

As from 51 Gordon Square, London, W.C.1.

9th July, 1962.

Dear Miss Francis,

AL/3645

It is a very great pleasure to receive your interesting letter and I am indeed grateful to you for all the trouble you have taken and time you have spent on behalf of my sister's work.

I should have answered more promptly but for adverse circumstances. I had to go into Hospital at the beginning of April, and though I am very much better I am still convalescing in a Nursing Home. Perhaps I should also mention that I am 90 years of age! To come to the subject of your letter - in reply to the points that arise:-

1. It is a splendid idea of yours to include an informative statement about this work in the revised edition of the Bibliography, and it will give me the greatest satisfaction if Professor Dean is able to do so.
2. Yes, please send on my behalf the typescript edition to the Librarian at Newnham College with useful papers as soon as is convenient to yourself, and certainly \* include the early letter from Emmanuel College giving my sister permission to use the MS. I am sure you will make the best selection of the papers to be included, and I rely entirely on your judgment in regard to the destruction of unwanted papers.
3. It is most kind of you to suggest selecting and sending me discarded drafts which would represent a second copy of the edition and I gladly accept the offer if it is not giving you too much trouble.

\* I think this is essential

I am very sorry to hear of your domestic difficulties and can only hope that it will be a relief to get this particular millstone off your neck.

Yours sincerely,

(sgd) P. Strachey

Miss E.A. Francis,
