Cambridge
5 Apr. 1867

My dear Miss Becker.

I am obliged to you
for sending the papers to me.
I will think the matter over
but am not prepared to
put my name to the
petition on this occasion.

I find that there is
great difference of

opinion amongst ladies
upon the subject.
All those whom I have
spoken to about it as yet
do not desire to have votes
and until I find some
considerable number
in favour of the plan
I am not likely to take
it up myself. If they
really desired votes
I should be in favour

of giving them but not
otherwise.

I hope that after this
matter is settled you
will return to the gentle
science of Botany and
that I may have the
opportunity of helping you
in it.

Yours very truly
Charles C. Warrington -
