COLONY OF NATAL.

CENSUS 1904.

Part II.—Nationalities of the People.

140. The instructions printed on the Schedules, with reference to the Nationalities of the People, were "Enter Race or Nationality in such terms as the following:—'English,' 'Irish,' 'Welsh,' 'Swede,' 'German,' 'Dutch,' 'South African Dutch,' writing the father's name first. Persons born in Canada, Australia, or other Colonies to state their parents' race," the next column being sufficient to show that they are Colonial born. On the Coloured Races Form, the following supplementary remarks were made:—"If a half-caste, of any coloured Races, write H.C. after the entry, thus: 'Griqua H.C.'"

Nationalities of the people.

141. This Table gives the Nationalities of the People of all races, Male and Female, for each Census area, whilst the subsequent Summary reflects the same information for the whole Colony.

Part II. Table I. See Annexure.

142. The sub-joined Table will give at a glance the Nationalities of the different persons under the respective headings of "Africans" (persons belonging to an African Race), "Europeans," "Asiatics," "Americans," "Australasians," and "Unknown and Unspecified," with their relative positions in respect to the total population.

143. From the above it will be seen that the European Races comprise only 7·55 per cent. of the whole population, that is, of course, those persons belonging directly to European Countries.

144. The subjoined Table shows the relative positions of the various Nationalities to the entire Population of the Colony (that is, the proportion per cent).

145. From the foregoing Table of per centages we are able to compare the exact positions held by the various Nationalities throughout the whole Colony in respect to numbers.

146. Thus, of the European or White Race, we find that there are far more English people than any other, with 54,185 in all, or a proportion of 4.89 per cent. The English are followed by the Scotch with 13,751 persons, or 1.24 per cent. Then follow the S.A. Dutch with 12,536 persons, or 1.13 per cent.

147. Of the Native Races, naturally there are far more Natal-born than any other, with 678,204, or 61.16 per cent.; these are followed, in point of numbers, by Zululand-born Natives with 218,917, or 19.74 per cent., these two Races being far in excess of any other.

148. Of the Mixed Races, we find there are more Mauritians than any other, with 1,232 persons, or 0.11 per cent. of the entire population, followed by St. Helenas with 1,150, or 0.10 per cent. The Asiatic Races comprise 9.13 per cent. of the entire population, of which Indians furnish 9.08 per cent. alone. In connection with the numbers of Australians and other Colonial-born persons, the fact must not be overlooked that a number of persons born in Australia and other Colonies have recorded, as requested, their Nationality according to their parentage, that is, a person born, say in Australia, of English parents would, in accordance with our instructions, record his Nationality as English, and so on. How many generations are necessary before a person assumes as his Nationality the name of the Colony in which he was born has never been determined, and we are entirely in the hands of the people for a faithful record of the Races to which they belong. Australians proper are, of course, the Aborigines, and so forth, though many European Races have recorded themselves as Australians, etc.

149. The foregoing Table having shown the relation of each Race (*i.e.*, the proportion per cent.) to the *entire* population of the Colony, we now submit an interesting Table showing the relation of each European Race to the total European population, each Native Race to the entire Native population, and so on with the Asiatic and Mixed and Others :—

151. Thus we observe that the "English" Race comprises 55·80 per cent. of the entire European Races, followed by "Scotch" with 14·16 per cent., "S.A. Dutch" with 12·91 per cent., "German" with 4·99 per cent., "Irish" with 4·47 per cent., "Norwegian" with 1·43 per cent., "French" with 1·31 per cent., whilst all the other European Races average less than a unit per cent.

152. Of the Native Races, the "Natal"-born average 75·02 per cent. of the entire Native Population, whilst "Zululand"-born average only 24·22 per cent., all other Native Races averaging less than a unit per cent.

Native Races.
Proportion per cent.

153. Of the Mixed and Other Races, "Mauritians" average the greatest, with 18·43 per cent., followed by "St. Helenas" with 17·20 per cent., and so on.

Mixed Races.
Proportion per cent.

154. Of the Asiatic Races, the "Indians" alone average 99·81 per cent., leaving a very insignificant margin for any others, which comprise 171 "Chinese" and "Japanese," 3 "Jews" born in Palestine, and 17 others born in Asia, but whose Nationality is too indefinite for a detailed record.

Asiatics.
Proportion per cent.

155. A further Table is submitted showing the total "European or White" Population of the Colony under three distinctive Sub-Heads, *i.e.*, 1 British, 2 South African Dutch, 3 Other Nationalities. Included under the Sub-Head "British" are those persons Colonial-born of British parentage.

European Population under Sub-heads.

From this Table we observe that of the European or White Races, the "British" have by far the majority, 73,491 persons, or 75·68 per cent. against "S.A. Dutch" 12·91 per cent., and "Other Nationalities," representing almost every other European Power, 11·41 per cent.
