

COMMON MARKET - OUT !

STOP GOVERNMENT FROM BRUSSELS AND THE INTERFERING REGULATIONS.

Restore to our own elected Parliament the sole right to tax and make laws for the British people. The Common Market's Council of Ministers and its unelected Commission are making laws which our own elected Parliament can neither stop nor amend. These regulations deal with banks, motor insurance and thousands of other things - even what goes into our own ice-cream, sausages and 'pints' may be changed by regulations of the unelected Commission.

STOP TAXES ON FOOD.

Abolish the duties and levies which the Common Market authorities have imposed on food imported into Britain.

STOP THE RESTRICTIONS ON OUR TRADE.

Restore Britain's freedom to trade on the best terms she can with other countries throughout the world.

- ALREADY - Canadian cheese and Australian butter are being kept out of the British market.
- there is a tax on lamb of 8% (rising to 20% in a few years.)
 - there is a 10% import tax on margarine.
 - there is a 4% import tax on beef from Commonwealth countries (rising to 20% in a few years.)
 - there are levies of £200. a ton on both butter and cheese imported from the Commonwealth (a 50% tax)

All this is BECAUSE the Common Market authorities in Brussels now make the rules for our trade and tariffs.

- VOTE - for any candidate who will pledge himself to uphold Parliamentary Government at Westminster and to keep the decisions affecting our lives in our own hands. The nation must decide, by popular vote, preferably in a referendum, whether or not Britain is to leave or stay in the Common Market. Ask your candidates at the Election if they will insist that we have a referendum.
