

Dear ~~Mr~~ Park.

AL/1757

As California is always being cited  
by suffragists and antis I think it would be special-  
ly useful and interesting to have news in Jus Suff.  
from California. A leading journalist said to the <sup>me</sup> <sub>q</sub>  
other day that no amount of argument was worth  
the least little bit of positive evidence as to  
what use women made of the vote. Figures as to the  
women's vote and facts as <sup>to</sup> <sub>a</sub> measures championed by  
women would be acceptable. I should be grateful if  
you could let me have something by the 24th of the  
month. Yours very truly

M. Sheepshanks.

editor Jus Suffragii

S. I have just had an enquiry  
about what legislation affecting  
children, especially children's  
courts has been enacted, & asked  
to recommend literature.  
Could you give me any information  
in your power.
