Housing Return for England and Wales as at 30th November, 1947

This return is the twenty-third of a series of monthly progress statements on housing in England and Wales. The figures in the present return show the position up to 30th November, 1947, and relate from 1st April, 1945. The return includes an Appendix A giving general tables relating to England and Wales as a whole and to various subdivisions by types of authority and by geographical distribution.

A detailed statement for each of the 1,469 housing authorities will shortly be published as a separate document (Appendix B).

PERMANENT HOUSES—LOCAL AUTHORITIES

The following figures show the progress made on the construction of permanent houses by Local Authorities by 30th November, 1947, compared with 31st July, 1945, and 31st October, 1947. Non-Traditional houses, other than permanent aluminium houses, and experimental houses erected by the Ministry of Works have been included :—

	31st July, 1945	31st October, 1947	30th November, 1947
Tenders authorised to be obtained ...	21,687	340,119	344,210

Houses under construction at end of period	Nil	174,927	173,226
Houses completed	Nil	80,496	90,734

The figures shown above do not include houses built in replacement of those destroyed during the war, which are shown separately on page 8.

Appendix A, Table 2, contains information in respect of building schemes for all permanent houses, except permanent aluminium houses. This information is shown in Tables 2 a and 2 b for traditional and non-traditional types respectively, the sum of these two Tables being shown at Table 2.

PERMANENT NON-TRADITIONAL HOUSES (except Permanent Aluminium Houses)

With the object of accelerating the rate at which houses can be erected a number of methods of house construction have been evolved which, for ease of reference, are known as "non-traditional". In Appendix A, Table 11, a list of the main types is given together with details regarding the numbers of each type for which tenders have been approved and the numbers completed. Information regarding the development of sites and the preparation of housing schemes for non-traditional houses is included in the figures shown in Appendix A, Tables 1, 2, 8 and 9, and is shown in detail in Table 2b.

The position as at 30th November, 1947, compared with that at 31st October, 1947, was as follows :—

	31st October, 1947	30th November, 1947
Tenders approved	72,974	75,593
Houses—construction begun	57,817	60,652
Houses under construction at end of period ...	41,001	41,159
Houses completed	16,816	19,493

A total number of 30,642 B.I.S.F. and 1,380 Howard houses have been allocated to Local Authorities. 20,000 applications have been received from Local Authorities and Government Departments for Airey Rural component sets.

See Appendix A, Tables 2b and 11.

PERMANENT ALUMINIUM HOUSES

Since the erection of permanent Aluminium houses does not make the same calls on building labour and materials as do other houses details in respect of this type are shown separately.

The position at 30th November, 1947, compared with that at 31st October, 1947, was as follows :—

	31st October, 1947	30th November, 1947
Tenders approved	9,439	11,447
Houses—construction begun	610	1,452
Houses under construction at end of period, in- cluding slabbing	610	1,452
Houses completed	Nil	Nil

See Appendix A, Table 2c.

ERECTION OF TEMPORARY HOUSES

All sites for temporary houses have now been handed over to the Ministry of Works for slabbing and house erection. The comparative progress on slabbing and erection of temporary houses by 30th November, 1947, compared with 31st July, 1945, and 31st October, 1947, has been as follows :—

	31st July, 1945	31st October, 1947	30th November, 1947
Slabbing begun	21,496	124,129	124,320

Houses erected	1,701	109,199	111,553

See Appendix A, Table 3.

In addition to the number of houses shown above as erected 28 and 30 houses have been completed in all respects in the Southern and South Eastern Regions respectively, but cannot be handed over for occupation until connected to electricity and other services.

PERMANENT HOUSES—UNDER LICENCE

The number of houses on licences issued to private persons and the number of houses completed have been as follows up to the end of October and November, 1947, respectively :—

	31st October, 1947	30th November, 1947
Number of houses on licences issued	81,597	81,940
Houses—construction begun	75,383	76,222
Houses under construction at end of period ...	22,545	21,027
Houses completed	52,838	55,195

The figures shown above do not include houses built in replacement of those destroyed during the war, which are shown separately on page 8.

The total number of houses on licences issued by the end of November has been arrived at after allowing for those licences notified as having lapsed.

See Appendix A, Table 4a.

PERMANENT HOUSES—HOUSING ASSOCIATIONS

The number of houses on licences issued or in respect of which approval has been given and the number of houses completed to the end of October and November, 1947 respectively, have been as follows :—

See Appendix A, Table 4b.

HOUSES—GOVERNMENT DEPARTMENTS

The construction of houses and the conversion or adaptation of premises into family units of accommodation is authorised by Government Departments for the families of police, prison staffs, the Defence Services and other Government employees. The number of new houses for which tenders have been approved and the number completed to the end of October and November, 1947, respectively, have been as follows :—

	31st October, 1947		30th November, 1947

Houses completed	464	350	542	353

The number of family units of accommodation provided by the conversion or adaptation of existing premises to the end of November was 120.

REBUILDING OF WAR DESTROYED HOUSES

The rebuilding of war destroyed houses by private builders can be undertaken only under licence. Rebuilding by Local Authorities can be begun with the approval of the Ministry of Health and War Damage Commission. Information in respect of a few Local Authorities may be incomplete and the figures quoted are subject to adjustment. The position at the end of November compared with that at the end of October, 1947, was as follows:—

	31st October, 1947	30th November, 1947
Local Authorities—Houses approved	7,970	8,042

See Appendix A, Table 5a.

USE OF EXISTING PREMISES

Apart from new building additional accommodation for family units has also been provided by Local Authorities and by private builders under licence by the repair or adaptation of existing premises.

Information relating to accommodation provided by private builders under licence became available for the first time in April, 1946. That in respect of the repair of unoccupied war damaged dwellings may be incomplete for a few Local Authorities and the figures quoted are subject to adjustment. The position at the end of November, 1947 was as follows:—

	Family Units of Accommodation Provided				Total, April, 1945, to November, 1947
	On contracts let 1st January, 1946, to 30th November, 1947	1st January, 1946, to 30th September, 1947	October, 1947	November, 1947

See Appendix A, Tables 5b and 6.

OTHER HOUSING ACCOMMODATION

A total of 31,366 flats and houses of less than 12 rooms was released from occupation by the Services and Government Departments over the period 1st May, 1945, to 31st October, 1947. Some of the dwellings on release were taken over by the Local Authorities.

The total number of requisitioned dwellings held by the Local Authorities for residential purposes was 97,028 at the end of November; of these 61,432 were situated in the London region.

Of the total of 97,028 requisitioned dwellings held by the Local Authorities, 69,275 were held at 31st March, 1945. From that date to 31st October, 1947, there was a net increase in unoccupied houses requisitioned by Local Authorities for residential purposes of 27,613 and a further 140 were requisitioned in November, 1947, making a net increase of 27,753 houses in the 32 months to 30th November, 1947.

SERVICE CAMPS—TEMPORARY ACCOMMODATION

In addition to accommodation referred to above, there were at 30th November, 1947, 17,719 families occupying accommodation in 1,223 camps redundant to the needs of the Services or Government Departments, which had been offered to Local Authorities for housing purposes and were considered suitable for those purposes. In the main these camps had been taken over by Local Authorities as part of their pool of housing accommodation or were being managed by them on behalf of the Ministry of Health.

Those family units of accommodation included in the number quoted above that are shown in the Summary on page 4, are at least up to the standard of the temporary accommodation already included in the Summary.

Accommodation for a further 2,262 families was occupied in 194 camps which are still required for Government purposes, or are unsuitable for housing, or are still subject to decision as to their future use.

Accommodation in camps remaining under the control of Service Departments has been provided for 217 families of men still serving in the Forces.

HOUSES LET TO COAL MINERS AND AGRICULTURAL WORKERS

The number of new permanent and temporary houses built by Local Authorities that have been let to miners and agricultural workers up to the end of November, 1947, was as follows:—

	Coal Miners		Agricultural Workers	
	Permanent Houses	Temporary Houses	Permanent Houses	Temporary Houses
November, 1947	595	160	418	31
Total to end November, 1947	4,437	770	3,623	705

The total numbers let to agricultural workers relate from 1st April, 1945. Those let to coal miners relate from 1st April, 1947. Information in respect of earlier months is not available.

PROGRESS OF INDIVIDUAL HOUSING AUTHORITIES

Of the total of 1,469 Authorities there were at the 30th November, 1947, 8 Authorities, excluding L.C.C. and Metropolitan Boroughs, who had as yet no sites of which possession had been obtained. Of these Authorities 6 were urban areas (mainly small urban districts) and 2 rural districts; the population in these areas represents 0.069 per cent. of the total population of England and Wales. There were 9 Authorities, excluding L.C.C. and Metropolitan Boroughs, who had not obtained authority to go to tender on a specific scheme. The population in the area of these Authorities represents 0.074 per cent. of the total population of England and Wales.

The increase of the numbers of Local Authorities over those shown in the previous Return is due to the abandonment of a project previously reported.

See Appendix A, Table 7.

HOUSING LABOUR FORCE

Returns of the number of operatives aged 16 and over employed on the construction of new houses are now based on a new system of collecting the data recently instituted by the Ministry of Works. The estimate of 232,900 so employed in England and Wales at the end of November may still be incomplete and, therefore, subject to adjustment. It should be noted that this estimate relates to operatives engaged both on the construction of permanent houses and on the preparation of housing sites. In view of the change in the basis of collecting the data, and of the possible incompleteness of the new return, comparisons of the numbers engaged on new housing at the end of January and at the end of November respectively might be misleading. The number employed on war damage repairs decreased from 100,100 at the end of October, 1947, to 98,100 at the end of November.

See Appendix A, Table 12.

BUILDING MATERIALS AND COMPONENTS

Details of production of the more important building materials and components are included in Appendix A. The information relates to Great Britain as a whole; separate details in respect of England and Wales are not available. It should be noted that the production of the items listed is utilised not only for the construction of and installation in new dwellings but also for repairs and replacements and building work other than house building.

In general the production in any given month is not known until towards the end of the following month. It is not therefore always possible for the complete data relating to the month under review to be available in time for inclusion in the Return.

See Appendix A, Table 13.

APPENDIX A—NOTES

The material contained in this Return is derived from a census of the housing position at 31st December, 1945, and the reports of subsequent progress completed by the Local Authorities. Certain information is obtained from Government Departments. Where this is the case the items concerned have been annotated. At the 12th December, 1947, reports of progress had not been received from 4 Authorities for the months of October and November and from 32 Authorities for the month of November. Reports of progress in November were due to be received by the 5th December, 1947. Reports received after 12th December arrived too late to be included in the figures shown in this report relating to progress in November. By 12th December, 1947, 1,433 reports had been received.

Classification of Urban and Rural Authorities

The classification of Urban Authorities other than the L.C.C. and Metropolitan Boroughs into Large Towns and Cities, Medium Towns and Cities and Small Towns has been made in terms of population. The classification has been made as follows based on the estimated population at mid-1939 as returned by the Registrar General.

Large Towns and Cities	over 75,000
Medium Towns and Cities	over 25,000 and up to 75,000
Small Towns	25,000 and under

The Rural Authorities comprise all Rural District Councils.

The total population of England and Wales as at mid-1939 is divided between the various groups of cities and towns and Rural Authorities as follows:—

		Number of Housing Authorities	Estimated Population	Percentage of total in England and Wales
Urban Areas				
Large Towns and Cities	...	81	14,655,000	35.3
Medium Towns and Cities	...	218	9,116,000	22.0
Small Towns	...	665	6,399,000	15.4
L.C.C. and Metropolitan Boroughs				
	...	30	4,013,000	9.7
Rural Authorities				
	...	475	7,277,000	17.6
Total	...	1,469	41,460,000	100.0

Regions

Certain changes in the composition of the Northern, North Midlands and North Western Regions were made as from 1st April, 1946. As from that date the "North Eastern Region" became known as "East and West Ridings". The Description and composition of the Regions are now as follows—

<i>Northern</i>	...	Cumberland, Durham, Northumberland, Westmorland and the North Riding of Yorkshire.
<i>East and West Ridings</i>	...	The East and West Ridings of Yorkshire.
<i>North Midlands</i>	...	Derbyshire (except the High Peak District), Leicestershire, Lincolnshire, Northamptonshire (including the Soke of Peterborough), Nottinghamshire and Rutland.
<i>Eastern</i>	...	Bedfordshire, Cambridgeshire (including the Isle of Ely), Essex, Hertfordshire, Huntingdonshire, Norfolk and Suffolk, except such parts of Essex and Hertfordshire as are within the London Region.
<i>London</i>	...	London (Administrative County), Middlesex and parts of Kent, Essex, Hertfordshire and Surrey.
<i>Southern</i>	...	Berkshire, Buckinghamshire, Dorset, Hampshire (including the Isle of Wight) and Oxfordshire.
<i>South Western</i>	...	Cornwall, Devon, Gloucestershire, Somerset and Wiltshire.
<i>Wales</i>	...	The whole of Wales and Monmouthshire.
<i>Midlands</i>	...	Herefordshire, Shropshire, Staffordshire, Warwickshire and Worcestershire.
<i>North Western</i>	...	Cheshire, Lancashire and the High Peak District of Derbyshire.
<i>South Eastern</i>	...	Sussex, Kent and Surrey except such parts of Kent and Surrey as are within the London Region.

The changes in regional composition referred to above should be borne in mind in comparing the regional classifications shown in the Tables in Appendix A in this return with those shown in returns published before 30th April.

The total population of England and Wales as at mid-1939 was divided between the Regions as follows:—

	Number of Housing Authorities	Population at Mid-1939	Percentage of total in England and Wales
Northern	123	3,003,100	7.3
East and West Ridings	118	3,975,700	9.6
North Midlands	131	3,065,100	7.4
Eastern	159	2,691,400	6.5
London	96	8,746,500	21.1
Southern	109	2,317,400	5.6
South Western	167	2,672,700	6.5
Wales	168	2,465,200	5.9
Midlands	121	3,986,500	9.6
North Western	178	6,236,500	15.0
South Eastern	99	2,299,900	5.5
Total	1,469	41,460,000	100.0

Tables 8 and 9

Table 8 shows the numbers of sites at different stages from the initial stage of selection to the stage when the site is available for construction.

Between the selection of the site and the completion of houses ready for occupation there is a long chain of events equivalent to the "pipeline" of materials and components of mass production in the engineering industry.

In general the use of the site for housing requires consideration from the point of view of regional and town planning, local transport facilities and so on. Sites have then to be acquired, a layout agreed, and roads, sewers and other services provided generally in advance of beginning the actual erection of houses. The actual construction of the houses themselves is the final process in the chain of production, which also, of course, comprises the fabrication of building materials and components ready for use.

Table 9 shows the number of houses at different stages towards completion beginning with the preparation of house plans.

Many of the initial stages in the erection of houses such as the preparation of house plans, bills of quantities and the chain of events leading to the acceptance of a tender are, in many cases, undertaken concurrently with the work of developing the corresponding sites.

Note.—Houses on licences issued to the end of December, 1945, cannot be sub-divided between those intended for owner occupation or for sale and those to be available for letting (Cols. 2 and 3). The classification under these two heads in Sections B and C of the Table relates only to licences issued from January, 1946, to November, 1947, inclusive.

The total number of houses on licences issued has been arrived at after allowing for licences notified as having lapsed. The information shown in Sections B and C of the Table relates to the total number of houses on licences issued as at the end of November, 1947.

Information in respect of new dwellings being built by Housing Associations now being shown in Table 4(b), was in months prior to August, 1946 included with dwellings being erected by private builders under licence. For this reason strict comparison between this Table and Table 4 in such Returns is not possible.

Note.—The number of housing authorities at each stage in the above table is included in the figure at each subsequent stage towards the completion of building schemes, e.g., authorities without authority to obtain tender on a specific scheme appear at each subsequent stage.

The greater part of the housing provision for the County of London area is made by the London County Council and the fact that no tenders have yet been approved for a number of Metropolitan Borough Councils does not mean that provision is not being made for the needs of those Boroughs.

The increase in the number of Urban Districts with no authority to obtain tender is due to the abandonment of a project previously reported.

(b) Operatives engaged on repair both of unoccupied (i.e., severely damaged) war damaged houses and upon repair of war damaged occupied houses.

(c) The figures for October and November are derived from a new system of collecting the data and may be incomplete. Comparisons with the number employed in the comparable categories at the end of January, might be misleading. These figures do not include the number of Building and Civil Engineering workers directly employed by Local Authorities. The numbers of such workers in England and Wales were 19,803 and 19,480 in October and November respectively.

(d) This estimate relates to men engaged on work on existing premises resulting in additional accommodation but not necessarily in the provision of new family units.

(e) The numbers shown under this head may be overstated since they may include operatives employed on the construction of permanent houses.

(f) Source—Ministry of Works (based on Census and Sample Returns).

(g) Source—Ministry of Labour. Owing to differences in classification it is not possible to relate the number of "insured workers" to the number of "operatives employed."

Notes:—Source—Board of Trade.

(a) The total supplies of softwood timber shown in the above table necessarily relate to all qualities and dimensions although only certain qualities and dimensions are normally used in building. Softwood timber is required for use in the repair and construction of ships, the repair and construction of railway passenger and goods vehicles, furniture, agricultural equipment, packing cases, etc. An allocation between the various uses of the supplies available each quarter is agreed inter-departmentally and implemented through the timber licensing machinery.

There is a marked variation during the course of the year in the monthly flow of imports into this country, due both to the logging seasons in the country of origin and to the freezing of the ports in the Baltic Sea and in the Gulf of St. Lawrence. Normally the bulk of imports arrive in this country in the latter part of the calendar year.

NOTES

1. An alphabetical index of Regions and Counties is shown on page 78.
2. The data shown in this Appendix has been based on Appendix B to the Housing Return for England and Wales for the 31st January, 1946, and includes additions and alterations notified in monthly Progress Reports up to and including November, 1947, received from Local Authorities. In cases where entries in the Progress Reports were incomplete or inconsistent the information contained in this Appendix has been compiled in the light of evidence contained in the Census Return and in the Progress Reports as a whole. The tabular statement shows the position as at the 30th November. In certain instances Progress Reports have not been received in time for inclusion. Those local authorities in respect of whom Progress Reports for October and November, 1947, have not been received are marked with * and § respectively. The data in respect of permanent housing shown for such authorities relates to the position as at the 30th September and 31st October, 1947, respectively.
3. The term "under construction" in Columns (4), (7), (9), (16) and (18), means that the contractor has actually begun work on the construction of the dwellings. In some instances work has begun on all dwellings in a particular contract; in a few cases it would appear that all the dwellings in a particular scheme have been shown as "under construction" on the Progress Report although work has not necessarily started on all of them.
4. In certain instances the Ministry of Works are undertaking the erection of groups of experimental permanent non-traditional houses on sites provided by housing authorities. These houses have been included in the data shown for the authorities concerned.
5. Where Tenders (or Estimates in the case of Direct Labour) for site development (Roads and Sewers) have been approved by the Ministry of Health but where work on the site has not begun, the sites have not been shown as under development (Col (2)).
6. In the few instances where sites developed before the war by private enterprise are being taken over by the local authority but possession has not yet been obtained, the relevant figures have been entered in Column (2).
7. Permanent Houses. Permanent Aluminium houses are shown separately from other types in Columns (6), (7) and (8). "Houses under construction" (Columns (4) and (7)) and "Houses completed" (Columns (5) and (8)) are included in "Houses in tenders approved" (Columns (3) and (6)) otherwise, figures in each column are not included in any other column.
8. It should be noted that the greater part of the housing provision for the County of London is made by the London County Council. It is not, therefore, possible to relate the data shown in this Appendix for each Metropolitan Borough to the housing needs of the population of the Borough.
The bulk of the preliminary work in connection with the provision of permanent houses made by certain housing associations in the County of London area is undertaken by the Metropolitan Boroughs. The information is included in Columns (3), (4) and (5).
Certain data on temporary houses in respect of the London County Council and the Metropolitan Boroughs have been consolidated.
9. The erection of some temporary houses has been completed but their connection to electric and other services has not been effected. Where this is the case the number of temporary houses shown as completed (Column (14)) has been marked † and the name of the Local Authority and the number of houses completed but not ready for occupation are stated at the foot of the page. Such houses are not included in the number shown as completed in Column (14).
10. The total number of dwellings on licences issued (Column 15) includes licences issued both in regard to new dwellings and to the rebuilding of war destroyed dwellings. An analysis of the respective numbers falling into these two categories is shown in Tables 4a, 4b and 5a of Appendix A to the Housing Return.
The total number of licences shown in Column 15 also takes into account information received from local authorities in respect of any licences that may have lapsed. The data received in respect of licences may not in all cases be complete and may, therefore, be subject to correction.
11. The numbers of houses on licences issued or approved under Section 94 of the Housing Act, 1936, under construction and completed by Housing Associations are included in Columns (3), (4) and (5) respectively. In Returns prior to that for 31st July, 1947, this information was included in Columns (14), (15 and (16)). The numbers of such houses included in Columns (3), (4) and (5) are shown at the foot of each page for each Local Authority concerned.
12. Temporary Houses. In returns up to that for 31st October, 1947, the numbers of temporary houses allocated to Local Authorities have been shown in Column (10). Since all houses allocated are now "under construction" or "completed" this column has been omitted.
