Government Statistical Service

A service of statistical information and advice is provided to the Government by specialist staffs employed in the statistics divisions of individual Departments. Statistics are made generally available through their publications and further information and advice on them can be obtained from the Departments concerned. Enquiries about this publication should be made to the Directorate of Statistics, Department of the Environment, 2 Marsham Street, London SW1P 3EB.

Local Housing Statistics

England and Wales

1. **Local Housing Statistics** is prepared by the Department of the Environment and the Welsh Office to provide figures for individual local authority areas in a quarterly publication.

The tables relating to the provision of new permanent housing and, from the beginning of 1972, renovation grants, appear regularly in each issue. They show annual cumulative figures. Before 1972 annual totals for renovation grants were published in supplementary tables.

Supplementary tables on various other housing matters are included as data become available.

Supplementary tables so far published are listed on page iv.

2. **Definitions.** It may be noted that:

Dwellings include all permanent houses and flats.

Housing progress by local authorities and new towns includes dwellings intended for sale or lease and dwellings for renting.

Local authorities include local housing authorities and new town authorities.

Other public sector includes Government departments, county councils and housing associations.

Regions are the standard regions for statistical purposes, revised following local government reorganisation on 1 April 1974.

Counties are the areas specified in the London Government Act 1963 and the Local Government Act 1972; the Isles of Scilly are included with Cornwall for statistical purposes.

3. **Local authority areas.** Local housing authorities may provide housing either within or outside their own areas. The figures shown in table 4 against the name of the authority include dwellings situated outside its area, for which particulars of starts and completions are given separately in table 5. Table 6 shows the distribution within and outside Greater London of dwellings started and completed by the Greater London Council, or by housing associations assisted by the Greater London Council. Authorities shown in tables 5 and 6 are indicated in table 4 by the following footnotes:

² An authority which started or completed dwellings in the area of another authority during the period.

³ An authority in whose area another authority started or completed dwellings during the period.

Other public sector and private sector dwellings are shown against the name of the authority in whose area they are situated.

4. **New Towns.** Dwellings built for development corporations or for the Commission for the New Towns are shown in table 4 against the new town. Private sector dwellings are shown in England against the local authority except where built on land owned by a development corporation or the Commission for the New Towns when they are shown against the new town; in Wales against both the local authority and the new town.

5. **Adjustments to earlier returns** may occasionally result in a negative figure for an individual authority, when, for example, dwellings reported as started are subsequently withdrawn or there is a transfer from one sector to another.

6. **Slum clearance** statistics are now collected annually instead of quarterly. The latest figures for 1980 appeared in Issue 57.

¹ Improvement grants to make dwellings suitable for the accommodation, welfare or employment of disabled persons.

² Provision of standard amenities where existing amenities are not readily accessible to disabled persons. The standard amenities are a fixed bath or shower, a wash-hand basin, a sink, a hot and cold water supply to these items and a water closet.

³ In the regional figures allowances have been made for local authority returns not received.
