Dearest boy

Lady Pinner very kindly leaves me free to use the £25

as I like & on the whole I think I shall like it

best to go to Harrow Rd. so that if you have

not sent it to Dr. Woodcock already will you

please bestow it on Miss Burdett. People are

wonderful in their generosity towards any solid

work done for the soldiers so that I feel confident

we can raise enough money to run over 2 hospitals

for another 2 or 3 months & then Dr. Murray & I must

come home & take up the <sup>old</sup> threads. If there is still need

need for voluntary hospitals, perhaps other people will

take over this one - but all that must wait.

I don't want to raise money to carry on the  
work beyond March until I know whether  
~~the hospital~~ other women will run the corps - if they  
do whether they are going to run it well. There is  
quite a lot of administrative work to be done both  
here + at Claridge's, + it is not easy to find anyone  
willing + able to do it because it carries with it no  
special reward except of course the success of the  
Cops. if it is well done. I am writing to Lady Pirrie  
+ perhaps you will at mind getting a line sent to  
Mr John Harrow Rd. if the £25 is allocated there.  
You haven't told me how much am in V. debt for  
all the nice warm clothes - please let me know + I will  
send a cheque. Weather vile. constant rain. Nurses + others

My dear Doctor Garrett Anderson,

Many thanks for your long and most interesting note dated November the 30<sup>th</sup> duly received.

I meant the cheque to go towards providing necessities for the work that you are now so nobly engaged in, as I know how money flies away when one is doing good work such as yours. I realise of course that there are many other things in which you are interested, and therefore I would like you to put my little cheque to whatever fund is nearest your heart.

What wonderful and interesting experiences  
you must be having! I shall look forward  
to the pleasure of meeting you when you return  
home, when perhaps you will relate something  
of what you have seen. I hope you are not  
over-working, and that you feel repaid for all you  
are doing by the return of health, and gratitude  
<sup>to</sup>  
~~you~~ from those to whom you are administering.
