Notes and Definitions

1. **Local Housing Statistics** is prepared by the Department for Transport, Local Government and the Regions to provide figures for individual local authority areas in an annual publication. These figures are taken mainly from returns made by local authorities; housebuilding figures incorporate reports from the National House Building Council on those dwellings which they inspect for building control purposes. Tables are by region and local authority area, unless otherwise stated.

Most of the regular tables appearing in each issue (see paragraphs 5 to 8) show cumulative figures within either the calendar year or the financial year. The tables showing action under the homelessness provisions of the 1985 and 1996 Housing Acts show quarterly figures (see paragraph 9).

Supplementary tables on various other housing matters are included as annual data become available.

2. **Regional** figures, county figures, and those for England are estimates allowing for missing returns; estimates are also published in Housing Statistics. Where such estimated figures are shown it would be inappropriate to derive figures for any missing authorities from these estimated totals. Some figures shown for individual authorities in England may come from late returns received after the regional estimates etc were finalised for publication.

3. Definitions

'Local authorities' in this publication are local housing authorities (shire and metropolitan districts and unitary authorities);

'Counties' are the areas specified in the London Government Act 1963 and the Local Government Act 1972, or orders under the Local Government Act 1992. The Isles of Scilly are included with Cornwall for statistical purposes;

'Regions' are the Government Office regions;

'Population': the latest available estimates of the home population published by the Office of National Statistics.

More detailed definitions of the terms used are given in the annual volume of Housing Statistics.

4. **Adjustments to earlier returns** may occasionally result in a negative figure for an individual authority, when, for example, dwellings reported as started are subsequently withdrawn.

5. **Housebuilding.** Table 1 shows the building progress of permanent houses and flats, cumulatively within the calendar year.

'Local authorities' housebuilding figures include not only dwellings which they will rent but also those they intend to sell or lease (see para 7). Any dwellings built for an authority outside its own area would be included in that authority's figures in Table 1, but this activity has now effectively ceased, reflecting the decline in local authority housebuilding in recent years. These dwellings were formerly also identified in a separate table under the local authority area of their location, but due to the absence of any recent reported activity this table has been discontinued from Issue No. 104 onwards.

'All' includes progress on dwellings provided or authorised by government departments, county councils and other local government bodies acting in capacities other than as housing authorities.

Figures are subject to amendment by housing authorities when they reassess housebuilding activity in their areas.

6. **Renovations.** Table 2 deals with completions of local authority and housing association dwelling renovation work for which government assistance in the form of a subsidy or a contribution may be given, including local authority dwellings which have been improved for sale, and renovation work by private owners and by tenants for which grants were paid by local authorities. (Where a local authority has not reported improvements for sale but has reported other improvements to its stock only the latter component is shown against the name of that authority.) The figures, cumulative within calendar years, are the numbers of dwellings and in the case of conversions these are the total available after the completion of the work. Figures for Housing Corporation funded renovations are not currently available for local authorities in England.

7. **Sales of Dwellings owned by local authorities.** Table 3. The Housing Act 1980 extended the provisions under which local authorities dispose of dwellings, particularly through the 'right to buy' established in Part 1 of the Act which came into force on 3 October 1980; these provisions are now embodied in Part V of the Housing Act 1985. The Leasehold Reform, Housing and Urban Development Act 1993 introduced the Rent to Mortgage scheme with effect from 11 October 1993, open to full rent-paying tenants who qualify for RTB but cannot afford the full RTB discounted price.

'Right to Buy' This first section summarises progress during the financial year of sales to tenants exercising this right. It shows the number of tenants from whom formal claims have been received on form RTB1 (no adjustment is made for claims subsequently withdrawn); the numbers whose claim had been formally accepted by the local authority on form RTB2; and the number of completed sales.

'Rent to Mortgage' This section shows the number of sales completed during the period.

The 'Other sales to sitting tenants' column reflects any sales made by authorities under voluntary consents.

'Sales to tenants other than sitting tenants' Sales under the categories shown exclude dwellings which have been built on land made available under licence - see para 7. 'Other' includes other sales into owner-occupation and voluntary disposals by the authority to registered social landlords (eg LSVT arrangements) or private developers.

'All sales excluding sitting tenants' This section comprises sales to other sitting tenants for owner occupation and other sales, including disposals to registered social landlords.

'Average selling price' This shows the derived average selling price (after discount) of sales under the right to buy scheme.

3. **Housing land disposals.** Table 4: deals with local authorities' sales and disposals under licence of land for housing and in addition sales of dwellings built by private developers on land previously made available by authorities under licence.

9. **Local authorities' activities under the homelessness provisions of the 1985 and 1996 Housing Acts.** Table 5: Part VII of the Housing Act 1996, which came into force on 20 January 1997, places statutory duties on local housing authorities in England and Wales to provide assistance to people who are homeless or threatened with homelessness. A main homelessness duty is owed where the authority is satisfied that the applicant is eligible for assistance, unintentionally homeless and falls within a priority need group. Where a main duty is owed, the authority must either provide sufficient assistance to enable the household to obtain suitable private accommodation in the district or, if this is not available, must secure accommodation for the household for at least two years. In either case, the household is entitled to be placed on the housing register and considered for the allocation of a long-term tenancy. Where households are found to be intentionally homeless, or homeless but not in a priority need group, the authority should provide advice and assistance to help them find their own accommodation.

Part VII of the 1996 Act replaced Part III of the Housing Act 1985, which continues to apply in respect of homelessness applications made before 20 January 1997. A proportion of the homelessness cases for which decisions were made during 1997 are cases to which Part III of the Housing Act 1985 applies. The main homelessness duty under the 1985 Act was widely interpreted by authorities as a duty to secure permanent accommodation. The duties in respect of applicants found to be intentionally homeless or not in priority need are similar to those under the 1996 Act.

Those accepted by local authorities are provided with temporary accommodation if required, or may be helped to stay where they were on a temporary basis until accommodation can be arranged ('Homeless at Home'). Those found to be intentionally homeless are also provided with temporary accommodation for a limited period.

10. **Symbols used.** The following symbols are used throughout:

.. = not available.

- = nil or less than half the final digit shown.

Housebuilding and renovations statistics

Published figures of housebuilding and renovations (Tables 1 and 2) are compiled from the available returns for the relevant period. Revised annual tables incorporating late returns from the English authorities are published. However, earlier practice was to count the returns as and when these were received from local authorities, including any late returns for earlier periods, and to make no revisions; although distortions in the national and regional statistics were relatively slight, they could be large in the case of individual authorities which did not report regularly. The change in procedure was implemented for English authorities' housebuilding in 1980 and renovations in 1978.

Issues containing annual figures (calendar or financial as indicated) are listed below: for any authority, figures should be taken from the latest issue in which the authority is included.

Housing Statistics Publications from the Department for Transport, Local Government and the Regions

Housing Statistics - Annual

It is the compendium of statistics published annually covering all aspects of housing in England. Where consistent data are available, tables also cover Great Britain and the United Kingdom. Much of the data is collected from routine returns from local authorities or in two large surveys carried out for DTLR, the Survey of English Housing and the Survey of Mortgage Lenders. The data covers: dwelling stock and housebuilding by tenure; private sector housing renewal activities eg renovation and other grants; homelessness; LA dwellings data such as sales, transfers, expenditure & receipts, and vacant dwellings etc; household and population projections; stock and completions in EU; land and house prices; information related to mortgages, LA and RSL rents; and RSL lettings and vacancy rates.

Housing Statistics - Quarterly

Produced quarterly, this is designed to supplement the annual volume by making the latest figures available as quickly as possible.

Local Government Financial Statistics - Annual

This publication presents details of local authority expenditure and income during the last financial year. The main figures relate to local authorities in England, but summary figures are also shown separately for the various types of authority (counties and districts, metropolitan and non-metropolitan) in both England and Wales. Further tables set the total of local authority expenditure in the context of the whole of the national economy, and relate present levels of expenditure with those recorded in earlier years.

The above publications are available from the:

The latest in an occasional series of publications giving summary results of the Department's 1996 based household estimates for England and the regions. Estimates are given for certain years between 1981 and 2021. It includes a description of the method of calculation.

Land Use Change in England

This bulletin presents the results of the Department's statistics on changes in land use, based on data recorded by Ordnance Survey as part of its work on map revision.

Development Control Statistics

This annual publication provides details of planning statistics handled by local planning authorities in England. It also contains information on planning appeals and data on land with outstanding planning permission for private housing development.

Housing in England 1999/00

This report of the Survey of English Housing for 1999/00 presents a comprehensive picture of housing in England, including:

- trends in tenure, and comparisons of households and their accommodation across tenures
- patterns of mobility within and between tenures
- people's attitudes to the area in which they live and the local council, and their involvement in local voluntary work
- tenants' attitudes to their landlord area in
- the characteristics of households in the most (IMD) deprived wards
- the latest data on privately renting tenancy groups
- housing costs and financial circumstances of owners and renters

It is written by the National Centre for Social Research and the DTLR.

Local Housing Statistics

This publication gives specific annual statistics by each local authority in England. These include house building, renovation and other grants, partial demolition data (ie dwellings demolished as a result of private sector renewal only), sales of LA dwellings, sales and disposal of LA land, and actions under the homelessness provision of the 1996 and 1985 Housing Acts.
