Dear Miss Strachey

The Suffragette Fellowship intend to publish a pamphlet "Memories of Charlotte Marsh" to commemorate their beloved comrade who at the early age of 22 withstood imprisonment and forcible feeding - an experience several times repeated, - in the militant struggle for Votes for Women and ~~has~~, throughout her whole life, sought always to find the just and the good and to do it.

They have asked me to approach you on their behalf to ask if you will be willing to write a short article (approximately 300 words) dealing with her personality, her life and her work.

If you are good enough to accede to this request we shall be most grateful - for yours would be a most valuable contribution to this Memento which is being prepared by her friends and colleagues.

Mss may be sent to me - Marian Lawson,
44 Mount Street, London, W.1.

We would like if possible to append at the end of each article the autograph of the writer - so if you agree will you be kind enough to send a specimen signature on a separate sheet.

Yours sincerely,

Miss Philippa Strachey

Miss Lawson
