Over 10,000,000 tranquillizers are taken every day by women in the U.K.  
1 in 5 women in the U.K. take tranquillizers.

£35,000,000 is spent annually on advertising these drugs. During the 1970's drug companies made over £500,000,000 annually. Valium is the most profitable drug ever manufactured - it is addictive, stops being effective after 4 months dulls concentration & causes dizziness, drowsiness and sometimes aggression. Doctors too easily prescribe them to patients whose problems they don't have time to deal with. Ask your doctor exactly what you are being prescribed.
