Dear Pippa Oct 24th - 09

In Penel's absence I made
bold to open your letter & have
given orders to Maw Maw. She is
certainly quite unspeakably irrita-
ting. and can't even put shoe
laces in to shoes without show-
ing the grossest incompetence.

An immense amount -

of news seems to have happened since you left but as everyone thought you were coming back to-day. I don't suppose any one has written.

1° Willoughby has written from Port Said to say he is vastly better for the journey and now able to walk with a stick. The Plan is for the wedding to take place immediately after his arrival

viz Sat. Nov. 8th. Deatory - only family present.

Mother has gone to Edinburgh as a Delegate what of or to I'm not quite sure. She then goes on to Perth. Little accompanies so we are still in the clutches of M. M.

Did you see that Captain ^{of exercise} Mallabie is dead? I saw Edith Barnes for a minute at the John's. She heard the news on arriving

in England. Angela was to have
come with her but fortunately put
off her voyage accidentally at the
last moment. Edith inquired
after you affectionately.

The photographs cost £1.13 & the
shop won't deliver them without
cash down. The family has not
been able to collect the sum.
~~But~~ as I amthe has gone to
Venice with Effie Kings and
would be enjoying herself but
for Alexander's memory.

Papa has been in bed with a cold
