My dear Mr. Locker.

Do you remember my
telling you about the Chinese Ladies at
Fochow who asked Mr. Fagg & come
of death then. Now she is quite deter-
-mined to get a Chinese Zeana Mission
fairly started. but it is up-hill at first
as she is little known personally. Suitable
Ladies have volunteered. & an effort to
raise fund takes the usual form of the
inevitable sale. I dare I venture
to enclose a few notices in the
hope that you may be able to
plant them judiciously, & sure they
may bring forth golden fruit!

Our scheme is such a very
young baby that it has hardly
squeaked yet - But we do hope
to nurse it into life - & to
see it grow up into a sturdy
child - Please be to it a
nursing - mother. It is worth
rearing - and will do credit
to all its foster - mothers -
Please mention it to Rowen
is likely to be interest - able in
such a subject -

My kindest greetings to
the Pumpsons - As also to

Yourselves - Congratulate
Yourselves on not being ^{slow}
like us, your mother friend

Yours ever most truly

C. F. Ska Gordon (writing)
