DONINGTON RECTORY
WOLVERHAMPTON

My dear Miss Hubbard.

Pray forgive my not remembering that it was you, with whom I spent that most agreeable hour at Lady Augusta Stanley's.

I have often thought of that day & wondered how soon you would be able to multiply the number of Lady-Teachers for our Country Schools, as well as for Training Colleges.

Many thanks for giving me so

hopeful an account of your present
gains on & of your future hopes.

I did wonder what could have
become of my letter to you! However

I am suited now - i.e. I have
engaged a young certificated Teacher

to take charge of my School at
Michaelmas. So I must for the
present think of no other.

It sh^d have been able - with
an energetic Teacher - to give
£70 in money besides furnished
house - So I shall look forward
to the time when we may need

another Teacher - And then hope
we may be fortunate enough to
get a Lady: for owing to our
having a Man & his wife to take care
of & live in the House, our place
w^d suit a gentlewoman particularly.

Is there no chance of your
coming our way? Mr. de Burden
& I w^d be so glad to welcome you
here - & you might possibly be
able to do some "business" in
the neighbourhood of Wolverhampton
in the way of Subscriptions? Was
possibly? I am not sure.

Ever with many thanks

Yours sincerely

Agnes Brunson

You have no doubt heard
how very ill dear Lady Augusta
has been - & I fear still is -
as regards ability to move
about.
