## Housing Return for England and Wales as at 30th June, 1946

This return is the sixth of a series of monthly progress statements on housing in England and Wales. The figures in the present return show the position up to 30th June, 1946. The return includes an Appendix A giving general tables relating to England and Wales as a whole and to various subdivisions by types of authority and by geographical distribution.

The \*first issue included general explanatory notes which have not been repeated in this return.

A detailed statement for each of the 1,469 housing authorities will shortly be published as a separate document (Appendix B).

This information became available for the first time in regard to April.

Besides the total provision of additional accommodation as set out above, 598,000 dwellings which were damaged during the war but not so severely as to be unfit for occupation were repaired during the fifteen months ending 30th June, 1946.

### USE OF EXISTING PREMISES

Apart from new building additional accommodation for family units has also been provided by local authorities and by private builders under licence by the repair or adaptation of existing premises.

Information in regard to such provision made by local authorities has been published in earlier housing returns. Corresponding information relating to the provision made by private builders under licence was available for the first time in April. The data available may be summarised as follows:—

### OTHER HOUSING ACCOMMODATION

A total of 27,398 flats and houses of less than 12 rooms was released from occupation by the Services and Government Departments over the period 1st May, 1945, to 31st May, 1946. Some of the dwellings on release were taken over by the local authorities.

The total number of requisitioned dwellings held by the local authorities for residential purposes was 89,430 at the end of June; of these 55,835 were situated in the London region.

Of the total of 89,430 requisitioned dwellings held by the local authorities, 69,275 were held at 31st March, 1945. From that date to 31st May, 1946, there was a net increase in unoccupied houses requisitioned by local authorities for residential purposes of 19,468 and a further 687 were requisitioned in June, making a net increase of 20,155 houses in the 15 months to 30th June, 1946.

### PROGRESS OF INDIVIDUAL HOUSING AUTHORITIES

Of the total of 1,469 authorities there were at the 30th June, 1946, 70 authorities who had as yet no sites of which possession had been obtained. Of these authorities 32 were urban areas (mainly small urban districts) and 24 rural districts. The population in the area of these authorities represents 1.0 per cent. of the total population of England and Wales. There were 64 authorities who had not obtained authority to go to tender on a specific scheme. The population in the area of these authorities represents 1.7 per cent. of the total population of England and Wales.

See also Appendix A, Table 7

### HOUSING LABOUR FORCE (f)

The total number of operatives aged 16 and over, excluding prisoners of war, employed on the construction or repair of housing in England and Wales, whether on work for local authorities or on private contracts under licence, grew from 320,400 in July, 1945, to 486,300 at 28th June, 1946. At 28th May, 1946, the number so employed was 471,000. Within the total housing labour force, the number employed on war damage repairs decreased from 166,200 at 24th May, to 159,200 at 28th June, while the number employed on the construction of permanent houses grew from 93,000 to 113,900.

**APPENDIX A  
NOTES**

The material contained in this return is derived from a census of the housing position at 31st December, 1945, and the reports of subsequent progress completed by the local authorities. At the 10th July, 1946, reports of progress in February and March had not been received from 1 authority, for the month of April from 2 authorities, and for the month of May from 8 authorities. Reports of progress in June were due to be received by the 5th July, 1946. Reports received after 10th July arrived too late to be included in the figures shown in this report relating to progress in June. By 10th July, 1946, 1,394 reports had been received.

**Classification of Urban and Rural Authorities**

The classification of Urban Authorities other than the L.C.C. and Metropolitan Boroughs into Large Towns and Cities, Medium Towns and Cities and Small Towns has been made in terms of population. The classification has been made as follows based on the estimated population at mid-1939 as returned by the Registrar General.

Large Towns and Cities .. .. .	over 75,000
Medium Towns and Cities .. .. .	over 25,000 and up to 75,000
Small Towns .. .. .	25,000 and under

The Rural Authorities comprise all Rural District Councils.

The total population of England and Wales as at mid-1939 is divided between the various groups of cities and towns and Rural Authorities as follows:—

	<i>Number of Housing Authorities</i>	<i>Estimated Population</i>	<i>Percentage of total in England and Wales</i>
<b>Urban Areas</b>			
Large Towns and Cities .. .. .	81	14,655,000	35.3
Medium Towns and Cities .. .. .	218	9,116,000	22.0

<b>Total</b> .. .. .	<u>1,469</u>	<u>41,460,000</u>	<u>100.0</u>

**Regions**

Certain changes in the composition of the Northern, North Midlands and North Western Regions were made as from 1st April, 1946. As from the same date the "North Eastern Region" is to be known as "East and West Ridings". The description and composition of the Regions are now as follows—

<i>Northern</i> .. .. .	Cumberland, Durham, Northumberland, Westmorland and the North Riding of Yorkshire.
<i>East and West Ridings.</i>	The East and West Ridings of Yorkshire.
<i>North Midlands</i> .. .. .	Derbyshire (except the High Peak District), Leicestershire, Lincolnshire, Northamptonshire (including the Soke of Peterborough), Nottinghamshire and Rutland.
<i>Eastern</i> .. .. .	Bedfordshire, Cambridgeshire (including the Isle of Ely), Essex, Hertfordshire, Huntingdonshire, Norfolk and Suffolk, except such parts of Essex and Hertfordshire as are within the London Region.
<i>London</i> .. .. .	London (Administrative County), Middlesex and parts of Kent, Essex, Hertfordshire and Surrey.
<i>Southern</i> .. .. .	Berkshire, Buckinghamshire, Dorset, Hampshire (including the Isle of Wight) and Oxfordshire.
<i>South Western</i> .. .. .	Cornwall, Devon, Gloucestershire, Somerset and Wiltshire.

<i>Wales</i> .. .. .	The whole of Wales and Monmouthshire.

<i>North Western</i> .. .. .	Cheshire, Lancashire and the High Peak District of Derbyshire.
<i>South Eastern</i> .. .. .	Sussex, Kent and Surrey except such parts of Kent and Surrey as are within the London Region.

The changes in regional composition referred to above should be borne in mind in comparing the regional classifications shown in the Tables in Appendix A in this return with those shown in returns published before 30th April.

The total population of England and Wales as at mid-1939 was divided between the Regions as now defined as follows:—

	<i>Number of Housing Authorities</i>	<i>Population at Mid-1939</i>	<i>Percentage of total in England and Wales</i>
<i>Northern</i> .. .. .	123	3,003,100	7.3

**Tables 8 and 9**

Table 8 shows the number of sites at different stages from the initial stage of selection to the stage when the site is available for construction.

Between the selection of the site and the completion of houses ready for occupation there is a long chain of events equivalent to the "pipeline" of materials and components of mass production in the engineering industry.

In general the use of the site for housing requires consideration from the point of view of regional and town planning, local transport facilities and so on. Sites have then to be acquired, a layout agreed, and roads, sewers and other services provided generally in advance of beginning the actual erection of houses. The actual construction of the houses themselves is the final process in the chain of production, which also, of course, comprises the fabrication of building materials and components ready for use.

During the early stages of expanding the volume of house building, the number of house sites under development and the number of houses under construction and so on will continue to rise in advance of a corresponding increase in the number of houses completed. As the production of houses by Local Authorities evolves into a smooth and continuous cycle of operations, the number of houses or house sites at the various stages in the chain of production will tend to be roughly equal.

Table 9 shows the number of houses at different stages towards completion beginning with the preparation of house plans.

Many of the initial stages in the erection of houses such as the preparation of house plans, bills of quantities and the chain of events leading to the acceptance of a tender are, in many cases, undertaken concurrently with the work of developing the corresponding sites.

APPENDIX B  
TO THE  
HOUSING RETURN FOR ENGLAND AND WALES  
30TH JUNE, 1946

TABULAR STATEMENT FOR EACH HOUSING AUTHORITY

NOTES

1. An alphabetical index of Regions and Counties is shown on page 78.
2. The data shown in this Appendix has been based on Appendix B to the Housing Return for England and Wales for the 31st January, 1946, and includes additions and alterations notified in monthly Progress Reports up to and including June, 1946, received from Local Authorities. In cases where entries in the Progress Reports were incomplete or inconsistent the information contained in this Appendix has been compiled in the light of evidence contained in the Census Return and in the Progress Reports as a whole. The tabular statement shows the position as at the 30th June, 1946. In certain instances Progress Reports have not been received in time for inclusion. Those local authorities in respect of whom Progress Reports for May, 1946, have not been received are marked with †. Those in respect of whom Progress reports for June, 1946, were not received in time for inclusion are marked §. The data in respect of permanent housing shown for such authorities relates to the position as at the 31st May, 1946, and 30th June, 1946 respectively.
3. Information has been included in this Appendix from some Progress Reports received too late for inclusion in Appendix A of the Housing Return.
4. Data in respect of rebuilding of war destroyed houses is included (Columns (6), (7), (17) and (18)). These columns have been compiled from information contained in the new form of Progress Report introduced for April, 1946, and from information relating to the preceding period received from the War Damage Commission. Compilation of data for consecutive periods from two sources has presented certain difficulties and the resulting figures may in some cases require adjustment.
5. The term "under construction" in Columns (4), (6), (15) and (17), means that the contractor has actually begun work on the construction of the dwellings. In some instances work has begun on all dwellings in a particular contract; in a few cases it would appear that all the dwellings in a particular scheme have been shown as "under construction" on the Progress Report although work has not necessarily started on all of them.
6. In certain instances the Ministry of Works are undertaking the erection of groups of experimental permanent prefabricated houses on sites provided by housing authorities. These houses have been included in the data shown for the authorities concerned.
7. The number of temporary houses allocated to housing authorities is under constant review. Where the allocation is less than the number of sites available subsequent allocations may be made.
8. Where Tenders (or Estimates in the case of Direct Labour) for site development (Roads and Sewers) have been approved by the Ministry of Health but where work on the site has not yet begun, the sites have not been shown as under development (Column (2)).
9. In the few instances where sites developed before the war by private enterprise are being taken over by the local authority but possession has not yet been obtained, the relevant figures have been entered in Column (2).
10. Permanent Houses. The figures in all columns except Columns (4) and (5) are not included in any other column. "Houses under construction" (Column (4)) and "Houses completed" (Column (5)) are included in "Houses on Tenders Approved" quoted in Column (3).
11. It should be noted that the greater part of the housing provision for the County of London is made by the London County Council. It is not, therefore, possible to relate the data shown in this Appendix for each Metropolitan Borough to the housing needs of the population of the Borough.  
The bulk of the preliminary work in connection with the provision of permanent houses made by certain housing associations in the County of London area is undertaken by the Metropolitan Boroughs. The information is included in Columns (14), (15) and (16).  
Certain data on temporary houses in respect of the London County Council and the Metropolitan Boroughs have been consolidated.
12. The total number of dwellings on licences issued (Column 14) includes licences issued both in regard to new dwellings and to the rebuilding of war destroyed dwellings. An analysis of the respective numbers falling into these two categories is shown in Tables 4 and 5a of Appendix A to the Housing Return.  
The total number of licences shown in Column 14 also takes into account information received from local authorities in respect of any licences that may have lapsed in the period ending 30th June, 1946. The data received in respect of licences may not in all cases be complete and may, therefore, be subject to correction.
