Dearest Pippa

Many happy returns of the day.

I thought it economical to combine a birthday letter with an announcement of my return. I shall be at Pad. at 1.58 on Thursday and should like some lunch preserved. Also if convenient I should be

glad to have Albert at the station
in order to wheel home the bike.

It has been a perfect god send
here. The weather has been heavenly
and I have been out on it every
day but one and thoroughly enjoyed
it. This afternoon we are going
a long expedition to Bosobel
to see the Merry Monarch's (v.
Margie) real original old

Prozal Oak.

I hope Uncle John is better
and that they have settled down
all right.

Hyton and Angelica as usual
giggle all day long and appear
very happy. I think L. is enjoying
himself and I imagine his
appearance is already improved by
country air. It is all looking

esquisite - I hadn't a bit
realised what a pretty neighbourhood
it was -

Now farewell for the present -

Ever yours

Dorothy -
