My dear Mr Fawcett

Mr Pennington has

written to me about the

unlucky letter of mine. I have

authorized her to alter the

first paragraph in a way which

will make it quite clear that

I myself am an individual

Member of the Committee; &

I agree also to expunge the

name of the Society - (not the address

of the office of the top.

Some changes, with those
which you proposed, which
I cordially agree; with, I hope
set over the difficulty, as I
have told Mr. Pennings, you

I sincerely hope. If not,

write to please sending papers

and no further issues

At the latter time please?

As I have explained to Mr. Pen-
nings, a Resolution of the Com.
with the design, done as a Com.
devotion, the right done the
address, the office, to be
tantamount to ~~some~~ constitution,
the Society are excluded
Federal association. And
through the great requirements
of Federals would almost justify
such a step, if it were necessary

compel Conservatives to withdraw

I cannot therefore recede
from my position further than I
have done - & I shall be grateful

if you will move the relinquishing
of my proposal to re-issue my

Letter - & if the Committee were

not satisfied with the foregoing

I have made - & so save me from

the necessity of resignation to

which I should be very sorry to be driven

After all the letter has done as little

good as was likely to be expected & is not

worth fighting about any more

Ever &c dear W^d Jewell

Y^r sincerely Francis M^r Osborne
