32 ADDISON ROAD,

KENSINGTON, W.

To me he says you or Mrs
Fawcett, & I oh, much prefer
you to do it, as a whole, &
may write a letter to the Times
etc etc it is even to point the moral!
mind & say what effect on
the mind thro' the eye can pro-
duce a man to produce! I
was talking to the "smart" set

yesterday. Such a lot!
I could hardly do it of various
reasons, partly my attention
is occupied at home. I may

not get to the committee at
11. but will try.
