My dear Lambert

Can you tell me
where & how Miss Hubbard
is going to publish her
papers. Some of my
friends here want it
very much. I shall try
to get a notice of it
into the Ch. Bd Chronicle
with a comment that
this kind of "voluntary" work
can be quite as effectually
done under a "Board"

as under "so called"
voluntary management

Sandford should put some
of in his next report.

There might be some
capital quotations in it
in support of an appeal
by the Office to Managers
to do their share in
the great work of Education.

I return to Town
today & shall be at
Adampfi & the O. Club
