## Housing Return for England and Wales as at 31st March, 1949

The figures in this return show the position up to 31st March, 1949, and relate from 1st April, 1945. The return includes an Appendix A giving general tables relating to England and Wales as a whole and to various subdivisions by types of authority and by geographical distribution.

A detailed statement for each of the 1,470 housing authorities will shortly be published as a separate document (Appendix B).

Besides the total provision of additional accommodation as set out above, 775,000 dwellings which were damaged during the war but not so severely as to be unfit for occupation have been repaired by local authorities since April, 1945. The number repaired by private builders under licence is not known.

See Appendix A, Summary Tables A and B.

## ACQUISITION AND DEVELOPMENT OF PERMANENT HOUSING SITES—LOCAL AUTHORITIES

The position at 31st March, 1949, compared with that at 31st July, 1945, and that at 31st December, 1948, was as follows:—

	31st July, 1945	31st Dec., 1948	31st Mar., 1949

## PERMANENT HOUSES—LOCAL AUTHORITIES

The following figures show the progress made on the construction of permanent houses by Local Authorities by 31st March, 1949, compared with 31st July, 1945, and 31st December, 1948. Non-Traditional houses other than permanent aluminium houses, and experimental houses erected by the Ministry of Works have been included:—

	31st July, 1945	31st Dec., 1948	31st Mar., 1949
Tenders authorised to be obtained ... ..	21,687	472,395	503,591

Houses under construction at end of period ... ..	Nil	126,973	125,085
Houses completed ... ..	Nil	262,245	299,710

The figures shown above do not include houses built in replacement of those destroyed during the war, which are shown separately on page 7.

Appendix A, Table 2, contains information in respect of building schemes for all permanent houses, except permanent aluminium houses. This information is shown in Tables 2 (a) and 2 (b) for traditional and non-traditional types respectively, the sum of these two Tables being shown at Table 2.

## PERMANENT NON-TRADITIONAL HOUSES—LOCAL AUTHORITIES (except Permanent Aluminium Houses)

With the object of accelerating the rate at which houses can be erected a number of methods of house construction have been evolved which, for ease of reference, are known as “non-traditional”. In Appendix A, Table 8, a list of the main types is given, together with details regarding the numbers of each type for which tenders have been approved and the numbers completed. Information regarding the development of sites and the preparation of housing schemes for non-traditional houses is included in the figures shown in Appendix A, Tables 1, 2, 6 and 7, and is shown in detail in Table 2b.

The position as at 31st March 1949, compared with that at 31st December, 1948, was as follows:—

	31st Dec., 1948	31st Mar., 1949
Tenders approved ... ..	102,222	105,596
Houses—construction begun ... ..	93,571	97,642
Houses under construction at end of period ... ..	27,157	21,257
Houses completed ... ..	66,414	76,385

A total number of 31,048 B.I.S.F. and 1,380 Howard houses have been allocated to Local Authorities. 20,000 applications have been received from Local Authorities and Government Departments for Airey Rural component sets.

See Appendix A, Tables 2b and 8.

## PERMANENT ALUMINIUM HOUSES—LOCAL AUTHORITIES

Since the erection of permanent Aluminium houses does not make the same calls on building labour and materials as do other houses, details in respect of this type are shown separately.

The position at 31st March, 1949, compared with that at 31st December, 1948, was as follows:—

	31st Dec., 1948	31st Mar., 1949
Tenders approved ... ..	13,461	13,461
Houses—construction begun ... ..	12,184	13,023
Houses under construction at end of period, including slabbing ... ..	2,844	1,107
Houses completed ... ..	9,340	11,916

See Appendix A, Table 2c.

### TEMPORARY HOUSES—LOCAL AUTHORITIES

The total number of temporary houses allocated to local authorities is 124,455 and the programme was completed in December, 1948.

### PERMANENT HOUSES—PRIVATE BUILDERS

The number of houses on licences issued to private persons and the number of houses completed have been as follows up to the end of December, 1948, and March, 1949, respectively:—

	31st Dec., 1948	31st Mar., 1949
Number of houses on licences issued ... ..	92,999	100,237

Houses under construction at end of period ... ..	11,456	15,201
Houses completed ... ..	76,765	79,775

See Appendix A, Table 3a.

The figures shown above do not include houses built in replacement of those destroyed during the war, which are shown separately on page 7. In addition to the houses on licences issued, approval has been given for 1,052 houses to be built under Section 3 of the Housing (Financial Provisions) Act, 1938, and 124 houses were approved prior to 1st February, 1947, on which the work was to be done without valuable consideration; these houses are, however, included in the numbers of houses under construction and completed that are shown above.

The total number of houses on licences issued has been arrived at after allowing for those licences notified as having lapsed.

### PERMANENT HOUSES—HOUSING ASSOCIATIONS

The number of houses to be built under agreement with local authorities or on licences issued and the number of houses completed to the end of December, 1948, and March, 1949, respectively, have been as follows:—

	31st Dec., 1948	31st Mar., 1949
Number of houses under agreement with local authorities	4,383*	4,891

See Appendix A, Table 3b.

\* Revised.

### HOUSES—GOVERNMENT DEPARTMENTS

The construction of houses and the conversion or adaptation of premises into family units of accommodation is authorised by Government Departments for the families of police, prison staffs, the Defence Services and other Government employees. The number of new houses for which tenders have been approved, the number under construction and the number completed to the end of December, 1948, and March, 1949, respectively, have been as follows:—

	31st Dec., 1948		31st Mar., 1949	
	Permanent Houses	Temporary Houses	Permanent Houses	Temporary Houses
Tenders approved ... ..	8,429	515	9,878	515

Houses under construction at end of period ... ..	3,670	3	3,774	—
Houses completed ... ..	3,066	512	3,951	515

In addition to the number of houses shown above tenders have been approved for the erection of 228 permanent Aluminium houses of which 51 had been completed and 76 were under construction on the 31st March.

The number of family units of accommodation provided by the conversion or adaptation of existing premises to the end of March was 510.

### REBUILDING OF WAR DESTROYED HOUSES

The rebuilding of war destroyed houses by private builders can be undertaken only under licence. Rebuilding by Local Authorities can be begun with the approval of the Ministry of Health and War Damage Commission. The position at the end of March, 1949, compared with that at the end of December, 1948, was as follows:—

	31st Dec., 1948	31st Mar., 1949
Local Authorities—Houses approved ... ..	8,423	8,480
Private Builders—Houses on licences issued ... ..	31,329	32,000

Local Authorities ... ..	7,513	7,703
Private builders ... ..	24,728	26,466

See Appendix A, Table 4a.

### USE OF EXISTING PREMISES

Apart from new building, additional accommodation for family units has also been provided by Local Authorities and by private builders under licence by the repair or adaptation of existing premises.

Information relating to accommodation provided by private builders under licence became available for the first time in April, 1946. That in respect of the repair of unoccupied war damaged dwellings may be incomplete for a few Local Authorities and the figures quoted are subject to adjustment. The position at the end of March, 1949, was as follows:—

	<i>Family Units of Accommodation Provided</i>			
	<i>On contracts let 1st January, 1946, to 31st Mar., 1949</i>	<i>1st January, 1946, to 31st Dec., 1948</i>	<i>Dec., 1948 to Mar., 1949</i>	<i>Total April, 1945 to Mar., 1949</i>

See Appendix A, Tables 4b and 5.

### OTHER HOUSING ACCOMMODATION

A total of 32,069 flats and houses of less than 12 rooms was released from occupation by the Services and Government Departments over the period 1st May, 1945, to 31st March, 1949. Some of the dwellings on release were taken over by the Local Authorities.

The total number of requisitioned dwellings held by the Local Authorities for residential purposes was 94,302 at the end of March; of these 60,999 were situated in the London region.

Between 1st April, 1945, and 31st December, 1948, there was a net increase in unoccupied houses requisitioned by Local Authorities for residential purposes of 26,528 and a net decrease of 551 in January-March, 1949, making a net increase of 25,977 houses in the 48 months to 31st March, 1949.

### SERVICE CAMPS—TEMPORARY ACCOMMODATION

In addition to accommodation referred to above, there were at 31st March, 1949, 23,225 families occupying accommodation in 1,461 camps redundant to the needs of the Services or Government Departments, which had been offered to Local Authorities for housing purposes and were considered suitable for those purposes. In the main these camps had been taken over by Local Authorities as part of their pool of housing accommodation or were being managed by them on behalf of the Ministry of Health.

Those family units of accommodation included in the number quoted above that are shown in the Summary on page 3, are at least up to the standard of the temporary accommodation already included in the Summary.

Accommodation for a further 770 families was occupied in 97 camps which are still required for Government purposes, or are unsuitable for housing, or are still subject to decision as to their future use.

Accommodation in camps remaining under the control of Service Departments has been provided for 225 families of men still serving in the Forces.

### HOUSES LET TO COAL MINERS AND AGRICULTURAL WORKERS

The number of new permanent and temporary houses built by Local Authorities that have been let to miners and agricultural workers up to the end of March, 1949, was as follows:—

	<i>Coal Miners</i>		<i>Agricultural Workers</i>		
	<i>Permanent Houses Aluminium</i>	<i>All others</i>	<i>Temporary Houses</i>	<i>Permanent Houses</i>	<i>Temporary Houses</i>
January-March 1949 ...	1,426	2,656	15	2,703	24
Total to end March, 1949 ...	6,436	18,808	2,491	15,382	1,003

The total number of houses let to agricultural workers relate from 1st April, 1945. Those let to coal miners relate from 1st April, 1947, information in respect of earlier months is not available.

### PROGRESS OF INDIVIDUAL HOUSING AUTHORITIES

Of the total of 1,470 Authorities there were at the 31st March, 1949, 3 Authorities, excluding L.C.C. and Metropolitan Boroughs, who had as yet no sites of which possession had been obtained. These Authorities comprised 1 small urban district and 2 rural districts; the population in these areas represents 0.016 per cent. of the total population of England and Wales. There were 3 Authorities, excluding L.C.C. and Metropolitan Boroughs, who had not obtained authority to go to tender on a specific scheme. The population in the area of these Authorities represents 0.015 per cent. of the total population of England and Wales.

### HOUSING LABOUR FORCE

Returns of the number of operatives aged 16 and over employed on the construction of new houses are now based on a new system of collecting the data instituted by the Ministry of Works. The estimate of 191,100 so employed in England and Wales at the end of March may still be incomplete and, therefore, subject to adjustment. It should be noted that this estimate relates to operatives engaged both on the construction of permanent houses and on the preparation of housing sites.

See Appendix A, Table 9.

### BUILDING MATERIALS AND COMPONENTS

Details of production of the more important building materials and components are included in Appendix A, and relate to Great Britain as a whole. It should be noted that the production of the items listed is utilised not only for the construction of and installation in new dwellings but also for repairs and replacements and building work other than house building.

See Appendix A, Table 10.

## APPENDIX A—NOTES

The material contained in this Return is derived from a census of the housing position at 31st December, 1945, and the reports of subsequent progress completed by the Local Authorities. Certain information is obtained from Government Departments. At the 14th April, 1949, reports of progress had not been received from 2 Authorities for the months of February and March and from 20 Authorities for the month of March. Reports of progress in March were due to be received by the 5th April, 1949. Reports received after 14th April arrived too late to be included in the figures shown in this report. By 14th April, 1949, 1,448 reports had been received.

### Classification of Urban and Rural Authorities

The classification of Urban Authorities other than the L.C.C. and Metropolitan Boroughs into Large Towns and Cities, Medium Towns and Cities and Small Towns has been made in terms of population. The classification has been made as follows based on the estimated population at mid-1939 as returned by the Registrar General.

Large Towns and Cities	...	...	over 75,000
Medium Towns and Cities	...	...	over 25,000 and up to 75,000
Small Towns	...	...	25,000 and under

The Rural Authorities comprise all Rural District Councils.

The total population of England and Wales as at mid-1939 is divided between the various groups of cities and towns and Rural Authorities as follows:—

	Number of Housing Authorities	Estimated Population	Percentage of total in England and Wales
<b>Urban Areas</b>			
Large Towns and Cities	81	14,655,000	35.3
Medium Towns and Cities	218	9,116,000	22.0

<b>L.C.C. and Metropolitan Boroughs</b>	30	4,013,000	9.7
<b>Rural Authorities</b>	476	7,277,000	17.6
<b>Total</b>	<b>1,470</b>	<b>41,460,000</b>	<b>100.0</b>

### Tables 6 and 7

Table 6 shows the numbers of sites at different stages from the initial stage of selection to the stage when the site is available for construction. Table 7 shows the number of houses at different stages towards completion beginning with the preparation of house plans.

Between the selection of the site and the completion of houses ready for occupation there is a long chain of events equivalent to the "pipeline" of materials and components of mass production in the engineering industry.

In general a proposal to use a site for housing requires consideration from the point of view of regional and town planning, local transport facilities and so on. The site has then to be acquired, a layout agreed, and roads, sewers and other services provided. The actual construction of the houses themselves is the final process in the chain of production, which also, of course, comprises the fabrication of building materials and components ready for use.

Many of the initial stages in the erection of houses such as the preparation of house plans, bills of quantities and the chain of events leading to the acceptance of a tender are, in many cases, undertaken concurrently with the work of developing the corresponding sites.

Reductions as compared with previous periods may be for the following reasons:—Reduction of the number of houses to be erected on a site, the abandonment of a project previously reported, the decision to develop a site concurrently with the erection of dwellings when the original intention was to complete development before erection was started or vice versa.

The classification under these two heads in Sections B and C of the Table relates only to licences issued from January, 1946.

The total number of houses on licences issued has been arrived at after allowing for licences notified as having lapsed.

Information in respect of new dwellings being built by Housing Associations now being shown in Table 3b. was prior to August, 1946 included with dwellings being erected by private builders under licence. For this reason strict comparison between this Table and Table 4 in such Returns is not possible

(a) Provisional.

(b) Operatives engaged on repair both of unoccupied (i.e., severely damaged) war damaged houses and upon repair of war damaged occupied houses.

(c) The figures for December and March are derived from returns made from building sites and may be incomplete. These figures do not include the number of Building and Civil Engineering workers directly employed by Local Authorities. The numbers of such workers in England and Wales were 17,739 and 18,244 in December, 1948, and March, 1949.

(d) This estimate relates to men engaged on work on existing premises resulting in additional accommodation but not necessarily in the provision of new family units.

(e) The numbers shown under this head may be overstated since they may include operatives employed on the construction of permanent houses.

Notes :—Source—Board of Trade.

(a) The total supplies of softwood timber shown in the above table necessarily relate to all qualities and dimensions although only certain qualities and dimensions are normally used in building. Softwood timber is required for use in the repair and construction of ships, the repair and construction of railway passenger and goods vehicles, furniture, agricultural equipment, packing cases, etc. An allocation between the various uses of the supplies available each quarter is agreed inter-departmentally and implemented through the timber licensing machinery.

There is a marked variation during the course of the year in the monthly flow of imports into this country, due both to the logging seasons in the country of origin and to the freezing of the ports in the

Baltic Sea and in the Gulf of St. Lawrence. Normally the bulk of imports arrive in this country in the latter part of the calendar year.

(b) Imports of roundwood logs of pine, spruce, etc., which averaged 71,666 standards in the pre-war years and 18,115 standards in 1946 are not included in the above table.

(c) The stock at the end of December, 1945, was 559,000 and 4,130 standards for imported and home produced timber respectively. There is normally a marked seasonal change in the stocks of imported timber correlated with the flow of imports. Stocks of box board are not included.

Housing Return for England and  
Wales as at 31st March, 1949, with  
Appendix A (Cmd. 7681) 9d: (by post 10d.)

† Progress Reports for March, 1949, not received.—See Note 2.

NOTES

1. An alphabetical index of Regions and Counties is shown on page 78.
2. The data shown in this Appendix has been based on Appendix B to the Housing Return for England and Wales for the 31st January, 1946, and includes additions and alterations notified in monthly Progress Reports up to and including March, 1949, received from Local Authorities. In cases where entries in the Progress Reports were incomplete or inconsistent the information contained in this Appendix has been compiled in the light of evidence contained in the Census Return and in the Progress Reports as a whole. The tabular statement shows the position as at the 31st March, 1949. In certain instances Progress Reports have not been received in time for inclusion. Those local authorities in respect of whom Progress Reports for March, 1949, have not been received are marked with †. The data in respect of permanent housing shown for such authorities relates to the position as at the 28th February, 1949.
3. The term "under construction" in Columns (4), (7), (9), (15) and (17), means that the contractor has actually begun work on the construction of the dwellings. In some instances work has begun on all dwellings in a particular contract; in a few cases it would appear that all the dwellings in a particular scheme have been shown as "under construction" on the Progress Report although work has not necessarily started on all of them.
4. In certain instances the Ministry of Works are undertaking the erection of groups of experimental permanent non-traditional houses on sites provided by housing authorities. These houses have been included in the data shown for the authorities concerned.
5. Where Tenders (or Estimates in the case of Direct Labour) for site development (Roads and Sewers) have been approved by the Ministry of Health but where work on the site has not begun, the sites have not been shown as under development (Col (2)).
6. Permanent Houses. Permanent Aluminium houses are shown separately from other types in Columns (6), (7) and (8). "Houses under construction" (Columns (4) and (7)) and "Houses completed" (Columns (5) and (8)) are included in "Houses on tenders approved" (Columns (3) and (6)); otherwise, figures in each column are not included in any other column.
7. It should be noted that the greater part of the housing provision for the County of London is made by the London County Council. It is not, therefore, possible to relate the data shown in this Appendix for each Metropolitan Borough to the housing needs of the population of the Borough.  
The bulk of the preliminary work in connection with the provision of permanent houses made by certain housing associations in the County of London area is undertaken by the Metropolitan Boroughs. The information is included in Columns (3), (4) and (5).
8. The total number of dwellings on licences and approvals issued (Column (14)) includes licences and approvals issued both in regard to new dwellings and to the rebuilding of war destroyed dwellings. An analysis of the respective numbers falling into these two categories is shown in Tables 3A and 4A of Appendix A to the Housing Return. Approvals for the erection of new dwellings include those built under Housing (Financial Provisions) Act, 1938, Section 3, and houses on which the work is done without valuable consideration that were approved before 1st February, 1947.  
The total number of licences and approvals shown in Column (14) takes into account information received from Local Authorities in respect of licences that may have lapsed.
9. The numbers of houses on licences issued or approved under Section 94 of the Housing Act, 1936 (as amended by Section 8 of the Housing (Financial Provisions) Act, 1938), under construction and completed by Housing Associations are included in Columns (3), (4) and (5) respectively. In Returns prior to that for 31st July, 1947, this information was included in the columns relating to private builders. The numbers of such houses included in Columns (3), (4) and (5) are shown at the foot of each page for each Local Authority concerned.
10. The estimated population shown in Column (11) relates to 31st December, 1948, and excludes members of the Armed Forces.

## Housing Return for England and Wales as at 30th June, 1949

The figures in this return show the position up to 30th June, 1949, and relate from 1st April, 1945. The return includes an Appendix A giving general tables relating to England and Wales as a whole and to various subdivisions by types of authority and by geographical distribution.

A detailed statement for each of the 1,470 housing authorities will shortly be published as a separate document (Appendix B).

The number repaired by private builders under licence is not known.

See Appendix A, Summary Tables A and B.

## ACQUISITION AND DEVELOPMENT OF PERMANENT HOUSING SITES—LOCAL AUTHORITIES

The position at 30th June, 1949, compared with that at 31st July, 1945, and that at 31st March, 1949, was as follows:—

	31st July, 1945	31st Mar., 1949	30th June 1949

## PERMANENT HOUSES—LOCAL AUTHORITIES

The following figures show the progress made on the construction of permanent houses by Local Authorities by 30th June, 1949, compared with 31st July, 1945, and 31st March, 1949. Non-Traditional houses other than permanent aluminium houses, and experimental houses erected by the Ministry of Works have been included:—

	31st July, 1945	31st Mar., 1949	30th June, 1949
Tenders authorised to be obtained ... ..	21,687	503,591	540,569

Tenders rejected ... ..	Nil	24,365	25,964
Houses—construction begun ... ..	Nil	424,795	460,112
Houses under construction at end of period ... ..	Nil	125,085	127,539
Houses completed ... ..	Nil	299,710	332,573

The figures shown above do not include houses built in replacement of those destroyed during the war, which are shown separately on page 7.

Appendix A, Table 2, contains information in respect of building schemes for all permanent houses, except permanent aluminium houses. This information is shown in Tables 2 (a) and 2 (b) for traditional and non-traditional types respectively, the sum of these two Tables being shown at Table 2.

## PERMANENT NON-TRADITIONAL HOUSES—LOCAL AUTHORITIES (except Permanent Aluminium Houses)

With the object of accelerating the rate at which houses can be erected a number of methods of house construction have been evolved which, for ease of reference, are known as “non-traditional”. In Appendix A, Table 8, a list of the main types is given, together with details regarding the numbers of each type for which tenders have been approved and the numbers completed. Information regarding the development of sites and the preparation of housing schemes for non-traditional houses is included in the figures shown in Appendix A, Tables 1, 2, 6 and 7, and is shown in detail in Table 2b.

The position as at 30th June, 1949, compared with that at 31st March, 1949, was as follows:—

	31st Mar., 1949	30th June, 1949
Tenders approved ... ..	105,596	108,908
Houses—construction begun ... ..	97,642	102,369
Houses under construction at end of period ... ..	21,257	18,294
Houses completed ... ..	76,385	84,075

See Appendix A, Tables 2b and 8.

## PERMANENT ALUMINIUM HOUSES—LOCAL AUTHORITIES

Since the erection of permanent Aluminium houses does not make the same calls on building labour and materials as do other houses, details in respect of this type are shown separately.

The position at 30th June, 1949, compared with that at 31st March, 1949, was as follows:—

	31st Mar., 1949	30th June, 1949
Tenders approved ... ..	13,461	13,461
Houses—construction begun ... ..	13,023	13,461
Houses under construction at end of period, including slabbing ... ..	1,107	354
Houses completed ... ..	11,916	13,107

See Appendix A, Table 2c.

## TEMPORARY HOUSES

The total number of temporary houses allocated to local authorities was 124,455 and the programme was completed in December, 1948. In addition, 515 temporary houses were allocated to Government Departments. This programme was completed in January, 1949.

### PERMANENT HOUSES—PRIVATE BUILDERS

The number of houses on licences issued to private persons and the number of houses completed have been as follows up to the end of March and June, 1949, respectively:—

	31st Mar., 1949	30th June, 1949
Number of houses on licences issued ... ..	100,237	108,263
Houses—construction begun ... ..	94,976	103,065
Houses under construction at end of period ... ..	15,201	19,077
Houses completed ... ..	79,775	83,988

See Appendix A, Table 3a.

The figures shown above do not include houses built in replacement of those destroyed during the war, which are shown separately on page 7. In addition to the houses on licences issued, approval has been given for 1,213 houses to be built under Section 3 of the Housing (Financial Provisions) Act, 1938, and 129 houses were approved prior to 1st February, 1947, on which the work was to be done without valuable consideration; these houses are, however, included in the numbers of houses under construction and completed that are shown above.

The total number of houses on licences issued has been arrived at after allowing for those licences notified as having lapsed.

### PERMANENT HOUSES—HOUSING ASSOCIATIONS

The number of houses to be built under agreement with local authorities or on licences issued and the number of houses completed to the end of March, 1949, and June, 1949, respectively, have been as follows:—

	31st Mar., 1949	30th June, 1949
Number of houses under agreement with local authorities	4,891	5,646
Number of houses on licences issued ... ..	189	163
Houses—construction begun ... ..	4,263	4,657
Houses under construction at end of period ... ..	1,097	1,113
Houses completed ... ..	3,166	3,544

See Appendix A, Table 3b.

## HOUSING BY GOVERNMENT DEPARTMENTS

The construction of houses and the conversion or adaptation of premises into family units of accommodation is authorised by Government Departments for the families of police, prison staffs, the Defence Services and other Government employees. The number of new permanent houses for which tenders have been approved, the number under construction and the number completed to the end of March and June, 1949, respectively, have been as follows:—

	31st Mar., 1949	30th June, 1949
Tenders approved ... ..	9,878	10,866
Houses—construction begun ... ..	7,725	8,992
Houses under construction at end of period ... ..	3,774	3,976
Houses completed ... ..	3,951	5,016

In addition to the number of houses shown above tenders have been approved for the erection of 201 permanent Aluminium houses of which 181 had been completed by the 30th June.

The number of family units of accommodation provided by the conversion or adaptation of existing premises to the end of June was 565.

### REBUILDING OF WAR DESTROYED HOUSES

The rebuilding of war destroyed houses by private builders can be undertaken only under licence. Rebuilding by Local Authorities can be begun with the approval of the Ministry of Health and War Damage Commission. The position at the end of June, 1949, compared with that at the end of March, 1949, was as follows:—

	31st Mar., 1949	30th June, 1949
Local Authorities—Houses approved ... ..	8,480	8,511
Private Builders—Houses on licences issued ... ..	32,000	32,641
Houses—construction begun—		
Local Authorities ... ..	8,248	8,300
Private builders ... ..	31,225	31,909
Houses under construction at end of period—		
Local Authorities ... ..	545	424
Private builders ... ..	4,759	3,849
Houses completed—		
Local Authorities ... ..	7,703	7,876
Private builders ... ..	26,466	28,060

See Appendix A, Table 4a.

### USE OF EXISTING PREMISES

Apart from new building, additional accommodation for family units has also been provided by Local Authorities and by private builders under licence by the repair or adaptation of existing premises.

Information relating to accommodation provided by private builders under licence became available for the first time in April, 1946. That in respect of the repair of unoccupied war damaged dwellings may be incomplete for a few Local Authorities and the figures quoted are subject to adjustment. The position at the end of June, 1949, was as follows:—

	<i>On contracts let</i>				<i>Family Units of Accommodation Provided</i>	
	<i>1st January, 1946, to 30th June, 1949</i>	<i>1st January, 1946, to 31st Mar., 1949</i>	<i>April to June, 1949</i>	<i>Total April, 1945 to June, 1949</i>

See Appendix A, Tables 4b and 5.  
|| Estimate.

### OTHER HOUSING ACCOMMODATION

A total of 32,291 flats and houses of less than 12 rooms was released from occupation by the Services and Government Departments over the period 1st May, 1945, to 30th June, 1949. Some of the dwellings on release were taken over by the Local Authorities.

The total number of requisitioned dwellings held by Local Authorities for residential purposes was 93,905 at the end of June; of these 60,967 were situated in the London region.

Between 1st April, 1945, and 31st March, 1949, there was a net increase in unoccupied houses requisitioned by Local Authorities for residential purposes of 25,977 and a net decrease of 498 in April-June, 1949, making a net increase of 25,479 houses in the 51 months to 30th June, 1949.

### SERVICE CAMPS—TEMPORARY ACCOMMODATION

In addition to accommodation referred to above, there were at 30th June, 1949, 23,405 families occupying accommodation in 1,454 camps redundant to the needs of the Services or Government Departments, which had been offered to Local Authorities for housing purposes and were considered suitable for those purposes. In the main these camps had been taken over by Local Authorities as part of their pool of housing accommodation or were being managed by them on behalf of the Ministry of Health.

Those family units of accommodation included in the number quoted above that are shown in the Summary on page 3, are at least up to the standard of the temporary accommodation already included in the Summary.

Accommodation for a further 741 families was occupied in 95 camps which are still required for Government purposes, or are unsuitable for housing, or are still subject to decision as to their future use.

Accommodation in camps remaining under the control of Service Departments has been provided for 225 families of men still serving in the Forces.

### HOUSES LET TO COAL MINERS AND AGRICULTURAL WORKERS

The number of new permanent and temporary houses built by Local Authorities that have been let to miners and agricultural workers up to the end of June, 1949, was as follows:—

	<i>Coal Miners</i>			<i>Agricultural Workers</i>	
	<i>Permanent Houses Aluminium</i>	<i>Permanent Houses All others</i>	<i>Temporary Houses</i>	<i>Permanent Houses</i>	<i>Temporary Houses</i>
April-June, 1949 ...	254	2,522	17	2,031	2
Total to end June, 1949 ...	6,690	21,330	2,508	17,413	1,005

The total number of houses let to agricultural workers and coal miners relate from 1st April, 1945, and 1st April, 1947, respectively.

### PROGRESS OF INDIVIDUAL HOUSING AUTHORITIES

Of the total of 1,470 Authorities there were at the 30th June, 1949, 3 Authorities, excluding L.C.C. and Metropolitan Boroughs, who had as yet no sites of which right of entry had been obtained. These Authorities comprised 1 small urban district and 2 rural districts; the population in these areas represents 0.016 per cent. of the total population of England and Wales. There were 2 Authorities, excluding L.C.C. and Metropolitan Boroughs, who had not obtained authority to go to tender on a specific scheme. The population in the area of these Authorities represents 0.007 per cent. of the total population of England and Wales.

### HOUSING LABOUR FORCE

The estimate of 194,400 operatives aged 16 and over employed on the construction of new houses in England and Wales at the end of June may be incomplete and, therefore, subject to adjustment. It should be noted that this estimate relates to operatives engaged both on the construction of permanent houses and on the preparation of housing sites.

See Appendix A, Table 9.

### BUILDING MATERIALS AND COMPONENTS

Details of production of the more important building materials and components are included in Appendix A, and relate to Great Britain as a whole. It should be noted that the production of the items listed is utilised not only for the construction of and installation in new dwellings but also for repairs and replacements and building work other than house building.

See Appendix A, Table 10.

## APPENDIX A—NOTES

The material contained in this Return is derived from a census of the housing position at 31st December, 1945, and the reports of subsequent progress completed by the Local Authorities. Certain information is obtained from Government Departments. Reports of progress in June were due to be received by the 5th July, 1949. Reports received after 14th July arrived too late to be included in the figures shown in this report. By 14th July, 1949, 1,458 reports had been received.

### Classification of Urban and Rural Authorities

The classification of Urban Authorities other than the L.C.C. and Metropolitan Boroughs into Large Towns and Cities, Medium Towns and Cities and Small Towns has been made in terms of population. The classification has been made as follows based on the estimated population at mid-1939 as returned by the Registrar General.

Large Towns and Cities	...	...	over 75,000
Medium Towns and Cities	...	...	over 25,000 and up to 75,000
Small Towns	...	...	25,000 and under

The Rural Authorities comprise all Rural District Councils.

The total population of England and Wales as at mid-1939 is divided between the various groups of cities and towns and Rural Authorities as follows:—

		Number of Housing Authorities	Estimated Population	Percentage of total in England and Wales
<b>Urban Areas</b>				
Large Towns and Cities	...	81	14,655,000	35.3
Medium Towns and Cities	...	218	9,116,000	22.0
Small Towns	...	665	6,399,000	15.4
L.C.C. and Metropolitan Boroughs	...	30	4,013,000	9.7
Rural Authorities	...	476	7,277,000	17.6
Total	...	1,470	41,460,000	100.0

### Tables 6 and 7

Table 6 shows the numbers of sites at different stages from the initial stage of selection to the stage when the site is available for construction. Table 7 shows the number of houses at different stages towards completion beginning with the preparation of house plans.

Between the selection of the site and the completion of houses ready for occupation there is a long chain of events equivalent to the "pipeline" of materials and components of mass production in the engineering industry.

In general a proposal to use a site for housing requires consideration from the point of view of regional and town planning, local transport facilities and so on. The site has then to be acquired, a layout agreed, and roads, sewers and other services provided. The actual construction of the houses themselves is the final process in the chain of production, which also, of course, comprises the fabrication of building materials and components ready for use.

Many of the initial stages in the erection of houses such as the preparation of house plans, bills of quantities and the chain of events leading to the acceptance of a tender are, in many cases, undertaken concurrently with the work of developing the corresponding sites.

(a) Provisional.

(b) Operatives engaged on repair both of unoccupied (i.e., severely damaged) war damaged houses and upon repair of war damaged occupied houses.

(c) The figures for March and June are derived from returns made from building sites and may be incomplete. These figures do not include the number of Building and Civil Engineering workers directly employed by Local Authorities. The numbers of such workers in England and Wales were 18,244 and 18,589 in March, 1949, and June, 1949.

(d) This estimate relates to men engaged on work on existing premises resulting in additional accommodation but not necessarily in the provision of new family units.

(e) The numbers shown under this head may be overstated since they may include operatives employed on the construction of permanent houses.

Notes :—Source—Board of Trade.

(a) The total supplies of softwood timber shown in the above table necessarily relate to all qualities and dimensions although only certain qualities and dimensions are normally used in building. Softwood timber is required for use in the repair and construction of ships, the repair and construction of railway passenger and goods vehicles, furniture, agricultural equipment, packing cases, etc. An allocation between the various uses of the supplies available each quarter is agreed inter-departmentally and implemented through the timber licensing machinery.

There is a marked variation during the course of the year in the monthly flow of imports into this country, due both to the logging seasons in the country of origin and to the freezing of the ports in the

Baltic Sea and in the Gulf of St. Lawrence. Normally the bulk of imports arrive in this country in the latter part of the calendar year.

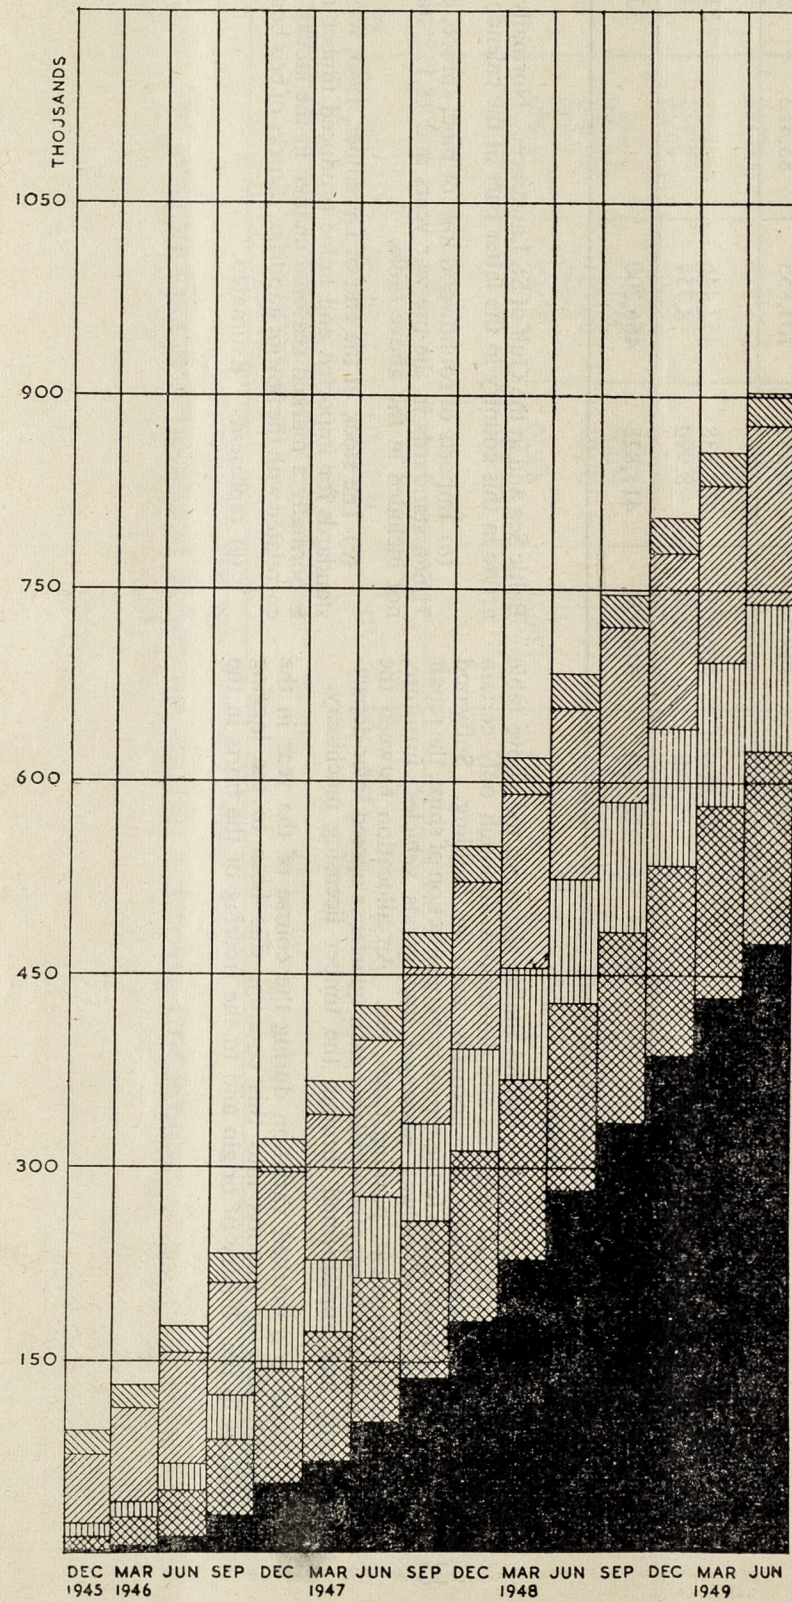

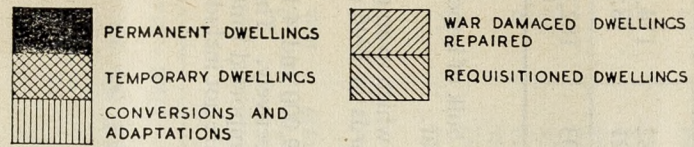

(b) Imports of roundwood logs of pine, spruce, etc., which averaged 71,666 standards in the pre-war years and 18,115 standards in 1946 are not included in the above table.

(c) The stock at the end of December, 1945, was 559,000 and 4,130 standards for imported and home produced timber respectively. There is normally a marked seasonal change in the stocks of imported timber correlated with the flow of imports. Stocks of box board are not included.

Housing Return for England and  
Wales as at 30th June, 1949, with  
Appendix A (Cmd. 7753) 9d. (by post 10d.)

† Progress Reports for June, 1949, not received.—See Note 2.

1  
NOTES

1. An alphabetical index of Regions and Counties is shown on page 78.
2. The data shown in this Appendix has been based on Appendix B to the Housing Return for England and Wales for 31st January, 1946, and includes additions and alterations notified in monthly Progress Reports up to and including June, 1949, received from Local Authorities. In cases where entries in the Progress Reports were incomplete or inconsistent the information contained in this Appendix has been compiled in the light of evidence contained in the Census Return and in the Progress Reports as a whole. The tabular statement shows the position as at the 30th June, 1949. In certain instances Progress Reports have not been received in time for inclusion. Those local authorities in respect of whom Progress Reports for June, 1949, have not been received are marked with †.
3. The term "under construction" in Columns (4), (7), (9), (15) and (17), means that the contractor has actually begun work on the construction of the dwellings. In some instances work has begun on all dwellings in a particular contract; in a few cases it would appear that all the dwellings in a particular scheme have been shown as "under construction" on the Progress Report although work has not necessarily started on all of them.
4. Experimental houses erected by the Ministry of Works on sites provided by housing authorities are included in the data shown for the authorities concerned.
5. Where Tenders (or Estimates in the case of Direct Labour) for site development (Roads and Sewers) have been approved by the Ministry of Health but where work on the site has not begun, the sites have not been shown as under development (Col (2)).
6. Permanent Houses. Permanent Aluminium houses are shown separately from other types in Columns (6), (7) and (8). "Houses under construction" (Columns (4) and (7)) and "Houses completed" (Columns (5) and (8)) are included in "Houses on tenders approved" (Columns (3) and (6)); otherwise, figures in each column are not included in any other column.
7. It should be noted that the greater part of the housing provision for the County of London is made by the London County Council. It is not, therefore, possible to relate the data shown in this Appendix for each Metropolitan Borough to the housing needs of the population of the Borough.  
The bulk of the preliminary work in connection with the provision of permanent houses made by certain housing associations in the County of London area is undertaken by the Metropolitan Boroughs. The information is included in Columns (3), (4) and (5).
8. The total number of dwellings on licences and approvals issued (Column (14)) includes licences and approvals issued both in regard to new dwellings and to the rebuilding of war destroyed dwellings. An analysis of the respective numbers falling into these two categories is shown in Tables 3A and 4A of Appendix A to the Housing Return. Approvals for the erection of new dwellings include those built under Housing (Financial Provisions) Act, 1938, Section 3, and houses on which the work is done without valuable consideration that were approved before 1st February, 1947.  
The total number of licences and approvals shown in Column (14) takes into account information received from Local Authorities in respect of licences that may have lapsed.
9. The numbers of houses on licences issued or approved under Section 94 of the Housing Act, 1936 (as amended by Section 8 of the Housing (Financial Provisions) Act, 1938), under construction and completed by Housing Associations are included in Columns (3), (4) and (5) respectively. In Returns prior to that for 31st July, 1947, this information was included in the columns relating to private builders. The numbers of such houses included in Columns (3), (4) and (5) are shown at the foot of each page for each Local Authority concerned.
10. The estimated population shown in Column (11) relates to 31st December, 1948, and excludes members of the Armed Forces.
