23.8.1909.

Dear Madam

I am instructed by the Executive Committee of the London Society to forward for the consideration of your Committee the following recommendation passed at a conference of representatives of local Committees of this Society:-

That the National Union's second question to candidates should be divided into two separate questions by the omission of the word "and" and the insertion of a full stop after the words "sex disability".

Yours truly

A. S.

The Secretary, National Union of Women's Suffrage Societies.
