

NOT SURE WHICH WAY TO VOTE ON 23 JUNE?

It's been more than 40 years since we were last given a say on whether to stay in the EU, which costs us £350 million per week.

*There are risks in voting either way – but we think the safer option is to **Vote Leave**.*

OPEN UP TO FIND OUT WHY.

If we vote to stay in the EU

The EU will continue to grow. The next countries set to join are:

- Albania: 2.8 million
- Macedonia: 2.1 million
- Montenegro: 0.6 million
- Serbia: 7.2 million
- Turkey: 76.0 million

The EU will cost us more and more

The EU already costs us £350 million a week

– enough to build a new NHS hospital every week. We get less than half of this back, and have no say over how it's spent.

Millions spent on limos and expenses for Euro MPs

The next countries the EU wants to let in include Turkey, which has a population of over 76 million, and borders with Syria and Iraq.

Immigration will continue to be out of control

Nearly 2 million people came to the UK from the EU over the last ten years. Imagine what it will be like in future decades when new, poorer countries join.

We'll have to keep bailing out the €

The countries that use the Euro already have a built-in majority, meaning they can always outvote us. You will be paying the bill for the Euro's failure.

The European Court will be in charge of our laws

It already overrules us on everything from how much tax we pay, to who we can let in and out of the country, and on what terms.

We'll be in charge of our own borders

In a world with so many new threats, it's safer to control our own borders and decide for ourselves who can come into this country, not be overruled by EU judges.

We can control immigration

and have a fairer system which welcomes people to the UK based on the skills they have, not the passport they hold.

We'll be free to trade with the whole world

The EU stops us signing our own trade deals with key allies like Australia or New Zealand, and growing economies like India, China or Brazil. We'll be free to seize new opportunities which means **more jobs**.

If we Vote Leave and take back control

We will be able to save £350 million a week

We can spend our money on our priorities like the NHS, schools, and housing.

We can make our own laws

Our laws should be made by people we can elect and kick out – that's more democratic.

EU MYTH BUSTER

Don't believe those who are talking Britain down – here's what the experts say:

Does the EU keep us safe?

Sir Richard Dearlove,
former Chief of MI6

"Brexit would bring two potentially important security gains: the ability to dump the European Convention on Human Rights ... and, more importantly, greater control over immigration from the European Union."

Would jobs be at risk?

and many more companies who say they will stay

EU regulations make it harder for British firms to hire staff. Major employers like Toyota, Nissan, Vauxhall, Honda, Unilever, GE and Airbus have all said they'll stay in the UK whatever the result of the referendum.

Does the EU mean lower prices?

Tim Martin, Chairman of Wetherspoons

"The EU places tariffs on goods from outside the EU, which is bad for British shoppers and the developing world. And the EU forces us to charge VAT on goods, pushing up bills for working families."

Can you help us Vote Leave and take back control?

If you'd like to help us take back control fill in the form below and send it back to **'Freepost VOTE LEAVE'**, or visit voteleavetakecontrol.org/organise

- I will vote to leave the EU on 23 June
- I enclose a donation (payable to 'Vote Leave')
- I can help to deliver some leaflets in my area

Does the EU protect workers' rights?

Gisela Stuart, Labour MP and Chair of Vote Leave

"The rights we have won for British workers came from our Parliament, not the EU. The EU is run in the interests of the big corporations who spend billions lobbying to make it work for them."

 Vote Leave
