## Housing Return for England and Wales as at 30th September, 1946

This return is the ninth of a series of monthly progress statements on housing in England and Wales. The figures in the present return show the position up to 30th September, 1946, and relate from 1st April, 1945. The return includes an Appendix A giving general tables relating to England and Wales as a whole and to various subdivisions by types of authority and by geographical distribution.

The \*first issue included general explanatory notes which have not been repeated in this return.

A detailed statement for each of the 1,469 housing authorities will shortly be published as a separate document (Appendix B).

The following figures show the progress made on the construction of permanent houses by Local Authorities by 30th September, 1946, compared with 31st July,

1945, and 31st August, 1946. Experimental houses erected on behalf of the local authorities by the Ministry of Works and non-traditional houses have been included :—

The figures shown above do not include houses built in replacement of those destroyed during the war, which are shown separately on page 5. Figures in respect of non-traditional houses are also shown separately below.

See Appendix A, Table 2.

### PERMANENT NON-TRADITIONAL HOUSES

With the object of accelerating the rate at which houses can be erected a number of methods of house construction have been evolved which, for ease of reference, are known as "non-traditional". Included in this category are types that have been referred to as "permanent prefabricated". In Appendix A, Table II, a list of the main types is given together with details regarding the numbers of each type for which tenders have been approved and the numbers completed. Information regarding the development of sites and the preparation of housing schemes for non-traditional houses is included in the figures shown in Appendix A, Tables 1, 2, 8 and 9.

The position as at 30th September, 1946, compared with that at 31st August 1946, was as follows :—

	31st August, 1946	30th September, 1946
Tenders approved ... ..	27,745	31,051
Houses—construction begun ... ..	11,452	14,353
Houses—under construction at end of period	10,785	13,357

A total number of 29,234 B.I.S.F. and 1,380 Howard houses have been allocated to Local Authorities. 11,036 applications have been received from Local Authorities for Airey Rural component sets.

See Appendix A, Table II.

The figures shown above do not include houses built in replacement of those destroyed during the war, which are shown separately below.

The total number of houses on licences issued by the end of September has been arrived at after allowing for those licences notified as having lapsed.

See Appendix A, Table 4 (a).

### PERMANENT HOUSES—HOUSING ASSOCIATIONS

The number of houses on licences issued or in respect of which approval has been given and the number of houses completed to the end of August and September, 1946, respectively, are as follows :—

See Appendix A, Table 4 (b).

### REBUILDING OF WAR DESTROYED HOUSES

The rebuilding of war destroyed houses by private builders to private contract can be undertaken only under licence. Rebuilding by local authorities can be begun with the approval of the Ministry of Health and War Damage Commission. The figures for September take into account information regarding houses approved and on licences issued and houses completed in earlier months which was not previously available. Information in respect of some Local Authorities is still incomplete and the figures quoted are subject to adjustment. The position at the end of September compared with that at the end of August, 1946, was as follows :—

	31st August, 1946	30th September, 1946

See Appendix A, Table 5 (a).

### USE OF EXISTING PREMISES

Apart from new building additional accommodation for family units has also been provided by Local Authorities and by private builders under licence by the repair or adaptation of existing premises.

Information in regard to such provision made by Local Authorities has been published in earlier housing returns. Corresponding information relating to the provision made by private builders under licence was available for the first time in April, 1946. The data available may be summarised as follows:—

Local Authorities	Family Units of Accommodation Provided				
	On contracts let 1st January, 1946, to 30th September, 1946	1st January, 1946, to 31st July, 1946	August, 1946	September, 1946	Total, April, 1945, to September, 1946

Repair of unoccupied war-damaged dwellings ... ..	28,415	—	3,182	2,195	91,470
		Family Units of Accommodation Provided			
Private Builders under licence	On licences issued 1st January, 1946, to 30th September, 1946	August, 1946	September, 1946	Total

Repair of unoccupied war-damaged dwellings ... ..	30,313	1,180	1,254	7,729	

See Appendix A, Tables 5b and 6.

Revised information in respect of the period prior to July, 1946, has been received from Local Authorities, and consequent adjustments have been made to figures previously quoted. It is anticipated that further revision will be necessary in respect of figures for the repair of unoccupied war damaged dwellings. The existing figures should therefore be regarded as provisional.

#### OTHER HOUSING ACCOMMODATION

A total of 29,240 flats and houses of less than 12 rooms was released from occupation by the Services and Government Departments over the period 1st May, 1945, to 31st August, 1946. Some of the dwellings on release were taken over by the Local Authorities.

The total number of requisitioned dwellings held by the Local Authorities for residential purposes was 91,673 at the end of September; of these 57,782 were situated in the London region.

Of the total of 91,673 requisitioned dwellings held by the Local Authorities, 69,275 were held at 31st March, 1945. From that date to 31st August, 1946, there was a net increase in unoccupied houses requisitioned by Local Authorities for residential purposes of 21,811 and a further 643 were requisitioned in September, making a net increase of 22,454 houses in the 18 months to 30th September, 1946.

#### PROGRESS OF INDIVIDUAL HOUSING AUTHORITIES

Of the total of 1,469 Authorities there were at the 30th September, 1946, 26 Authorities, excluding L.C.C. and Metropolitan Boroughs, who had as yet no sites of which possession had been obtained. Of these Authorities 14 were urban areas (mainly small urban districts) and 11 rural districts; the population in these areas represents 0.4 per cent. of the total population of England and Wales. There were 27 Authorities, excluding L.C.C. and Metropolitan Boroughs, who had not obtained authority to go to tender on a specific scheme. The population in the area of these Authorities represents 0.8 per cent. of the total population of England and Wales.

See Appendix A, Table 7.

#### HOUSING LABOUR FORCE

The total number of operatives aged 16 and over, excluding prisoners of war, employed on the construction or repair of housing in England and Wales,

whether on work for local authorities or on private contracts under licence, grew from 320,400 in July, 1945 to 549,500 at 27th September, 1946. At 30th August, 1946, the number so employed was 540,000. Within the total housing labour force, the number employed on war damage repairs decreased from 147,000 at 30th August, to 146,000 at 27th September, while the number employed on the construction of permanent houses grew from 140,700 to 150,600.

Note.—The figures quoted in previous issues of this return were compiled from the best information available at the time. These figures have subsequently been revised and the revised figures can be obtained from the Statistical Digest.

The estimate of persons employed on conversions and adaptations includes persons engaged on small works which are not producing additional accommodation.

## APPENDIX A—NOTES

The material contained in this return is derived from a census of the housing position at 31st December, 1945, and the reports of subsequent progress completed by the Local Authorities. At the 17th October, 1946, reports of progress had not been received from 1 Authority for the months April–September, from 2 authorities for the months June–September, from 3 Authorities for the months August and September and from 15 Authorities for the month of September. Reports of progress in September were due to be received by the 5th October, 1946. Reports received after 17th October arrived too late to be included in the figures shown in this report relating to progress in September. By 17th October, 1946, 1,448 reports had been received.

**Classification of Urban and Rural Authorities**

The classification of Urban Authorities other than the L.C.C. and Metropolitan Boroughs into Large Towns and Cities, Medium Towns and Cities and Small Towns has been made in terms of population. The classification has been made as follows based on the estimated population at mid-1939 as returned by the Registrar General.

Large Towns and Cities	... ..	over 75,000
Medium Towns and Cities	... ..	over 25,000 and up to 75,000
Small Towns	... ..	25,000 and under

The Rural Authorities comprise all Rural District Councils.

The total population of England and Wales as at mid-1939 is divided between the various groups of cities and towns and Rural Authorities as follows:—

	Number of Housing Authorities	Estimated Population	Percentage of total in England and Wales
<b>Urban Areas</b>			
Large Towns and Cities	81	14,655,000	35.3

Certain changes in the composition of the Northern, North Midlands and North Western Regions were made as from 1st April, 1946. As from the same date the "North Eastern Region" is to be known as "East and West Ridings". The Description and composition of the Regions are now as follows—

<i>Northern</i>	... ..	Cumberland, Durham, Northumberland, Westmorland and the North Riding of Yorkshire.
<i>East and West Ridings.</i>	... ..	The East and West Ridings of Yorkshire.

<i>North Western</i>	... ..	Cheshire, Lancashire and the High Peak District of Derbyshire.
<i>South Eastern</i>	... ..	Sussex, Kent and Surrey except such parts of Kent and Surrey as are within the London Region.

The changes in regional composition referred to above should be borne in mind in comparing the regional classifications shown in the Tables in Appendix A in this return with those shown in returns published before 30th April.

The total population of England and Wales as at mid-1939 was divided between the Regions as now defined as follows:—

	Number of Housing Authorities	Population at Mid-1939	Percentage of total in England and Wales
<i>Northern</i>	123	3,003,100	7.3
<i>East and West Ridings</i>	118	3,975,700	9.6

**Tables 8 and 9**

Table 8 shows the numbers of sites at different stages from the initial stage of selection to the stage when the site is available for construction.

Between the selection of the site and the completion of houses ready for occupation there is a long chain of events equivalent to the "pipeline" of materials and components of mass production in the engineering industry.

In general the use of the site for housing requires consideration from the point of view of regional and town planning, local transport facilities and so on. Sites have then to be acquired, a layout agreed, and roads, sewers and other services provided generally in advance of beginning the actual erection of houses. The actual construction of the houses themselves is the final process in the chain of production, which also, of course, comprises the fabrication of building materials and components ready for use.

During the early stages of expanding the volume of house building, the number of house sites under development and the number of houses under construction and so on will continue to rise in advance of a corresponding increase in the number of houses completed. As the production of houses by Local Authorities evolves into a smooth and continuous cycle of operations, the number of houses or house sites at the various stages in the chain of production will tend to be roughly equal.

Table 9 shows the number of houses at different stages towards completion beginning with the preparation of house plans.

Many of the initial stages in the erection of houses such as the preparation of house plans, bills of quantities and the chain of events leading to the acceptance of a tender are, in many cases, undertaken concurrently with the work of developing the corresponding sites.

Note.—The number of sites at each stage includes every site which has reached that stage or a later stage towards the erection of a house. House sites shown in Col. 7 are included only in Cols. 2 and 3.

Reductions as compared with previous months in the number of houses for which layout plans have been approved or development begun before the erection of dwellings (Cols. (4) and (5)) are due to the decision to develop the site concurrent with the erection of dwellings, which are shown in Column (7).

The classification under these two heads in Sections B and C of the Table relates only to licences issued from January to September inclusive.

The total number of licences issued has been arrived at after allowing for those notified as having lapsed. The information shown in Sections B and C of the Table relates to the total number of licences issued as at the end of September.

Information in respect of new dwellings being built by Housing Associations now being shown in Table 4(b), was in months prior to August, 1946 included with dwellings being erected by private builders under licence. For this reason strict comparison between this Table and Table 4 in such Returns is not possible.

Note.—It is now estimated that there were 631,000 occupied war damaged dwellings repaired between April, 1945, and end of August, 1946, in addition to the repair of unoccupied (severely damaged) war damaged dwellings shown above. A further 13,000 occupied dwellings were repaired in September making a total of 644,000 repaired to the end of that month.

Information for the period April to December, 1945, is not available in respect of Columns 2 and 5; and in respect of Column 6 is available from April, 1946, onwards. The classifications in Sections B and C relating to houses on contracts let and on licences issued covers the period January to September, 1946, and as regards houses completed under licence the period April to September, 1946.

The receipt of revised information from Local Authorities has rendered necessary the adjustment of figures quoted in previous Returns in respect of months prior to June, 1946. These adjustments are concentrated mainly in the London Region.

The few housing authorities who have had layout plans approved, although possession of sites has not yet been obtained, have been excluded from Section A of this Table.

The greater part of the housing provision for the County of London area is made by the London County Council and the fact that no tenders have yet been approved for a number of Metropolitan Borough Councils does not mean that provision is not being made for the needs of those Boroughs.

# HOUSING RETURN FOR ENGLAND AND WALES 30th September, 1946

## Appendix B

LONDON : HIS MAJESTY'S STATIONERY OFFICE

1946  
PRICE 1S. 3d. NET

## NOTES

1. An alphabetical index of Regions and Counties is shown on page 78.
2. The data shown in this Appendix has been based on Appendix B to the Housing Return for England and Wales for the 31st January, 1946, and includes additions and alterations notified in monthly Progress Reports up to and including September 1946, received from Local Authorities. In cases where entries in the Progress Reports were incomplete or inconsistent the information contained in this Appendix has been compiled in the light of evidence contained in the Census Return and in the Progress Reports as a whole. The tabular statement shows the position as at the 30th September. In certain instances Progress Reports have not been received in time for inclusion. Those local authorities in respect of whom Progress Reports for July, August and September, 1946, have not been received are marked with \*, † and § respectively. The data in respect of permanent housing shown for such authorities relates to the position as at the 30th June, 31st July, and 31st August 1946, respectively.
3. In certain cases temporary houses have been handed over to Local Authorities for occupation before all internal fittings have been installed. Where this has been done the number of temporary houses shown as completed (Column (13)) has been marked 0 and the name of the Local Authority and the number of houses included in the figure shown in Column 13 which are not complete with all fittings is stated at the foot of the page.
4. Rebuilding of war destroyed houses. The data shown in Columns (6), (7) (17) and (18) has been revised in accordance with information received from local authorities in addition to that contained in Progress Reports, and from information received from the War Damage Commission. Certain information is still awaited in respect of some authorities. In such cases adjustments will be made in later Returns.
5. The term "under construction" in Columns (4), (6), (15) and (17), means that the contractor has actually begun work on the construction of the dwellings. In some instances work has begun on all dwellings in a particular contract; in a few cases it would appear that all the dwellings in a particular scheme have been shown as "under construction" on the Progress Report although work has not necessarily started on all of them.
6. In certain instances the Ministry of Works are undertaking the erection of groups of experimental permanent non-traditional houses on sites provided by housing authorities. These houses have been included in the data shown for the authorities concerned.
7. The number of temporary houses allocated to housing authorities is under constant review. Where the allocation is less than the number of sites available subsequent allocations may be made.
8. Where Tenders (or Estimates in the case of Direct Labour) for site development (Roads and Sewers) have been approved by the Ministry of Health but where work on the site has not yet begun, the sites have not been shown as under development (Column (2)).
9. In the few instances where sites developed before the war by private enterprise are being taken over by the local authority but possession has not yet been obtained, the relevant figures have been entered in Column (2).
10. Permanent Houses. The figures in all columns except Columns (4) and (5) are not included in any other column. "Houses under construction" (Column (4)) and "Houses completed" (Column (5)) are included in "Houses on Tenders Approved" quoted in Column (3).
11. It should be noted that the greater part of the housing provision for the County of London is made by the London County Council. It is not, therefore, possible to relate the data shown in this Appendix for each Metropolitan Borough to the housing needs of the population of the Borough.  
The bulk of the preliminary work in connection with the provision of permanent houses made by certain housing associations in the County of London area is undertaken by the Metropolitan Boroughs. The information is included in Columns (14), (15) and (16).  
Certain data on temporary houses in respect of the London County Council and the Metropolitan Boroughs have been consolidated.
12. The total number of dwellings on licences issued (Column 14) includes licences issued both in regard to new dwellings and to the rebuilding of war destroyed dwellings. An analysis of the respective numbers falling into these two categories is shown in Tables 4a, 4b and 5a of Appendix A to the Housing Return.  
The total number of licences shown in Column 14 also takes into account information received from local authorities in respect of any licences that may have lapsed. The data received in respect of licences may not in all cases be complete and may, therefore, be subject to correction.
13. The numbers of houses on licences issued, under construction and completed by Housing Associations is included in Columns (14), (15) and (16).
