Better address always Cluridge's Hotel

Cluridge's is a big new hotel: a gorgeous shell with a few beds & marble tables in it: nothing ready for us & still less for a hospital. We shall have to work v. hard at it for the next few days to get it ready. Have worried back for motor ambulances offered to us before we left. Find it will be essential as the best way of getting cases is to collect them ourselves from the highway junction to Paris. At present we are getting thro' preliminary formalities: cards of identification: permission from police to reside in Paris etc etc. This an excellent training in general procedure in affairs! I went in W. Hadnquest ambulance y'day to a station some miles outside Paris. We found a number of wounded & brought back some - as many as the ambulance wd. hold. It is all very interesting. We have been very fortunate in finding friends at once W. Hadnquest & W. Joll who have been most useful to us. Please send us love M. much love L. G.
