The twins who spent six days with us, working in the
language translation & prep classes, ^{are attractive &} ~~an~~ ^a rather couple,
struggling with spiritual & financial adversity. They are
"out of place" in Cyril. He is a rebel against the Soviet
régime or rather was so in the first year of the
revolution: he is clever & ^{honest &} hard working, but he
cannot yet speak English with any accuracy or
fluency - therefore he is earning a bare livelihood -

partly at the School of German as an assistant teacher
& German ^{partly of the S. of Slavonic Slavic} ~~to~~ ^{study} his very ambiguous
attitude towards Soviet Communist military against
his former ~~enemies~~ ^{of the same strain}, ^{under Paris}
^{who} ~~that~~ is virtually anti ~~Soviet~~ USSR. She is
an ~~excellent~~ ^{2-valued} secretary to Beveridge &
gets her 2300 a year & sweets for it & she
has incurred the disfavor of Mrs. Meier
who is rapidly developing into a veritable
Village of jealousy at Beveridge. ^{perhaps the twin} ~~she has~~
been refused admission into the P.C. Chapel &
because she ^{has} is divorced ^{her husband &} ~~she~~ has married another
man. ~~Therefore~~ They both have but their respective.

Another & sister is doing well in the

likely to go back; he is too ^{of the east} ~~too~~ ^{to}

 as we cannot help them to a more
 stable state of mental & material well being; we
 can not even estimate one step of a

Another subject for anxiety - ^{here} the ^{we} ~~we~~ ^{have} ~~we~~
 no responsibility - is the dangerous state of mind &
^{and behavior} ~~of~~ ^{of} ~~the~~ ^{the} ~~men~~ ^{men} - a source of unpleasant scandal
 at the School of Communism. However, these personal
 episodes are ~~short~~ ^{transitory} in the life of
 an institution - & the ^{more critical} ~~more~~ they become the more
 likely they are to pass over, suddenly & completely.
 The worst asked - so far as we are concerned is that Berenson

We went to London to see the Shaws. Some of whom had had
alarming attacks - & I had a collapse after finishing one of his plays for the theatre,
Capt. James & Charlotte, ^{a few days ago} ~~lost~~ possession from a blow when packing up
for their trip - They were glad to see us - Charlotte was still in bed
told Sidney but when I had finished we had seen - she felt that
if anything happened to ^{him} she had ^{him} to rely on. The two did
complex are each other's oldest & greatest friends & ^{all} dread the
death of any one of it greatly, & we feel responsible for the remaining
fracture! But they are both recovering, & off they will go, in
ten days time, for their ^{last} ocean trip - consist of one journey.
Charlotte is 80 - I had done on it. I heard we have to complete
the formidible work. We finished up ^{the day} with a tea & talk with
Beveridge. He seems in high spirits, ^{he} is absorbed in his be-
gish of ^{the} mounting of insurance scheme ~~depend~~ - admits
a practical ~~idea~~ & safeguard ^{the} ~~the~~ finances. "I can solve
the economic question if it were left to me," ~~By~~ working
never all round, I think, what I hope is ^{to} solve the collapse
of capitalism by increasing public expenditure & control ^{private} ~~the~~ investments.

 & too great skills. But Europe was in decay, & had
 Schindler; the Soviets were all-powerful, & successful

 to USSR had given rich & massive strong, she would push
 her present facilities, & by the way, the way, & in the run
 of ~~European countries~~ ^{2 or 3 countries} & Japan had lost her advantage;
 She had not called to USSR now, - not only because of the Soviet
 Air Fleet but also because to USSR could take Chinese equities
 her - & to USA would be ^{the point of Japan} ~~drawn~~ of. Also to USA & USSR, he
 told us that Roosevelt & L. B. Smith had arranged that the frozen credits
 to Germany should be liquidated by inputs to the USSR, & let the
 USSR sell the ^{goods} ~~goods~~ to USA. But ^{was} ~~was~~ ^{Gannett} ~~was~~ ^{of} ~~of~~ ^{to} ~~to ^{USA} ~~USA

 plan production for communist consumption. Whether he

[Stephen talked incessantly ~~for~~ the working hours
of the week end, so I did some - I alternated.

He is a peculiarly slow talker, hesitant & yet
persistent. He is obsessed with his dogmatism
with Marxian metaphysics & the Justice of Soviet
Dogmatism, & ⁱⁿ ~~until~~ his talk with us, he has
not mastered the root principle of an unlimited
effective demand inherent in their economic system.
Whether we converted him, I do not know.

He ~~is~~ has an immense admiration for Levy
& deplores his conversion to Communism; he
is charmed with B. Lachet, has a contempt for
Maurice Dobb & the Cambridge group of members
of the C.P., and is against Lasker's type
of political science & sides with Beckman
in the recent episode at the school; he tolerates
W. H. H. He is depressed at the signs of -
"Decadence" in the younger generation & their
swinging towards an ^{un} ~~un~~ ^{healthy} ~~unhealthy~~ acceptance of Marxism,
& the absence of morals in their conduct of life.

We ~~can~~ ^{examined} ~~considered~~ him, as to what

2^o cc Several Comments & present Socialist (express)

July 4th Horrelbus } Don here - arranged with the Dis League & Drafting
of maps & illustrations, to include our maps & charts for 11 books.

Ponsbury spent a couple of hours with us: He is an enthusiastic follower
of Stafford; says that his one feeling is that he is irrelevant to the work;
he is always busy & generous, but the individuals with whom he works
feel that he is not interested in them other than as a mere present thought
& feeling. That is certainly our impression: he has been most kind to us,
but we feel irrelevant to his plan of life - I have always thought that the
man himself belonged to us; as did people like an intellect & his labor.

But apparently Braidford & Hurdman feel they are also ^{all} irrelevant, &
that Stafford regards them as irrelevant in his past & as irrelevant current
not so specifically of the work. I attribute this to the fact that he has always
been master of his own destiny, always he beath & justice, & the
profession is a scientific large degree into technical work - patents
etc., but with personal freedom, of crime or civil liability.

[Ponsbury pleased us by reporting that his copy was enthusiastic
about our work (he has to work for it) & saw it of what he thought
with all languages & so far to work as the best description of the
structure & activities of the USSR. When our people have
whiffs will continue thought & reading & justice - & one wonders
whether our strength will hold out to the end of the talk - This
is welcome news. Ponsbury reads a ^{at the next meeting} deliberate may not: he
has a good little team in the H. of D. but is an admirer & Captain
of this tiny ^{of reputation & in reputation} force in the Council of Nations. ^{Ponsbury} he is not enthusiastic
and Stafford. He has known him, & regards him as irrelevant,
& ^{in his thought} conclude is irrelevant in his opinion. Ponsbury is first
& foremost a pacifist: he accepts Socialist economics, but is not really
intellectual interest in social questions.

On account of his ^{culture} mind, personal disquisitions, & unadorned charm of bearing & manner, ~~and~~ reinforced by a very opinion of human nature & politics - he is a ~~great~~ asset to the ^{Labor} Parliament ^{Party}: not a dynamic ^{and} ~~he~~ ^{but} ~~unusually~~ liked & trusted. He has a great admiration for ~~James~~ ^{James} ~~London~~

July 21st Mr Thomas, one of the most refined of the younger intellectuals of the Labor Party, member of the F.E. He & Brown, the two most active sons of working hands, who have done brilliantly of of us, are bad examples of Oxford Culture: grafted on to working class antecedents - they are even more completely sterilized by their conventional classed brain, the men born into that environment. 24

He is an old friend of Sweden; ^{he reports} also the virulent opponent of "Declaranda" of Mussolini & Stalin is inclined to admire Hitler! Perhaps because he has a German wife?

We will, I expect, see the report of a very heated crisis in British politics: the rising hatred of the National Govt, within the Conservative Party, ^{on the one hand & on the other the more fervent} to Chamberlain & his friends. Randolph Churchill's loose vote at Manchester, he claims, & the consequent victory for Dalton, represents this reaction against J.R.M.'s Premiership & the ^{small} self-complacency of Baldwin Chamberlain & Simon Cabinet. Whatever else happens, the ^{Government} ~~Government~~ is doomed to suffer at the next general election. The centre of a whirlpool, is the humiliating failure of the National Conference for the relief of unemployed men, ~~members~~ falling out of harmony. The India Bill being the other disturbance. In both these attempts to open the crisis, the middle party are being furiously attacked by the Die-hard Conservatives, on the one hand, & by the revolutionaries on the other. You cannot give full subsidies to the ^{two} million unemployed without undermining the ~~existing system~~ ^{existing system} ~~existing system~~ ^{existing system} you cannot permit Dominion Status ~~contract~~ to the 300 million in India, without cracking up the British Empire. And yet you must maintain the unemployed in health & you must plant some measure of self-governance to the Indian people,

But I have written his central account in 1932-33
then ^{he says} there was a devastation from ^{3 or 4} million people
due to starvation & the famine was "organised" (Chamberlain-
Soviet). He offers as proof of this ^{the famine} that in one
valley in the Ukraine he visits, he sat up himself.

It is a few months, 10% of the population had died of starvation:
If you assume on the basis that the 10% ^{of death & starvation} was Chamberlain
of the death of the USSR agricultural population & Centre for
one year, then you do come at the figure of ^{3 or 4} millions of
extra deaths - to you! An absurd calculation. Say
at even a 5% death from ^{the famine} the figure of the

orders are reduced to a few million of the agricultural
population ^{into a department of one million} than was the rapid recovery of the peasant-
population of the Ukraine & South Caucasus ^{to follow} & the Saboteur-
Soviet harvest, the evidence of recovery in 1934 & the
purposeful alteration of the credit system in favour of

equal of the peasants into the wage economy shows that the
Cultivation ^{now 40% of the agricultural output} farms have prospered & an increasing level
of the Soviet Government. In it has for days I have to believe,
to show in a review for the two States of Chamberlain

book. It is interesting to see that Chamberlain has now
gone as newspaper correspondent to Tokyo; even
the Anti-Soviet book will certainly help to work the
Japanese Gov. will be dissolved ^{to} then as he is in Moscow:

it will be become a partner of Japan against the
USSR? inside of ^{the} antagonism of the USA to Japan's
interests in China & Siberia - to Tokyo? I doubt
it: he is a patriotic American.

to do is to reproduce the thought & action
beginning at the base of the evolution of the C.P. as shown
by the Five Year Plan & then discuss various concerns
in more & more: What is the logic of thought &
the code of conduct that has been developed in the

is the question. Class hatred & fear, mental

Self destruction, win with death, of eternal help for them, Self

S. & I have been working hard at the Commission dealing
with ideology of Soviet Communism - that is its strength & what it
believes. One first difficulty is that we do not know enough
about what is going on ^{in the USSR} in more especially all the social sciences,
which are all dominated by the Communist Academy. Second, the
is time today will be a labor time. Will it then be treated
of public relations, a public freedom of opinion & respect
with the relation of man to man & of man to the community?

To carry out a great revolution among millions of people

with the scientific spirit of culture, especially with the nature
of things. Again, how can you have sufficient certainty of the world

reason that you do not, let a good many nations that

~~to~~ I write to ask her to come here on 24th June.
 She accepts & sends me the written extracts from her husband's
 letter from May, describing his misdeeds, mental
 & physical, in being "entrapped" in his native land.
 These ^{extracts} show a nervous & hysterical, who if he is
 compelled to remain where he is, will be a danger
 nuisance to the Soviet Govt. - a source of public
 scandal - He hates to do reports & lack of charm
 of Soviet life; he lectures to Moscow Academy of
 Science and to need ^{for} "hard science" criticism
 all this & reports, suggests that the output of
 in Soviet Science is wholly "imitative" & concerned
^{with} small improvements in machinery & not ^{with} the

 Head of Gosplan & the Supreme administrator of
 Scientific Research in the USSR, & also all ^{the} in

^{to} & supply him immediately with facilities & cells
 in his work. As of now all these letters &
 his wife's letter have been read by the G.P.U.
 & produce a feeling of irritation on the
 part of the Soviet Govt. - which may lead them
 to make his life still more unpleasant. It is
 all useful material to us - it shows a definite
 absence of tact on the part of the USSR authorities.
 Whether or not a Soviet ~~authorities~~ therefore has
 a moral right to refuse permission to a citizen

as ~~the~~ ^{the} ~~state~~ to leave his own country if he wish
 to do so is an interesting question. Doubtless we
 & England can not allow to leave to work
 in our territory ~~working~~ ^{working} ~~service~~; at all times, they
 are not allowed to leave, if they have failed to
 carry out a citizen's ~~obligation~~ - for instance to
 pay ^{their} income tax. But ~~the~~ ^{the} ~~State~~ ^{State} ~~is~~ ^{is} ~~not~~ ^{not} ~~to~~ ^{to} ~~be~~ ^{be} ~~forced~~ ^{forced}
 to step further: ~~it is not~~ ^{it is not} ~~to~~ ^{to} ~~be~~ ^{be} ~~forced~~ ^{forced}

 But how can you compel a scientist
 to discover & invent? It seems to me ~~impossible~~
 to insist on ~~an~~ ^{state} ~~abstract~~ ^{abstract} ~~right~~
 which cannot be enforced in practice. Other
 things being equal, personal freedom is in itself
 desirable - & to require it, ~~as a~~ ^{as a} ~~condition~~ ^{condition} ~~of~~ ^{of} ~~the~~ ^{the} ~~state~~ ^{state}
 is unhappy to the individual concerned, & scandalous
 among foreigners. But I doubt whether we
 can intervene helpfully.

In the intervals of suffering & discontent upon I
 am trying to improve the situation in C. States & to withdraw it
 of the state - whether I shall have the strength to do anything
 substantial I do not know. We need to enlarge the
 scope of the scientific enquiry into human
 behavior - by adding the question - Does the process of

in case of epidemic crime

to deter by capital punishment or to segregate a man
to punish the other criminals. But they go out of their
way to carry out the necessary measures without having
a cruel - & out to punish by the then best - to help
the criminal ~~and his family~~ they regard him as the victim
of circumstances, ^{the} such men to be cured - Why not - ^{to some feeling}
a policy, to punish offenders in private apartments?

If those who give up traditional moral codes,
and only try to work out a science of human
behavior, we should have more kindness & truthfulness
in the world - for to simply receive that it ^{must} be ^{the} ^{best}
science but by telling the truth & being kind, ^{the}
the human ^{man} more likely to attain his end - the progress
of the human race is hastening & broadening.
The end of this is the end aimed at in

Hept 70 ~~The~~ ~~Report~~ came down today as about
the important aspect of her husband's detention - to
USSR - in the place that he must, as a citizen of the USSR,
work in his own country. The objection to get
her to sign some sort of appeal to the Soviet authorities
to treat the subject with more human appreciation &
confidence. It seems that his detention, ^{in USSR} has been
promptly, the result of his somewhat strained claim,
but he ought to work for his own country, but
