

My paper The Long Gores  
Impermeability - Heukeling  
& Peal, is back Oct 27 - 1956  
from the Norfolk & Norwich  
Naturalists' Society. I am  
very sorry as it is the very  
place for it, but they ask me  
to change this & that, in  
which case they will include it  
in their transactions of  
March, but I will not change a  
single word of it, well  
considered, & well balanced paper.  
I have started preparing for  
publishing on 2 am. I return to  
116 (D.V.) on Tue Nov 6.  
as for the metal, copper plates for  
Phil & me, I found the shortest  
way out was to join the metal  
engraving class at the Sir John  
Carr institute. I tried (500)

They cannot pick & choose

all up in the one day I had in  
London recently. M<sup>51</sup> <sup>evening</sup> <sup>class</sup>
