance action has the meaning attributed to it for the purposes of Part II and Part III of the Housing Act 1957 (see 7 below).

“Local authorities” include local housing authorities and new town authorities.

“Other public authorities” include Government Departments and housing associations.

“Regions” are the economic planning regions adopted in 1965. These only differ from the Standard Statistical Regions by including Poole Borough in the South West rather than the South East.

3. **Local authority areas.** Local housing authorities may provide housing either within or outside their own areas. The figures shown in Table 5 against the name of the authority include dwellings situated outside its area, for which particulars of completions are given separately in Table 6. Authorities which have completed dwellings outside their area during the period are indicated thus § in Table 5. Authorities in whose area dwellings have been completed

by another authority are indicated thus ||. The latter include areas in which dwellings have been completed by the Greater London Council (see Table 7).

Other public sector and private sector dwellings are shown against the name of the authority in whose area they are situated.

4. **New towns.** Against the name of each new town are shown the dwellings built for the development corporation or for the Commission for the New Towns. These are all situated within the new town area and are not included in the figures for any other local authority. Private sector building within the new town area is included against the name of the authority or authorities in whose area the new town is situated, but is also shown separately in italics against the name of the new town and included in the new town total.

5. **Boundary changes.** Where the boundaries of local authority areas have been altered during the period shown, dwellings are shown in Table 5 against the local authority in whose area they are now situated.

6. **Adjustments to earlier returns** may occasionally result in a negative figure for an individual authority, when, for example, dwellings reported as started are subsequently withdrawn or there is a transfer from one sector to another.

7. **Unfit houses.** The figures in Table 5 show the number of houses in clearance orders and compulsory purchase orders confirmed under Part III of the Housing Act 1957, and houses demolished in clearance areas whether or not unfit. Houses demolished or closed elsewhere are those dealt with under Part II of the Act. The latter figures are adjusted to exclude houses reported as demolished which had previously been reported as closed.

8. **Population.** The figures are the latest available estimates of the home population prepared by the Registrar General.

9. **Index.** An alphabetical list of all local authorities and new towns in England and Wales is published separately. In addition to page references this will show the type of each authority and the region and regional sub-division in which it is situated. A map of the regional sub-divisions is included.

Slum clearance: houses demolished and closed  
England and Wales

Private sector: sites with dwellings under construction: 31st January 1968

The following table gives the first results (excluding those for Greater London) of an enquiry made by the Ministry of Housing and Local Government to local authorities in England and Wales to obtain data in respect of private sites on which dwellings were under construction at 31st January 1968, and the number of dwellings to be erected on those sites.

Information is not yet available for all authorities and some county and regional totals are therefore incomplete. The table covers about 95% of dwellings under construction at the end of January in England and Wales (excluding Greater London).
